INDEPENDENT AUDITOR'S REPORT

Board of Trustees of the
Rosalind Franklin University of Medicine and Science
403(b) Tax Deferred Annuity Plan

Opinion on the 2024 Financial Statements

We have audited the financial statements of Rosalind Franklin University of Medicine and Science 403(b) Tax Deferred Annuity Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of January 1, 2024, and the related statement of changes in net assets available for benefits for the one-day period ended January 1, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of January 1, 2024, and the changes in its net assets available for benefits for the one-day period then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2024 financial statements.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

(Continued)

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Auditor's Report on the 2023 Financial Statements

We performed an audit of the 2023 financial statements of Rosalind Franklin University of Medicine and Science 403(b) Tax Deferred Annuity Plan . In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, our audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. In our report dated October 15, 2024, we indicated that in our opinion (a) the amounts and disclosures in the 2023 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2023 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

403(b) TAX DEFERRED ANNUITY PLAN
NOTES TO FINANCIAL STATEMENTS
January 1, 2024 and December 31, 2023

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Rosalind Franklin University of Medicine and Science 403(b) Tax Deferred Annuity Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a 403(b) tax deferred annuity plan covering eligible employees of the Rosalind Franklin University of Medicine and Science ("the University"). Employees are eligible to participate in the Plan, upon commencement of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Effective January 1, 2024 the Plan was merged into the Rosalind Franklin University of Medicine and Science 403(b) Plan.

Contributions: Participants may make voluntary pretax and Roth contributions as a percentage of compensation, as defined in the plan document, through periodic payroll deductions. Maximum contributions are limited by applicable Internal Revenue Service (IRC) regulations. There are no employer contributions made to this Plan.

Rollover Contributions: A participant, including a participant no longer employed by the University, may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant's Accounts: Each participant's account is credited with the participant's contribution and allocations of Plan earnings and charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant contributions, earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions to their accounts plus actual earnings thereon.

Plan Loans: Participants are permitted to obtain loans directly from TIAA. The loan agreements with TIAA require a portion of the participant's account balance in the Plan to serve as collateral for the loan, sufficient to cover 110% of the outstanding loan balance in the event of default. The amount of Plan assets pledged as collateral for loans issued to participants by TIAA and CREF at December 31, 2023, was \$68,052.

Benefits: Payments of benefits are made to participants or their beneficiaries upon death, retirement, disability, or termination of employment. Benefits are payable in a Qualified Joint and Survivor Annuity, annuities allowed under the funding vehicle contracts, installments, and lump-sum payments. Participants are able to take in-service withdrawals upon attainment of age 59 ½ or for financial hardship.

Administrative and Investment Management Expenses: Substantially all administrative expenses are paid by the University. Investment management fees are charged to the Plan as a reduction of investment return and included in the net appreciation (depreciation) reported by the Plan.

Plan Transfer: Effective January 1, 2024 the Plan was merged into the Rosalind Franklin University of Medicine 403(b) Plan and net assets of \$70,428,881 were transferred out of the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accounts of the Plan are maintained, and the financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition: The Plan's investments other than fully benefit responsive investment contracts are reported at fair value. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contract, because contract value is the amount Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes, and actual amounts may differ from those estimates.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks, as well as risks associated with global events. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to change in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participants' individual account balances.

Payment of Benefits: Benefits are recorded when paid.

NOTE 3 – 2023 CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying 2023 financial statements, including investments and notes receivable from participants held at December 31, 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) (collectively TIAA and CREF) including TIAA as agent for TIAA Trust, N.A.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan as of December 31, 2023.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Variable Annuities: The fair values of the Plan's investments held in variable annuity accounts are determined by obtaining quoted prices on the NASDAQ Stock Market (Level 1 inputs).

Traditional Investment Contracts (not fully benefit-responsive): The TIAA Traditional Annuity Contracts are individual guaranteed fixed annuity investment contracts issued by TIAA ("Issuer"). Due to certain liquidity restriction provisions, certain contracts within the TIAA Traditional Annuity contract held by the Plan are not fully benefit-responsive and, accordingly, are measured at fair value. TIAA and Plan management have determined contract value to be the most reasonable estimate of fair value for these contracts. Contract value equals the contributions deposited into the contracts, plus interest credited to the contracts, less contract withdrawals, and it reflects the value at which participant transactions are executed under the contracts. The fair values of the Plan's investment contracts have been estimated by TIAA by discounting the projected cash flows using risk-adjusted market discount rates which correlate closely with TIAA Traditional Annuity's historical interest crediting rates (generally 3% for current premiums on accumulating annuities, but in some recent contracts between 1% and 3% and provide the potential for additional interest as declared by TIAA's discretion). The contract values are guaranteed by TIAA. Based upon recent credit ratings for TIAA, management believes no adjustment to contract value is required related to credit quality. Since investment contracts are not transferable, there is no market from which to obtain observable market prices for the contracts held by the Plan or comparable contracts (level 3 inputs). During the period ended January 1, 2024, there were no purchases or participant redemptions of these level 3 investments held by the Plan.

NOTES TO FINANCIAL STATEMENTS
January 1, 2024 and December 31, 2023

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The Plan administrator reviews and evaluates the TIAA Traditional Annuity contract valuation methodology and assumptions provided by TIAA on an annual basis as of the Plan's financial statement date. The plan administrator then presents TIAA's fair value estimate and documentation of its applicable valuation methodology and assumptions for the contracts to the Plan's Retirement Plan Committee for its approval of the valuation estimate.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements as of December 31, 2023 Using			
	(Level 1)	(Level 2)	(Level 3)	Total
Mutual funds	\$ 30,947,226	\$ -	\$ -	\$ 30,947,226
Variable annuity accounts	21,724,700	-	-	21,724,700
Traditional investment contract**	-	-	2,405,686	2,405,686
Total	\$ 52,671,926	\$ -	\$ 2,405,686	\$ 55,077,612

** Not fully benefit-responsive

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents quantitative information about recurring Level 3 fair value measurements at December 31, 2023:

	Fair Value at December 31, 2023	Valuation Technique	Significant Unobservable Inputs	Range of Input
TIAA Traditional Annuity	\$ 2,405,686	Discounted cash flow	Risk-adjusted discount rate applied	RA – 4.00% - 6.75%

The significant unobservable inputs used in the fair value measurement of the Plan's investment in TIAA Traditional Annuity Contracts are the discount rates and the projected interest crediting rates. Based upon historical TIAA Traditional Annuity's crediting rates, the discounted cash flows analysis assumes that the risk-adjusted market discount rates approximate the future interest crediting rates under the contracts. Accordingly, changes in these rates have directly offsetting impacts upon the fair value estimate of these contracts.

(Continued)

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Substantially all administrative fees are paid by the Plan's sponsor.

In 2023, certain plan investments are mutual funds, variable annuities, and individual fixed annuity contracts offered by TIAA and CREF, the Plan's service provider, therefore, these transactions qualify as party-in-interest transactions. In 2023, investment management fees charged to the Plan as a reduction of investment returns qualified as party-in-interest transactions. Certain professional fees for the administration and audit of the Plan were paid by the University.

In 2023, TIAA and CREF received revenue from investment providers for services TIAA and CREF provides to the funds. TIAA and CREF in turn periodically funds the Plan with a revenue credit. These transactions are considered parties-in-interest transactions.

NOTE 6 - TIAA TRADITIONAL INDIVIDUAL FIXED ANNUITY ACCOUNTS

In 2023, the Plan held fully benefit-responsive investment contracts through its investment holdings in the TIAA Traditional Account (TIAA; Issuer). The TIAA Traditional Individual Fixed Annuity Contracts are individual guaranteed fixed annuity investment contracts issued by TIAA. Within the TIAA Traditional Individual Fixed Annuity Contracts are six types of contracts available to participants: the Retirement Annuity (RA), the Group Retirement Annuity (GRA), the Retirement Choice (RC), the Supplemental Retirement Annuity (SRA), the Group Supplement Retirement Annuity (GSRA), and the Retirement Choice Plus (RCP). Each of these contracts has unique provisions and qualities. There are certain liquidity restrictions on the RA, GRA, and RC contracts. Participants with RA, GRA, and RC contracts have certain restrictions over the availability of lump-sum withdrawals from the contracts as well as over the number of installments in which participant-initiated transfers and participant-initiated withdrawals are made. Based on these provisions, the RA, GRA, and RC contracts are considered to be non-fully benefit-responsive. As there are no comparable restrictions over the SRA, GSRA and RCP contracts, those contracts are considered fully benefit-responsive. Participants in the Plan hold investments in both non-fully benefit-responsive and fully benefit-responsive contracts through the TIAA Traditional Account.

For both the fully benefit-responsive and the non-fully-benefit responsive contracts within the TIAA Traditional Account, TIAA maintains the contributions in its general account. TIAA's general account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the Issuer or otherwise.

(Continued)

NOTE 6 - TIAA TRADITIONAL INDIVIDUAL FIXED ANNUITY ACCOUNTS (Continued)

All investment contracts through the TIAA Traditional Account are directly between TIAA and the participants. Benefit payments from the contracts are paid as an annuity or a lump-sum, as defined in the contracts and as elected by the participant upon meeting the eligibility requirements. There are no conditions specified in any of the contracts under which participant withdrawals and transfers would be restricted or made at a value other than contract value or the annuity or lump-sum benefit, as defined in the contracts. The contracts do not provide any provisions that would allow the Issuer to terminate the contracts between the Issuer and the participants.

The crediting interest rates of the fully benefit-responsive contracts may vary from participant to participant. The crediting rates are based on an agreed-upon formula with the Issuer, as defined in the contract agreement. The guaranteed annual interest rate is 3% for all premiums remitted since 1979 under the RA, GRA, SRA and GSRA contracts and is between 1% and 3% for the RC and RCP contracts. Such interest rates are reviewed on a periodic basis and may from time to time have a new rate substituted for the one in the current certificate. A new rate will apply only to benefits arising from any premiums, additional amounts, and internal transfers applied to the Traditional Annuity while such rate schedule is in effect and will not affect any benefits purchased prior to the change, as defined in the contracts. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contract.

The Plan's value of assets held in these fully benefit-responsive contracts are an accumulation of many individual contracts between participants and TIAA. These various contracts may have many different effective crediting rates.

NOTE 7 - TAX STATUS

The Internal Revenue Service issued an opinion letter dated October 7, 2020 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions by the Plan, and has concluded that as of January 1, 2024 and December 31, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions and currently, there are no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2021.

NOTE 8 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 15, 2025, which is the date the financial statements were available to be issued.
