Plan Administrator
Food Products Association Retirement Plan
Arlington, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Food Products Association Retirement Plan, an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023 (in liquidation), and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Food Products Association Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023 (in liquidation), stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Food Products Association Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion

Emphasis of Matter - Plan Termination and Liquidation Basis of Accounting

As discussed in Note 1 to the financial statements, the Board of directors of Food Products Association Retirement Plan approved a resolution to terminate the Plan during September 2023, and management determined liquidation is imminent. As a result, Food Products Association Retirement Plan used the liquidation basis of accounting used in presenting the 2023 and 2024 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Food Products Association Retirement Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Food Products Association Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Food Products Association Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of Plan

The following brief description of the Food Products Association Retirement Plan (Plan) is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Retirement Plan of the Consumer Brands Association (CBA), known as the Food Products Association Retirement Plan (the Plan), established January 1, 1944, and amended from time-to-time thereafter, is a noncontributory defined benefit pension plan established for the employees of CBA and its affiliate, the Consumer Brands Association Foundation (the Foundation). Effective September 1, 2021, the Foundation changed its name to the Consumer Brands Association Foundation. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

All accrued benefits under the Plan were frozen as of March 15, 2007, and no new participants are permitted to enter the Plan or accrue benefits under the Plan.

In September 2023, the Board of Directors of the Company approved a resolution to terminate the plan. On April 11, 2024, the Board resolved to make the plan termination effective June 30, 2024. Effective September 1, 2024, all participant liabilities of the Plan have been transferred to Midland National Life Insurance Company through the purchase of annuities. The Plan remained open for the payment of plan termination expenses through December 31, 2024.

Contributions

The Plan's policy is for the Company to fund amounts sufficient to provide retirement benefits specified under the Plan, as determined by the Plan's independent actuary. The Plan has met the ERISA minimum funding requirements for 2024 and 2023.

Benefits

Plan participants are entitled to pension benefits at the normal retirement age of 65. The Plan also permits early retirement between the ages of 55 and 64 if the participant has completed at least four years of service. Upon retirement, employees may elect to receive the value of their benefits in a lump-sum distribution or one of several types of annuities, payable monthly. Due to the termination of the plan and liquidation during the year ended December 31, 2024, participants were allowed to elect a lump sum payment as satisfaction of their retirement benefits or the purchase of an annuity through Midland National Life Insurance Company.

Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of vested benefits is equal to the value of the projected benefits payable at retirement, discounted back to the participant's current age.

**Food Products Association Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023 (in liquidation)**

Eligibility and Vesting

An employee under age 65 could become a participant in the Plan after the completion of 1,000 hours of service during a defined eligibility period. However, no employee who was not a participant in the Plan on March 15, 2007 may become a participant. Additionally, no service after March 15, 2007 was recognized in determining accrued benefits under the Plan. However, service after March 15, 2007 was recognized for purposes of determining vesting status. Eligible employees were fully vested after four years of service. Due to the plan termination all employees who were participants in the Plan as of June 30, 2024 were 100% vested in the plan.

Note 2. Significant Accounting Policies

Basis of Accounting

In September 2023, the Plan sponsor's Board of Directors elected to terminate the Plan, and such termination became effective June 30, 2024. With this election to terminate the Plan, the 2023 and 2024 financial statements are prepared on the liquidation basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, changes in net assets and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Directors determines the Plan's valuation policies utilizing information provided by the investment advisers, and custodian. See Note 6.

Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution or upon purchase of annuity with Midland National Life Insurance Company.

Forfeitures

Any forfeiture arising under the Plan shall be applied to reduce the required contributions to be made by the employer. There were no such forfeitures in 2024 or 2023.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan to the extent they are not paid by the Company. Investment-related expenses paid by the Plan are included in net appreciation (depreciation) in fair value of investments.

**Food Products Association Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023 (in liquidation)**

Note 3. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. Plan management has elected to terminate the plan in an orderly fashion in 2024.

For plan termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations discussed below
- d. All other vested benefits (that is, vested benefits not insured by the PBGC)
- e. All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Due to the Plan termination, the Plan has filed a form 500 with the PBGC to notify them of the termination.

Note 4. Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits, determined by an actuary, is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances — retirement, death, disability, and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

**Food Products Association Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023 (in liquidation)**

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits and changes in accumulated plan benefits as of and for the year ended December 31, 2024, are based upon actuarial valuations performed on January 1, 2024. Had the valuation been performed as of December 31 of the previous year, there would be no material differences.

The accumulated plan benefit information as of the beginning of the year is as follows:

	January 1, 2024
Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving payments	\$ 13,061,148
Other participants	2,109,719
	<hr/>
Total actuarial present value of accumulated plan benefits	\$ 15,170,867

Changes in the actuarial present value of accumulated plan benefits were as follows:

	January 1, 2024
Actuarial present value of accumulated plan benefits, January 1, 2024 and 2023	\$ 15,720,998
Increase (decrease) during the year attributable to	
Interest due to the decrease in the discount period	1,043,014
Benefits paid	(1,669,838)
Assumption changes (a)	(1,315)
Actuarial gain (loss)	78,008
	<hr/>
Actuarial present value of accumulated plan benefits, January 1, 2024 and 2023	\$ 15,170,867

- (a) A change in the expenses to reflect 2023 actual expenses for the plan and a change to the segmented interest rates and mortality rates as required by IRC section 430 for funding and reflecting ARPA stabilization.

The significant actuarial assumptions used in the valuation as of January 1, 2024, are as follows:

Life expectancy of participants	RP-2014 Mortality Table projected on a generational basis with MP 2021
Retirement age	Age 65
Rate of return	7.00%
Discount rate	5.00%

**Food Products Association Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023 (in liquidation)**

The foregoing actuarial assumptions are based on the presumption that the Plan will continue as determined by the beginning of year valuation of the plan, upon termination the purchase of annuities is different than the above pension obligation due to the additional activity accounted for during 2024 not included in the valuation report. The interest rates used to calculate actuarially equivalent lump sums have been updated for 2024.

Note 5. Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.1033-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Russell Investments Trust Company, a qualified institution, has certified that the following information included in the accompanying financial statements and ERISA-required supplemental schedule are complete and accurate:

- Investments, at fair value, as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023
- Investment income (loss) components, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023
- The information included in the supplemental schedule of reportable transactions for the year ended December 31, 2024

The Plan's independent auditors did not perform auditing procedures with respect to this investment information, except for comparing such investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy are described as follows:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

**Food Products Association Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023 (in liquidation)**

Investments held in common collective trust accounts are valued at net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. There are no participant redemption restrictions for these investments, and participant redemptions are allowed daily. A redemption notice period is applicable only at the plan level. There were no unfunded commitments at December 31, 2024 and 2023.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	Fair Value Measurements at Reporting Date Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2024				
Investments measured at net asset value (A)	\$ -	\$ -	\$ -	\$ -
Total	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
December 31, 2023				
Investments measured at net asset value (A)	\$ 16,074,914	-	-	-
Total	<u>\$ 16,074,914</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated August 18, 2020, stating that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Notes to Financial Statements
December 31, 2024 and 2023 (in liquidation)**

The Plan administrators applied for approval of the plan termination with the IRS as of December 31, 2024 they have not received the IRS approval of the plan to terminate.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect amounts reported in the statements of net assets available for benefits.

The Plan's contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Note 9. Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

All plan investments are shares of a comingled employee benefit fund trust managed by Russell Investments Trust Company. Russell Investments Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Company provides certain administrative services at no cost to the Plan.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Plan Name: Food Products Association Retirement Plan

EIN 530114930 / PN 333

Summary of Actuarial Methods

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. A plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that a plan will be adequately and systematically funded. Annual contributions are also affected by a plan's "asset valuation method" (as well as plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

Actuarial Cost Method

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's Normal Cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits. This method is prescribed for ERISA funding requirements by the Pension Protection Act of 2006.

Asset Valuation Method

The Actuarial Value of Assets used for determining the Plan's ERISA funding requirements is equal to the Market Value of Assets.

Amortization Method

For the Plan's ERISA funding requirements, incremental Funding Shortfall amounts are amortized over a fifteen-year period, and the related shortfall amortization payment is determined on the first valuation date following the plan year in which it arises based on the segment rates used for ERISA minimum funding purposes on that date, as prescribed under IRC Section 430.

Changes in Actuarial Methods Since Prior Valuation

None.

Form of Payment

50% of active participants are assumed to elect a lump sum distribution of their benefit and 50% are assumed to elect a single life annuity. 100% of deferred vested participants are assumed to elect a straight life annuity.

Lump-Sum Conversion Basis

For funding purposes, lump-sum distributions are valued using the annuity-substitution rule as described under 26 CFR 1.430(d)-1(f)(4)(iii). For ASC Topic 960, lump sums are actuarially equivalent to the normal retirement benefit using 2024 mortality under 417(e) and the segment rates below.

<u>Duration from Valuation Date</u>	<u>Rate</u>
0-4 years	5.50%
5-19 years	5.76%
20+ years	5.83%

Spouse's Benefit

75% of active participants were assumed to be married, with husbands assumed to be 3 years older than wives.

Expenses

Set equal to the administrative expenses paid by the plan in the prior year. For 2024 the expenses are assumed to be \$146,468.

Schedule SB, Part V – Summary of Plan Provisions
Plan Name: Food Products Association Retirement Plan
EIN 53-0114930 / PN 333

Summary of Principal Plan Provisions

This summary of plan provisions is intended to only describe the essential features of the Plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

A. Effective Date

January 1, 1944, with most recent restatement effective January 1, 2020.

B. Eligibility for Membership

First of the month after a 12-month period from the date of hire or any anniversary of that date in which 1,000 hours were worked. No employee who is not a member on March 15, 2007, can become a member.

C. Years of Service

Years of Service are the number of whole years and completed months spent in employment with the Association. Days of service in a month are rounded up to the next whole month. No service after March 15, 2007, will be recognized in determining Accrued Benefits in the Plan. Service after March 15, 2007, will be recognized for determining vesting status.

D. Average Final Compensation

Highest average consecutive 60 months of pay with the Association. Compensation is subject to the limitations of Internal Revenue Code Section 401(a)(17).

No compensation earned on or after March 15, 2007, will be recognized in the determination of Average Final Compensation.

E. Accrued Benefit

The sum of (1) and (2), where:

- (1) Base Accrual Percentage x Average Final Compensation, where the Base Accrual Percentage is the sum of:
 - 1.75% x Lesser of [Years of Service, 15],
 - 1.25% x Years of Service in Excess of 15 [limited to 15 total], and
 - 1.00% x Years of Service in Excess of 30
- (2) 0.65% x Larger of {0, Average Final Compensation less Covered Compensation} x Years of Service [limited to 30]

Benefit Accruals were frozen as of March 15, 2007.

F. Covered Compensation

The average of the Social Security Taxable wage bases for the 35 years ending in the year in which the participant attains Social Security retirement age. The wage base for years after the determination date is kept at the level in effect at the determination date.

For active members the determination date is frozen at March 15, 2007.

G. Normal Retirement

Eligibility	Age 65
Amount of Benefit	Accrued Benefit determined on Normal Retirement Date.

Schedule SB, Part V – Summary of Plan Provisions
Plan Name: Food Products Association Retirement Plan
EIN 53-0114930 / PN 333

H. Early Retirement

Eligibility Four years of service

Amount of Benefit Monthly pension benefit determined as of the earlier of March 15, 2007, and the participant's termination date. Calculated like Accrued Benefit at Normal Retirement Date but based on Average Final Compensation, Covered Compensation, and service at such early retirement date and substituting the following percentages for 1.75%, 1.25%, 1.00%, and 0.65%:

Number of Years From Retirement <u>Age to 65</u>	Percentage of Total Average Final Compensation			Percentage of Excess of Average Final Compensation Over Covered Compensation
	Years <u>0-15</u>	Years <u>16-30</u>	Years <u>30+</u>	
0	1.750%	1.250%	1.00%	Up to <u>30 Years</u> 0.650%
1	1.750	1.250	1.00	0.600
2	1.750	1.250	1.00	0.550
3	1.750	1.250	1.00	0.500
4	1.715	1.225	0.98	0.475
5	1.680	1.200	0.96	0.450
6	1.645	1.175	0.94	0.425
7	1.575	1.125	0.90	0.400
8	1.505	1.075	0.86	0.375
9	1.435	1.025	0.82	0.344
10	1.365	0.975	0.78	0.316

Benefits for early retirement before age 55 are actuarially equivalent to the benefit that would have been payable if payment were deferred to age 55.

I. Postponed Retirement

Eligibility Termination after age 65

Amount of Benefit Determined like normal retirement benefit. Continued accruals for Postponed Retirement service are recognized. All benefit accruals are frozen as of March 15, 2007.

J. Vested Benefit

Eligibility Four years of service

Amount of Benefit Accrued Benefit payable at Normal Retirement Date

K. Death Benefit

Eligibility Completed four years of service and was married for a one-year period ending on the date of death.

Amount of Benefit Spouse to receive monthly benefit for life computed as a 50% of the participant's Accrued Benefit at date of death with no reduction for early payment.

Schedule SB, Part V – Summary of Plan Provisions
Plan Name: Food Products Association Retirement Plan
EIN 53-0114930 / PN 333

L. Maximum Limit on Benefits

All benefits are subject to the maximum limits of Internal Revenue Code 415.

M. Normal Form of Income

Life Annuity

N. Optional Forms of Income

Actuarially equivalent to the normal form:

- (1) Joint and survivor annuity, with a percentage (50%, 75%, or 100%) of income continued to a contingent annuitant after Member's death
- (2) Life annuity with 60 monthly payments guaranteed upon early death
- (3) Life annuity with 120 monthly payments guaranteed upon early death
- (4) Lump-sum distribution

O. Changes Since Prior Valuation

The Plan has been amended to terminate effective June 30, 2024.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
