## INDEPENDENT AUDITOR'S REPORT

To the Trustees and Participants of  
Gal-Tex Hotel Corporation Retirement Plan:

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements

We have performed an audit of the financial statements of Gal-Tex Hotel Corporation Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2024 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of December 31, 2024, and for the year then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

### Opinion on the 2024 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section:

- The amounts and disclosures in the accompanying 2024 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- The information in the accompanying 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of Gal-Tex Hotel Corporation Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion on the 2024 financial statements.

### **Responsibilities of Management for the 2024 Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Gal-Tex Hotel Corporation Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the 2024 Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Gal-Tex Hotel Corporation Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Gal-Tex Hotel Corporation Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2024 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2024 financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Other Matters**

### ***Supplemental Schedule Required by ERISA***

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).
- The supplemental schedule does not disclose the historical cost of certain non-participant directed plan assets held by the plan custodian. Disclosure of this information is required by the DOL's Rules and Regulations for Reporting and Disclosures under ERISA.

***Auditor's Report on the 2023 Financial Statements***

The financial statements of Gal-Tex Hotel Corporation Retirement Plan as of December 31, 2023, were audited by Pannell Kerr Forster of Texas, P.C. who joined with WithumSmith+Brown, PC on June 1, 2025. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 14, 2024, indicated that (a) the amounts and disclosures in the 2023 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly in all material respects, in accordance with GAAP, and (b) the information in the 2023 financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2023 supplemental schedule, other than the information in the 2023 supplemental schedule that agreed to or is derived from the certified investment information, were presented in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2023 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

## Notes to Financial Statements

### December 31, 2024 and 2023

#### 1. DESCRIPTION OF THE PLAN

##### General

The Gal-Tex Hotel Corporation Retirement Plan (the “Plan”) is a contributory, defined benefit plan which is available to all employees of Gal-Tex Hotel Corporation (the “Employer”) and participating affiliates subject to certain restrictions for participant eligibility as defined in the *Plan Document*.

The Plan, as amended and restated effective January 1, 2012, and last amended in 2018 is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) as amended and is described more fully in the *Plan Document*. Information about the *Plan Document*, the vesting and benefit provisions, and the Pension Benefit Guaranty Corporation’s (“PBGC”) benefit guarantee is also contained in the booklet Gal-Tex Hotel Corporation Retirement Plan. Copies of the booklet are available to participants from the Retirement Plan Committee.

##### Plan Custodian

On August 1, 1985, the Employer entered into a deposit administration contract with American National Insurance Company (“ANICO” or the “Custodian”). ANICO maintains the contributions of the employer and participants in a deposit fund which is increased by contributions and any income attributable to the fund and reduced by benefits, payments, and any losses attributable to the fund. No interest rate is guaranteed.

##### Contributions and Vesting

To be eligible, an employee must not be highly compensated, as defined, and must have completed one year of service with at least 1,000 hours of service. Plan entry dates are January 1 and July 1 after meeting eligibility requirements. As a condition of participation, eligible employees are required to contribute three percent of the first \$300 of their monthly compensation and four and one-half percent of their monthly compensation in excess of \$300 to the Plan. Active employees' accumulated contributions at December 31, 2024 and 2023 were approximately \$3,063,000 and \$2,684,000, respectively, including interest credited at an interest rate of 5.25% and 1.57% during 2024 and 2023, respectively, compounded annually. The Employer's contribution to the Plan is actuarially determined, such that when combined with employees' contributions, all employees' benefits will be fully provided for by the time they retire. Any increase in past service cost due to Plan amendments or changes in actuarial assumptions will be funded in level amounts over a 7-year period. The Employer made contributions of \$845,102 and \$943,149 for 2024 and 2023, respectively, to satisfy the recommended contribution or the minimum required funding requirements under ERISA. Participants are immediately vested in their contributions to the Plan and actual earnings thereon. Participants with five or more years of service are entitled to annual pension benefits as defined in the *Plan Document* beginning at normal or early retirement age or as defined in the *Plan Document*. No credit for purposes of accrued benefits will be given for any period in which an employee suspends contributions.

##### Payment of Benefits

Benefit payments to participants are recorded upon distribution. At the direction of the Employer, a single premium to buy an annuity for a retiring employee is withdrawn by ANICO.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

## Notes to Financial Statements

### December 31, 2024 and 2023

---

#### **Valuation of the Deposit Administration Contract**

The assets of the Plan are held as part of a deposit administration contract in the American National Separate Account for Retirement Plans (“ANSARP”). ANICO manages and invests the assets of ANSARP. ANSARP’s investments consist of short-term investments, government obligations, corporate bonds and notes, and common stocks. The Plan’s interest in ANSARP is adjusted for contributions, investment income and realized or unrealized gains and losses, with respect to the Plan’s proportionate share of the deposit administration contract and is reduced for the distributions of accrued benefits to terminated participants, administration fees, and expenses.

The investment in ANSARP is reported at the Plan’s proportionate share of the net assets of the deposit administration contract as a practical expedient for measuring fair value. ANSARP is valued based upon the fair value at the date of valuation based on quoted market prices of the underlying assets as determined by the Custodian. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan’s proportionate share of interest and dividends received from ANSARP’s investments, realized gains (losses) on the sale of ANSARP’s investments and unrealized appreciation (depreciation) of ANSARP’s investments are reported as net investment gains (losses) from deposit administration contract in the statements of changes in net assets available for benefits.

#### **Financial Instruments and Credit Risk**

The Plan, through its investment in ANSARP, provides for investment in securities which in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and may impact the funded position of the Plan. As a result, the Plan may require increased funding in subsequent years.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Plan, through its investment in ANSARP, may invest in securities with contractual cash flows, such as asset-backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of those securities are sensitive to changes in economic conditions, including real estate value, delinquencies, and defaults, or both, and may be adversely affected by shifts in the market’s perception of the issuers and changes in the market rates.

#### **Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits (see Note 5) are those future periodic payments, including lump-sum distributions, that are attributable to the services employees have rendered under the Plan’s provisions. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

#### **Use of Estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

**Administrative Expenses**

Certain Plan expenses may be paid by the Employer at its discretion. Any remaining expenses are paid from the Plan.

**Subsequent Events**

Management has evaluated subsequent events through October 14, 2025, which was the date the financial statements were available to be issued, and has determined that there are no other subsequent events to be reported (see Note 8).

**3. FAIR VALUE OF INVESTMENTS THAT USE NET ASSET VALUE**

The following table summarizes investments measured at fair value using the practical expedient based on net asset value per share:

<u>Investments as of December 31, 2024</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Deposit Administration Contract	\$ 21,878,870	N/A	Daily	Daily

<u>Investments as of December 31, 2023</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Deposit Administration Contract	\$ 20,294,230	N/A	Daily	Daily

**4. INFORMATION CERTIFIED BY THE CUSTODIAN**

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2024 and 2023, net investment gain from deposit administration contract and net appreciation in fair value of investments in ANSARP for the years ended, was obtained by the Plan and agreed to or derived from information certified as complete and accurate by the Custodian.

**5. ACCUMULATED PLAN BENEFITS**

The most recent actuarial valuation was prepared as of January 1, 2024 for the year ended December 31, 2024. Had the valuations been performed as of December 31, 2024, there would be no material difference.

The actuarial present value of accumulated plan benefits as follows:

	<u>2023</u>
Vested benefits	\$ 14,680,628
Nonvested benefits	<u>236,824</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 14,917,452</u>

**Gal-Tex Hotel Corporation Retirement Plan**  
**Notes to Financial Statements**  
**December 31, 2024 and 2023**

---

The change in the actuarial present value of accumulated plan benefits during 2024 and 2023 is as follows using beginning of year benefit information:

	<u>2023</u>
Present value of accumulated plan benefits at beginning of year	\$ 13,577,190
Additions	
Interest on accumulated plan benefits	799,038
Benefits accumulated and actuarial gain	1,069,114
Deductions	
Change in actuarial assumptions	(427)
Benefits paid	<u>(527,463)</u>
Present value of accumulated plan benefits at end of year	<u>\$ 14,917,452</u>

The significant assumptions underlying the actuarial computations as of January 1, 2024 and 2023 were as follows:

	<u>2024</u>	<u>2023</u>
Actuarial cost method	Unit Credit Actuarial cost method	Unit Credit Actuarial cost method
Assumed rate of return	6.00%	6.00%
Mortality basis	Static mortality tables for 2024 with separate rate for annuitant and non-annuitant	Static mortality tables for 2023 with separate rate for annuitant and non-annuitant
Employee turnover	Based on actual company experience	Based on actual company experience
Salary increases	2.50%	2.50%
Retirement age	65	65

As of January 1, 2023, the change in the actuarial assumption was due to the increase in the expected rate of return from 5.50% to 6.00%. As of January 1, 2024, the expected rate of return remained at 6.00%.

**6. INCOME TAX STATUS**

The Plan obtained its latest determination letter dated January 9, 2014, in which the Internal Revenue Service (“IRS”) stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated within the applicable requirements of the IRC and was tax-exempt as of December 31, 2024 and 2023. Accordingly, no provision for income taxes has been included in the Plan’s financial statements.

**Gal-Tex Hotel Corporation Retirement Plan**  
**Notes to Financial Statements**  
**December 31, 2024 and 2023**

---

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**7. PARTY-IN-INTEREST TRANSACTIONS**

The deposit administration contract is managed by ANICO. ANICO is the Plan's custodian and, therefore, these transactions qualify as party-in-interest transactions. Administrative expenses of approximately \$31,000 were paid to ANICO for the years ended December 31, 2024 and 2023.

**8. SUBSEQUENT EVENTS**

Effective August 20, 2025, a partial termination of the Plan occurred in accordance with applicable regulatory guidelines.

## **Schedule SB, Part V – Statement of Actuarial Assumptions/Methods**

### **Summary of Actuarial Methods**

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. A plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that a plan will be adequately and systematically funded. Annual contributions are also affected by a plan's "asset valuation method" (as well as plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

### **Actuarial Cost Method**

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's Normal Cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits. This method is prescribed for ERISA funding requirements by the Pension Protection Act of 2006.

### **Asset Valuation Method**

The Actuarial Value of Assets used for determining the Plan's ERISA funding requirements is based on the permitted three-year asset smoothing as defined under IRS Notice 2009-22. Under this method, the Actuarial Value of Assets equals the Adjusted Market Value of Assets minus one-third and two-thirds, respectively, of the investment gain or loss for each of the two immediately preceding plan years, but it must be within 90% to 110% of the Adjusted Market Value of Assets. The expected investment return for a plan year is based on the lesser of the expected rate of return on plan assets or the applicable statutory interest rate for the year.

The Actuarial Value of Assets for IRC Section 404 purposes, used in determining the Maximum Deductible Contribution, reflects the Plan Sponsor's election to use segment rate stabilization as permitted under IRS Notice 2012-61.

### **Amortization Method**

For the Plan's ERISA funding requirements, incremental Funding Shortfall amounts are amortized over a seven year period, and the related shortfall amortization payment is determined on the first valuation date following the plan year in which it arises based on the segment rates used for ERISA minimum funding purposes on that date, as prescribed under IRC Section 430.

### **Changes in Actuarial Methods Since Prior Valuation**

None.

## Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

### ECONOMIC ASSUMPTIONS

#### Interest Rates

The current funding and PBGC interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election.

	Minimum Funding	Maximum Deductible
Segment 1 (0–5 years)	4.75%	4.37%
Segment 2 (5–20 years)	4.96%	4.96%
Segment 3 (20+ years)	5.59%	4.96%
Effective Interest Rate	5.25%	4.93%

**ERISA minimum funding:** 24-month average segment rates, using a zero-month lookback period (adopted January 1, 2008), adjusted to reflect the applicable segment rate stabilization corridor.

This assumption is a prescribed assumption, set by the Internal Revenue Code Section 430. The sponsor has elected to utilize a 0-month look-back, with rates averaged over a 24-month period, limited to applicable minimum and maximum values in accordance with MAP-21 and HATFA and reflecting the plan sponsor's election under the American Rescue Plan Act of 2021. These rates are utilized for purposes of calculating the Plan's Funding Target and Target Normal Cost for minimum funding purposes under ERISA and related tax codes.

**Maximum Deductible Contribution:** 24-month average segment rates, using a zero-month lookback period, but not adjusted to reflect segment rate stabilization.

This assumption is a prescribed assumption, set by the Internal Revenue Code Section 430. The sponsor has elected to utilize a 0-month look-back, with rates averaged over a 24-month period. These rates are utilized for purposes of calculating the Plan's Maximum Deductible Contribution.

**FASB ASC Topic 960:** 6.00% per year. This is the assumed rate of return for the Plan's entire portfolio of assets, net of investment expenses and including assumed inflation rate of 2.31%. It is based on the Plan's investment policy, including target asset allocation, and Milliman's capital market expectations.

In developing the ASC Topic 960 Interest Rate assumption, we relied on models and capital market assumptions developed by Milliman investment consultants. We reviewed the plan's actual asset allocation along with forward-looking data such as projections of inflation and total return growth. Mean returns, standard deviations and correlations between investment categories were determined and used in the ASC Topic 960 Interest Rate assumption in conjunction with the historical and projected information.

Following the process described above, we have determined the ASC Topic 960 Interest Rate assumption to be a reasonable assumption. It reflects professional judgment, relevant economic data as of the measurement date, and estimates of future experience. In our opinion, it is appropriate for the intended purpose, and contains no significant bias.

## Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

### Compensation Increases

2.50% per year, with increases assumed to occur at beginning of year.

### Expected Return on Assets

6.00% per year.

### Inflation (CPI)

2.31% per year. It is based on Milliman's capital market expectations. This assumptions represents an estimate of future experience and is based in part on observations of estimates inherent in market data. We utilized the 30-year breakeven inflation rate in combination with the Blue Chip Financial Forecast to arrive at this assumption.

### Social Security Taxable Wage Base Increases

2.31% per year. It is based on the assumed inflation assumption of 2.31% per year.

### Administrative Expenses

Equal to the prior year's expenses paid from the plan.

The expense assumption represents an estimate of future experience based on the prior year's actual expenses. We believe the expense assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

## DEMOGRAPHIC ASSUMPTIONS

Except where noted, all demographic assumptions are based on the actuary's judgment and continual review of experience.

### Mortality

**ERISA minimum funding and Maximum Deductible Contribution:** Static mortality tables per code section 430.

This assumption is a prescribed assumption, set by the Internal Revenue Code Section 430. The plan sponsor has elected the mortality assumption described above.

**FASB ASC Topic 960:** PRI-2012 Retiree/Employee Mortality table adjusted to reflect Scale MP-2021 on generational basis, with employee rates before benefit commencement and retiree rates after benefit commencement.

The plan is not large enough to develop a credible mortality table based exclusively on plan experience. We have relied on the above mentioned published mortality table in which credible mortality experience was analyzed. We believe the mortality assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

# Gal-Tex Hotel Corporation Retirement Plan

EIN 74-0637442 / PN 001

## Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

### Retirement

All active and terminated vested participants are assumed to retire at age 65. We believe the retirement assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

### Termination

Annual rates of termination are based on age. Sample rates are shown in the following table.

Age	Rate
25	24.1%
30	22.6%
35	20.0%
40	16.1%
45	11.8%
50	8.2%
55	5.0%

We believe the assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

### Disability

Annual rates of disability are based on age. Sample rates are shown in the following table.

Age	Rate
25	0.03%
30	0.04%
35	0.06%
40	0.09%
45	0.15%
50	0.28%

We believe the assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

# Gal-Tex Hotel Corporation Retirement Plan

EIN 74-0637442 / PN 001

## Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

### Decrement Timing

Decrements are assumed to occur at the middle of the year, except that 100% retirement (see above) is assumed to occur at the beginning of the year.

### Form of Payment

Active and terminated vested participants are assumed to be paid in a lump sum (to purchase and annuity) at the time of their retirement. We believe the form of payment assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

### Marital Characteristics

**For participants not in pay status:** 100% of participants are assumed to be married with females 3 years younger than males.

**For participants in pay status:** Actual birth dates of spouses are included in the census data, where relevant.

We believe the marriage assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

### CHANGES IN ACTUARIAL ASSUMPTIONS SINCE PRIOR VALUATION

**Interest rates for ERISA minimum funding:** From 4.75%, 5.00%, and 5.74% per year to 4.75%, 4.96%, and 5.59% per year, respectively, as required by statute. This assumption change increased the target liability for minimum funding purposes by approximately \$0.3 million.

**Interest rates for Maximum Deductible Contribution:** From 2.13%, 3.62%, and 3.93% per year to 4.37%, 4.96%, and 4.95% per year, respectively, as required by statute. This assumption change decreased the target liability for maximum funding purposes by approximately \$2.4 million.

**Mortality for ERISA minimum funding and Maximum Deductible Contribution:** From statutory tables for 2023 to statutory tables for 2024. This assumption change decreased the target liability for minimum funding purposes by approximately \$161,000 and decreased the target liability for maximum funding purposes by approximately \$172,000.

**Expense assumption:** The expense assumption was changed from \$33,765 to \$31,325.

**Inflation (CPI):** From 2.33% for 2023 to 2.31% for 2024. This change was made due to observations of estimates inherent in market data.

## Schedule SB, Part V – Summary of Plan Provisions

### Summary of Principal Plan Provisions

This summary of plan provisions is intended to only describe the essential features of the Plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

### Definitions

**Accrued Benefit:** 1.667% of Final Average Compensation multiplied by years of Credited Service up to 35 years offset by 25% of Social Security PIA multiplied by a fraction, the numerator of which is years of Credited Service and the denominator of which is the greater of 30 years or the number of years of Credited Service the Participant would complete if he continued as an Active Participant until his Normal Retirement Date.

**Actuarially Equivalent:** Equality in value such that the present value of the amount under any form of payment is essentially the same as the present value of the amount under the normal form of annuity payment for single participants. In general, for purposes other than determining lump sum amounts, actuarially equivalent factors are based on the UP 1984 Unisex Mortality Table and an interest rate of 6.0% (4% for determining early retirement benefits). For purposes of determining lump-sum amounts, actuarially equivalent factors are based on the applicable mortality table in effect under IRC Section 417(e)(3) for the plan year of distribution and the statutory three-tier segment interest rates in effect for the second month prior to the plan year of distribution.

**Final Average Compensation:** The average of Compensation in the five consecutive plan years during the last 10 years of employment for which such average is the highest.

**Compensation:** FICA wages without regard to the Social Security taxable wage base, including any amounts which are treated as salary reduction contributions and used to purchase non-taxable benefits under IRC Section 125 or 401(k). Annual Compensation may not exceed the inflation-adjusted limit specified by the IRS (\$270,000 for the 2016 plan year).

**Social Security PIA:** The Participant's Primary Social Security Benefit is the primary insurance amount payable to the Participant upon attainment of his SSRA assuming his annual Compensation remains the same from the Plan Year until attainment of SSRA.

**Credited Service:** A full year is credited for each employment year in which 1,000 or more hours of service are credited. No partial years of Credited Service are credited.

**Plan Effective Date:** February 1, 1951; the Plan was last amended effective January 1, 2012.

**Plan Year:** The 12-month period beginning January 1 and ending December 31.

**Vesting Service:** A full year is credited for each employment year in which 1,000 or more hours of service are credited. No partial years of Vesting Service are credited.

EIN 74-0637442 / PN 001

## Schedule SB, Part V – Summary of Plan Provisions

### Eligibility for Participation

The first day of January or July which coincides with or next follows the date on which the employee completes one year of eligibility service and attains age 20. A year of eligibility service is earned for (a) the 12-month period beginning on the date of hire and (b) full plan years following the date of hire, provided that 1,000 or more hours of service are credited within such period.

Highly Compensated Employees are no longer eligible to accrue any benefits under the Plan.

**Employee Contributions:** Contributions of 3% of earnings up to \$3,600 each year plus 4.50% for earnings above \$3,600 are required. Contributions are credited interest at 120% of the Annual Federal Midterm Rate for January of the calendar year.

### Normal Retirement

**Normal Retirement Date:** The first day of the month coincident with or next following the attainment of age 65.

**Normal Retirement Benefit:** The Accrued Benefit.

### Early Retirement

**Early Retirement Date:** The first day of the month coincident with or next following the attainment of age 55 and completion of 5 years of Vesting Service.

**Early Retirement Benefit:** The Accrued Benefit, actuarially reduced for commencement prior to Normal Retirement Date.

Actuarial Equivalence is based on the following interest and mortality assumptions:

Interest: 4.00% per annum, compounded annually

Mortality: 1984 Unisex Pension Mortality Table

### Deferred Retirement

**Deferred Retirement Date:** The first day of the month coincident with or next following the date of termination of service if it occurs after the Normal Retirement Date.

**Deferred Retirement Benefit:** The greater of (i) the Accrued Benefit determined as of the Deferred Retirement Date or (ii) the Accrued Benefit determined as of the Normal Retirement Date and actuarially increased to the Deferred Retirement Date.

### Termination

**Termination Date:** The date of termination of service other than for reasons of retirement, disability, or death.

# Gal-Tex Hotel Corporation Retirement Plan

EIN 74-0637442 / PN 001

## Schedule SB, Part V – Summary of Plan Provisions

**Termination Benefit:** The Accrued Benefit, multiplied by the vested percentage in the following table, payable at the Normal Retirement Date, or payable as of the first day of any month coincident with or next following attainment of age 55 if at least 5 years of Vesting Service have been completed (actuarially reduced for commencement prior to Normal Retirement Date).

Years of Vesting Service	Vested Percentage
Less than 5	0%
5 or more	100%

### Preretirement Death

**Preretirement Death Benefit Eligibility:** Surviving spouses of participants with a vested Accrued Benefit who die before commencement of payments, provided they have been married at least one year.

**Preretirement Death Benefit:** 50% of the benefit which would have been payable had the deceased participant instead terminated service on the date of death, survived to his earliest possible benefit commencement date, elected a joint and 50% survivor annuity, and died on that same date.

If the Participant dies while in active service, has attained the age of 45, and his age plus Years of Credited Service is at least equal to 55, then the benefit to the surviving spouse, if larger than the benefit described above, is equal to the lessor of:

- 1) 90% of the Participant's Accrued Benefit; or
- 2) 75% of the Participant's Accrued Benefit at Normal Retirement Date assuming continued employment until Normal Retirement and using the Final Average Compensation at the date of death.

No actuarial adjustment will be made to this benefit except for an actuarial reduction to reflect age difference if the surviving spouse is more than 10 years younger than the Participant.

### Disability Retirement

**Disability Retirement Eligibility:** Disability Retirement Date, after the occurrence of total disability as defined by the Plan document.

**Disability Retirement Benefit:** The actuarial equivalent of the Participant's Accrued Benefit attributable to Participant contributions plus the greater of 50% or the vested percentage of the Participant's Accrued Benefit attributable to Employer contributions without actuarial adjustment for starting prior to Normal Retirement Date, determined as of the disability separation date.

# Gal-Tex Hotel Corporation Retirement Plan

## Schedule SB, Part V – Summary of Plan Provisions

### Forms of Payment

**Normal Forms:** Life annuity if single, actuarially equivalent joint and 50% survivor annuity if married.

**Optional Forms:** Life annuity; actuarially equivalent life annuity with 5 or 10 years certain; actuarially equivalent joint and 50%, 75%, or 100% (as elected) survivor annuity.

Optional forms of benefits are equal to the Actuarial Equivalent of the Normal Form of Benefit. Actuarial Equivalence is based on the following interest and mortality assumptions:

Interest: 6.00% per annum, compounded annually

Mortality: 1984 Unisex Pension Mortality Table

**Small Lump Sum:** Payable automatically if the actuarially equivalent present value of the vested Accrued Benefit is \$5,000 or less.
