Independent Auditor's Report

To the Trustees
VW International, Inc. Employee Stock Ownership Plan

Opinion on the Financial Statements

We have audited the financial statements of VW International, inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 (in liquidation) and 2023 (ongoing), related statement of changes in net assets available for benefits for the year ended December 31, 2024 (in liquidation), and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, information regarding the net assets available for benefits of the VW International, Inc. Employee Stock Ownership Plan as of December 31, 2024 (in liquidation) and 2023 (ongoing), and the changes in its net assets available for benefits for the years ended December 31, 2024 (in liquidation) and 2023 (ongoing) in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Terminating Plan and Liquidation Basis of Accounting

As further discussed in Note 8 to the financial statements, all shares of the VW International, Inc. Employee Stock Ownership Plan were sold on December 6, 2024, as part of a Stock Purchase Agreement, when the plan sponsor, VW International, Inc. was sold. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting from the ongoing basis used in presenting the 2023 financial statements to the liquidation basis used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are issued or are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information Required By ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed on the table of contents, as of and for the year ended December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for reporting and disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

The Trustees
VW International, Inc. Employee Stock Ownership Plan

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, including its form and content, are presented in conformity with the DOL's Rules and Regulations for reporting and disclosure under ERISA.

In our opinion, the information in the accompanying supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's rules and regulations for reporting and disclosure under ERISA.

VW International, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Description of Plan

The following brief description of the VW International, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan Documents for a more complete description of the Plan's provisions. As more fully discussed in Note 8, during December 2024, VW International, Inc. was sold and the Plan is in liquidation.

General

VW International, Inc. (the Company) established the Plan effective January 1, 2011. The plan is designed to comply with section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) and is subject to the applicable provisions of the employee retirement income security act of 1974 (ERISA). The Plan is administered by a Plan Administrator who is appointed by the Company's Board of Directors. The trust department of an independent third-party bank is the trustee.

Employee Stock Ownership Plan

On December 29, 2011, the Plan purchased 250,000 shares of common stock of the Company using the proceeds from a loan from the Company and holds the common stock in a trust established under the plan. The ownership interest represents a non-controlling interest in the Company. The loan was repaid during 2020. As the Plan made each payment of principal, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with regulations under the IRC.

Eligibility

Employees of the Company or any participating affiliate or subsidiary are generally eligible to participate in the Plan as of the beginning of the plan year in which they meet the following eligibility requirements: have reached age 21; have completed 1,000 hours of service at the close of their first full 12 months of employment or during a subsequent plan year; and are not covered by a collective bargaining agreement. Eligible employees who were employed on December 29, 2011, automatically became participants as of January 1, 2011.

Contributions

Company contributions for any Plan year shall be in an amount determined by the Board of Directors in its sole discretion (which amount may be zero). Company contributions may be paid by the Company in cash or shares of Company stock, as determined by the Board of Directors.

In no event shall Company contributions for any plan year exceed the lesser of the maximum amount the Company is permitted to deduct as an expense on its federal income tax return or the maximum amount that may be credited for such plan year in accordance with individual maximum annual addition limitations as set forth in the internal revenue code.

Employee contributions are not permitted.

VW International, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Payments of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to the participant's beneficiary or, if none, their legal representatives), becomes permanently disabled or otherwise terminates employment with the Company or any participating affiliate or subsidiary. Distributions generally begin on the sixth year following the Plan year in which the participant terminates employment. Upon death, disability or retirement distributions generally begin the Plan year after the event and are paid in annual equal increments over a five-year period; or if the participant dies after payments have already begun, payments will continue to the beneficiary per the same payment schedule.

Under the provisions of the Plan, the Company and the Plan are obligated to repurchase participants' shares, which have been distributed under the terms of the Plan.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to their account with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all company assets. The trustee is permitted to vote any allocated shares for which instructions have not been given by a participant. On all other matters, the trustee is entitled to vote all shares of Company common stock held in the allocated accounts and to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution Plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation of all Plan participants eligible to receive an allocation during the Plan year.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account as follows:

<u>Years of Service</u>	<u>% Vesting</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

VW International, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

The Company's shareholders have elected for the Company to be taxed as an S corporation. Therefore, the participants will not have the right to elect to receive a distribution of their accounts in shares of company common stock.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are age 55 or older and have completed at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the cumulative company common stock account shares less any shares previously diversified. In the sixth year, the percentage changes to 50% (less amounts previously diversified). The trustee may offer alternative investments under the Plan or in another qualified Plan maintained by the Company in lieu of distributing to a participant directly.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeited nonvested accounts to be allocated to participant accounts in future years as of December 31, 2024, and 2023 were \$- and \$2,429, respectively.

Note 2. Summary of Significant Accounting Policies Basis of Accounting

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Plan considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

VW International, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

The shares of the Company stock are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The shares of company common stock are reported at estimated fair value. See note 8 for discussion of fair value measurements.

Net unrealized (depreciation) include the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Plan Management's Review of Subsequent Events

The Plan has evaluated subsequent events and transactions through December 15, 2025, the date the financial statements were available to be issued.

Note 3. Investments

The Plan had no investments at December 31, 2024. The Plan's investments, at December 31, 2023, are presented in the following table:

	2023
VW International, Inc. common stock	
Number of shares	204,137
Cost	\$ 4,695,151
Estimated fair value	\$ 563,417

VW International, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024, and 2023.

VW international, inc. common stock: the fair value of the Company's common stock held by the Plan is valued at fair value.

Based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation approaches consistent with prior years.

Registered investment company: the registered investment company includes a money market mutual fund that is valued at the net asset value of shares held by the Plan at year end and is deemed to be actively traded.

VW International, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2024 and 2023:

	2024	2023
Level 1:		
Money market mutual fund	\$ 476,536	\$ 61,881
Level 3:		
Investment in V W International, Inc. common stock	-	563,417
Total assets in the fair value hierarchy	476,536	625,298
Investments at fair value	\$ 476,536	\$ 625,298

Changes in Fair Value of Level 3 Assets

Certain changes in the fair value of the Plan's Level 3 assets include the repurchase of distributed shares, at prices determined from independent appraisal. During 2024, the Company repurchased 34,886 shares for \$96,285.

There have been no changes in the methodologies used at December 31, 2023.

The Company common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table:

	Fair Value December 31,		Valuation Method	Unobservable Inputs	2024 Rate Applied	2023 Rate Applied
	2024	2023				
VW International, Inc. common stock	\$ -	\$ 563,417	Discounted cash flow method	Weighted average cost of capital	N/A	17.0% to 18.0%
				Terminal growth rate	N/A	2.0%
				Discount for lack of marketability	N/A	5.0%
			Selected public company method	Last twelve month EBITDA	N/A	0.15x to 0.20x

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Company Dividends

The Company paid no dividends to the Plan for the year ended December 31, 2024. The Company paid \$15,879 in dividends to the Plan for the year ended December 31, 2023.

Notes to Financial Statements

Note 6. Related Party and Party-in-Interest Transactions

The Plan invests in Company common stock. This a related party and party-in-interest transactions. As described in Note 2, certain expenses may be paid by the Company. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

Note 7. Risk And Uncertainties

The Plan invests primarily in the Company's common stock which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the Company common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the Company common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Company common stock represented 96% of the Plan's investments as of December 31, 2023, as such, this represented a concentration of credit risk. There was no Company common stock held as of December 31, 2024.

Note 8. Termination of the Plan

In December 2024, the Company was sold. As part of the sale, all shares of the Company's common stock, owned by the ESOP were purchased. Contemporaneously with the consummation of the Stock Purchase, the ESOP was terminated. All assets of the Plan will be distributed to the participants and their beneficiaries, prior to December 31, 2025. Upon termination of the Plan, the administrative expenses of the Plan not paid directly by the Company will be paid out of the trust fund.

Note 9. Tax Status

The Plan has received a favorable determination letter from the Internal Revenue Service (IRS) dated September 24, 2013, stating that the Plan is qualified under the Internal Revenue Code (IRC) and, therefore the related trust is exempt from taxation. Once qualified, the Plan is required to operate in accordance with the IRC to maintain its qualification. The Pan has been amended since receiving the determination letter. However, Plan Management believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of The IRC therefore, the Plan administrator believes that the Plan was qualified, and the related trust was tax exempt as of the financial statements date.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
