INDEPENDENT AUDITOR'S REPORT

To the Trustee and Management
COCM Holdings, Inc. and
Participants of COCM Employee Stock Ownership Plan
Birmingham, Alabama

Opinion

We have audited the accompanying financial statements of COCM Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the period ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in its net assets available for benefits for the period ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

COCM Employee Stock Ownership Plan Notes to Financial Statements

Note 1: DESCRIPTION OF PLAN

The following description of the COCM Holdings, Inc. (the Company or Plan Sponsor) Employee Stock Ownership Plan (the Plan) provides only general information. Refer to the Plan Document for complete description of Plan provisions.

General

The Company established the Plan effective July 31, 2024. The Plan operates as an employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is a defined contribution plan covering all full-time employees of the Company. The Plan entered into a trust agreement (the Trust) with an appointed Trustee during 2024. The Plan was retroactively amended with an effective date as of January 1, 2024.

On July 31, 2024, the Trust purchased 1,000,000 shares of the Company's common stock with a loan of \$22,500,000. The common stock is held in a trust established under the Plan.

The Trust issued to the Company a promissory note in the total amount of \$22,500,000. The note has a 20-year term and requires annual principal and interest payments of \$1,723,705. Interest is payable at a rate equal to 4.61%. The loan matures on December 31, 2043.

The borrowing is collateralized by the unallocated shares of stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of and for the period ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to (1) the accounts of participants with rights in allocated stock (Allocated) and (2) stock not yet allocated to participants (Unallocated).

The Plan is administered by the Retirement Committee comprised of one or more individuals appointed by the Company's Board of Directors. Blue Ridge Associates LLC began providing third party administrator services for the Plan, including certain plan administration effective as of July 31, 2024 for the Plan period ended December 31, 2024.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan.

The Plan's assets, which consist principally of COCM Holdings, Inc. common shares, are held by the Plan Sponsor. Company contributions are managed by the Plan Sponsor, who invests cash received, as well as any interest and dividend income and makes distributions to participants.

COCM Employee Stock Ownership Plan Notes to Financial Statements

Note 1: DESCRIPTION OF PLAN (Continued)

Eligibility

Employees of the Company and its participating subsidiary are eligible to participate in the Plan after 1 year of service or earlier in certain rehire situations. For the 2024 Plan year, participants who do not have at least 1 year of service during the Plan year or have not completed 500 hours of service during the Plan year are not eligible for an allocation of Company contributions for the year. For Plan years beginning on or after January 1, 2025, participants who have completed a year of service during the Plan year and are actively employed on the last day of the Plan year due to retirement, total and permanent disability, or death shall share in the allocation of contributions for that Plan year.

Contributions

Each year, eligible participants receive a contribution from the Company. The amount is discretionary and is determined on an annual basis by the Company's Board of Directors. During the period ended December 31, 2024, the Company approved a contribution totaling \$1,701,455. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with allocations of (a) the Company's discretionary contributions and (b) the Plan earnings (less any administrative expenses). Allocation of the discretionary contribution is based on the participants' compensation as a percentage of total covered compensation. Allocation of Plan earnings is based on the participant's account balance as a percentage of the total account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. As of December 31, 2024, there were 950,614 unallocated shares.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants are 20 percent vested after one year of service and incrementally increases by 20 percent each year of service until the participant reaches 100 percent vested after five years of service.

Benefit Payments

No distributions from the Plan will be made until a participant retires, dies (in which case payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company and its participating subsidiary, or the participant uses the diversification provision available under the Plan.

COCM Employee Stock Ownership Plan Notes to Financial Statements

Note 1: DESCRIPTION OF PLAN (Continued)

Benefit Payments (Continued)

If the total vested value of a participant account exceeds \$1,380,000, distribution will be made in substantially equal annual installments over a period of five (5) years. Notwithstanding the foregoing, the period over which distribution of a participant's account is to occur may be increased by one year, up to five additional years, for each \$275,000 (or fraction thereof) by which the total vested value of the Participant's Accounts exceeds \$1,380,000. The aforementioned dollar amounts shall be subject to cost-of-living adjustments as prescribed by the Secretary of the Treasury.

For the period ended December 31, 2024, there were no benefit payments made to participants.

Voting Rights

Each participant is entitled to direct the Trustee on how to vote the shares of Company stock allocated to his or her account and is notified by the trustee prior to the time that such voting rights are to be exercised. The Trustee shall vote any shares as to which no voting instructions have been received or which are held in a loan suspense account, if applicable, at the direction of the Retirement Committee, subject to its fiduciary duties under ERISA. In all other circumstances, the trustee shall vote all shares of Company stock as directed by the Administrator.

Forfeitures

The non-vested portion of a participant's account will be forfeited and redistributed to the remaining participants in the Plan in accordance with the provisions described in the Plan document. Forfeitures of terminated non-vested account balances allocated to remaining participants during 2024 were \$0. As of December 31, 2024, there were no unallocated forfeitures.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants that is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock.

The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

COCM Employee Stock Ownership Plan Notes to Financial Statements

Note 1: DESCRIPTION OF PLAN (Continued)

Diversification

A diversification option is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified.

Participants who are at least 55 years old with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify can elect to receive a cash distribution or may transfer the appropriate portion of their account to the Company's 401(k) Profit Sharing Plan, which offers other investment options.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Financial Accounting Standards Board (FASB) provides authoritative guidance regarding U.S. GAAP through the Accounting Standards Codification (ASC) and related Accounting Standards Updates (ASUs).

Use of Estimates

The preparation U.S GAAP financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company are valued at fair value on December 31, 2024. Fair value is determined by an annual independent appraisal. Increases or decreases in the appraised fair value of investments held at the end of the year are reflected in the statements of changes in net assets available for benefits as appreciation (depreciation) in the fair value of investments. Realized gains or losses on the sale of investments are recorded based on the difference between the proceeds and the fair value of investments at the beginning of the Plan year. The basis of the investment is determined by the specific identification method. Investment income is recognized when earned.

See Note 4 for a discussion of fair value measurements.

COCM Employee Stock Ownership Plan Notes to Financial Statements

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Distributions to participants are recorded when paid.

Administrative Expenses

Expenses attributable to the general Plan administration were paid by the Plan and allocated among the accounts of all participants, in proportion to their account balances, unless paid by the Employer.

Risk and Uncertainties

As of December 31, 2024, approximately 100% of the Plan's total assets were invested in the common shares of COCM Holdings, Inc. The underlying value of the shares is entirely dependent on the performance of COCM Holdings, Inc. and the independent appraiser's evaluation of such performance.

It is reasonably possible that changes in the estimated fair value of COCM Holdings, Inc.'s common shares could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued, October 8, 2025, and determined there were no events that occurred that require disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

COCM Employee Stock Ownership Plan Notes to Financial Statements

Note 3: INVESTMENTS

The following presents the Plan's investment at:

<i>December 31,</i>	2024		
	Allocated	Unallocated	Total
Sponsor Company common shares			
Number of shares	49,386	950,614	1,000,000
Fair value per share	\$ 2.43	\$ 2.43	
Cost	\$ 1,111,195	\$ 21,388,805	\$ 22,500,000
Fair value	\$ 120,009	\$ 2,309,991	\$ 2,430,000

On July 31, 2024, the Plan acquired 1,000,000 shares of the Company's common stock for \$22,500,000 at a value of \$22.50 a share. The shares were acquired in a leveraged transaction involving an ESOP loan. The appraised value per share was \$2.43 per share as of December 31, 2024.

Note 4: FAIR VALUE MEASUREMENTS

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs, other than quoted prices, that are:
 - observable; or
 - can be corroborated by observable market data.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

COCM Employee Stock Ownership Plan Notes to Financial Statements

Note 4: FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024.

Company common shares: The fair value of the Company stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques. The appraiser took into account historical and projected cash flow and net income, market comparables, lack of marketability, weighted average cost of capital, discount rate, and estimated fair value of Company assets and liabilities.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different valuation methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

Description	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total
December 31, 2024				
Company common stock	\$ -	\$ -	\$ 2,430,000	\$ 2,430,000

COCM Employee Stock Ownership Plan Notes to Financial Statements

Note 4: FAIR VALUE MEASUREMENTS (Continued)

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the period ended December 31, 2024:

	Company Common Stock
Balance, beginning of period	\$ -
Purchase of 1,000,000 shares of COCM Holdings, Inc. stock	22,500,000
Net depreciation in fair value of investments	(20,070,000)
Balance, end of period	\$ 2,430,000

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation (depreciation) in fair value of investments in the statement of changes in net assets available for benefits.

Note 5: CONTRIBUTIONS

The Company is obligated to make cash contributions to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its notes payable, as shown in note 8, and fund any distribution amounts. The Board of Directors authorized contributions of \$1,701,455 for the period ended December 31, 2024.

For the period ended December 31, 2024, \$516,395 was applied to principal payments, and \$711,261 was applied to interest payments.

Note 6: TAX STATUS

The Plan has submitted a letter dated March 3, 2025 to the Internal Revenue Service (IRS) for an initial qualification of the Plan and the exempt status of its related trust under sections 401(a) and 501(a) of the Internal Revenue Code (IRC) of 1986, as amended. The Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

COCM Employee Stock Ownership Plan Notes to Financial Statements

Note 6: TAX STATUS (Continued)

Tax positions are recognized only if it is “more likely than not” that the tax position be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount that is greater than 50% likely of being realized on examination. For tax positions not meeting the "more likely than not" test, no tax position is recorded. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7: RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are in COCM Holdings, Inc. stock and, therefore, these transactions qualify as part-in-interest transactions.

Certain expenses of the Plan, including legal and accounting fees, are paid by the Plan Sponsor. In addition, certain services to the Plan by the Plan Sponsor were performed at no charge.

Note 8: NOTE PAYABLE

On July 31, 2024, the Plan entered into a \$22,500,000 term loan agreement with the Company at an interest rate of 4.61%. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of current year payments divided by the total of that year's payments, plus all future years' principal and interest payments. This resulted in approximately 49,386 shares being released and allocated for the Plan period ended December 31, 2024. The Plan agreement provides for the loan to be repaid over 20 years.

Minimum debt obligation of the ESOP note payable is as follows as of December 31, 2024:

For the years ending December 31,

2025	\$ 1,205,902
2026	765,853
2027	801,159
2028	838,092
2029	876,728
Thereafter	17,495,871
Total	\$ 21,983,605

COCM Employee Stock Ownership Plan Notes to Financial Statements

Note 9: PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination, the interest of each participant in the trust fund would be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRS Code. Accounts of participants would become nonforfeitable. Upon termination of the Plan, the Administrator would direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan, if applicable.
