## INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Board of Directors  
T.J. Samson Community Hospital Restated Retirement Plan

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of T.J. Samson Community Hospital Restated Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of September 30, 2024 and 2023, the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of T.J. Samson Community Hospital Restated Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended September 30, 2024 and 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are

### **Opinion - Concluded**

- (concluded) presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of T.J. Samson Community Hospital Restated Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about T.J. Samson Community Hospital Restated Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provision, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

### **Auditor's Responsibilities for the Audit of the Financial Statements - Concluded**

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of T.J. Samson Community Hospital Restated Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about T.J. Samson Community Hospital Restated Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Supplemental Schedules Required by ERISA**

The supplemental schedules – Schedule H, line 4i – Schedule of Assets (Held at End of Year) and Schedule H, line 4j – Schedule of Reportable Transactions as of September 30, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the

underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2024 AND 2023**

**1. PLAN DESCRIPTION**

The T.J. Samson Community Hospital Restated Retirement Plan (the Plan) is a defined benefit plan established October 1, 1975, and subsequently amended as necessary for compliance with laws and regulations. The trustee and actuary for the Plan is Principal Financial Group of Atlanta, Georgia. The following brief description of the T. J. Samson Community Hospital Restated Retirement Plan is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

**General**

The Plan is a defined benefit pension plan covering substantially all employees of T.J. Samson Community Hospital (the Hospital) as of September 30, 2011. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Benefit accruals in the plan were fully frozen as of December 31, 2013, effective with Amendment #3 to the plan.

**Plan Eligibility**

- Age:** Attained age 21.  
Effective December 31, 2013, participation in the Plan is frozen and no new participants will enter.
- Service:** One year of service in which at least 1,000 hours worked.
- Class:** All employees of the employer excluding leased employees, employees part of a collective bargaining unit, and employees classified by the employer to be independent contractors, consultants, or leased employees.
- Entry Date:** Semi-yearly date on which the employee has met the eligibility requirements.  
No employees hired after October 1, 2011, shall become an active participant and no inactive participant or former participant shall again become an active participant. No employee hired prior to October 1, 2011, who has not met the requirements to be an active participant by October 1, 2012, shall become an active participant.

**Normal Retirement Benefit**

- Age:** Attained age 65.
- Form:** Monthly annuity payable for life (optional forms may be elected in advance of retirement.)
- Amount:  
(accrued  
benefit)** **A, not less than the greater of B and C below.**
- A.** (38% average compensation plus 14% of average compensation above covered compensation) less 1/30 for each year of accrual service less than 30 years plus .5% of average compensation for each year of expected accrual service greater than 30 years.
- B.** \$10.00 multiplied by accrual service.
- C.** If a member of the Plan as of September 30, 1989, and not a highly compensated employee, Accrued Benefit as of September 30, 1991.  
If a member of the Plan as of September 30, 1989, and a highly compensated employee, Accrued Benefit as of September 30, 1989.
- Effective 12-31-2013, no future benefits will accrue.

Optional form of monthly annuity payable for life may also be elected, and must commence the earlier of within one year of date of death and the member's normal retirement date.

**Amount:** If death occurs, the amount paid to the beneficiary is equal to the amount that would have been paid had the participant terminated employment on the date of death, retired with a joint and 50% survivor annuity in effect, then died the next day.

**2. SUMMARY OF ACCOUNTING POLICIES**

**Basis of Accounting**

The accompanying financial statements are prepared on the accrual basis of accounting.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

**Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan's investment company determines the plan's valuation policies utilizing information provided by its investment advisors, custodians, and insurance company. See Note 8 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

**2. SUMMARY OF ACCOUNTING POLICIES - CONTINUED**

**Actuarial Present Value of Accumulated Plan Benefits - Continued**

The actuarial present value of accumulated plan benefits is determined by an actuary from Principal Financial Group and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of September 30, 2024 and 2023 are listed in the following summary. These actuarial assumptions are based on the presumption that the plan will continue. Were the plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

**Summary of Actuarial Assumptions**

**Changes Since Prior Valuation**

- The assumptions prescribed by law have changed. The assumed mortality table and the compensation and maximum benefit limitations have been updated to 2023 requirements. The ASC 960 mortality assumption has also been updated.
- The segment interest rates used for liabilities in the calculation of Annual Cost, and AFTAP, have changed as shown below. These stabilized interest rates reflect the MAP-21 interest rate corridor defined in IRC §430(h)(2)(C)(iv).

Year	Segment 1 Years 0-5	Segment 2 Years 5-20	Segment 3 Years 20+	Effective Interest Rate
2023	4.75%	5.00%	5.74%	5.29%
2024	4.93%	5.27%	5.59%	5.38%

- The segment interest rates used for liabilities in the determination of the calculated IRC §404 deduction, PBGC variable rate premium, 4010 funded status, and 4010 shortfall have changed as shown below. These 24-month average rates do not reflect the interest stabilization corridor.

Year	Segment 1 Years 0-5	Segment 2 Years 5-20	Segment 3 Years 20+	Effective Interest Rate
2023	3.03%	4.11%	4.27%	4.13%
2024	4.93%	5.27%	5.26%	5.24%

**Measurement Date**

- September 30

**Asset Measurement**

- The asset valuation method is prescribed by law for plans that elect to use a value other than market value.
- For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

**2. SUMMARY OF ACCOUNTING POLICIES - CONTINUED**

**Actuarial Present Value of Accumulated Plan Benefits - Continued**

**Summary of Actuarial Assumptions - Continued**

**Asset Measurement - Concluded**

- The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.
- When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

**Inflation**

- 2.40% increase per year

**Asset Return**

- 6.00% (5.25% for the prior year)

**Segment Rates**

- 24-month average with no weighting to prior law basis. Use rates where May is the last month included in the average.

**Liability Measurement**

- Funding target is the present value of the benefits accrued on the valuation date. Target normal cost is based on benefits expected to accrue during the current plan year, and includes an estimate of plan expenses for the year.

**PBGC Premium Basis**

- Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for Annual Cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). This alternative interest method was elected with the October 1, 2010, plan year and must continue for five years before a change can be made.

**Mortality Assumptions – Prescribed by Law**

- During Benefit Payment Period – Retiree amount-weighted, male and female.
- Before Benefit Payment Period – Employee amount-weighted, male and female.
- Based on Pre-2012 total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2022).  
Principal 2022 MI scale: This scale is based on MIM-2021-v3 application tool issued by SOA in October 2022 with the parameters on the following page:

**2. SUMMARY OF ACCOUNTING POLICIES - CONCLUDED**

**Actuarial Present Value of Accumulated Plan Benefits - Concluded**

**Summary of Actuarial Assumptions - Concluded**

**Vested Benefits**

- A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.
- The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, and pre-retirement death benefits in excess of the Survivor Annuity Death Benefit and post retirement death benefits for nonretired participants except as noted in the Plan provisions.

**Interest Rate Used to Value Liabilities**

- 5.50% (5.00% for the prior year)

**Expected Expense**

- The expected expense included in Target Normal cost is an estimate based on prior year expenses paid from plan assets.

**3. FUNDING POLICY**

The plan is non-contributory. The cost of the plan is paid entirely by T.J. Samson Community Hospital. The Hospital's funding policy is to contribute funds to a trust as necessary to provide for current service and for any unfunded projected benefit obligation over a reasonable period. The plan is funded in compliance with ERISA minimum funding requirements.

**4. TAX EXEMPT STATUS**

The T.J. Samson Community Hospital Restated Retirement Plan is exempt from federal income taxes. The Plan obtained its latest favorable determination letter dated August 10, 2009, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

**5. PLAN TERMINATION**

T.J. Samson Community Hospital intends to continue the plan indefinitely, but has reserved the right to change, terminate, or discontinue the plan at any time. For example, the plan may be changed because of federal regulations, or it may be terminated for business reasons. If the plan should terminate, participants will be fully vested in accrued benefits. In most cases after government approval of plan termination, a participant would receive a deferred annuity contract, with payments beginning at retirement age; but, if the value of the benefit at that time is \$5,000 or less, there might be an immediate lump sum distribution.

**T.J. SAMSON COMMUNITY HOSPITAL RESTATED RETIREMENT PLAN  
NOTES TO FINANCIAL STATEMENTS - CONTINUED  
SEPTEMBER 30, 2024 AND 2023**

**5. PLAN TERMINATION - CONCLUDED**

If the plan ever terminates, the sponsor expects the trust fund to have enough money to pay the benefits for all members. If for some reason there aren't enough funds, the funds available will be allocated first to provide benefits to members who retired at least three years before the plan terminated, then to provide benefits guaranteed by the Pension Benefit Guaranty Corporation, then to pay other vested benefits, and finally to pay any other plan benefits.

Benefits under this plan are insured under the Pension Benefit Guaranty Corporation (PBGC) if the plan should terminate. Generally, the PBGC guarantees most normal retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations.

The PBGC guarantees vested benefits at the level in effect on the date of plan termination. However, if a plan has been in effect less than five years before it terminates, or if benefits have been increased within the five years before plan termination, the whole amount of the plan's benefits or the benefit increase may not be guaranteed. In addition, there is a ceiling on the amount of monthly benefit that PBGC guarantees. The ceiling is adjusted periodically.

**6. INFORMATION PREPARED AND CERTIFIED BY PRINCIPAL FINANCIAL GROUP**

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by Principal Financial Group.

	<u>2024</u>	<u>2023</u>

**7. INVESTMENTS**

Principal Life Insurance Company, trustee, is defined as a related party. During the year ended September 30, 2024, the Plan made purchases of \$11,519,685 and sales of \$8,892,906, with gains of \$3,222,641. During the year ended September 30, 2023, the Plan made purchases of \$47,151,032 and sales of \$55,119,782, with gains of \$21,630,129.

**Net Appreciation in Fair Value of Investments**

During the years ended September 30, 2024 and 2023, the plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as shown on the following page.

**8. FAIR VALUE MEASUREMENTS**

The FASB ASC 820 framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The input levels used for valuing investments are not necessarily an indication of risk. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

**Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**Level 2** Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

At September 30, 2024 and 2023, all investments were in Pooled Separate Accounts. This category consists of privately managed funds that invest primarily in marketable equity and fixed income securities. The fair value of these investments is determined by reference to the net asset value of the underlying securities of the fund. Units of pooled funds are valued at the per unit net asset value determined by the fund manager and are classified as Level 1 within the valuation hierarchy.

**9. RISKS AND UNCERTAINTIES**

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

**10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500**

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500.

	<u>2024</u>	<u>2023</u>
Net assets available for benefits per the financial statements	56,606,152	50,811,248

Net assets available per the Form 5500	<u>32,170,364</u>	<u>25,169,537</u>

The Benefit Index is the present value of the amount necessary to provide the guaranteed retirement benefits based on current market conditions with additional consideration given to the investment mix of the Plan's assets.

The Benefit Index meets the requirements of consideration as allocated assets:

- Is comprised of Plan funds derived from contributions made by the Contract Holder.
- Is held contractually to pay for the benefit payments of those retirees for whom Principal Life has a legal obligation.
- Supports benefit payments, which do not fluctuate based on the market performance.

The portion of the plan held under the Benefit Index is excluded from Form 5500 reporting. Benefit payments made to the retirees are coming from the unallocated fund and not the Benefit Index. The change in present value of the Benefit Index assets between the beginning and end of year is reported as Other Income/Expense on the Schedule H or I.

The following is a reconciliation of the changes in net assets per the financial statements to the Form 5500.

Assumptions prescribed by law

**Mortality** [Before benefit payment period](#)  
IRS Prescribed Mortality - Static Non-annuitant, male and female.

[During benefit payment period](#)  
IRS Prescribed Mortality - Static Annuitant, male and female.

Assumptions selected by actuary

**Inflation** 2.40% increase per year.  
Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

**Asset return** 6.25% for the current plan year.  
The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

**Expected expense** The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.

**Retirement** Active participants

Age	Probability of retirement
55 - 59	5%
60	10%
61-64	30%
65	50%
66-69	30%
70	100%

Inactive participants are assumed to retire at age 65.

This assumption is based on the results of recent experience analysis and anticipated future experience. Some participants retire early since the plan provides an early retirement subsidy beginning at age 55.

**Disability** None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.

**Marriage** 100% married; husbands are 3 years older than wives.  
This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

**Withdrawal** 2003 Society of Actuaries Basic Age Table, multiplied by 1.20.  
We rely on a publicly published table due to the limited size of the plan. The SOA Basic Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.20 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.

**Form of benefit** Participants are assumed to receive their benefits on the normal form at the assumed retirement age.  
This assumption is based on the results of recent experience analysis and anticipated future experience.

#### Methods prescribed by law

**Liability measure** Funding target is the present value of the benefits accrued on the valuation date.  
Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

#### Methods selected by plan sponsor

**Asset method** The asset valuation method is prescribed by law for plans that elect to use a value other than market value.  
For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.  
The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.  
When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

**Segment rates** 24-month average with no weighting to prior law basis. Use rates where May is the last month included in the average.

**PBGC premium basis** Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date.  
Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 10/01/2010 plan year and this method must be used for five years before a change can be made.

#### Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	<p>A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.</p> <p>The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.</p>

#### Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).
Mortality base rates	<p><b>Before benefit payment period</b> Employee amount-weighted, male and female</p> <p><b>During benefit payment period</b> Retiree amount-weighted, male and female</p>

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

**Mortality improvement**

Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None <sup>1</sup>

<sup>1</sup>Based on the sponsor’s input, plan experience does not show a need for long-term excess death or Covid death load adjustments. See [Mortality documentation](#) for rationale and additional information.

**Interest rate used to value liabilities**

5.75%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes’ arithmetic returns of the plan’s target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

**Treatment of administrative expenses**

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age  
T. J. Samson Community Hospital, Inc. Retirement Plan  
EIN 61-0461767 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan restatement signed 5/12/2020.

#### Plan eligibility

Age	Attained age 21. Effective 12/31/2013, participation in the plan is frozen and no new participants will enter.
Service	One year of service in which at least 1,000 hours worked.
Class	All employees of the employer excluding leased employees, employee's part of a collective bargaining unit, and employees classified by the employer to be independent contractors, consultants, or leased employees.
Entry date	Semi-yearly date on which the employee has met the eligibility requirements. No employee hired after 10/01/2011 shall become an active participant and no inactive participant or former participant shall again become an active participant. No employee hired prior to 10/01/2011 who has not met the requirements to be an active participant by 10/01/2012 shall become an active participant.

#### Normal retirement benefit

Age	Attained age 65.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	A), not less than the greater of b) and c) below: a) (38% average compensation plus 14% of average compensation above covered compensation) less 1/30 for each year of accrual service less than 30 years plus 0.5% of average compensation for each year of expected accrual service greater than 30 years. b) \$10.00 multiplied by accrual service c) If a member of the plan as of 09/30/1989 and not a highly compensated employee, Accrued Benefit as of 09/30/1991. If a member of the plan as of 09/30/1989 and a highly compensated employee, Accrued Benefit as of 09/30/1989. Effective 12/31/2013, no future benefits will accrue.

#### Voluntary retirement program

Age	Attained age 62.
Service	At least 15 years of vesting service.
Election	An eligible member must make an election on or after November 1, 2009 and prior to December 15, 2009, to retire on December 31, 2009.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	For purposes of calculating the accrued benefit as of December 31, 2009 the following shall be used: The member's earned service plus three years The member's attained age plus three years

#### Early retirement benefit

Age	Attained age 55.
Service	15 years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 4% for each year up to five plus 3% for each year between five and ten that the early retirement date precedes normal retirement date. If the participant terminates employment before being eligible for early retirement, accrued benefit on early retirement date reduced by 6 2/3% for each year up to five plus 3 1/3% for each year between five and ten that the early retirement date precedes normal retirement date.

#### Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on normal retirement date actuarially increased to late retirement date or accrued benefit on late retirement date.

#### Termination benefit

Vesting percentage	100% after five years of vesting service. 100% at Normal Retirement Date.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

#### Disability benefit

Eligibility	Member must be considered totally and permanently disabled. If member is entitled to an employer sponsored disability program or Workmen's Compensation or related program, the member is not entitled to the following benefits until those programs have expired.
Form	Same as normal retirement benefit as of date of disablement.
Amount	Accrued benefit on date of disablement reduced by 6 2/3% for each year up to five plus 3 1/3% for each year between five and ten that the disability retirement date precedes normal retirement date.

#### Death benefit

A. or B. below:

A.

Eligibility	Married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death. Optional form of monthly annuity guaranteed for 5 years may also be elected.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a joint and 50% survivor annuity in effect, then died the next day.

B.

Eligibility	Active, retired, or disabled participant is not married, but is fully or partially vested in an accrued benefit.
Form	Monthly annuity guaranteed for 5 years payable to beneficiary, payable immediately unless later commencement is chosen. Optional form of monthly annuity payable for life may also be elected, and must commence the earlier of within one year of date of death and the member's normal retirement date.
Amount	If death occurs, the amount paid to the beneficiary is equal to the amount that would have been paid had the participant terminated employment on the date of death, retired with a joint and 50% survivor annuity in effect, then died the next day.

## Definitions

<a href="#">Accrual service</a>	Hours worked divided by 2080, rounded up to full integer percent. Effective 12/31/2013, no future accrual service can be earned.
<a href="#">Average compensation</a>	After 10/01/2011, the monthly average of total pay received for all years after 10/01/2011.  After 10/01/2005, the monthly average of total pay received for five consecutive years which provide the highest average.  Prior to 10/01/2005, the monthly average of total pay received for the five consecutive years out of the ten latest years before retirement date which gives the highest average.
<a href="#">Covered compensation</a>	The monthly average (without indexing) of the Social Security taxable wage base in effect for each year in the 35-year period ending with the year the employee attains Social Security retirement age.  For calculations prior to 10/01/1993, rounded to the nearest multiple of \$50.
<a href="#">Accrued benefit adjustment</a>	The quotient of the number of complete months of service as of a given date divided by the number of complete months of service as of normal retirement date.
<a href="#">Optional forms of benefit payments</a>	The optional forms of benefit payments are: <ul style="list-style-type: none"><li>• Monthly annuity payable for life, or 5, 10, 15, or 20 years certain and life.</li><li>• Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100.</li><li>• Monthly annuity payable for a fixed period of 5, 10, 15, or 20 years.</li></ul> The optional form conversion basis is in Appendix A of the plan document, also summarized below for payments other than lump sums. <a href="#">Lump sum provisions</a> Small amount force out (SAFO) – allowed up to \$7,000. Lump sums in excess of SAFO - aren't allowed at termination of employment and retirement. Conversion - The optional form conversion basis uses 30 year Treasury rates and the mortality table as set forth in Code Section 807(d)(5) for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year. Prior to 10/01/2005, optional form conversion factors as described in Appendix A of the plan document.
<a href="#">Vesting service</a>	1,000 hours.

<b>Total</b>	<b>\$12,174,644</b>		<b>\$1,216,179</b>

Last year's total shortfall annual charge was \$1,003,130.

The total annual charge used in calculating your annual cost can't be less than zero.

Schedule SB, Line 24 – Change in Actuarial Assumptions  
T. J. Samson Community Hospital, Inc. Retirement Plan  
EIN 61-0461767 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has increased from 6.00% to 6.25%. This rate is used in the calculation of the actuarial value of plan assets.

Schedule SB, Line 2a - Explanation of Assets  
T. J. Samson Community Hospital, Inc. Retirement Plan  
EIN 61-0461767 Plan No. 001

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of \$721,116 contributions received after the plan year end with a discounted value of \$701,180.

In addition, line 2a includes assets allocated for retirees' guaranteed benefits of \$25,641,711.

The additional \$1 difference is due to system rounding.
