INDEPENDENT AUDITORS' REPORT

To The Plan Administrator
Bestcare, Inc. Employee Stock Ownership Plan
Bayshore, New York

Opinion on the 2024 Financial Statements

We have audited the accompanying financial statements of Bestcare, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Bestcare, Inc. Employee Stock Ownership Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2024 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) at December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

2023 Financial Statements

The financial statements of Bestcare, Inc. Employee Stock Ownership Plan as of December 31, 2023 were audited by other auditors whose report dated December 12, 2024 expressed an unmodified opinion on those statements.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024

Note 1 - Plan Description

The following brief description of Bestcare, Inc. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

Bestcare, Inc. (the "Company") established the Plan effective January 1, 2002 and restated it on March 31, 2014. The Plan is intended to satisfy the retirement plan qualification requirements of Section 401(a) of the Internal Revenue Code of 1986, as amended (the "Code"). The Plan is intended to be an employee stock ownership plan within the meaning of Section 4975(e)(7) of the Code, and Section 407(d)(6) of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and is intended to enable eligible employees to acquire ownership interests in the Company by investing primarily in the Company's stock. The Plan is specifically permitted and designed to invest up to 100% of its assets in the Company's stock. The Company has appointed Duane Tolander (the "Trustee") to administer the Plan and Blue Ridge Associates, Inc. as the recordkeeper ("Recordkeeper").

In a series of two transactions in 2003 and 2005, the Plan purchased all of the Company's issued and outstanding stock (Class A common stock) (the "Stock"). All of the Stock owned by the Plan is held in a trust established under the Plan. The Company immediately purchases Stock from participants in the Plan, who receive distributions thereof, which the Company holds as treasury stock. For several years, the Company has elected to use treasury stock for contributions to the Plan.

Eligibility

Substantially all non-union employees of the Company and its participating subsidiaries are eligible to participate in the Plan as of the first day of January or July of each Plan year coinciding with or next following the later of (i) completion of 1,000 hours of service within a consecutive twelve-month period measured from the date the employee first completes an hour of service or the first day of any plan year thereafter, and (ii) the date the employee attains the age of 21.

Contributions

Each year, the Company may make a discretionary contribution to eligible participants in the proportion that each participant's compensation for that year bears to all participants' compensation for that year. Employee contributions are not permitted. During the year ended December 31, 2024, the Company contributed shares for a total contribution of \$300,000. This contribution resulted in 1,115 shares being allocated at the fair market value of \$269 per share. Participants must complete 1,000 hours of service during the Plan year to share in the contribution.

Note 1 - Plan Description (cont'd.)

Distribution of Benefits

Distributions on account of death, disability, or retirement are made as soon as administratively feasible following the event. On termination of service after attaining Normal Retirement Age (“NRA”), which is defined by the Plan as age 65, unless a participant elects a longer distribution period, distributions shall be in substantially equal annual installments over a period not longer than five years. In the case of a participant with an account balance in excess of \$1,050,000, the five-year period shall be extended one additional year (but not more than five additional years) for each additional \$210,000 or fraction thereof by which the balance exceeds \$1,050,000.

On termination of service due to death or disability, the first \$5,000 of a participant’s benefit will be offered as a lump-sum payment option, and the balance of the benefit over \$5,000 will be paid in annual installments over a period not to exceed four years, commencing one year after the close of the Plan year that the foregoing occurs.

If a participant terminates employment for any other reason, distributions may commence 60 months after termination of employment, and then the distribution will be in accordance with the NRA distribution referred to above. If the value of the distribution is less than \$5,000, a lump sum distribution will be offered to the participant. If the value of the participants account is less than \$3,000 and no distribution election is made, an IRA account will be created for the participant by a financial services company, and a lump sum distribution will be made to the account. Participants who attain age 70 are eligible to receive an annual distribution of 20% of their account balance each year.

Voting Rights

The Trustee shall vote all shares of Company stock held by the Plan with respect to all corporate matters upon which stockholders are entitled to vote. Each participant shall direct the Trustee as to voting of shares held in his or her account with respect to any stockholder vote that is required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of a trade or business. A participant who is entitled to such pass-through voting shall receive from the Company such proxy materials and a proxy form upon which voting directions may be indicated to the Trustee. The Trustee shall vote such allocated shares of Company stock as instructed by participants. Allocated shares for which no direction is received shall be voted by the Trustee in its discretion. Fractional shares of Company stock for which directions are received shall be combined to the extent practicable to reflect participants’ directions.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the Plan will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Company shall direct the Trustee to pay all liabilities and expenses of the Plan. In such an event, no part of the Plan’s assets may revert back to the Company.

BESTCARE, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024

Note 1 - Plan Description (cont'd.)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited, each year, with a proportionate allocation of (a) the Company's contributions, (b) forfeitures of terminated participants' non-vested accounts, and (c) Plan earnings.

Only those participants who are eligible employees of the Company and have completed 1,000 hours of service in the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service after two years and are 100% vested after six years of service. In addition, participants shall be 100% vested upon reaching the age of 65 and completing five years of service, becoming permanently disabled, or upon death, each while employed by the Company.

Put Option

Under federal income tax regulations, Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company may choose to pay for the purchase over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. During 2024, the Plan did not repurchase any shares from participants.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes 50%.

Note 1 - Plan Description (cont'd.)

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account represents a forfeiture, as defined by the Plan. Plan forfeitures are allocated to each remaining participant's account based upon the participant's eligible compensation, relative to total eligible compensation for the Plan year. During the year ended December 31, 2024, \$50,136 of forfeitures were allocated to participants. There were no unallocated forfeitures as of December 31, 2024 and 2023.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments

Benefits are recorded when paid.

Investment Valuation and Income Recognition

The shares of the Company's common stock are valued at estimated fair value. See Note 7 for a discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from securities transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

BESTCARE, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024

Note 3 - Concentration of Credit Risk

The Plan's assets available for benefits at December 31, 2024 and 2023 include \$19,185,899 and \$16,834,210, respectively, of the Company's stock at fair value. If the Company were to become insolvent, the value of these assets could be reduced significantly and have a material effect on the Plan and the participants' account values. The Plan makes no assurance of the future value of Plan assets.

Note 4 - Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated February 10, 2015 that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code. The Plan has not been amended since receiving the determination letter.

The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

U.S. GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax benefit only if it is more likely than not that the tax position would be sustained upon examination by the IRS.

The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that at December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2021.

Note 5 - Administration of Plan Assets

The Plan's assets and Company contributions, which consist principally of the Company's common stock, are held and managed by the Plan administrator, who invests cash received, interest and dividend income, and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's and Recordkeeper's fees are paid directly by the Company.

Fair value	\$ 16,834,210	\$ -	\$ 16,834,210

Note 7 - Fair Value Measurement

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, Fair Value Measurement, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 7 - Fair Value Measurement (cont'd.)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2024 and 2023.

Company Stock: valued using an independent appraisal of fair values. This appraisal was based upon a combination of the market and earnings valuation techniques consistent with prior years. The appraiser took into account historical and projected revenues and cash flows, projected growth rates, EBITDA multiples, market comparables and related industry data. It has been determined that the Company stock be shown as Level 3 in the fair value tables.

Plan management has concluded that a market participant would also recognize a discount for lack of marketability. Plan management accumulates the data for the appraiser from the internally prepared financial statements of the Company. The appraiser prepares a preliminary report, which Plan management, along with the Trustee, reviews in detail, discusses and approves.

The valuation process involves the selection of an independent appraiser under an annual contract with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The information used in determining fair value of the Stock was provided by the following information as related to the Company: historical internally prepared consolidated financial statements; a five-year financial forecast; conversations with management; and related calculations, reviews, analyses, and research as deemed necessary. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution.

The Trustee is responsible for reviewing and approving the appraisal report and the valuation of the Stock to be included in the reporting of the Plan's financial statements as of December 31, 2024 and 2023. This process is completed annually, and the Trustee evaluates and analyzes the changes in fair value measurement from period to period as well as the unobservable inputs and methods used in the fair value measurement.

Note 7 - Fair Value Measurement (cont'd.)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2024 and 2023. For the year ended December 31, 2024, there were no significant transfers between Level 1 and Level 2 and no transfers in or out of Level 3.

	Assets at fair value at December 31,			
	2024		2023	
	Level 3	Total	Level 3	Total
Investment in Company common stock	\$ 19,185,899	\$ 19,185,899	\$ 16,834,210	\$ 16,834,210
Total assets at fair value	\$ 19,185,899	\$ 19,185,899	\$ 16,834,210	\$ 16,834,210

The following table represents the changes in the Plan's Level 3 assets for the year ended December 31, 2024:

	Investment in Company Common Stock
Balance, January 1, 2024	\$ 16,834,210
Contributions	300,000
Benefits paid	(1,399,433)
Unrealized gain relating to assets held at the reporting date	3,451,122
Balance, December 31, 2024	\$ 19,185,899

Gains and losses (realized and unrealized) included in net assets for the period above are reported in "Unrealized appreciation in the fair value of investment in Company common stock" in the statement of changes in net assets available for benefits.

Note 7 - Fair Value Measurement (cont'd.)

The quantitative information used by the appraiser at December 31, 2024 and 2023 for Level 3 fair value measurement is illustrated in the following table:

December 31, 2024				
Instrument	Price per Share	Fair Value	Principal Valuation Technique	Unobservable Inputs
Company common stock	\$328	\$19,185,899	Income, Market, and Asset	Marketable value of invested capital; Weighted average cost of capital; Debt-free capitalization factor; Discount for lack of marketability; Company-specific risk premium; Long- term growth rate; Projections; Market adjustments; and Adjusted book value

December 31, 2023				
Instrument	Price per Share	Fair Value	Principal Valuation Technique	Unobservable Inputs
Company common stock	\$269	\$16,834,210	Income, Market, and Asset	Marketable value of invested capital; Weighted average cost of capital; Debt-free capitalization factor; Discount for lack of marketability; Company-specific risk premium; Long- term growth rate; Projections; Market adjustments; and Adjusted book value

Note 8 - Related Party and Party-In-Interest Transactions

The Plan invests in Company common stock. These transactions are considered related party and party-in-interest transactions. The Plan has a number of service providers, such as the recordkeeper and the firm that provides the valuation of the Company. Such service providers are also considered parties-in-interest under ERISA. As described in Notes 1 and 5, the Company pays all Plan expenses to the extent not paid from the assets of the Plan.

Note 9 - Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques.

Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 10 - Subsequent Events

The Plan administrator has evaluated all events or transactions that occurred after December 31, 2024 through December 22, 2025, which is the date that the financial statements were available to be issued. During this period, there were no material subsequent events requiring disclosure.
