INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
SMC GLOBAL HOLDINGS, INC.
RETIREMENT INCOME PLAN B
St. Marys, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of SMC Global Holdings, Inc. Retirement Income Plan B, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the Statements of Net Assets Available for Benefits and Statements of Accumulated Plan Benefits as of March 31, 2025 and 2024, and the related Statement of Changes in Net Assets Available for Benefits and Statement of Changes in Accumulated Plan Benefits for the fiscal year ended March 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of SMC Global Holdings, Inc. Retirement Income Plan B's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of March 31, 2025 and 2024, and for the fiscal year ended March 31, 2025, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of SMC Global Holdings, Inc. Retirement Income Plan B and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about SMC Global Holdings, Inc. Retirement Income Plan B's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud

**SMC GLOBAL HOLDINGS, INC.

may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of SMC Global Holdings, Inc. Retirement Income Plan B's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about SMC Global Holdings, Inc. Retirement Income Plan B's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions as of March 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO THE FINANCIAL STATEMENTS**

March 31, 2025

NOTE A. DESCRIPTION OF THE PLAN

The following brief description of SMC Global Holdings, Inc. (“Company”) Retirement Income Plan B (“Plan”) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined benefit pension plan covering substantially all the bargaining employees of St. Marys Carbon Co., Inc. (Carbon Products Division) which is a subsidiary of SMC Global Holdings, Inc. No Carbon Products Division employee shall become a participant on or after November 1, 2006. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits

Carbon Products Division employees covered by the collective bargaining agreement are entitled to annual pension benefits as follows: The later of attained age 62 with five years of participation, at an amount equal to \$27.00 multiplied by accrual service before April 1, 2007, and \$24.00 multiplied by accrual service after April 1, 2007. Effective April 1, 2010, all benefit accruals ceased for the Carbon Products Division.

The Plan permits early retirement at the later of age 50 or five years of vested service for the Carbon Products Division. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. If employees terminate before rendering 5 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions. Employees may elect to receive the value of their accumulated plan benefits on a monthly payment basis for life or a reduced benefit with the employee's spouse receiving 50% of the payment after the employee's death. Optionally, the employees may receive a life annuity for a minimum period of ten years or joint and survivor annuity with 50%, 66 2/3% or 100% continuation to surviving spouse.

Death and Disability Benefits

If a vested employee dies, a death benefit is paid to the spouse equal to 50% of the joint and survivor benefit payable to the participant assuming he had terminated the day before death, survived to his earliest retirement date, retired with his benefit payable on a 50% joint and survivor annuity, then died on the following day. Active employees with five years of service who become totally disabled receive disability benefits that are the greater of 50% of the accrued benefit at the date of disablement or \$425 per month for a participant in the Carbon Products Division. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time, they had become disabled.

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians and insurance company. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Reclassification

Amounts in the prior period's financial statements are reclassified wherever necessary to conform to current period presentations.

SMC GLOBAL HOLDINGS, INC.
RETIREMENT INCOME PLAN B
NOTES TO THE FINANCIAL STATEMENTS
March 31, 2025

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions for the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service prior to the Plan being frozen. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee credited service time.

The actuarial present value of accumulated plan benefits is determined by an independent actuary from the firm of Principal Financial Group - Retirement Actuarial Consulting Group and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interests) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of March 31, 2025, were (a) life expectancy of participants (IRS Prescribed Mortality-Optional Combined Table for Small Plans, Male and Female), (b) retirement age assumptions (the assumed average retirement age was 65 with age 63 for Carbon Products Division) and (c) investment return. The 2025 and 2024 valuations included assumed average rates of return of 6.25%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Date of Management's Review

Management has evaluated subsequent events through the date of the report, which is when the financial statements were available to be issued.

NOTE C. CERTIFICATION OF FINANCIAL INFORMATION

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at March 31, 2025 and 2024, and net appreciation in fair value of investments for the fiscal year ended March 31, 2025, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Life Insurance Company, the custodian of the Plan.

NOTE D. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements authoritative literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. There were no Level 2 or Level 3 inputs available to the Plan.

The fair values of the pooled separate accounts are based on the market value of the underlying assets.

Gains and losses included in changes in net assets available for benefits for the fiscal year ended March 31, 2025, are reported in net appreciation in fair value of investments.

NOTE E. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan sponsor, SMC Global Holdings, Inc., provides the Plan with certain accounting and administrative services for which no fees are charged. In addition, certain plan investments are shares of pooled separate accounts managed by Principal Life Insurance Company. Principal is the custodian as defined by the Plan.

In addition, SMC Global Holdings, Inc. directly pays certain administrative expenses for the Plan.

All of these transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA.

NOTE F. PLAN TERMINATION

The Company expects to continue the Plan indefinitely but reserves the right to terminate the Plan in whole or in part at any time upon giving written notice to all parties concerned. The Pension Benefit Guaranty Corporation may also terminate the Plan according to the procedures under section 4042 of ERISA.

An employee who is included in the group of employees deemed to be affected by complete or partial termination of the Plan shall be 100% vested in his Accrued Benefit as of the date of such complete or partial termination. Upon complete termination of the Plan, no further employees shall become participants, and no further contributions shall be made except as required by any governmental agency to which the Plan's termination is subject.

A participant's recourse toward satisfaction of his right to his nonforfeitable accrued benefit will be limited to the plan assets and the Pension Benefit Guaranty Corporation.

The assets of the Plan that are available to provide benefits shall be allocated and applied as of the effective date of termination of the Plan according to the classifications and order of precedence provided under Title IV of ERISA and under any rules, regulations, interpretations or opinions implementing said Title IV.

No part of the plan assets shall be paid to the employer at any time, except that after the satisfaction of all liabilities under the Plan, any assets remaining shall be paid to the employer. No payment shall be made to the employer if it would contravene any provision of law.

NOTE G. TAX STATUS

The Internal Revenue Service has determined and informed the custodian by a letter dated April 16, 2020, that the Plan is qualified and the trust established under the Plan is tax exempt, under the appropriate sections of the Code. The plan administrator and its qualified tax counsel do not anticipate that changes in the Plan after the date of the amendments covered by the Internal Revenue Service determination letter will affect the qualified and tax-exempt status of the Plan and the trust, respectively.

SMC GLOBAL HOLDINGS, INC.
RETIREMENT INCOME PLAN B
NOTES TO THE FINANCIAL STATEMENTS
March 31, 2025

NOTE G. TAX STATUS (CONTINUED)

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of March 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE I. FUNDING POLICY

The Company shall make such contributions to the Plan as the Company determines are required to maintain the Plan on a sound actuarial basis. In determining the amounts and incidence of such contributions, the Company will take into account such actuarial recommendations as may be provided by an enrolled actuary as defined by ERISA. The Company's contributions for the fiscal years ended March 31, 2025 and 2024, have met the minimum funding requirements of ERISA.

| Mortality | Before benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female. |
| | During benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female. |

Assumptions selected by actuary

| | |
|------------------|---|
| Asset return | 6.25% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link. |
| Expected expense | The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses. |
| Retirement | Active and inactive participants are assumed to retire at normal retirement age as defined in Plan provisions . This assumption is based on the results of recent experience analysis and anticipated future experience. |
| Disability | 1987 Commissioner's Group Disability Table, six month elimination period, male and female. We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes. |
| Marriage | 75% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce. |
| Withdrawal | 2003 Society of Actuaries Small Plan Age Table, multiplied by 1.00. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.00 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience. |
| Form of benefit | Participants are assumed to receive their benefits on the normal form at the assumed retirement age. This assumption is based on the results of recent experience analysis and anticipated future experience. |

Methods prescribed by law

Liability measure

Funding target is the present value of the benefits accrued on the valuation date.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where November is the last month included in the average.

PBGC premium basis

Your plan is a small plan as defined by PBGC. Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the one-month average of corporate bond rates. You elected this Standard interest rate method for the 04/01/2018 plan year and the method must be used for five years before a change can be made.

| Segment 1 years 0-5 | Segment 2 years 5-20 | Segment 3 years 20+ |
|------------------------|-------------------------|------------------------|
| 4.99% | 5.19% | 5.37% |

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan’s regular funding target and target normal cost.

Mortality Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).

Mortality base rates

Before benefit payment period

Employee amount-weighted, male and female

During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe “Approach 1” is reasonable for this plan.

Mortality improvement

Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

| Parameter | Principal 2023 |
|---|----------------------|
| Historical dataset | SSA |
| Whittaker-Henderson Graduation | Order 3 |
| Interpolation Structure | Basic |
| Graduated MI data last year ("jumping off" point) | 2017 |
| H/D transition ultimate year by age/cohort | 2029/2029 |
| Weight placed on interpolation by cohort | 50% |
| Initial Slope periods (constraint) | 2016-2017 (0.000) |
| LTR | SSA LTR 2023 |
| COVID-19 or Excess load | None ¹ |

¹Based on the sponsor’s input, plan experience does not show a need for long-term excess death or Covid death load adjustments. See [Mortality documentation](#) for rationale and additional information.

| | |
|---|---|
| Interest rate used to value liabilities | 5.75% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link. |
| Treatment of administrative expenses | No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets. |
