Report of Independent Auditors

To the Administrative Committee
Sidwell Friends School Tax Deferred Annuity Plan
Washington, DC

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the accompanying financial statements of Sidwell Friends School Tax Deferred Annuity Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) audit. The financial statement comprise the statements of net assets available for benefits as of February 11, 2025 and December 31, 2024, and the related statement of changes in net assets available for benefits for the period ended February 11, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Sidwell Friends School Tax Deferred Annuity Plan's financial statements performed in accordance with ERISA section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the periods ended February 11, 2025 and December 31, 2024, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section –

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Sidwell Friends School Tax Deferred Annuity Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Sidwell Friends School Tax Deferred Annuity Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Sidwell Friends School Tax Deferred Annuity Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sidwell Friends School Tax Deferred Annuity Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Sidwell Friends School Tax Deferred Annuity Plan
Notes to Financial Statements
February 11, 2025 and December 31, 2024

Note 1 - Description of Plan

The following description of Sidwell Friends School Tax Deferred Annuity Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a tax deferred annuity plan effective May 1, 1979 covering substantially all full time employees of Sidwell Friends School (the "Company") with no age or service requirement. Entry dates are the first day of each month. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was restated effective January 1, 2018. The Plan was amended for the CARES Act and the SECURE 2.0 Act provisions on July 12, 2022. Effective February 11, 2025, all plan assets were transferred to the Sidwell Friends School Defined Contribution Retirement Plan.

Contributions

The Plan is a qualified contribution plan established under the provisions of Internal Revenue Code ("IRC") Section 403(b) covering substantially all eligible employees electing to participate. The employees may contribute to the Plan up to the IRC limit annually. Participants may make Roth contributions and those who have attained age 50 before the end of the Plan years are eligible to make catch-up contributions. Other qualified plan contributions can be rolled into the Plan. The employee contributions are subject to ERISA limitations.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings. Allocations are based on account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Each participant's account is divided into sub-accounts known as a voluntary contribution account, and where applicable, a rollover contribution account.

Investment options

Upon enrollment in the Plan, participants may direct the custodian of the Plan as to the investment of their account balances in accordance with guidelines established by the Plan.

Participant Loans

Participants may borrow a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. Loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined annually. Principal and interest are paid ratably through payroll deductions. The loans are owned by TIAA and CREF, and the participant account balances used as collateral on the loans.

The contract loans are not shown in the Plan's statements of net assets available for benefits as the loans were not made from plan assets and are therefore not considered assets of the Plan. Loan interest rates were variable at prevailing interest rates and can be increased or decreased by TIAA. Principal and interest are paid ratably by the participant directly to TIAA. A default will be assessed against the portion of the loan collateral used to foreclose on all or part of any loan. No new contract loans are being issued after 2020.

The contract loan balances were \$-0- and \$2,617 at February 11, 2025 and December 31, 2024, respectively.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon.

Note 1 - Description of Plan (continued)

Payment of benefits

On termination of service, a participant may elect either lump sum, installment payments, annuity, or ad hoc distribution. Inservice distributions are allowed at age 59 ½. Hardship distributions are allowed if requirements are met.

Note 2 - Summary of Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with generally accepted accounting principles in the United States.

Investment valuation and income recognition

The Plan's investments are recorded at fair value. Shares of mutual funds and pooled separate accounts, managed by TIAA and CREF, are based on quoted market prices, which represent the net asset value of shares held by the Plan at periods-end. The fixed annuity contract non-benefit responsive is recorded at fair value. Participant loans are valued at their outstanding balances, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

As described under FASB ASC 962-325-35 "*Plan Accounting – Defined Contribution Pension Plans*", the Plan values all fully-benefit responsive contracts at fair value, which is contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Notes receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued unpaid interest. Delinquent participant notes are classified as distributions based upon the terms of the plan document. Interest income on participant notes receivables is recognized in the period in which it is earned and is recorded as interest income on the statements of changes in net assets available for benefits.

Payment of benefits

Benefits are recorded when paid.

Expenses

Some of the administrative expenses are paid by the Company. Certain transaction fees are paid by the Plan.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Note 2 – Summary of Accounting Policies (continued)

Credit risk

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 3 - Fair Value Measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include</p> <ul style="list-style-type: none"> • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at February 11, 2025. The presentation of investments valued based on the net asset value per share practical expedient has changed in accordance with accounting standard update ASU 2015-07.

Registered investment accounts: Valued at quoted net assets values of the shares actively traded on the market and held by the Plan at periods-end.

Pooled separate accounts: Net asset value as reported by the insurance company based on the value of the underlying assets as a practical expedient.

Fixed annuity contracts: Net asset values of insurance company general accounts are obtained from the insurance company and are based on quoted prices and account balances of the underlying assets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of February 11, 2025 and December 31, 2024:

	Total Fair Value	Fair Value Measurement Using:		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Other investments valued at net asset value	3,005,946	-	-	-
Total investments	\$ 37,177,445	\$ 34,171,499	\$ -	\$ -

Investments measured at net asset value above are presented using the net asset value per share practical expedient. In accordance with ASU 2015-07 and Subtopic 820-10, certain investments that are measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Investments measured using the net asset value per share practical expedient

The following table summarizes investments for which fair value measured using the net asset value per share practical expedient as of February 11, 2025. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Note 4 – Investment in insurance company general account

The Plan has a benefit-responsive investment contract in an insurance company general account. The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contribution purchases a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant’s principal, plus a specified minimum rate of interest, is guaranteed by TIAA’s claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA’s Board of Trustees. Additional interest, when declared, remains in effect for the declaration years, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. The crediting interest rate was three percent at February 11, 2025 and December 31, 2024. Lump sum withdrawals are available within 120 days of termination of employment and are subject to a 2.5% surrender charge. All other withdrawals and transfers from contracts must be spread over ten annual installments (five annual installments for withdrawals after termination of employment). When a participant’s accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statements of changes in net assets available for benefits. The contract value of the benefit responsive portion was \$-0- and \$7,315,534 at February 11, 2025 and December 31, 2024. The Plan Loan Default Fund, which represents the collateral associated with defaulted loan plans, is also classified as a benefit-responsive investment contract in an insurance company general account. The balance in the fund was \$-0- and \$231 at February 11, 2025 and December 31, 2024.

Certain events limit the Plan's ability to transact at contract value. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

Note 5 – Plan Termination

The Company has initiated termination of the Plan effective February 11, 2025. In connection with the termination, the Plan merged into the Sidwell Friends School Defined Contribution Retirement Plan, a related plan sponsored by the Company. Upon termination, participants will become 100% vested in their accounts.

Notes to Financial Statements
February 11, 2025 and December 31, 2024

Note 6 – Plan to Plan Transfer

The Sidwell Friends School Tax-Deferred Annuity Plan was merged into the Sidwell Friends School Defined Contribution Retirement Plan. In connection with the merger, the Plan transferred \$43,354,315 in net assets to the Sidwell Friends School Defined Contribution Retirement Plan, representing all assets of the Plan as of the transfer date. Following the transfer, the Plan ceased operations and no assets remained.

Note 7 – Tax Status

The Internal Revenue Service is currently not issuing determination letters on 403(b) plans. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of February 11, 2025 and December 31, 2024 no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits or any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2022.

Note 8 – Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds and pooled separate account funds managed by the Trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the custodian for investment management services amounted to approximately \$81 for the period ended February 11, 2025.

TIAA and CREF provide certain administrative services to the Plan pursuant to a Service Agreement between the Company and TIAA and CREF. TIAA and CREF receives revenue from investment service providers for services TIAA and CREF provide to the funds. Plan servicing credit income shared through TIAA and CREF for the period ended February 11, 2025 totaled \$4,000.

The Plan sponsors, owners, and key management are also participants in the Plan. Their account balances totaled approximately 0% and 2% of the net assets available for benefits as of February 11, 2025 and December 31, 2024.

Note 9 – Financial Information Certified by the Custodian of the Plan

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at February 11, 2025 and December 31, 2024, and net appreciation (depreciation) in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the periods ended February 11, 2025 and December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF, (the trustees of the Plan).

Note 10 – Prohibited Transaction

During the prior plan year, the Sidwell Friends School Defined Contribution Plan paid certain administrative fees on behalf of the Sidwell Friends School Tax-Deferred Annuity Plan. This activity constituted a prohibited transaction under Internal Revenue Code Section 4975.

The Defined Contribution Plan and the Tax-Deferred Annuity Plan were merged. As part of the merger process, available funds from the Sidwell Friends School Tax-Deferred Annuity Plan were applied to offset the prior administrative fees paid by the Defined Contribution Plan, utilizing remaining plan servicing credit income.

As a result of the prohibited transaction, an excise tax of \$2,370 became due. Management filed, or intends to file, Form 5330, Return of Excise Taxes Related to Employee Benefit Plans, and remit the excise tax to the Internal Revenue Service.

No prohibited transactions occurred during the current plan year.

Note 11 – Subsequent Events

The Plan has evaluated subsequent events through December 1, 2025 the date the report is available for issuance. Automatic enrollment and immediate eligibility were implemented as part of the plan merger.
