Independent Auditor's Report

To the Plan Administrator
Lurie Children's Surgical Foundation, Inc. Retirement Plan

Disclaimer of Opinion

We were engaged to perform an audit of the financial statements of Lurie Children's Surgical Foundation, Inc. Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements comprise the statement of net assets available for benefits as of January 1, 2025 and the related statement of changes in net assets available for benefits for the period beginning and ending on January 1, 2025 and the related notes to the financial statements.

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

As described in Note 4, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan has not maintained sufficient accounting records and supporting documents relating to these annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficiently to determine the extent to which the financial statements may have been affected by these conditions.

Emphasis of Matter

As explained in Note 9 to the financial statements, the Plan was merged into the Lurie Children's Medical Group, Inc. 403(b) Plan effective January 1, 2025. Our opinion has not been modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

To the Plan Administrator
Lurie Children's Surgical Foundation, Inc. Retirement Plan

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of Lurie Children's Surgical Foundation, Inc. Retirement Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit.

Auditor's Report on the Prior Year Financial Statements

We performed an audit of the accompanying 2024 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, our audit did not extend to any statements or information related to assets held for investment of the Plan that were certified by a qualified institution. In our report dated September 29, 2025, we do not express an opinion on those 2024 financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2024 financial statements.

Note 1 - Plan Description

The following brief description of Lurie Children's Surgical Foundation, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document or summary plan description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined contribution 403(b) plan covering all eligible employees of Lurie Children's Surgical Foundation, Inc. (the "Organization"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2025, the Plan was merged into Lurie Children's Medical Group, Inc. 403(b) Plan, sponsored by Lurie Children's Medical Group, Inc. Accordingly, the descriptions below are provisions of Lurie Children's Surgical Foundation, Inc. Retirement Plan prior to the merger. See Note 9 for additional information.

Eligibility

All employees of the Organization are immediately eligible to participate in the Plan.

Contributions

Eligible employees may contribute up to 100 percent of pretax annual compensation and Roth deferrals, as defined. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

The Organization may make discretionary matching contributions to the Plan in an amount determined annually. There were no such contributions made for the period ended January 1, 2025.

Participant Accounts

Individual account balances are maintained for each participant. Each participant's account is credited with the participant's contributions and allocations of the Organization's contributions and plan earnings and charged with an allocation of certain administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants have a fully vested interest in all contributions made by them and in the Plan's earnings or losses on those contributions at all times.

Investments

The assets of the Plan are held by Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF) and TIAA Trust, N.A. Participants may direct the investments of their account balances into various investment options offered by the Plan. The Plan currently offers fixed and variable annuity accounts and mutual funds as investment options for participants.

Vesting

Participants are immediately 100 percent vested in any allocable contributions and any income or loss thereon upon entrance to the Plan.

January 1, 2025 and December 31, 2024

Note 1 - Plan Description (Continued)

Benefit Payments

On termination of service, death, disability, or retirement, a participant is eligible to receive an amount equal to the value of his or her vested account balance. The Plan also allows for in-service distributions. Participants or their beneficiaries may elect to receive their vested account balances as a lump sum or various annuity options provided under the plan provisions. Certain amounts invested in the TIAA Traditional Annuity may not be distributed in a lump sum. See redemption restrictions below.

Redemption Restrictions

Certain contracts under the TIAA Traditional Annuity investment have limits on the ability of the participant to transfer or withdraw from the fund. Transfers from the Retirement Annuity (RA), Group Retirement Annuity (GRA), and Transfer Payout Annuity (TPA) contracts must be paid out in 10 annual installments. Transfers from the Retirement Choice (RC) contract must be paid over 84 monthly systematic payments. Withdrawals from the RA contract must be paid out in 10 annual installments. Withdrawals from the GRA and RC contracts are available within 120 days after termination of employment, subject to a 2.5 percent surrender charge, otherwise they must be paid over 10 annual installments. The remaining contracts under the TIAA Traditional Annuity investment do not have restrictions related to transfers and withdrawals. The TIAA Stable Value investment is immediately liquid to participants and does not have participant level withdrawal restrictions. There are, however, equity wash provisions that prevent the immediate transfer of amounts to any competing funds available in the Plan.

Participant Notes Receivable

The Plan allows for participants to borrow from their accounts subject to certain maximum and minimum amounts prescribed in the Plan and in the Internal Revenue Code. Notes receivable bear interest at a market rate.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value except as described in Note 5. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized gains and losses on investments include gains and losses on investments bought and sold, as well as held, during the year.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Payments of Benefits

Benefits are recorded when paid. Benefits payable to participants who had withdrawn from participation in the Plan as of January 1, 2025 and December 31, 2024 were approximately \$0 and \$659,000, respectively.

January 1, 2025 and December 31, 2024

Note 2 - Summary of Significant Accounting Policies (Continued)

Payments to Insurance Carrier for Purchase of Annuity Contracts

The Plan has purchased allocated insurance contracts for retirees who are covered under the Plan. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements. The Plan also holds individual annuity insurance contracts, which are subject to the liquidity and credit risks.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including November 17, 2025, which is the date the financial statements were available to be issued.

Note 3 - Certified Information

TIAA-CREF holds the Plan's investments, except mutual funds, and executes all related transactions. TIAA Trust, N.A. holds the Plan's investments in mutual funds and executes related transactions. TIAA has the authority to certify the investment balances and related investment activity on behalf of TIAA Trust, N.A. The investment balances and related investment income and losses included in the accompanying financial statements are based solely on information certified by TIAA-CREF and TIAA, as agent for TIAA Trust, N.A., as of December 31, 2024. This certified investment information has not been audited by independent accountants.

Note 4 - Excluded Investments

The Plan has excluded from investments in the accompanying statement of net assets available for benefits as of December 31, 2024 certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The amount of these excluded annuity and custodial accounts and related transfers is not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Note 5 - Investment Valuation and Fair Value Measurements

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements).

January 1, 2025 and December 31, 2024

Note 5 - Investment Valuation and Fair Value Measurements (Continued)

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on estimates provided by the investment manager. The Plan's outside investment advisor performs its own operational due diligence procedures, which include a review of the controls in place at the investment manager regarding the valuation of the Level 3 assets. By engaging the professional services of an outside investment advisor, the Plan is taking prudent measures to report fair and consistent values for its Level 3 investments. For the TIAA Traditional Annuity, significant inputs include the credit rating of the issuer, discount rates, deposits made to the contracts, earnings at guaranteed crediting rates, withdrawals, and fees.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds and Money Market Fund

The fair values of mutual fund and money market fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Variable Annuity Contracts

Variable annuity contracts include investments in registered investment companies and are valued at net asset value per share (or its equivalent) of the funds, which is valued based on the fair market values of the underlying net assets, which are based on quoted market prices. Each variable annuity contract provides for daily redemptions by the Plan, with no advance notice requirements, and has redemption prices that are determined by the accounts' net asset value per unit. A plan participant will be prohibited from transacting in a CREF variable annuity contract (other than the CREF Money Market Account) for 60 days if he or she buys, sells, or repurchases units of the account within a 90-day period. The variable annuity contracts are classified based upon their respective investment management strategies in subsequent disclosures. The equity accounts consist of the CREF Stock Account, CREF Global Equities Account, and CREF Growth Account.

The CREF Stock Account, which comprises 68 percent of the equity account's balance at December 31, 2024, invests at least 80 percent of its assets in a broadly diversified portfolio of domestic and foreign entities with the objective of obtaining a favorable long-term rate of return through capital appreciation and investment income.

January 1, 2025 and December 31, 2024

Note 5 - Investment Valuation and Fair Value Measurements (Continued)

The CREF Global Equities Account, which comprises 20 percent of the equity account's balance at December 31, 2024, invests at least 80 percent of its assets in equity securities of foreign and domestic companies with the objective of obtaining a favorable long-term rate of return through capital appreciation.

The CREF Growth Account, which comprises 12 percent of the equity account's balance at December 31, 2024, invests in a diversified portfolio of common stocks that presents the opportunity for exceptional growth in order to obtain a favorable long-term rate of return, mainly through capital appreciation.

The index account reflects the CREF Equity Index Account. The fixed-income accounts consist of the CREF Bond Market Account and the CREF Inflation-Linked Bond Account. The specialty/balanced account reflects the CREF Social Choice Account, and the money market account reflects the CREF Money Market Account. In each of these categories, generally, over 80 percent of the respective underlying assets are invested in the particular type of securities implied by the variable annuity contract's name.

Generally, variable annuity contracts have individual prospectuses that describe the underlying investments and the investment objectives of the contracts.

Pooled Separate Account

Investments in the pooled separate account are valued at net asset value per share (or its equivalent) of the fund, which is valued based on the fair market values of the underlying net assets, which consist primarily of rental property subject to long-term leases, and has been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with risks involved. The TIAA Real Estate Account (the "REA"), reported as a commercial and multifamily residential real estate pooled separate account, invests primarily in real estate properties and real estate-related investments; however, a liquidity guarantee is provided by TIAA through its general account. Transfers out of the REA are limited to one per calendar quarter and occur at redemption prices that are determined by the net asset value per unit.

TIAA Traditional Annuity

The TIAA Traditional Annuity contracts are individual guaranteed fixed annuity investment contracts issued by TIAA (the "Issuer"). The fully benefit-responsive portion is reported at contract value. The non-fully benefit-responsive portion of the contracts is valued at fair value. TIAA and plan management have determined contract value to approximate fair value for the non-fully benefit-responsive portion. The fair value of the TIAA Traditional Annuity was determined by discounting the related cash flows based on current yields of similar instruments with comparable durations and taking into consideration the creditworthiness of the Issuer. Contract value equals the contributions deposited into the contracts, plus interest credited to the contracts, less contract withdrawals, and reflects the value at which participant transactions are executed under the contracts. The contract values are guaranteed by TIAA. Since investment contracts are not transferable, there is no market from which to obtain observable market prices for the contracts held by the Plan or comparable contracts (Level 3 inputs).

January 1, 2025 and December 31, 2024

Note 5 - Investment Valuation and Fair Value Measurements (Continued)

The TIAA Traditional Individual Fixed Annuity Contracts are individual guaranteed fixed annuity investment contracts issued by TIAA. Within the TIAA Traditional Individual Fixed Annuity Contracts are five types of contracts available to participants: the Retirement Annuity, the Group Retirement Annuity, the Retirement Choice, Retirement Choice Plus (RCP), and the Group Supplemental Retirement Annuity (GSRA). Each of these contracts has unique provisions and qualities. There are certain liquidity restrictions on the RA and GRA contracts. Participants with RA and GRA contracts have certain restrictions over the availability of lump-sum withdrawals from the contracts, as well as over the number of installments in which participant-initiated transfers and participant-initiated withdrawals are made by way of the Transfer Payout Annuity contract. Based on these provisions, the RA, GRA, and RC contracts are considered to be non-fully benefit responsive. As there are no comparable restrictions over the RCP and GSRA contracts, those contracts are considered fully benefit responsive. Participants in the Plan hold investments in both non-fully benefit-responsive and fully benefit-responsive contracts through the TIAA Traditional Annuity Account.

For both the fully benefit-responsive and the non-fully benefit-responsive contracts within the TIAA Traditional Annuity Account, TIAA maintains the contributions in its general account. TIAA's general account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the Issuer or otherwise.

All investment contracts through the TIAA Traditional Annuity Account are directly between TIAA and the participants. Benefit payments from the contracts are paid as an annuity or a lump sum, as defined in the contracts and as elected by the participant upon meeting the eligibility requirements. There are no conditions specified in any of the contracts, other than the provisions noted above, under which participant withdrawals and transfers would be restricted or made at a value other than contract value or the annuity or lump-sum benefit, as defined in the contracts. The contracts do not provide any provisions that would allow the Issuer to terminate the contracts between the Issuer and the participants.

The interest crediting rates of the fully benefit-responsive contracts may vary from participant to participant. The crediting rates are based on an agreed-upon formula with the Issuer, as defined in the contract agreement. The guaranteed annual interest rate is 3 percent for all premiums remitted since 1979 under the RA, GRA, and GSRA contracts and is between 1 and 3 percent for the RC and RCP contracts. Such interest rates are reviewed on a periodic basis and may, from time to time, have a new rate substituted for the one in the current certificate. A new rate will apply only to benefits arising from any premiums, additional amounts, and internal transfers applied to the TIAA Traditional Annuity while such rate schedule is in effect and will not affect any benefits purchased prior to the change, as defined in the contracts. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers, and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contract.

TIAA Stable Value

The TIAA Stable Value is a group annuity contract issued by TIAA that invests in a nonunitized separate account of TIAA. The TIAA Stable Value is considered benefit responsive and is presented at contract value. Contract value represents principal invested, plus interest earned, less any withdrawals.

The contract issuers maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Notes to Financial Statements

January 1, 2025 and December 31, 2024

Note 5 - Investment Valuation and Fair Value Measurements (Continued)

Interest is credited on contract balances using a vintage approach. Under this methodology, TIAA groups the dollars it receives over defined time periods into vintages and determines a crediting rate for the applicable vintage. Interest crediting rates are determined during the accumulation phase of the applicable declaration year. When establishing interest crediting rates for this product, TIAA considers many factors, including the net investment earnings rate of the TIAA assets supporting that vintage, administrative expenses during the time period, and required contingency reserves. The minimum crediting rate for the benefit-responsive contracts is generally 3 percent; however, in some recent contracts, it has been between 1 and 3 percent.

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days, or in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

Self-directed Brokerage Accounts

The Plan allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include various investments in publicly traded securities, which are valued at the quoted prices reported in active markets.

The Plan has excluded certain assets from the statement of net assets available for benefits at December 31, 2024 (see Note 4). The following tables present information about the included plan assets measured at fair value on a recurring basis at December 31, 2024:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2024

Note 5 - Investment Valuation and Fair Value Measurements (Continued)

The table below presents a reconciliation of all investments measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the year ended December 31, 2024. The related Level 3 investment was not sold during the year; rather it was transferred to the Lurie Children's Medical Group, Inc. 403(b) Plan effective January 1, 2025 (see Note 9).

	TIAA Traditional Annuity
Balance - January 1	\$ 5,723,539
Purchases	3,946,122
Sales and settlements	(1,081,491)
Balance - December 31	<u>\$ 8,588,170</u>

Quantitative Information about Level 3 Fair Value Measurements

The following tables summarize the valuation methods and inputs used to determine fair value at December 31, 2024 for assets measured at fair value on a recurring basis using unobservable inputs (Level 3 inputs):

	Fair Value at December 31, 2024	Valuation Technique	Significant Unobservable Inputs Used	Range (Weighted Average)
TIAA Traditional Annuity	\$ 8,588,170	Discounted cash flow		
		Theoretical transfer (exit value)	Risk-adjusted discount rate applied (1)	RA: 3.65% - 6.50% GRA: 3.65% - 6.50% TPA: 3.65% - 6.50%

(1) Unobservable inputs include discount rate applied.

Oversight of the retirement assets of the Plan is the joint responsibility of plan management, the Plan's investment consultant, and the investment committee. The investment advisor analyzes performance of the TIAA-CREF investment vehicles. On a quarterly basis, the investment advisor reports on the performance of the TIAA-CREF investments to management and the investment committee. This includes performance versus benchmark, asset allocation within the investment, and performance versus peers.

Note 6 - Party-in-interest Transactions

A party in interest is defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. All plan assets are in investment funds managed by TIAA-CREF or their affiliates. Additionally, TIAA-CREF uses TIAA Trust, N.A. as the custodian of the TIAA-CREF mutual funds and their underlying assets. TIAA-CREF is a service provider of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. Certain administrative functions are performed by officers or employees of the Organization. No such officer or employee receives compensation from the Plan.

Certain other expenses of the Plan are paid by the Organization.

January 1, 2025 and December 31, 2024

Note 7 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated August 7, 2017. The Plan has not individually sought its own determination letter.

Note 8 - Rights upon Plan Termination

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA.

Note 9 - Plan Merger

Effective January 2025, the Plan merged with the Lurie Children's Medical Group, Inc. 403(b) Plan. Accordingly, all assets, participants, and their related account balances were transferred to the Lurie Children's Medical Group, Inc. 403(b) Plan.
