Independent Auditor's Report

To the Plan Administrator of
Sohnen Enterprises, Inc. Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of Sohnen Enterprises, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Sohnen Enterprises, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Sohnen Enterprises, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Sohnen Enterprises, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Sohnen Enterprises, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sohnen Enterprises, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Sohnen Enterprises, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following description of the Sohnen Enterprises, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan ("ESOP") established effective January 1, 2013. The Plan covers all employees, excluding leased, nonresident aliens, and union employees, of Sohnen Enterprise Inc. (the "Company" or "Employer") who have completed one year of service and 1,000 hours and are age 18 or older. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC"), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan administrator and Plan trustee is responsible for oversight of the Plan. The Plan's investment committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan administrator and Plan trustee.

The Plan receives shares of Company common stock by purchasing the shares with cash and liquid investments held by the Plan or by receiving non-cash stock contributions from the shareholder of the Company. The Company common stock is held in a trust established under the Plan.

As of December 31, 2024 and 2023, all shares of Company common stock held by the Plan have been allocated to the Plan participants.

Contributions

Each year, the Company may make contributions, in the form of common stock or cash, to the Plan. Contributions for each year are never less than the amount required to enable the Plan to meet its current distribution requirements, as defined by the Plan. Employee contributions are not permitted. Participants who are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year. Additional discretionary amounts may be contributed by the Company at the option of the trust. For the year ended December 31, 2024, there were no discretionary contributions to the Plan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of the Company's discretionary contributions and, on the last day of each Plan year, an allocation of the Company's common stock shares released from the unallocated account, as well as forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated, as defined in the Plan agreement, to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

Stock or cash dividends received by the Plan on previously allocated shares will be allocated based on the number of shares held by the participants at year-end, or immediately following the date in which the Plan investments are valued. Investment earnings on the Company stock, as determined by an independent appraiser, will be allocated based on number of shares held by the participants at year-end multiplied by the change in the per share value. Earnings on other investments will be allocated based on the percentage that a participant's other investment account is representative of total other investment accounts.

Vesting

If a participant's employment with the Company is terminated for any reason other than retirement, permanent disability, or death, vesting in their contributions is based on years of continuous service. A participant is 100% vested after three years of credited service.

Sohnen Enterprises, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by Summit Fiduciary Group, the trustee, prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant will receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installment payments as provided in the Plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. If a terminated participant's vested balance is less than or equal to \$5,000, the amount may be automatically distributed in the form of lump sum cash payment. Distributions are made in cash or, if the participant elects, in the form of Company common stock plus cash for any fractional share of common stock. The amount to be distributed is based upon the immediately preceding valuation date.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account in the same manner in which the Company contributions are allocated. At December 31, 2024 and 2023, there were no forfeited nonvested accounts. These accounts will be used to pay Plan administrative expenses or the accounts will be allocated to participant accounts of those employed on the last day of the Plan year. For the year ended December 31, 2024, there were no forfeitures reallocated to participant accounts or used to pay Plan expenses.

Diversification

Diversification is offered to participants who are at least 55 years old and have participated in the Plan for at least 10 years (a Qualified Participant). During each of the first five years of eligible diversification, a Qualified Participant may withdraw up to 25% of the value of their investment in Company common stock, less any shares previously diversified, and transfer the amount as a rollover into another qualified plan or as a cash withdrawal. In the sixth and subsequent years, the percentage amount that can be withdrawn increases to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end. For the year ended December 31, 2024, there were no funds transferred from the Plan to another qualified contribution plan sponsored by the Company.

2. Summary of Accounting Policies

Basis of Presentation

The financial statements have been prepared in compliance with the Department of Labor Rules and Regulations for reporting and disclosure under ERISA.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Sohnen Enterprises, Inc. Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023**

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Subsequent Events

Subsequent events were evaluated through November 14, 2025, the date the financial statements were available to be issued.

3. Investment in Common Stock

The Plan's investments in the Company's common shares at December 31, 2024 and 2023, are presented in the following table:

	<u>2024</u>	<u>2023</u>
Number of shares	76,000	76,000
Cost	<u>\$ 3,040,000</u>	<u>\$ 3,040,000</u>
Estimated fair value	<u>\$ 5,627,800</u>	<u>\$ 6,479,000</u>

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Sohnen Enterprises, Inc. Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2024 and 2023.

Sohnen Enterprises, Inc. Common Stock: Valued at estimated fair value based on an independent third-party appraisal using a combination of widely used valuation approaches, including the market and income valuation techniques. The appraiser considered inputs such as historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities, along with a discount for lack of marketability where appropriate.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Common stock in				
Sohnen Enterprises, Inc.	\$ -	\$ -	\$ 5,627,800	\$ 5,627,800
Total assets at fair value	\$ -	\$ -	\$ 5,627,800	\$ 5,627,800

	December 31, 2023			
	Level 1	Level 2	Input	Total
Common stock in				
Sohnen Enterprises, Inc.	\$ -	\$ -	\$ 6,479,000	\$ 6,479,000
Total assets at fair value	\$ -	\$ -	\$ 6,479,000	\$ 6,479,000

There were no transfers between levels during the year ended December 31, 2024. There were no purchases or sales of common stock in Sohnen Enterprises, Inc. during the year ended December 31, 2024.

Changes in Fair Value of Level 3 Assets

The fair value of the Sohnen Enterprises, Inc. common stock held by the Plan is valued at fair value based on an independent appraisal. This appraisal was based fully upon an equally weighted combination of the income approach using the discounted cash flow method of valuation and the merger and acquisition method under the market approach. The appraiser selected this methodology as it is providing a strong indication of the value of the Company based on its underlying characteristics and future earnings potential. In applying the discounted cash flow methodology, the appraiser took into account projected revenues and EBITDA trends, as well as projected working capital and capital expenditure trends. Factors considered by the appraiser in developing a discount rate for minority interest includes known control premiums paid in transactions within a similar industry and company size. In developing a discount for lack of marketability, factors considered by the appraiser include known discount rates related to prices paid for restricted stocks in private sales compared to prices paid for the same securities in public markets.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2024 and 2023, the significant unobservable inputs and the quantitative information about those inputs.

**Sohnen Enterprises, Inc. Employee Stock Ownership Plan

Instrument	2024	2023	Principal Valuation Technique	Significant Unobservable Inputs	Quantitative Information about Significant Unobservable Inputs

5. Administration of Plan Assets

The Plan's assets, which consist solely of the Company common shares and non-interest bearing cash, are held by the custodian of the Plan. Company contributions are held and managed by the custodian, which also makes distributions to participants at the direction of the trustee.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. No administrative expenses were paid out of Plan assets during the year ended December 31, 2024.

6. Tax Status

The IRS has determined and informed the Company by a letter dated December 7, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving this letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Related-Party and Party In Interest Transactions

Certain Plan investments are managed by the trustee, and therefore, these transactions qualify as party in interest transactions.

The Plan invests in Company common stock. These are related party and party in interest transactions. As described in Note 2, the Company may pay Plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

8. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Plan administrator and Plan trustee direct the trustee to pay all liabilities and expenses of the Plan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan agreement and the IRC. In the event of Plan termination, participants would become 100% vested.

Notes to Financial Statements
December 31, 2024 and 2023

9. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Company Dividends

As of December 31, 2024, the Plan held 76,000 shares of Company stock which was purchased from the majority owner. Dividends paid to the Plan by the Company totaled \$632,017 during the year ended December 31, 2024.
