Independent Auditors' Report

To the Plan Administrator and Participants of
Autoneum North America, Inc. Carpet Retirement Plan for Salaried Employees
Farmington Hills, MI

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Autoneum North America, Inc. Carpet Retirement Plan for Salaried Employees (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023 and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplementary Schedules Required by ERISA

The supplementary Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule of Reportable Transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplementary schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary schedules, we evaluated whether the supplementary schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplementary schedules, other than the information in the supplementary schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplementary schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Autoneum North America, Inc. Carpet Retirement Plan for Salaried Employees

Notes to the Financial Statements

December 31, 2024 and 2023

Note 1 – Description of the Plan

The Plan's sponsor is Autoneum North America, Inc. (formerly Magee Rieter Systems) (the "Company"). The following description of Autoneum North America, Carpet Retirement Plan for Salaried Employees (formerly The Magee Rieter Systems Retirement Plan for Salaried Employees) (the "Plan") provides only general information. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a noncontributory defined benefit plan covering substantially all salaried employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Funding Policy

The Company's contribution is actuarially determined. All Company contributions are expressly conditioned upon the deductibility under Section 401 of the Internal Revenue Code and the funding requirements under ERISA. Contributions were made to the Plan in the amount of \$96,962 for the year ended December 31, 2024 and \$211,355 for year ended December 31, 2023, which met the minimum funding requirements of ERISA.

Compensation

For the purposes of the Plan, "compensation" is the participant's earnings for the plan year, beginning with W-2 wages for federal income tax withholding purposes including 401(k) and similar contributions, but subject to the Code section 401(a)(17) dollar limitation. Certain exclusions apply to eligible compensation as outlined in the plan document. Compensation excludes wages payable after employment termination under a severance agreement and wages earned after December 31, 2006.

Pension Benefits

Benefit accruals under this Plan were frozen effective December 31, 2006. The frozen benefit is determined as follows:

If the participant retires as of his normal retirement date, his monthly pension will equal 1/12 of the greatest of:

Formula I:

- 0.8% of average annual compensation not in excess of the Social Security integration level multiplied by years of benefit service as a salaried employee, plus
- 0.45% of average annual compensation in excess of the Social Security integration level multiplied by years of benefit service as a salaried employee,
- 0.75% of average annual compensation multiplied by years of benefit service as an hourly employee.

In the case of a participant with at least one hour of service on or after January 1, 1989 who first became a participant in this Plan on or before January 1, 1976, all service credited before January 1, 1976 shall be treated as salaried employee service.

Formula II:

- The accrued benefit, if any, the participant would have received under this Plan if he had terminated employment on December 31, 1988 and earned no hours of service thereafter.

Autoneum North America, Inc. Carpet Retirement Plan for Salaried Employees

Notes to the Financial Statements

December 31, 2024 and 2023

Formula III:
The sum of:

- The participant's accrued benefit as of December 31, 1993, based on his years of benefit service and average annual compensation as of that date; plus
- The participant's accrued benefit based on his years of benefit service credited after December 31, 1993 and average annual compensation determined after December 31, 1993.

The amount payable under this Plan will be reduced by the amount payable under the Hourly-Paid Plan with respect to years of benefit service taken into account under both plans, provided the benefit under the Hourly-Paid Plan is not reduced due to the benefit payable under this Plan.

The Plan was frozen effective December 31, 2006 and, as such, no new or additional participants shall be added to the Plan subsequent to December 31, 2006 and no additional benefits shall be accrued by any participant in the Plan with respect to any period of service, compensation, or any other factor after December 31, 2006. In the event the present value of a participant's accrued benefits is less than \$7,000, a lump sum distribution is the only payment option available.

The Plan periodically offers lump sum distributions. Notice is provided to participants with information on the amount of lump sum distribution they are entitled to and the timeframe in which they have the ability to request such a distribution. No such offerings were made during the years ended December 31, 2024 or 2023.

Death and Disability Benefits

Death and disability benefits are also offered under the Plan at amounts determined by the Plan provisions.

Vesting

A participant terminating after the completion of 5 years of service is entitled to a benefit payable at age 65.

Form of Benefit

Participants may elect to receive benefits in the form of a lifetime pension, lifetime pension with guaranteed period, joint and survivor pension, or lump sum payment if certain conditions are met as defined in the plan agreement.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Reclassifications

Certain amounts in the prior year's financial statements have been reclassified to conform to the current year's presentation. These reclassifications had no effect on the changes in net assets available for benefits or the net assets available for benefits as previously reported.

Cash

Cash represents amounts held in demand deposit accounts with financial institutions. These balances are available for immediate use by the Plan and are not invested in any interest-bearing instruments or classified as cash equivalents. The Plan may maintain cash balances in excess of federally insured limits. Management believes the Plan is not exposed to significant credit risk with respect to these balances.

Contributions Receivable

Contributions receivable consist of employer contributions receivable. No allowance was recorded as the full

Autoneum North America, Inc. Carpet Retirement Plan for Salaried Employees

Notes to the Financial Statements

December 31, 2024 and 2023

balance is deemed collectible.

Payment of Benefits

Benefits are recorded upon distribution.

Investment Valuation and Income Recognition

All investments in the plan are non-participant directed. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, Plan management determines the Plan's valuation policies utilizing information provided by the Plan's investment adviser and custodians. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to actuarial fees, custodial fees, plan administration, investment advice, audit fees, and other miscellaneous fees are charged directly to the Plan and are included in administrative expenses on these financial statements. Certain other expenses, such as for recordkeeping and general administration are included in investment income and paid through revenue sharing (indirect compensation). Investment-related expenses are included in investment income.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through December 9, 2025, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under US GAAP are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Autoneum North America, Inc. Carpet Retirement Plan for Salaried Employees
Notes to the Financial Statements
December 31, 2024 and 2023

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Classification within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds – valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission (SEC). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market - valued at the outstanding balance, which is the best estimate of fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023.

	Fair Value Measurements at Reporting Date Using			
	Fair Value	Level 1	Level 2	Level 3
<u>December 31, 2024</u>

Money market	99,984	99,984	-	-
	\$ 8,184,500	\$ 8,184,500	\$ -	\$ -

Note 4 – Related-Party Transactions and Party-In-Interest Transactions

Certain plan investments are managed by Vanguard Fiduciary Trust Company (Vanguard) and Vanguard is the custodian and record-keeper of the Plan. These transactions qualify as party-in-interest transactions.

The Plan made payments to Vanguard, third party administrator and record-keeper, relating to withdrawals, record-keeping, and general plan administration. Direct fees incurred by the Plan for these services totaled \$11,944 and \$11,956 during the years ended December 31, 2024 and 2023 and additional fees are netted with investment income and paid through revenue sharing (indirect compensation).

The Plan made payments to CapFinancial Partners, LLC for investment advisory services. Direct fees incurred by the Plan for these services totaled \$6,118 and \$6,138 during the years ended December 31, 2024 and 2023.

Notes to the Financial Statements
December 31, 2024 and 2023

The Plan made payments to Conrad Siegel Actuaries for actuarial services. Direct fees incurred by the Plan for these services totaled \$18,450 and \$17,500 during the years ended December 31, 2024 and 2023.

The Plan made payments to Berger, Gherzi & LaDuke, PLC, the plan's former auditor, totaling \$0 and \$8,325 during the years ended December 31, 2024 and 2023 to cover a portion of the audit fees.

Note 5 – Certified Investments

Certain information in the accompanying financial statements and ERISA-required supplementary schedule related to investments as of December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments, dividends, and interest for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Vanguard Fiduciary Trust Company, a qualified institution.

Note 6 – Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 8, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the letter, however, the plan administrator and the Plan's tax counsel believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Accumulated Plan Benefits

As of January 1, 2024, the dates of the most current valuations, the actuarial present values of accumulated plan benefits are as follows:

Vested benefits:

Participants currently receiving payments	\$ 5,350,958
Participants entitled to deferred benefits - vested former members	815,497
Other participants	1,212,167
	7,378,622

Non-vested benefits:

Total actuarial present value of accumulated plan benefits	\$ 7,378,622
------------------------------------------------------------	--------------

Autoneum North America, Inc. Carpet Retirement Plan for Salaried Employees
Notes to the Financial Statements
December 31, 2024 and 2023

The change in the actuarial present value of accumulated plan benefits from the previous benefit information is as follows:

Present value of accumulated benefits at prior valuation date	\$ 7,468,529
Changes during the year due to:	
Benefit payments	(701,937)
Net benefits accumulated	80,408
Increase for interest	531,622
Net change	(89,907)
Present value of accumulated plan benefits at current valuation date	\$ <u>7,378,622</u>

Note 8 – Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an independent actuary (Conrad Siegel) and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant assumptions used in the valuation as of January 1, 2024 were:

Mortality:	IRS 2024 Static table; incorporated into the table are rates projected using the methodology in regulation 1.430(h)(3)-1 and Scale MP-2021 to reflect mortality improvement.
Interest rate:	7.50% for ASC 960 calculations
Effective rate of interest:	5.03% for ERISA funding calculations
Assumed retirement age:	Participants are assumed to retire at normal retirement age, or age on valuation date, if greater.
Plan expenses:	Expected expenses are determined by trending the prior year's non-PBGC premium expenses and adding the anticipated PBGC premium paid by the plan for the current year.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuations been performed as of December 31, there

Autoneum North America, Inc. Carpet Retirement Plan for Salaried Employees

Notes to the Financial Statements

December 31, 2024 and 2023

would be no material differences.

Note 9 – Plan Termination

Effective December 31, 2006, the sponsor elected to freeze the plan. However, no resolution has been made to terminate the Plan at this time.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following provisions to be applied to allocated benefits:

1. The interest of all affected participants to benefits accrued to the date of such termination or partial termination will become fully vested and non-forfeitable to the extent funded.
2. After the payment of any expenses, taxes or charges of the Trustee, will be allocated among the participants and their beneficiaries, if any, in the order of precedence set forth in Section 4044(a) of ERISA and the regulations promulgated thereunder.
3. The Company may, subject to the requirements of applicable law, direct that the Trustee (a) continue the Trust in existence or purchase specified annuity contracts, or may direct any combination of the foregoing.

Benefits to be provided via contracts under which the sponsor is obligated to pay the benefits would be excluded for allocation purposes.

If the plan does not have enough money to pay all benefits, the law specified the general manner and order that plan assets will be distributed. If this happens, the plan assets will be used up on a priority basis to provide retirement income for plan participants.

The PBGC monthly maximum guaranteed benefit for a 65-year-old retiree was \$7,108 and \$6,750 for 2024 and 2023, respectively. PBGC premiums of \$37,357 and \$75,290 and were paid out of the Plan during 2024 and 2023, respectively, and are included in administrative expenses.

Note 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value is reported, based on certain assumptions pertaining to interest rates, inflation rates, and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Note 11 – Delinquent Filing of Form 5500

The Plan's 2024 Form 5500 was filed by the extended due date of October 15, 2025, however, an Accountant's Opinion, audited financial statements or accompanying footnotes was not attached.

As of December 9, 2025, the U.S. Department of Labor (DOL) has yet to send the plan administrator a notice of rejection for the Plan's 2024 Form 5500 Annual Report due to the failure to attach this information.

Notes to the Financial Statements
December 31, 2024 and 2023

Any potential penalties imposed by the DOL related to this delinquent submission of Form 5500 Annual Report would be paid by the plan sponsor and not out of plan assets.

Note 12 – Subsequent Event

Effective March 2025, plan assets were transferred from Vanguard Fiduciary Trust Company to Charles Schwab Trust Bank.

Autoneum North America, Inc. Carpet Retirement Plan for Salaried Employees
EIN: 52-1162115
Plan Number: 008

Autoneum North America Inc. Carpet Retirement Plan for Salaried Employees
Actuarial Valuation as of January 1, 2024

Summary of Plan Provisions

Autoneum North America Inc. Carpet Retirement Plan for Salaried Employees is a defined benefit pension plan that was established January 1, 1976 and was last amended and restated effective as of January 1, 2015. The plan year begins January 1 and ends December 31.

Eligibility To Participate

Participation under this Plan was frozen effective September 1, 2005 with respect to employees with a first day of employment on or after that date.

An employee became a participant in the Plan on the first day of the month following his first day of employment, provided he was a member of the following eligible class of employees:

- NOT a union employee covered by the Union of Needletrades, Industrial and Textile Employees (UNITE), AFL-CIO, Local 1700
- Paid on a salary basis, not an hourly basis
- Not a leased employee
- Employed in the automotive or corporate divisions, or
- Employed by Magee/Glanz Carpet Company (a former division of the employer).

Normal Retirement Benefit

Normal Retirement Date

A participant is eligible for his normal retirement pension as of the first day of the month on or after the participant satisfies the following condition: Attainment of age 65.

Normal Retirement Benefit

The normal retirement pension is payable monthly as long as the participant lives, with payments ceasing upon the participant's death.

Normal Retirement Pension Formula

Benefit accruals under this Plan were frozen effective December 31, 2006. The frozen benefit is determined as follows:

If the participant retires as of his normal retirement date, his monthly pension will equal 1/12 of the greatest of:

Formula I

- 0.8% of average annual compensation not in excess of the Social Security integration level multiplied by years of benefit service as a salaried employee, plus
- 0.45% of average annual compensation in excess of the Social Security integration level multiplied by years of benefit service as a salaried employee,
- 0.75% of average annual compensation multiplied by years of benefit service as an hourly employee.

Autoneum North America Inc. Carpet Retirement Plan for Salaried Employees
Actuarial Valuation as of January 1, 2024

Summary of Plan Provisions

In the case of a participant with at least one hour of service on or after January 1, 1989 who first became a participant in this Plan on or before January 1, 1976, all service credited before January 1, 1976 shall be treated as salaried employee service.

Formula II

The accrued benefit, if any, the participant would have received under this Plan if he had terminated employment on December 31, 1988 and earned no hours of service thereafter.

Formula III

The sum of:

- The participant's accrued benefit as of December 31, 1993, based on his years of benefit service and average annual compensation as of that date; plus
- The participant's accrued benefit based on his years of benefit service credited after December 31, 1993 and average annual compensation determined after December 31, 1993.

The amount payable under this Plan will be reduced by the amount payable under the Hourly-Paid Plan with respect to years of benefit service taken into account under both plans, provided the benefit under the Hourly-Paid Plan is not reduced due to the benefit payable under this Plan.

Social Security Integration Level

The Social Security integration level equals the average of the taxable wage bases over the 35-year period ending with the year the participant is entitled to full Social Security benefits.

"Average monthly compensation" means the participant's monthly compensation averaged over the 60-consecutive-year period which produces the highest average in the last 180 consecutive months.

Average Annual Compensation

These 60 months are divided into five 12-consecutive month earnings periods. If the participant is credited with less than the employer's standard number of hours of service for an earnings period, the average earnings for the 12-month period will be multiplied by a fraction, the numerator of which is the participant's actual hours of service for the period and the denominator of which is the employer's standard number of hours for that period. The participant's final average earnings will be the result obtained by adding the five adjusted annual plan earnings for the participant and dividing such sum by five.

Compensation

For the purposes of the Plan, "compensation" means the participant's earnings for the plan year. The Plan takes into account W-2 wages for federal income tax withholding purposes including 401(k) and similar contributions, but subject to the Code section 401(a)(17) dollar limitation. Compensation excludes wages payable after employment termination under a severance agreement and wages earned after December 31, 2006.

The Plan does not take into account:

Autoneum North America Inc. Carpet Retirement Plan for Salaried Employees
Actuarial Valuation as of January 1, 2024

Summary of Plan Provisions

- Bonuses
- Overtime
- Commissions
- Company stock or stock options
- Educational assistance payments
- Unused vacation pay
- Compensation while on sick leave or short-term disability
- Opt-out bonus for waiver of coverage under employer group health plan
- Deferrals under or distributions from a nonqualified deferred compensation plan
- Expense allowances or reimbursements
- Taxable fringe benefits (including group term life insurance in excess of \$50,000, auto insurance)

Accrued Benefit

The accrued benefit on any date other than the normal retirement date is determined according to the normal retirement pension formula, but based upon the participant's benefit service to date. Benefit accruals were frozen as of December 31, 2006.

Retirement Payment Options

A participant may elect to receive his monthly pension in one of these optional forms of payment:

- **Lifetime Pension**
- **Lifetime Pension with Guaranteed Period** with guaranteed payments for 120 months
- **Joint and Survivor Pension** with 75%, 66 2/3%, 50%, 33 1/3%, or 25% survivor annuitant pension. The 75%, 66 2/3% and 33 1/3% survivor annuitant options were eliminated effective September 1, 2005. The joint and 75% surviving spouse pension remains available.

If the present value of the vested pension does not exceed \$7,000, a lump sum is the only payment option. If the present value of the vested pension does not exceed \$1,000, the Plan will automatically distribute the benefit in cash if there is no election. If the present value of the vested pension is greater than \$1,000 but does not exceed \$7,000, the Plan will automatically roll over the benefit to an IRA if there is no election.

If the participant is married at the time payments are to begin, the automatic form of payment will be a Joint and 50% Survivor Pension with the spouse named as survivor annuitant. If the participant is not married at the time payments are to begin, the automatic form of payment will be a Lifetime Pension.

Employment after Retirement. If a participant in pay status returns to employment, retirement benefits will be suspended for each calendar month during which the employee completes at least 40 hours of service.

Summary of Plan Provisions

Other Retirement Benefits

Late Retirement

If a participant continues working after his normal retirement date, his pension will not commence until he actually retires. The late retirement benefit is equal to the participant's frozen accrued benefit.

Early Retirement

A participant is eligible for early retirement after attainment of age 55 and completion of 10 years of vesting service. The early retirement pension is the actuarial equivalent of the pension accrued to the date of early retirement.

Disability Benefit

The participant will be credited with years of benefit service while he is disabled and not working for the employer if he meets all of the following requirements as of the date he becomes disabled.

- Is actively employed
- Becomes disabled and remains so for six months
- Completes 5 years of vesting service

The Plan Administrator makes the determination whether the participant is disabled for Plan purposes based on whether or not the participant is eligible for payments under the employer's long term disability plan (LTD).

Years of benefit service will be credited while the participant is disabled. Service will be credited at a rate of 125 hours per month of LTD eligibility. Compensation for the purpose of determining the participant's normal retirement benefit will be his average annual compensation as of the date of disability.

Death Benefit

Preretirement Survivor Benefit

If a participant dies after he has become vested under the Plan but before he begins to receive a retirement pension benefit, his surviving spouse will receive a 50% survivor benefit if he has been married at least one year. Payment will begin on the date on which he first would have been eligible for retirement. The amount of his surviving spouse's benefit is equal to the 50% survivor benefit payable under the joint and 50% survivor pension option, based upon his vested accrued pension at the date of death and reduced for early commencement of benefits, if applicable. If the participant is not married or has not been married for a full year at the time of death, no benefit will be paid by the Plan.

Termination Of Employment Benefits

Vesting in Accrued Pension

If employment terminates other than by retirement, the amount payable from the Plan is based upon the following vesting schedule:

Autoneum North America Inc. Carpet Retirement Plan for Salaried Employees
Actuarial Valuation as of January 1, 2024

Summary of Plan Provisions

Years of Vesting Service	Vesting Percentage
0-4 Years	0%
5 or More Years	100%

Time of Payment

The participant may elect payment after his early retirement date, reduced to reflect the early commencement of benefits. No pension payment is available under the Plan prior to early retirement, disability, or death, with one exception. If the present value of the vested accrued benefit does not exceed \$7,000, the lump sum value can be paid following termination of employment. If the present value of the participant's vested accrued benefit does not exceed \$1,000, the Plan will automatically distribute the amount in cash, if the participant does not elect a rollover to an IRA or another qualified plan. If the present value of the participant's vested accrued benefit is greater than \$1,000 but does not exceed \$7,000 and the participant makes no election, the Plan will automatically roll over the present value of the vested accrued benefit to an IRA.

Forfeitures and Restoration

Forfeiture occurs when the participant terminates employment before being vested. If a participant terminates employment after he is 100% vested and receives a distribution of his accrued pension, he will be permitted to return his distribution to the Plan if he is reemployed during the restoration period. However, before repayment, in determining a participant's accrued benefit, the Plan will reduce the benefit by the accrued benefit previously distributed.

Postponed Credit for Prior Service

If a former participant is reemployed after a one-year break in service has occurred, his pre-break and post-break service shall be used for computing years of service for eligibility and vesting purposes only after he has been credited with one year of vesting service following the date of his reemployment with the employer.

Employee Contributions

Mandatory Employee Contributions

Mandatory employee contributions are no longer required under the Plan. Employee contributions are credited with interest equal to 120% of the federal mid-term rate. A participant's benefit can never be less than his accumulated employee contributions.

The participant may withdraw his accumulated employee contributions after he terminates employment.

Service Rules

Vesting Service Rules

A participant is credited with a year of vesting service for a plan year as determined under the following table, based on his hours of service for the plan year:

Hours of Service	Years of Vesting Service
Less than 75	0
Ratio of hours to 1,000	Fractional year
1,000	1 Year

Autoneum North America Inc. Carpet Retirement Plan for Salaried Employees
Actuarial Valuation as of January 1, 2024

Summary of Plan Provisions

Benefit Service Rules

A participant is credited with a year of benefit service for a benefit period as determined under the following table, based on his hours of service for the benefit period:

Hours of Service	Years of Benefit Service
Less than 75	0
Ratio of hours to 1,500	Fractional year
1,500	1 Year

The benefit period is the 12-month period coinciding with the plan year. For the purpose of determining years of benefit service, the Plan includes service credited under the Autoneum North America, Inc. Carpet Hourly-Paid Employees' Pension Plan (Hourly-Paid Plan), prior to participation under this Plan. However, effective for participants who first participate in this Plan on or after July 1, 1990, no service under the Hourly-Paid Plan will be credited until the participant is credited with 5 years of benefit service under this Plan. The Plan excludes the following service:

- Hours of service when the employee is not a member of the eligible class of employees.
- Hours of service credited under another plan sponsored by the employer, except as described with respect to the Hourly-Paid Plan.
- Hours of service after December 31, 2006.

Actuarial Equivalence

Actuarial equivalence is determined based on the following mortality and interest rate assumptions:

Mortality table:	1994 Group Annuity Reserving
Interest rate:	7%

Early Retirement – The accrued benefit is reduced by 1/15 for each of the first 5 years and 1/30 for each of the next 5 years by which the early retirement date precedes the normal retirement date.

Monthly Pension – As described in Appendix A.

Lump Sum – The distribution will be the greater of: (i) the amount calculated using the mortality table and interest rate stated above; or (ii) the amount calculated using the Code section 417 mortality table and the Code section 417 interest rates.

Code Section 417 Mortality Table

The Code section 417 mortality table is the Applicable Mortality Table released annually by the Internal Revenue Service.

Code Section 417 Interest Rates

The Code section 417 interest rates are the Transitional Segment Rates for the first month preceding the first day of the plan year that contains the annuity starting date.
