Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **DELOITTE & TOUCHE LLP**

(2) EIN: **13-3891517**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		10000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X

INDEPENDENT AUDITOR'S REPORT

To the Retirement Plans Committee of NFO
Research, Inc. Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of NFO Research, Inc. Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 10 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules of Assets (Held at End of Year) as of December 31, 2021 and Reportable Transactions for the Year Ended December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

Predecessor auditors performed an audit of the 2020 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the Plan that were certified by a qualified institution. Their report dated December 21, 2021, indicated that (a) the amounts and disclosures in the 2020 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2020 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NFO RESEARCH, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

1. DESCRIPTION OF THE PLAN

The following description of the NFO Research, Inc. Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General—The Plan is a noncontributory defined benefit plan sponsored by Kantar LLC (the “Company”). The Retirement Plans Committee has full authority to act on behalf of the Company with respect to matters involving the Plan, including to control and manage the operation and administration of the Plan. The Plan covers all eligible employees who are not covered by a collective bargaining unit, and who are at least 21 years of age and have completed at least 1,000 hours of service in the 12 months preceding the participants’ anniversary date as of the end of the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In 2004, the Company and the Union agreed to freeze future participation and future benefit accruals, effective January 1, 2005. The Plan was amended and restated in accordance with Internal Revenue Service (“IRS”) requirements for the continued favorable tax treatment of the Plan.

Wells Fargo Bank, N.A. served as the trustee and recordkeeper for the Plan through December 2020. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, a member of the Principal Financial Group (“PFG”), is the trustee and recordkeeper effective December 2020.

Mercer Human Resources Consulting was the Plan’s actuary through December 2020. The successor Plan actuary effective December 2020, is PFG.

Vesting—A participant vests ratably 20% per year from years 2-6, becoming 100% vested in their accrued benefit after 6 years of service.

Benefits—The monthly benefit to a participant is calculated based on the accumulated accrued benefit as of December 31, 1988, under the terms of the Plan as of that date, actuarially adjusted to a life-only payment form, plus 1.5% of Compensation for each year of Credited Service over the period from January 1, 1989 through December 31, 2004. Effective January 1, 2005, no further benefits shall accrue to participants.

Early Retirement—Early retirement can begin on or after age 55, with ten years of Credited Service. The accrued benefit is determined as of the date of termination of employment, reduced by 6.66% for each of the first five years commencement precedes age 65, and further reduced by 3.33% for each of the next five years commencement precedes age 60.

Normal Retirement—Normal retirement begins at age 65. The Plan offers an automatic benefit in the form of a single life annuity to unmarried participants, and a joint and 50% survivor annuity to married (at least one year) participants. A reduced benefit is available under optional forms of benefit, including joint and 66 2/3% survivor annuity, a joint and 100% survivor annuity, a 10-year certain and life annuity or a lump sum of cash distribution. The Plan also provides for benefits to the beneficiaries of deceased participants as well as to permanently disabled participants.

Late Retirement—Late retirement begins for a participant who continues employment after the normal retirement date. The benefit is calculated as of the participant’s normal retirement date, actuarially increased from the normal retirement date to the participant’s late retirement date.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting—The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates—The preparation of financial statements in accordance with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition—The Plan’s investments are reported at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held at year end.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Administrative Expenses—The Plan’s expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration and investment advisory services of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits.

Subsequent Events—The Plan’s management evaluated subsequent events through December 19, 2025, the date the financial statements were available to be issued. No events occurred that require additional disclosure or adjustments to the Plan’s financial statements.

3. FUNDING POLICY

The Plan's funding practice is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement as determined by the Plan's actuary, PFG. There were no cash contributions required or contributed into the Plan for the 2021 or the 2020 Plan years due to the Plan's funding status.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on the participant's accrued benefit, including each year's credited service amount as defined under the Plan. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1, 2021 and 2020 were:

Assumption	January 1, 2021	January 1, 2020
Mortality	Pri-2012 White Collar Generational table with projection scale MP-2020.	Pri-2012 White Collar Generational table with projection scale MP-2019.
Discount Rate (Average Rate of Return)	4.00%.	4.07%.
Retirement Age	Varying retirement rates based on graduated scale of retirement ages from age 55 to age 65 and above. Retirement rates range from 5% to 15% through age 62, 10% for ages 63 and 64, then 100% thereafter.	Varying retirement rates based on graduated scale of retirement ages from age 55 to age 65 and above. Retirement rates range from 5% to 15% through age 62, 10% for ages 63 and 64 then 100% thereafter.

The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments are adopted. There were no amendments effective January 1, 2021, recognized in the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2021 and 2020 (the “valuation dates”). Had the valuations been performed as of December 31, there would be no material differences.

5. ACCUMULATED PLAN BENEFITS AND CHANGES IN ACCUMULATED PLAN BENEFITS

The actuarially determined present value of accumulated plan benefits as of the January 1, 2021, valuation dates is as follows:

Vested Benefits

Active participants	\$ 1,661,655
Inactive participants receiving benefits	2,597,718
Inactive participants with deferred benefits	<u>15,079,817</u>
 Total actuarial present value of accumulated plan benefits	 <u>\$ 19,339,190</u>

The changes in the actuarial present value of the Plan’s accumulated plan benefits for the valuation year ended January 1, 2021, are as follows:

Actuarial present value of accumulated plan benefits—as of January 1, 2020	<u>\$ 20,298,247</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated and (gains) losses	(215,786)
Increase for interest due to decrease in discount period	806,603
Benefits paid	(969,661)
Change in actuarial assumptions	<u>(580,213)</u>
 Net decrease	 <u>(959,057)</u>
 Actuarial present value of accumulated plan benefits—as of January 1, 2021	 <u>\$ 19,339,190</u>

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination, subject to a statutory ceiling on the amount of an individual’s monthly benefit.

Whether all participants receive their benefits if the Plan is terminated at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

7. FAIR VALUE MEASUREMENTS

Under Accounting Standards Codification 820, Fair Value Measurement, a formal hierarchy and framework exist for measuring fair value and making disclosures about fair value measurements and the reliability of valuation inputs. Within the hierarchy, Level 1 instruments use observable market prices for the identical item in active markets and have the most reliable valuations. Level 2 instruments, of which there are none, are valued through broker dealer quotation or through market observable inputs for similar items in active markets, including forward and spot prices, interest rates, and volatilities. Level 3 instruments, of which there are none, are valued using inputs not observable in an active market, such as entity-developed future cash estimates, and are considered the least reliable.

Asset Valuation Techniques—Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds—Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts—The investment in the Principal Global Investors Liquid Assets Separate Account-Z is offered through a group annuity contract with the Principal Life Insurance Company, a member of PFG, and is valued at the NAV as a practical expedient or equivalent based on units of the pooled separate accounts. Participant transactions (purchases and sales) may occur daily, there is no redemption notice period, and there are no unfunded commitments as of December 31, 2021 and 2020.

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2021 and 2020:

	2021	2020
Mutual funds—Level 1 investments	\$ 18,238,318	\$ 18,974,407
Pooled separate account measured at NAV	<u>501,031</u>	<u>544,743</u>
Total investments	<u>\$ 18,739,349</u>	<u>\$ 19,519,150</u>

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Principal Trust Company, the trustee as defined by the Plan. As described in Note 2, the Plan paid certain other expenses related to investment activity and Plan operations to PFG. These transactions qualify as exempt party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

9. FEDERAL TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 13, 2017, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended and restated since receiving the determination letter. In December 2016, the IRS began publishing a Required Amendments List for individually designed plans which specifies changes in qualification requirements. The list is published annually and requires plans to be amended for each item on the list, as applicable, to retain its tax-exempt status. The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

10. CERTIFIED INVESTMENT INFORMATION

The following is a summary of the information regarding the Plan included in the Plan’s financial statements and supplemental schedules that were prepared by or derived from information prepared by Principal Trust Company and furnished to the Plan administrator for the year ended December 31, 2021 and December 31, 2020. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

	2021
Statements of Net Assets Available for Benefits	
Investments—at fair value	\$ 18,739,349
	2021
Statement of Changes in Net Assets Available for Benefits	
Net appreciation in fair value of investments	\$ 680,252
Interest and dividends	369,841

The December 31, 2020 Statements of Net Assets Available for Benefits, the investment activities included on the Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2020, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. The information certified includes total investments of \$19,519,150 at December 31, 2020 and related net investment income of \$2,093,248 for the year ended December 31, 2020.

All investment balances and information included in the supplemental schedule of assets (held at end of year), the schedule of reportable transactions, Note 7: Fair Value Measurements, excluding the level of investments, unfunded commitments, redemption frequency and redemption notices, were derived from information prepared by the trustee of the Plan and furnished to the Plan Administrator.

Disability

Selected rates of disability are shown below:

Age	Rate - Male	Rate - Female
25	0.09%	0.11%
40	0.09%	0.11%
55	0.96%	0.90%

Due to our short tenure as actuaries on this plan, we do not have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments to this assumption in the future.

Marriage

80% married for males and 60% married for females; husbands are 3 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal

Selected rates of withdrawal are shown below:

Age	Rate of withdrawal
25	28.22%
40	11.29%
55	0.00%

Due to our short tenure as actuaries on this plan, we do not have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments to this assumption in the future.

Form of benefit

75% of participants will elect a benefit paid in a lump sum at the assumed retirement ages. The remaining participants will elect a monthly annuity on the normal form at the assumed retirement age.

The single sum benefit is based on the Applicable Mortality and the plan's funding target interest rates, as prescribed.

Methods prescribed by law

Liability measure

Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 8.00%.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Lump sum payments	Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.
HCE benefit payment restrictions	<p>A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by:</p> <ul style="list-style-type: none">any retiree benefit index or flooramounts for HCEs who were previously restrictedan amount for the retiring HCE <p>The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.</p>
Methods selected by plan sponsor	
Asset method	<p>The asset valuation method is prescribed by law for plans that elect to use a value other than market value.</p> <p>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.</p> <p>The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.</p> <p>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.</p>
Segment rates	24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC premium basis	Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv).

Methods elected by actuary

Retirees Assets and liabilities for current and future retirees are included.

Vested benefits A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality Based on Pri-2012 White collar base rate mortality table projected generationally using MP-2020.

Base rates

Before benefit payment period
Employee amount-weighted, male and female

During benefit payment period
Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The White collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan and has been selected due to data limitations in identifying contingent survivors. In addition, we believe beneficiary mortality isn't materially different while both participants are alive.

Mortality improvement (MI)

MP-2020 is the most recent improvement scale published by the SOA in October 2020.

Interest rate used to value liabilities 4.00%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Basis for lump sums

Interest rate

Based on the three segment yield curve: 3.05%/3.45%/4.35%

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.05%/3.45%/4.35%. For details, see Corporate AA yield in Figure 2 of Long-Term Capital Market Assumptions link.

Mortality

IRS Prescribed lump sum mortality through 2022. Future years are projected to decrement date with SOA mortality improvement scale MP-2019.

This assumption reflects current law as provided by the IRS.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 1/21/2015 and amendments 1 and 2 signed through 6/27/2018.

Plan eligibility

- Age** Attained age 21.
- Service** 1,000 hours of service.
- Entry date** The entry date for an eligible employee is the first day of the month in which he/she meets all the entry requirements.
- Entry into the plan was frozen effective January 1, 2004.

Normal retirement benefit

- Age** Attained age 65.
- Form** Monthly annuity payable for life (qualified joint and survivor annuity for married participants not electing otherwise).
- Amount (accrued benefit)** The sum of a) and b) below:
- a) 1.5% of compensation in each of the participant's year of credited service earned after December 31, 1988.
 - b) the amount of the participants' accrued benefit as of December 31, 1988. The accrued benefit was frozen effective December 31, 2004.

Early retirement benefit

- Age** Attained age 55.
- Service** 10 years of service.
- Form** Same as normal retirement benefit.
- Amount** Greater of a) or b):
- a) Accrued benefit on early retirement date reduced by 6 2/3% for each year up to five and 3 1/3% for each year between five and ten that the early retirement date precedes normal retirement date.
 - b) Accrued benefit actuarially reduced using 417(e) interest and mortality.

Late retirement benefit

- Age** No maximum age.
- Form** Same as normal retirement benefit.
- Amount** Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date.

Termination benefit

Vesting percentage	20% vested after 2 years of vesting service, increasing 20% for each year of service following, with 100% vesting after 6 years of service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage. Accrued benefit on early retirement date actuarially reduced.

Disability benefit

Eligibility	Termination prior to normal retirement date on account of permanent and total disability.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit payable at age 65.

Death benefit

Eligibility	Qualified married participant (married for at least one year at the time of the participant's death) fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	<p>If death occurs before the participant's earliest retirement date, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.</p> <p>If death occurs after the participant's earliest retirement date, the spouse is entitled to a monthly life annuity equal to the benefit which would have been payable had the participant retired.</p>

Definitions

Pension earnings	The wages, salary, bonuses, commissions and overtime paid to a participant during the Plan Year. Compensation shall include employee deferrals under section 401(k) of the Internal Revenue Code. Compensation is limited to the IRS 401(a)(17) limit. Effective January 1, 2005, no compensation shall be taken into account with respect to plan years commencing after December 31, 2004 for purposes of determining the amount of a participant's accrued benefit.
Credited service	One year for each plan year after January 1, 1989 through December 31, 2004, in which the participant earns 1,000 hours of service (service prior to January 1, 1989, determined under the terms of the plan as of December 31, 1988). Effective January 1, 2005, no credited service shall be taken into account with respect to plan years commencing after December 31, 2004 for purposes of determining the amount of a participant's accrued benefit, but it will continue to accrue for purposes of attaining early retirement eligibility.
Vesting service	One year for each plan year in which the participant earns 1,000 hours of service.
Optional forms of benefit payments	<p>The optional forms of benefit payments are:</p> <ul style="list-style-type: none">• A straight life annuity• Monthly annuity payable for 10 years certain and life.• Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3 and 100.• Lump sum <p>The optional form conversion basis based on the more favorable option of a) 8.0% interest and the UP84 mortality table and b) 417(e) prescribed mortality table and interest rates. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.</p>

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 25 – Change in Method
NFO Research, Inc. Pension Plan
EIN 06-1327424 Plan No. 001

A change in funding method has occurred since last year due to a change in the enrolled actuary and the business organization providing actuarial services to the plan. This change meets the automatic approval requirements under Rev Proc 2017-56.

Schedule SB, Line 24 – Change in Actuarial Assumptions
NFO Research, Inc. Pension Plan
EIN 06-1327424 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has increased from 4.07% to 4.25%. This rate is used in the calculation of the actuarial value of plan assets.
