Independent Auditor's Report

Plan Administrator
Constellium Muscle Shoals LLC 401(k) Plan
Muscle Shoals, Alabama

Opinion on the 2023 Financial Statements

We have audited the financial statements of Constellium Muscle Shoals LLC 401(k) Plan (Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statement of net assets available for benefits as of January 4, 2023 and the related statement of changes in net assets available for benefits for the period then ended, and the related notes to the financial statements (the 2023 Financial Statements).

In our opinion, the accompanying 2023 Financial Statements present fairly, in all material respects, the net assets available for benefits of the Plan as of January 4, 2023, and the changes in its net assets available for benefits for the period ended January 4, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2023 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2023 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2023 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2023 Financial Statements

Our objectives are to obtain reasonable assurance about whether the 2023 Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Auditor's Report on the 2022 Financial Statements

Predecessor auditors performed an audit of the 2022 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 10, 2023 indicated that (a) the amounts and disclosures in the 2022 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Constellium Muscle Shoals Group Savings and Investment Plan for Salaried Employees
Notes to Financial Statements
January 4, 2023 and December 31, 2022

Note 1. Unaudited Information Certified by the Trustee and Former Trustee

The following description of the Constellium Muscle Shoals Group Savings and Investment Plan for Salaried Employees (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan; originally effective as of April 1, 1999, was restated effective as of March 1, 2022. The Plan provides retirement benefits to participants and their beneficiaries. All salaried employees of Constellium Muscle Shoals, LLC (CMS) who were employed at the inception date of the Plan were eligible as of such date. Effective August 1, 2016, Constellium Metal Procurement, LLC (CMP) adopted the Plan. All other covered employees of CMS and CMP (collectively, the "Company") are eligible after they have completed one (1) month of service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended. All investment programs are fully participant-directed. The Board of Trustees is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Effective January 1, 2023, the Plan was merged into a related plan sponsored by the Company's ultimate parent, Constellium US Holdings I, LLC (Parent), as part of a Plan to harmonize the defined contribution plans offered for its subsidiaries. All assets of the Plan were liquidated to cash as of December 31, 2022 in advance of the expected plan merger. Effective January 1, 2023, all participants in the Plan became participants in the Constellium Retirement Plan (Successor Plan) and as of January 4, 2023, all assets of the Plan were transferred to the Successor Plan.

The following description of the Plan discusses provisions in place through the merger date.

Contributions

Each year, participants may contribute between 1% and 75% of their annual compensation, as defined in the plan. Participants may designate these contributions be treated as pre-tax, after-tax, or Roth contributions; however, the aggregate amount may not exceed statutory limits as defined annually by the Internal Revenue Code (IRC). The plan adopted a provision for automatic enrollment, whereby pre-tax contributions shall commence in an amount equal to 6% of annual compensation for all employees who become eligible employees on or after the effective date of this provision, unless the employee makes an affirmative election otherwise. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions in accordance with IRC limits. Participants may also contribute amounts representing distributions from other qualified plans, in accordance with plan provisions.

The company makes a regular matching contribution equal to 50% of pre-tax and Roth contributions, up to the first 6% of annual compensation that a participant contributes to the plan.

In addition to its regular matching contribution, the company, in its discretion, may make an additional discretionary matching contribution to the plan. The amount, as determined by the company in a non-discriminatory manner, shall be equal to a uniform percentage of the pre-tax and Roth contributions made on behalf of each eligible employee for the plan year.

Constellium Muscle Shoals Group Savings and Investment Plan for Salaried Employees
Notes to Financial Statements
January 4, 2023 and December 31, 2022

The company makes a nonelective contribution, which is expressed as a percentage of annual compensation based on the employee's age determined as of the last day of the plan year, on behalf of each of its eligible employees. The nonelective contribution is expressed as follows:

<u>Age on the Last Day of the Plan Year</u>	<u>Allocation Rate</u>
Less than 30 years	3%
At least 30, but fewer than 40 years	4%
At least 40, but fewer than 50 years	5%
At least 50, but fewer than 60 years	6%
60 or more years	7%

In addition to its nonelective contribution, the company may, in its discretion, make an additional discretionary nonelective contribution to the plan in an amount determined by the company. Additional discretionary nonelective contributions shall be allocated to each eligible employee based on the ratio that his compensation bears to the total compensation for all such eligible employees for the plan year. There were no additional discretionary nonelective contributions made in 2022 or 2021.

The company, in its discretion, may make a qualified nonelective contribution to the plan in an amount determined by the company. Any qualified nonelective contributions shall be allocated among eligible employees, other than highly compensated employees, based on the ratio that his "test compensation", as defined by the plan, bears to the total "test compensation" for all such eligible employees for the plan year.

No contributions were made to the Plan in 2023, as all contributions attributable to participants subsequent to January 1, 2023 were made to the Successor Plan subject to the harmonized provisions.

Participant Accounts

Each participant's account is credited with the participant's contributions and company contributions, as well as allocations of plan earnings and any discretionary company contributions. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the company's contribution is based on years of continuous service. A participant's vested interest is 0% until the participant has completed three (3) years of vested service at which time his vested interest is 100% in all company contributions, except for his vested interest in his qualified nonelective contributions that is at all times 100%.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 7.25%, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are repaid ratably over the term of the loan, which generally do not exceed five (5) years. For loans initiated prior to January 1, 2022, payments will continue via payroll deduction until the loan has been paid in full. For loans initiated on or after January 1, 2022, payments will be made via ACH or coupon. Effective July 15, 2020, a participant may not have more than one (1) outstanding loan at any time, except that loans that are used for purchasing a participant's principal residence shall not be considered in applying this limitation. Loans that originated prior to the effective date were grandfathered under this amendment.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump sum amount or in annual installments. In lieu of receiving a lump-sum cash distribution, the participant may elect to have all, or any portion paid directly to an eligible retirement plan through a direct rollover. Unless the participant elects a later date, distribution of his vested interest shall commence no later than sixty (60) days after the close of the plan year in which the latest of the following events occur: (i) the participant's normal retirement date, (ii) the tenth anniversary of the year in which the participant commenced participation, or (iii) the participant's termination date.

For participants who have not separated from service, the plan allows for non-hardship and hardship withdrawals, subject to plan provisions and regulatory limitations.

Forfeitures

Forfeitures result from termination of employment under circumstances whereby the participant was not fully vested in their company contributions. Forfeitures will be used to reduce future company contributions to the extent they are not first used to offset administrative expenses of the plan. Forfeitures are also used to reinstate previously forfeited account balances of former participants. As of December 31, 2022, forfeited nonvested accounts totaled \$406,834. Forfeited nonvested accounts were transferred to the Successor Plan.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation or depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Constellium Muscle Shoals Group Savings and Investment Plan for Salaried Employees
Notes to Financial Statements
January 4, 2023 and December 31, 2022

Expenses

Effective January 1, 2013, the Plan established a plan expense account that will be credited each quarter with 0.10% of average eligible Plan assets invested in the Plan. This account will be used to pay administrative expenses of the Plan. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Fees paid by the Plan for investment management services are included as a reduction of the return earned on each fund. Any expenses of maintaining the Plan that are paid directly by the company are excluded from these financial statements.

Subsequent Events

The plan has evaluated subsequent events through November 25, 2025, the date the financial statements were available to be issued.

Note 3. Information Prepared and Certified By The Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Prudential Bank & Trust, FSB:

	<u>2023</u>	<u>2022</u>
Investments, at fair value		
Mutual funds	\$ -	\$ 52,626,986
Pooled separate accounts	-	14,563,631
Self-directed brokerage accounts:		
Mutual funds	-	21,161
Common and preferred stocks	-	2,695,488
Partnership interests	-	77,792
Cash	-	526,273
Notes receivable from participants	-	1,942,717

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;

Constellium Muscle Shoals Group Savings and Investment Plan for Salaried Employees
Notes to Financial Statements
January 4, 2023 and December 31, 2022

inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

Pooled Separate Accounts

Fair value is determined by prices published daily by the account manager, which are determined by the fair value of the underlying securities in the accounts.

Common and Preferred Stocks

Valued at the closing price reported on the active market on which the individual securities are traded.

Partnership Interests

Valued at the closing price reported on the active market on which the individual securities are traded.

Cash

Valued at cost, which approximates fair value.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022:

	Assets at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 52,648,147	\$ -	\$ -	\$ 52,648,147

Constellium Muscle Shoals Group Savings and Investment Plan for Salaried Employees
Notes to Financial Statements
January 4, 2023 and December 31, 2022

Note 5. Related Party and Party-In-Interest Transactions

Certain plan investments are managed by Prudential Bank & Trust, FSB. Prudential Bank & Trust, FSB is the Trustee, as defined by the plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment.

Note 6. Tax Status

The Plan obtained its latest determination letter on December 4, 2020, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the plan, and has concluded that as of January 4, 2023 and December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
