Independent Auditor's Report

To the Plan Administrator
Garrison, Inc. Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of Garrison, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Garrison, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Garrison, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Garrison, Inc. Employee Stock Ownership Plan's ability to continue as a going concern within one year after the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Garrison, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Garrison, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

GARRISON, INC.
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF PLAN

The following description of Garrison, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement and subsequent amendments for a more complete description of the Plan's provisions.

General: The Plan was organized by Garrison, Inc. (the Plan Sponsor) effective January 1, 2019, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC). The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Plan Sponsor's Board of Directors. The trust department of an independent third-party bank is the Plan's trustee (the Trustee).

On October 31, 2019, the Plan purchased 33,333 shares of the common stock of the Plan Sponsor with a loan of \$15,700,000 (see Note 5) and holds the common stock in a trust established under the Plan. The note is collateralized by the unallocated shares of common stock and is guaranteed by the Plan Sponsor. The Plan Sponsor has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to the accounts of employees with rights in allocated common stock (allocated) and common stock not yet allocated to employees (unallocated).

Eligibility: Employees of the Plan Sponsor and affiliated employers as defined in the Plan Agreement, are generally eligible to participate in the Plan if 18 years old, after one year of service, provided they worked at least 1,000 hours during such Plan year and are employed on the final day of the Plan year. The Plan Sponsor and affiliated employers are collectively referred to as "the Employer".

Employer Contributions: The Employer is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, if any, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Allocations are based on a participant's eligible compensation, relative to the total eligible compensation of all other eligible participants. Participants generally must be credited with 1,000 hours of service to receive an allocation of Employer contributions for a Plan year.

Participant Accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Plan Sponsor's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to the total number of shares held in all participant accounts, as defined in the Plan Agreement.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Voting Rights: The Trustee votes all the Plan Sponsor's common stock held by it as part of the Plan assets as directed by the Plan Sponsor, provided that the participant or participant's beneficiary is entitled to direct the Trustee as to the manner in which voting rights on shares of common stock of the Plan Sponsor which are allocated to the participant's account are to be exercised with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets, or such similar transaction. If the participant does not exercise his or her right to vote the Plan Sponsor's common stock, the Trustee will vote such shares on behalf of the collective best interest of Plan participants and beneficiaries, subject to the Trustee's fiduciary duties under ERISA.

Vesting and Forfeitures: If a participant's employment with the Employer ends for any reason other than retirement, permanent disability, or death, the participant will vest in the balances in his or her account based on total years of service with the Employer. A participant becomes 100% vested after three years of service. Although participants become vested in their account balances, the timing of the payment of their benefits is subject to certain restrictions as specified below under *Benefits*.

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to the total eligible compensation of all other eligible participants for the Plan year. Forfeitures allocated to participants during the year ended December 31, 2024 totaled \$39,809. There were no forfeited non-vested accounts to be allocated to participant accounts in future years as of December 31, 2024 and 2023.

Benefits: Distributions from the Plan will commence, in the form of a lump-sum payments, as soon as practicable in the first Plan year following the Plan year in which a participant attains Normal Retirement Age (65) or as the result of the participant's death or disability.

Account balances which exceed \$5,000 of participants who terminate for reasons other than death, disability or retirement at age 65 will remain in the participant's account until the later of five years after termination or the year following the Plan year in which the note payable issued to purchase the stock is repaid (see Note 5). At that time, the vested portion of the account will be distributed in cash in substantially equal monthly, quarterly, semiannual, or annual installments over a period not longer than five years, unless the participant elects in writing a longer distribution period.

Accounts with vested balances less than \$5,000 will be distributed in a lump-sum cash payment following termination of employment.

Put Option: Under federal income tax regulations, the Plan Sponsor's common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Plan Sponsor buy any shares of the common stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Plan Sponsor can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Plan Sponsor's common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify may transfer the cash distribution to the Garrison, Inc. 401(k) Retirement Savings Plan (formerly R.E. Garrison Trucking, Inc. Employee Savings Trust). The election to diversify is made subsequent to year-end based upon the shares of common stock of the Plan Sponsor in the participant's account at year-end.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Plan Termination: The Plan Sponsor reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Plan Sponsor's Board of Directors should direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan Agreement and the IRC.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations: The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of participants with rights in allocated stock (allocated) and (b) stock not yet allocated to participants (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition: The shares of the Plan Sponsor's common stock are reported at fair value as determined annually by an independent valuation consultant. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded by the Plan when paid.

Expenses: As provided in the Plan Agreement, administrative expenses may be paid either by the Plan or by the Employer. The Employer has historically paid the operating expenses for the Plan.

Tax Status: The Internal Revenue Service (IRS) has determined and informed the Employer by a letter dated October 29, 2020, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other taxing authorities.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process.

Subsequent Events: The Plan Administrator has evaluated the financial statements for subsequent events occurring through December 22, 2025, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan has categorized its assets and liabilities that are measured at fair value into a three-level fair value hierarchy. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. In situations where there is little or no market activity for the asset or liability, the Plan makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Following is a description of the valuation methodology used by the Plan for assets that are measured at fair value on a recurring basis. There have been no changes in the methodology used at December 31, 2024 and 2023.

Common Stock of Garrison, Inc.: Valued at the aggregate fair value as determined annually by the Trustee based on a report from an independent valuation specialist. The independent valuation specialist utilized a weighted average approach utilizing the Discounted Cash Flow and Guideline Public Company methods to value the common stock based on the Plan Sponsor’s current and historical operations and future financial projections, with a certain adjustment related to a lack of marketability.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan’s management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement at the reporting date.

Following is a summary within each level of the fair value hierarchy, of the Plan’s assets that are measured at fair value on a recurring basis as of December 31, 2024 and 2023:

2024	Level 3	Total
Common stock of Garrison, Inc.	<u>\$32,032,667</u>	<u>\$32,032,667</u>
Total Investments at Fair Value	<u>\$32,032,667</u>	<u>\$32,032,667</u>
2023		
Common stock of Garrison, Inc.	<u>\$25,584,000</u>	<u>\$25,584,000</u>
Total Investments at Fair Value	<u>\$25,584,000</u>	<u>\$25,584,000</u>

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a summary of the changes in the fair value of the Plan's Level 3 asset for the year ended December 31, 2024:

	Common Stock of Garrison, Inc.
Balance at beginning of year	\$ 25,584,000
Unrealized appreciation in estimated fair value	<u>6,448,667</u>
Balance at end of year	<u>\$ 32,032,667</u>

Quantitative fair value disclosures about significant unobservable inputs used in the fair value measurement for the common stock of the Plan Sponsor have been omitted as the Plan had previously adopted ASU No. 2013-09, *Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04*, which allows for the indefinite deferral of the quantitative disclosure requirements.

NOTE 4 - INVESTMENT IN EMPLOYER COMMON STOCK

The Plan's investment in the Plan Sponsor's common stock at December 31, 2024 and 2023, was as follows:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of Shares	8,000	25,333	6,666	26,667
Cost	<u>\$3,768,000</u>	<u>\$11,932,000</u>	<u>\$3,140,000</u>	<u>\$12,560,000</u>
Fair Value	<u>\$7,687,917</u>	<u>\$24,344,750</u>	<u>\$5,117,000</u>	<u>\$20,467,000</u>

The net appreciation of the Plan Sponsor's common stock was \$6,448,667 for the year ended December 31, 2024.

NOTE 5 - NOTE PAYABLE

On October 31, 2019, the Plan entered into a \$15,700,000 term loan agreement with the Plan Sponsor. The note bears interest at 1.86% and is due in December 2043. The proceeds of the loan were used to purchase the Plan Sponsor's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of the year's payments, plus all future years' principal and interest payments. This resulted in 1,333 shares being released and allocated for the Plan year ended December 31, 2024.

NOTE 5 - NOTE PAYABLE (CONTINUED)

Aggregate annual principal maturities of the note payable at December 31, 2024, are as follows:

Payable In	Principal
2025	\$ 548,850
2026	559,059
2027	569,457
2028	580,049
2029	590,838
Thereafter	<u>9,524,049</u>
Total	<u>\$12,372,302</u>

NOTE 6 - TERMINATED PARTICIPANTS

Included in net assets available for benefits are amounts allocated to terminated participants who have vested account balances but are not eligible for a withdrawal from the Plan until they reach retirement age, become disabled, deceased, or the year following the Plan year in which the stock acquisition loan is repaid to the Employer (see Note 5). Net assets available for benefits allocated to these individuals who have fully vested accounts total \$4,227,083 and \$2,737,649 at December 31, 2024 and 2023, respectively.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan's assets are primarily invested in the Plan Sponsor's common stock. As discussed in Note 5, the Plan has a note payable to the Plan Sponsor for the unallocated shares held by the Plan and pays interest to the Plan Sponsor. These transactions qualify as exempt party-in-interest transactions.

The Plan Sponsor provides certain accounting and administrative services to the Plan for which it receives no compensation.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan's investments consist primarily of the Plan Sponsor's common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the Plan Sponsor's common stock and to the uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in the value of the Plan Sponsor's common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.
