INDEPENDENT AUDITOR'S REPORT

To the Retirement Plans Committee of Competitive
Media Union Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Competitive Media Union Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 11 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to

our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information

to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules of Assets (Held at End of Year) as of December 31, 2021, and Reportable Transactions for the Year Ended December 31, 2021, are presented for purposes of additional analysis and *are* not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

COMPETITIVE MEDIA UNION PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

1. DESCRIPTION OF THE PLAN

The following description of the Competitive Media Union Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General—The Plan is a noncontributory defined benefit plan sponsored by Kantar LLC (the “Company”). The Retirement Plans Committee has full authority to act on behalf of the Company with respect to matters involving the Plan, including to control and manage the operation and administration of the Plan. The Plan provides retirement and death benefits for all eligible employees who are members of the United Electrical, Radio, and Machine Workers Union of America (Union), and who have completed 900 hours of service in the 12 months preceding the participants’ anniversary date as of the end of the Plan year. A year of vesting service is credited to employees who have completed at least 900 hours of service annually. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company and the Union agreed to freeze future participation and future benefit accruals, effective December 31, 2007.

Wells Fargo Bank, N.A. served as the trustee and recordkeeper for the Plan through December 2020. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, a member of the Principal Financial Group (“PFG”), is the trustee and recordkeeper effective December 2020.

Mercer Human Resources Consulting was the Plan’s actuary through December 2020. The successor Plan actuary effective December 2020, is PFG.

Vesting—A participant is 100% vested in their benefit upon attainment of Normal Retirement Age, while a participant in active employment with the Employer or Affiliated Organization; or Completion of five years of continuous service, none of which has been canceled by a permanent break in service as described under Section 2.32(G) of the Plan document.

Benefits—The monthly benefit to a participant is calculated based on the accumulated accrued benefit as of December 31, 1988, plus agreed-upon amounts per year ranging from \$10 to \$18 for each full year of credited service over the period from January 1, 1989, to December 31, 2007. Effective December 31, 2007, no further benefits shall accrue to participants.

Early Retirement—Early retirement can begin on or after age 55, and five years of continuous service. The accrued benefit is determined as of the date of termination of employment, reduced by .25% for each of the first 60 full and fractional months, and .50% for each additional full and fractional month, by which the date of commencement of benefits antedates the Normal Retirement Date.

Normal Retirement—Normal retirement begins at age 65. The Plan offers an automatic benefit in the form of a single life annuity to unmarried participants, and a joint and 50% survivor annuity to married (at least one year) participants. A reduced benefit is available under optional forms of benefit, including a joint and 50% survivor annuity, a joint and 66 2/3% survivor annuity, a joint and 75% survivor annuity, a joint and 100% survivor annuity, a 10-year certain and life annuity, or a lump-sum cash amount if the actuarial value of the monthly benefit is \$5,000 or less. The Plan also provides for benefits to the beneficiaries of deceased participants as well as to permanently disabled participants.

Late Retirement—Late retirement begins for a participant who continues employment after the normal retirement date. The benefit is calculated as of the participant's normal retirement date, actuarially increased from the normal retirement date to the participant's late retirement date.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting—The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates—The preparation of financial statements in accordance with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition—The Plan's investments are reported at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held at year end.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Administrative Expenses—The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration and investment advisory services of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits.

Change in Accounting Presentation—Certain amounts in the financial statements as of and for the year ended December 31, 2021 have been reclassified to conform to the presentation in the financial statements as of and for the year ended December 31, 2022. These reclassifications did not impact previously reported net assets available for benefits or changes in net assets available for benefits. The reclassification relates to certain expenses previously presented separately in the statement of changes in net assets which are now presented in administrative expenses to provide improved alignment with the nature of the underlying costs. Such reclassifications are for presentation purposes only and do not represent a correction of an error or a change in accounting policy.

Subsequent Events—The Plan’s management evaluated subsequent events through December 19, 2025, the date the financial statements were available to be issued. No events occurred that require additional disclosure or adjustments to the Plan’s financial statements.

3. FUNDING POLICY

The Plan’s funding practice is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement as determined by the Plan’s actuary, PFG. There were no cash contributions required or contributed into the Plan for the 2022 or the 2021 Plan years due to the Plan’s funding status.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan’s provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on the participant’s accrued benefit, including each year’s credited service amount as defined under the Plan. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1, 2022 and 2021 were:

- (a) The mortality assumption was Pri-2012 sex-distinct, separate employee, and retiree tables with white collar base rate mortality with projection scale MP-2020.
- (b) The interest rates used to discount the obligation for 2022 and 2021 were 4.75% and 4.0%, respectively. No adjustments are made for administrative expenses through a reduction in the discount rate.
- (c) Retirement age assumptions (varying retirement rates based on graduated scale of retirement ages from age 55 to age 65 and above). Retirement rates range from 5% to 25% through age 62, 10% for ages 63 and 64, then 100% thereafter.

The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments are adopted. There were no amendments effective January 1, 2022, recognized in the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2022 and 2021 (the “valuation dates”). Had the valuations been performed as of December 31, there would be no material differences.

5. ACCUMULATED PLAN BENEFITS AND CHANGES IN ACCUMULATED PLAN BENEFITS

The actuarially determined present value of accumulated plan benefits as of the January 1, 2022 valuation date is as follows:

Vested Benefits

Active participants	\$ 82,459
Inactive participants receiving benefits	1,453,724
Inactive participants with deferred benefits	<u>874,853</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 2,411,036</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the valuation year ended January 1, 2022, are as follows:

Actuarial present value of accumulated plan benefits—as of January 1, 2021	<u>\$ 2,692,263</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated and (gains) losses	(31,246)
Increase for interest due to decrease in discount period	104,688
Benefits paid	(153,239)

Actuarial present value of accumulated plan benefits—as of January 1, 2022	<u>\$ 2,411,036</u>

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits if the Plan is terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some

benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

7. FAIR VALUE MEASUREMENTS

Under Accounting Standards Codification 820, *Fair Value Measurement*, a formal hierarchy and framework exist for measuring fair value and making disclosures about fair value measurements and the reliability of valuation inputs. Within the hierarchy, Level 1 instruments use observable market prices for the identical item in active markets and have the most reliable valuations. Level 2 instruments, of which there are none, are valued through broker dealer quotation or through market observable inputs for similar items in active markets, including forward and spot prices, interest rates, and volatilities. Level 3 instruments, of which there are none, are valued using inputs not observable in an active market, such as entity-developed future cash estimates, and are considered the least reliable.

Asset Valuation Techniques—Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds—Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts—The investment in the Principal Global Investors Liquid Assets Separate Account-Z is offered through a group annuity contract with the Principal Life Insurance Company, a member of PFG, and is valued at the NAV as a practical expedient or equivalent based on units of the pooled separate accounts. Participant transactions (purchases and sales) may occur daily, there is no redemption notice period, and there are no unfunded commitments as of December 31, 2022 and 2021.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021:

	2022	2021
Mutual funds—Level 1 investments	\$ 1,966,855	\$ 2,607,292
Pooled separate account measured at NAV	<u>19,391</u>	<u>40,963</u>
Total investments	<u>\$ 1,986,246</u>	<u>\$ 2,648,255</u>

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Principal Trust Company, the trustee as defined by the Plan. As described in Note 2, the Plan paid certain other expenses related to investment activity and Plan operations to PFG. These transactions qualify as exempt party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

9. FEDERAL TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated January 25, 2017, that the Plan and related trust were designed in accordance with the applicable

regulations of the Internal Revenue Code (IRC). The Plan has been amended and restated since receiving the determination letter. In December 2016, the IRS began publishing a Required Amendments List for individually designed plans which specifies changes in qualification requirements. The list is published annually and requires plans to be amended for each item on the list, as applicable, to retain its tax-exempt status. The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

10. CERTIFIED INVESTMENT INFORMATION

The following is a summary of the information regarding the Plan included in the Plan's financial statements and supplemental schedules that were prepared by or derived from information prepared by Principal Trust Company and furnished to the Plan administrator for the year ended December 31, 2022 and December 31, 2021. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

	2022	2021

Assumptions prescribed by law

Mortality	<u>During benefit payment period</u> IRS Prescribed Mortality - Static Annuitant, male and female.
	<u>Before benefit payment period</u> IRS Prescribed Mortality - Static Non-annuitant, male and female.

Assumptions selected by actuary

Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
------------------	---

Asset return	4.75% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
---------------------	---

Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
-------------------------	--

Retirement	Active participants			
	Age	Probability of retirement	Age	Probability of retirement
	55-57	5%	63-64	10%
	58-61	10%	65	100%
	62	25%		

Inactive participants are assumed to retire at age 65.

Due to our short tenure as actuaries on this plan, we do not have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments to this assumption in the future.

Disability	N/A.
-------------------	------

Marriage

70% married; husbands are 3 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal

Selected rates of withdrawal are shown below:

Age	Rate - Male	Rate - Female
25	19.50%	26.50%
40	4.88%	7.38%
55	0.38%	0.50%

Due to our short tenure as actuaries on this plan, we do not have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments to this assumption in the future.

Form of benefit

Participants are assumed to receive their benefits on the normal form at the assumed retirement age.

Methods prescribed by law

Liability measure

Funding target is the present value of the benefits accrued on the valuation date. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

HCE benefit payment restrictions

A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by:

- any retiree benefit index or floor
- amounts for HCEs who were previously restricted
- an amount for the retiring HCE

The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.

Methods selected by plan sponsor

Asset method	<p>The asset valuation method is prescribed by law for plans that elect to use a value other than market value.</p> <p>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.</p> <p>The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.</p> <p>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.</p>
Segment rates	<p>24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.</p>
PBGC premium basis	<p>Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv).</p>
Methods elected by actuary	
Retirees	<p>Assets and liabilities for current and future retirees are included.</p>
Vested benefits	<p>A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.</p> <p>The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.</p>

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality

Based on Pri-2012 White collar base rate mortality table projected generationally using MP-2021.

Base rates

Before benefit payment period

Employee amount-weighted, male and female

During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The White collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement (MI)

MP-2021 is the most recent improvement scale published by the SOA in October 2021.

Interest rate used to value liabilities

4.75%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
Competitive Media Union Pension Plan
EIN 13-4106565 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)

Death benefit

Eligibility	Spouse of participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	<p>If death occurs before the participant's earliest retirement date, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.</p> <p>If death occurs after the participant's earliest retirement date, the spouse is entitled to a monthly life annuity equal to the benefit which would have been payable had the participant retired.</p>
Amount – unmarried participant	<p>If an unmarried vested participant dies prior to receiving any benefits under the plan, his or her designated beneficiary will be entitled to receive a death benefit in the form of monthly payments for 120 months commencing as of the month following the month during which the participant dies.</p> <p>The amount of such benefit is 75% of the monthly benefit to which the participant would have been entitled to, in the form of a life annuity, had termination of employment occurred on the day prior to death, reduced by the early retirement reduction factors that apply to an early retirement benefit, as applicable, and further reduced by 5/9ths of one percent thereof for each full and fractional month by which the death benefit commences prior to the date on which the Participant would have attained age 55 if death did not occur.</p>

Definitions

Credited service

The sum of:

1. for plan years prior to January 1, 1989, credited service is granted pursuant to the terms of the plan then in effect; plus
2. for any plan year ending after December 31, 1988, the number of plan years following the later of the plan year beginning on January 1, 1989, or the plan year during which the participant enters the plan as a participant, during each of which he completes at least 1,800 hours of service; plus
3. if the participant completes at least 150 hours of service but less than 1,800 hours of service during the plan year, one-twelfth of one year of credited service for each 150 hours of service that is completed during the plan year; plus
4. for any plan year in which the participant terminates his employment, if at least an hour of service was completed during that plan year, credited service on a proportional basis will be granted and will be determined by dividing the number of hours of service which the participant completes during such plan year, by 1,800.

Credited service shall not include the following periods of service:

1. that portion of any personal leave which is in excess of six months' duration;
2. that portion of any period of layoff in excess of six months; and
3. effective January 1, 2008, no years of credited service shall be taken into account with respect to plan years beginning after December 31, 2007.

Vesting service

The sum of:

1. for plan years prior to January 1, 1989, continuous service is granted pursuant to the terms of the plan then in effect; plus
2. for any plan year ending after December 31, 1988, the aggregate number of plan years during each of which the Employee completed at least 900 hours of service; plus
3. if the employee completed less than 900 hours of service during the plan year immediately preceding the plan year in which the employee first becomes a participant or resumes participation, as the case may be, a partial year for such immediately preceding plan year, determined by dividing the number of hours of service that the employee completes during such preceding plan year, by 900; plus
4. a partial year for the plan year during which employment terminates, determined by dividing the actual number of hours of service that the employee completes during such plan year, by 900.

Optional forms of benefit payments

The optional forms of benefit payments are:

- A straight life annuity
- Monthly annuity payable for 10 years certain and life.
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75 and 100.

The optional form conversion basis based on the more favorable option of a) 7.5% interest and the GAM-1971 mortality table, weighted for 80% males and 20% females and b) 417(e) prescribed mortality table and interest rates. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.
