Independent Auditors' Report

To the Plan Administrator
Plexus Scientific Corporation Employee Stock Ownership Plan
Alexandria, Virginia

Opinion

We have audited the accompanying financial statements of Plexus Scientific Corporation Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Plexus Scientific Corporation Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Plexus Scientific Corporation Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Plexus Scientific Corporation Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Independent Auditors' Report (continued)

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Plexus Scientific Corporation Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Plexus Scientific Corporation Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Independent Auditors' Report (continued)

Other Matter - Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Plexus Scientific Corporation Employee Stock Ownership Plan

Notes to Financial Statements

- 1. Description of the Plan** The following description of the Plexus Scientific Corporation Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Plexus Scientific Corporation (the "Company") who have completed at least 1,000 hours of service during a Plan year, except for employees covered by a collective bargaining agreement. Employees may enter the Plan on the last day of the month subsequent to satisfying the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, the Company makes contributions to the Plan at the discretion of the Company's Board of Directors. In addition, the Company contributes amounts necessary to pay benefits to participants. Participants must complete at least 600 hours of service during the Plan year and be active on the last day of the Plan year to receive an allocation of the Company's contributions. Participants who retire, become disabled, or die during the Plan year are also eligible to receive an allocation of the Company's contributions. The Plan does not permit any contributions from its participants. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with an allocation of Company contributions, if any, Plan earnings (losses) and forfeitures of terminated participants' non-vested accounts, if any. Allocations of contributions and forfeitures, if any, are based on the ratio of the participant's eligible compensation to total eligible compensation for the Plan year, as defined in the Plan document. Allocations of Plan earnings (losses) are based on account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Vesting in the Company contributions is based on years of continuous service of at least 1,000 hours per Plan year. A participant is 25 percent vested after two years of service is completed, and vests an additional 25 percent per year until full vesting after five years. Additionally, if an active participant reaches retirement, dies, or becomes disabled, that participant becomes fully vested in the allocated account.

Forfeited accounts: Forfeited nonvested accounts are allocated to remaining participants on an annual basis. Forfeitures allocated to remaining participants for the year ended December 31, 2024 totaled 221.2361 shares of Company stock.

Plexus Scientific Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Payment of benefits: Benefits are payable upon retirement after reaching the later of age 65 or five years of participation, disability, death, or termination of employment. Distributions due to retirement, death and disability shall commence no later than the subsequent Plan year. Distributions due to termination shall commence no later than the sixth Plan year following the termination. Benefits are payable in lump sum or substantially equal annual installments over a period not exceeding five years.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent.

Administrative expenses: For Plan year ended December 31, 2024, all expenses of maintaining the Plan are paid by the Company. Transaction expenses, such as distribution administration fees, may be charged directly to the participant's account. There were \$1,055 of charges for the Plan year ended December 31, 2024.

Voting rights: Participants will be entitled to exercise voting rights attributable to the shares of Company stock allocated to their accounts in the Plan with respect to certain major corporate matters, such as mergers, consolidations, sale of all assets, or the liquidation of the Company. The Plan Trustees vote on all other corporate matters.

2. Significant accounting policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Plexus Scientific Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the independent appraiser. See Note 4 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Net depreciation includes the Plan's gains and losses on investments held during the year.

The Plan's sole investment consists of 60,000 shares of Company stock as of December 31, 2024 and 2023.

Payment of benefits: Benefits are recorded when paid.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events: The Plan has evaluated subsequent events for disclosure in these financial statements through December 5, 2025, which is the date the financial statements were available to be issued.

3. Investment

Information concerning the Plan's nonparticipant-directed investment in the Company's common stock as of December 31, 2024 and 2023, and for the year ended December 31, 2024 is as follows:

	<u>2024</u>	<u>2023</u>
Number of shares	<u>60,000</u>	60,000
Cost	<u>\$ 7,200,000</u>	\$ 7,200,000
Fair value	<u>\$ 3,379,800</u>	\$ 3,682,800
Unrealized depreciation in fair value	<u>\$ 303,000</u>

- 4. Fair value measurements** The Plan reports its assets at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2024 and 2023.

The Plan's investment in shares of the Company's common stock is reported at its fair value as determined by an independent appraiser retained for this purpose by the Plan's trustee. The independent fair value appraisal is dependent upon historical and forecasted operations of the Company as represented by management, and general industry and market conditions affecting the Company's business. The fair value appraisal was determined using a combination of the asset, market and income approaches. Within the asset approach, the net asset value method was used. Within the market approach, the guideline company method was used. Within the income approach, the discounted cash flow method was used.

Plexus Scientific Corporation Employee Stock Ownership Plan

Notes to Financial Statements

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value of assets is as follows:

Assets at Fair Value as of December 31, 2024				
	Level 1	Level 2	Level 3	Total
Company common stock	\$ -	\$ -	\$ 3,379,800	\$ 3,379,800

Assets at Fair Value as of December 31, 2023				
	Level 1	Level 2	Level 3	Total
Company common stock	\$ -	\$ -	\$ 3,682,800	\$ 3,682,800

The table below sets forth a summary of changes in fair value of the Plan's level 3 investment assets for the year ended December 31, 2024:

Beginning balance	\$3,682,800
Unrealized loss relating to instruments still held at the reporting date	(303,000)
Ending balance	\$3,379,800

Plexus Scientific Corporation Employee Stock Ownership Plan

Notes to Financial Statements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value 12/31/2024	Fair Value 12/31/2023	Principal Valuation Technique	Significant Unobservable Inputs
Company common stock	\$ 3,379,800	\$ 3,682,800	Asset Market & Income	EBITDA Discounted cash flows Capitalization of cash flow Projected cash flow Discount factor Discount for lack of marketability Book value Comparability with similar companies Value invested capital

5. Risks and uncertainties

The Plan investments consist of the Company's common stock, which is exposed to various risks, such as interest rate, market and credit risk, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the values of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

6. Tax status

The Internal Revenue Service ("IRS") has determined and informed the Plan administrator by letter dated September 13, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended and restated since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Plexus Scientific Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

- 7. Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.
- 8. Subsequent amendment and restatement**

The Plan was amended and restated effective June 3, 2025. No significant Plan provisions were affected by the amendment and restatement.
