Report of Independent Auditors

The Trustees
Alamon, Inc. Employee Stock Ownership Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Alamon, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of June 30, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended June 30, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Alamon, Inc. Employee Stock Ownership Plan as of June 30, 2025 and 2024, and the changes in its net assets available for benefits for the year ended June 30, 2025, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Alamon, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Alamon, Inc. Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Alamon, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Alamon, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of June 30, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Alamon, Inc. Employee Stock Ownership Plan Notes to Financial Statements

Note 1 – Plan Description

The following brief description of the Alamon, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The sponsor company, Alamon, Inc. (the Company), established the Plan effective as of July 1, 2010. Effective July 1, 2021, the Plan was restated, and adopted the Alamon, Inc. Non-Standardized, Non-Mass Submitter Employee Stock Ownership Plan provided by Stevens & Lee, P.C. This Plan has been submitted by Stevens & Lee, P.C. (the Pre-Approved Plan) to the Internal Revenue Services (IRS), and has received an opinion letter from the IRS dated June 30, 2020 (the Opinion Letter), which states that the Pre-Approved Plan satisfies the qualification requirement of the Internal Revenue Code Section 401 and 4975(e)(7) (the Qualification Requirements) in form and there can be reliance on the Opinion Letter with regards to the Qualification Requirement. Curtis B. Cronk, William Cronk, Travis Hansen, Scott Lawrence, and Travis Williams are designated as trustees of the Plan and members of the committee designed to administer the Plan.

The Plan purchased all the outstanding shares of the Company common stock using proceeds of loans from the Company (see Note 7). As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Internal Revenue Code.

The borrowing is collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of June 30, 2025 and 2024, and for the year ended June 30, 2025, present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated common stock (allocated), and common stock not yet allocated to employees (unallocated).

Eligibility – Employees of the Company are generally eligible to participate in the Plan after completing one year of service in which they have worked at least 1,000 hours. Participants enter the Plan on the first day of the Plan year in which they meet the eligibility requirements.

Employer contributions – The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, if any, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loans.

Allocations – The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated), and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is paid.

Payment of benefits – Distributions on account of death, disability, or retirement will commence during the Plan year following the Plan year in which the participant's employment was terminated. Distributions for reasons other than death, disability, or retirement will commence during the year after the close of the Plan year in which the participant terminates with the participant's consent to such a distribution.

Alamon, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

If the participants vested balance to be distributed is greater than \$25,000, it will be paid in five substantially equal annual installments. If the participant's vested balance is \$25,000 or less, it will be paid in one lump sum. If the vested balance is \$1,000 or less, the trustees will distribute the vested balance directly to the participant in a lump sum without the participant's consent.

If a participant whose vested balance exceeds \$1,000 elects not to receive a distribution, or the participant does not return the distribution election form, then the trustee will maintain such participant's account balance until such participant requests a distribution of his/her vested balance. In no event will distributions to a terminated participant be deferred after the participant reaches age 70 ½.

Distribution of a participant's vested benefit will be made in shares of Company stock or a combination of Company stock and cash at the discretion of the administrator in a uniform and nondiscriminatory manner. The Company repurchases participant shares which have been distributed. During the years ended June 30, 2025 and 2024, the Company repurchased 12,595 and 12,338 shares, respectively, from participants at prices determined by independent appraisal.

Voting rights – The trustees of the Plan will vote all Company stock held by it as part of the Plan assets. However, as to any matter which involves the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business or similar transaction, each participant will have the right to direct the voting of any Company stock allocated to his or her account.

Plan termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts and the assets will be distributed to participants in proportion to their respective account balances.

Participant accounts and forfeitures – The Plan is a defined contribution plan under which a separate account is established for each participant. Participants are classified as either active or terminated status within the Plan. Each active participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Allocations are based on an active participant's eligible compensation, relative to total compensation. Forfeitures of terminated non-vested account balances allocated to remaining active participants at June 30, 2025 and 2024, totaled \$119,553 and \$81,269, respectively. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Alamon, Inc. Employee Stock Ownership Plan Notes to Financial Statements

Vesting – If a participant’s employment with the Company ends for any reason other than retirement, he or she will vest in the balances in his or her account based on total years of service according to the below vesting schedule:

Less than 1 year	0%
1 but less than 2 years	10%
2 but less than 3 years	20%
3 but less than 4 years	40%
4 but less than 5 years	60%
5 but less than 6 years	80%
6 or more years	100%

Put option – Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification – Diversification is offered to participants close to retirement so that they may have the opportunity to diversify the value of their investment in the Plan’s common stock into other investments outside the plan. Upon a participant reaching the age of 55 with 10 years of Plan participation, the participant has the right to diversify a portion of the employer stock held in the Plan account. In the first five years, this amount is twenty-five percent of the participant’s Company stock value. In the sixth year, the amount is up to fifty percent of the participant's Company stock value.

Note 2 – Summary of Significant Accounting Policies

Date of managements’ review – Management has considered subsequent events through December 24, 2025, the date the financial statements were available to be issued, and determined that none have any effect on the financial statements.

Basis of accounting – The financial statements of the Plan are prepared under the accrual method of accounting which is in conformity with generally accepted accounting principles.

Estimates – The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions (deductions) to (from) net assets during the reporting period. Actual results could differ from those estimates.

Alamon, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Risks and uncertainties – The Plan investments consist primarily of the Company’s common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Investment valuation and income recognition – The shares of Company stock are valued at estimated fair value. See Note 3 for discussion of fair value measurements.

Dividend income (if any) is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Unrealized appreciation includes the plan’s gains and losses on investments bought and sold as well as held during the year.

Operating expenses – The Company paid all of the expenses associated with maintaining the plan which approximated \$70,226 during the year ended June 30, 2025.

Note 3 – Fair Value Measurements

The Plan’s investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present fair value measurement information for the Plan’s investments in Company common stock.

	Fair Value Measurements at June 30, 2025			
	Level 1	Level 2	Level 3	Total
Company common stock	\$ -	\$ -	\$ 9,854,802	\$ 9,854,802
	Fair Value Measurements at June 30, 2024

Alamon, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Accounting principals generally accepted in the United States (GAAP) establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 3 fair value measurements – The fair value of the Company stock is determined by an annual independent appraisal. This appraisal was based on a combination of both the income approach and market approach to valuation. The income approach used both the discounted cash flow method and capitalization of earnings method in 2025 and only the discounted cash flow method in 2024. The appraisers also used the market approach finding the merger and acquisition method as most relevant. The merger and acquisition method applies market multiples from transactions that have taken place in the industry in which the subject Company operates. The values indicated in this method provide guidance as to the price a buyer may be willing to pay for a Company with similar attributes to the subject Company. The valuation also considers a discount for lack of marketability.

Description	Valuation Techniques	Unobservable Inputs
Company common stock	Income Approach: Discounted cash flow	Projected EBITDA and Revenue Present value factor Capitalization rate
	Capitalization of earnings	Sustainable average growth rate Capitalization rate
	Market Approach:	EBITDA multiple (2025 and 2024) Revenue multiple (2024)

The plan distributed 12,595 shares to participants requesting distributions during the year ended June 30, 2025.

Note 4 – Tax Status

The Plan is required to operate in conformity with the Internal Revenue Code (IRC) to maintain its qualification. The Plan has been amended since receiving the opinion letter dated June 30, 2020. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Notes to Financial Statements

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note 5 – Administration of Plan Assets

The Plan's assets consist of Company common stock that is held by the trustees of the Plan (in the Employee Stock Ownership Trust).

Company contributions are held and managed by the Trustees who make distributions to participants and administer the payment of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses are paid directly by the Company.
