INDEPENDENT AUDITORS' REPORT

To the Trustees and 401(k) Committee of
Molecular Epidemiology, Inc. 401(k) Profit Sharing Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Molecular Epidemiology, Inc. 401(k) Profit Sharing Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter: Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule of Delinquent Participant Contributions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Molecular Epidemiology, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 1 – Description of Plan

The following description of the Molecular Epidemiology, Inc. 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document and related Adoption Agreement for a more complete description of the Plan’s provisions.

General:

The Plan is a defined contribution plan established effective January 1, 2004. The Plan covers substantially all employees of Molecular Epidemiology, Inc. and affiliated companies that have adopted the Plan (collectively, the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is designed to comply with ERISA Section 404(c) whereby fiduciaries receive certain protections against claims related to investment losses incurred by participants. The Trustees oversee governance of the Plan. The 401(k) Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

The Plan was amended and restated effective January 1, 2022 primarily to add additional affiliated companies to the Plan and to comply with recent regulatory requirements.

Eligibility:

Employees aged 21 or older are eligible to participate in the Plan. Employees become immediately eligible to make contributions in the Plan. Participants aged 21 or older become eligible to receive Company matching and profit-sharing contributions upon the January 1 or July 1 after completing one year of eligibility service consisting of at least 1,000 hours. The Plan does not include employees covered by a collective bargaining agreement, leased employees, or non-resident aliens who receive no U.S. source income.

Contributions:

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code. Participants are permitted to elect to contribute their eligible compensation subject to statutory limits. Participants may elect to make either pre-tax or after-tax “Roth” contributions based on eligible compensation as defined in the Plan. The Plan allows participants that have attained the age of 50 to make catch-up contributions.

Participants may also contribute amounts representing distributions from other qualified retirement plans.

The Plan provides matching contributions at the discretion of individual companies participating in the Plan. Total matching contributions for the years ended 2024 and 2023 were \$969,425 and \$814,147.

Vesting:

Participants are immediately vested in their elective and rollover contributions plus actual earnings thereon. Participants become vested in Company contributions over three years of service as defined by the Plan. Participants are 25% vested after one year, 50% vested after two years, and 100% vested after three years of service.

See independent auditors’ report.

Molecular Epidemiology, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2024 and 2023

Participant Accounts:

Each participant's account is credited with the participant's contribution, and allocations of Plan earnings (losses) and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. Income is allocated daily based on the shares in the participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options:

The Plan entered into Group Annuity Contract #513768 with Transamerica Life Insurance Company ("Transamerica"). Under the contract, participants direct their investments into a variety of mutual funds. The net assets of the mutual funds are based on quoted market prices.

The contract also includes an option to invest in a stable value fund which maintains participant account balances in the general accounts of Transamerica and provides a return at interest rates provided under the contract. The Plan is permitted to redeem investments at contract value on the measurement date, with certain exceptions.

Notes Receivable from Participants:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. Participants are permitted to have up to two loans outstanding at a time. Generally, the term of the loan may not exceed five years. However, if the loan is for the purchase of the participant's principal residence, the Administrator may permit a repayment period of up to 10 years. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with interest rates charged by local commercial banks for similar loans. Principal and interest payments are collected through payroll deductions. If a participant terminates, their loan plus accrued interest becomes due and payable to the Plan.

Payment of Benefits:

Upon termination of service due to death, disability, retirement or termination of employment, a participant, or their beneficiary in the case of death, will receive a benefit equal to the value of the participant's vested interest in his or her account in the form of a lump-sum payment, installment payments over a period not to exceed the participant's life, or a direct rollover to an eligible retirement plan. If the participant's account balance is \$5,000 or more, the Participant may choose to defer receiving payment until statutorily required due to age. If the participant's account balance is less than \$5,000, the Plan may automatically distribute the funds.

Participants that have attained age 59 ½ may withdraw balances from their account while still employed.

Participants that incur a financial hardship, as defined in the Plan, may request to receive a distribution. Hardship distributions can only be made from the participant's contributions.

Forfeitures:

Forfeitures from terminated participants' nonvested accounts may be used to reduce Plan expenses, reduce Company contributions, or to be reallocated to participants. At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$65,266 and \$66,748. During 2024, forfeitures balances of \$15,600 were used to pay Plan expenses. During 2023 forfeitures balances of \$9,300 were used to pay Plan expenses.

See independent auditors' report.

Molecular Epidemiology, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2024 and 2023

Expense Offset Account:

The Plan receives a rebate for fees charged by service providers. The outstanding balance is held in an unallocated account to be used to reduce future expenses. The balance in the account at December 31, 2024 and 2023 was \$6,580 and \$4,515. As of December 31, 2024 and 2023 funds were held in interest bearing cash. Rebates received are reported as other income in the statement of changes in net assets available for benefits. Expenses paid from the account are included in administrative expenses in the statement of changes in net assets available for benefits.

During 2024 expenses paid from the account totaled \$65,920 and additional offsets of \$67,972 plus related earnings of \$13 were added. During 2023 expenses paid from the account totaled \$56,435 and additional offsets of \$52,114 plus related earnings of \$24 were added.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition:

Except for the fully benefit-responsive investment contract, which is reported at contract value, investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by its investment advisor and trustee. See Note 3 for discussion of fair value measurements.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants:

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees may be charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2024 and 2023, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan Administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

See independent auditors' report.

Molecular Epidemiology, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2024 and 2023

Excess Contributions Payable:

Excess contributions payable represents corrections to reduce contributions from certain highly compensated participants to satisfy applicable compliance regulations. These amounts, and related earnings thereon, are refunded in the following year. For financial statement purposes, the amounts are recorded as a reduction in the current year contributions.

Payment of Benefits:

Benefits are recorded when paid.

Expenses:

The Plan provides that certain expenses of the Plan may be paid by the Plan or the Company. Expenses paid directly by the Company are excluded from these financial statements. Investment-related expenses are included within net appreciation of fair value of investments. General administrative expenses not paid by the Company or from the Expense Offset Account are allocated to participant accounts based on net assets. Participant specific expenses related to participant notes receivable and distributions are charged to specific participants accounts.

Date of Management's Review of Subsequent Events:

Subsequent events were evaluated through October 15, 2025, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.
- Level 2: Inputs are other than quoted prices that are observable for the asset or liability and inputs that are observable for the asset or liability, either directly or indirectly. Inputs to the valuation methodology include:
 - quoted prices for similar assets or liabilities in active markets,
 - quoted prices for identical or similar assets or liabilities in inactive markets,
 - inputs other than quoted prices that are observable for the asset or liability,
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

See independent auditors' report.

Molecular Epidemiology, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2024 and 2023

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for the Plan's assets measured at fair value. There have been no changes in the methodology used at December 31, 2024 and 2023.

Mutual Funds: Valued at the daily closing price as reported by the fund to the custodian. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are considered actively traded.

Interest Bearing Cash: Valued at outstanding balance.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 32,083,830	\$ -	\$ -	\$ 32,083,830
Interest bearing cash	6,580	-	-	6,580
	<u>\$ 32,090,410</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 32,090,410</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 24,884,112	\$ -	\$ -	\$ 24,884,112
Interest bearing cash	4,515	-	-	4,515
	<u>\$ 24,888,627</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 24,888,627</u>

Note 4 – Investment Contract with Insurance Company

The Plan entered into a traditional fully benefit-responsive group annuity contract with Transamerica. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

See independent auditors' report.

Molecular Epidemiology, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2024 and 2023

Because the contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The contract is presented on the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2024 and 2023, was \$1,675,283 and \$1,744,108. The crediting interest rate is set by the issuer and is subject to semi-annual adjustment. There is no stated minimum or maximum interest rate. The average yield was 1.58% and 1.18% during 2024 and 2023. The crediting interest rate was 1.65% and 1.25% as of December 31, 2024 and 2023.

Certain events limit the Plan's ability to transact at contract value with Transamerica. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

Note 5 – Information Certified by the Plan's Custodians

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. During the reporting period presented, the custodian was Reliance Trust Company through June 30, 2024. Subsequent to that date, the custodians were Transamerica Life Insurance Company Inc. and Transamerica Trust Company. The custodians of the Plan, have certified as to the completeness and accuracy of all investment and participant notes information reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, the statements of changes in net assets available for benefits for the years then ended, and the supplementary Schedule of Assets (Held at End of Year) as of December 31, 2024.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

See independent auditors' report.

Molecular Epidemiology, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 6 – Related Party and Party-In-Interest Transactions

Transamerica and its affiliates, Reliance Trust Company and its affiliates, and the Plan's compliance service provider may receive fees from the Plan or from the investments for providing certain administrative recordkeeping services. These transactions, therefore, represent party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA. Any investment fees are offset against Plan investment income and losses as presented in the statement of changes in net assets available for benefits. The prospectus of each investment should be referred to for details on the various types and amounts of investment fees charged.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants would become 100% vested in their employer contributions. Plan assets will be distributed to the participants after payment of expenses properly chargeable to the trust fund. The accompanying financial statements have been prepared assuming the Plan will continue as a going concern.

Note 8 – Tax Status

Effective January 1, 2022, the Plan adopted a Non-Standardized Pre-Approved Profit Sharing Plan with CODA developed by Hunnex and Shoemaker, Inc. ("Hunnex"), the Plan's compliance services provider. Hunnex received a favorable opinion letter dated June 30, 2020, which states that their plan as submitted is acceptably designed in accordance with Section 401 of the Internal Revenue Code.

The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code, and therefore believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. With certain exceptions, the Plan is no longer subject to examination by U.S. federal tax authorities after three years.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

See independent auditors' report.

December 31, 2024 and 2023

Note 10 – Compliance

The Plan did not satisfy the required nondiscrimination tests for the years ended December 31, 2024 and 2023.

Certain highly compensated employees in the Plan had excess contributions, including earnings totaling \$48,335. The amounts were not returned to the participants until 2025 and are therefore included within the liability as of December 31, 2024, including investment gains of \$7,992.

Certain highly compensated employees in the Plan had excess contributions, net of earnings related to 2023 totaling \$66,957. The amounts were not returned to the participants until 2024 and are therefore included within the liability as of December 31, 2023, including investment gains of \$10,960.

During the years ended December 31, the Company failed to remit participant salary deferrals and loan payments in a timely manner in accordance with applicable rules and regulations. Amounts which were remitted late were as follows for years ending December 31:

	<u>Corrected</u>	<u>Uncorrected</u>	<u>Total</u>
2024	\$ -	\$ 96,998	\$ 96,998
2023	-	108,952	108,952
2022	14,104	-	14,104
2021	18,113	-	18,113
2020	1,538	-	1,538
Total	<u>\$ 33,755</u>	<u>\$ 205,950</u>	<u>\$ 239,705</u>

Corrections for late remittances of 2020 through 2022 were made during 2024.

See independent auditors' report.
