Report of Independent Auditors

The Trustee of
Hunter-Davisson, Inc. Employee Stock Ownership Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Hunter-Davisson, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of March 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended March 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Hunter-Davisson, Inc. Employee Stock Ownership Plan as of March 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended March 31, 2025, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hunter-Davisson, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hunter-Davisson, Inc. Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hunter-Davisson, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hunter-Davisson, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of March 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Hunter-Davisson, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following description of the Hunter-Davisson, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of Plan provisions.

General – Hunter-Davisson, Inc. (the Company) established the Plan effective as of April 1, 2020. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Plan Administrator which is governed by the Company's four-member Board of Directors. An independent third-party service provider serves as the Plan's trustee.

On July 31, 2020, the Plan purchased 1,000,000 shares of the Company's common stock with a loan totaling \$7,521,749 at a price of \$7.52 per share. The Plan's total purchase was completed with proceeds from an internal loan from the Company with annual principal and interest payments of \$348,759 beginning March 31, 2021 through 2044 and a final payment of principal and interest on March 31, 2045, of \$309,858. As the Plan makes each payment of principal and interest, a proportionate percentage of Company common stock is allocated to eligible participants' accounts in accordance with the Plan Agreement and applicable regulations under the Code. The allocation to participant accounts shall be done on the last day of each Plan year.

The Plan's borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of March 31, 2025 and 2024, and for the year ended March 31, 2025, present separately the assets and liabilities and changes therein pertaining to the accounts of employees with rights in allocated common stock (allocated), and common stock not yet allocated to employees (unallocated).

Eligibility – Employees of the Company that were employed on July 31, 2020, became a participant on the later of April 1, 2020, or such employee's date of hire. Thereafter, employees of the Company are generally eligible to participate in the Plan as of the first September 30th or March 31st coinciding with or next following the date on which they attain the age of 18 and complete twelve months of service, provided they worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions – The Company is obligated to make contributions in cash or shares of Company stock to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its current loan obligations incurred to purchase Company stock. Company contributions were made in cash for the year ended March 31, 2025. Employee contributions are not permitted.

Hunter-Davisson, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Participant accounts – The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant’s account is credited as of the last day of each Plan year with an allocation of shares of the Company’s common stock released by the trustee from the unallocated account and forfeitures of terminated participants’ non-vested accounts. Only those participants who are eligible employees of the Company, who are 18 years of age, have completed at least 1,000 hours of service in the Plan year, and are employed on the last day of the Plan year will receive an allocation. Allocations are based on a participant’s eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant’s account based on the ratio of the participant’s account balance.

Vesting – Participants who are credited with at least 1,000 hours of service during any Plan year earn a year of service for vesting purposes. Service performed prior to April 1, 2020, the effective date of the Plan, is not counted towards vesting service. If a participant’s employment with the Company ends for any reason other than retirement, permanent disability, or death, they will vest in the balances in their account based on total years of service with the Company as outlined below:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payment of benefits – Benefits are recorded when paid. No distributions from the Plan are made until a participant retires, dies (in which case payment shall be made to his or her beneficiary or, if none, his or her legal representatives), becomes permanently disabled, or otherwise terminates employment with the Company. Distributions due to death, disability, or retirement with a vested balance of \$5,000 or less are made in a lump sum in the Plan year following the event. Distributions due to death, disability, or retirement with a vested balance of more than \$5,000 will be paid in substantially equal annual installments not to exceed five years with a minimum installment of \$5,000. Distributions for other separations from service commence no later than the end of the sixth Plan year following the separation from service and are made in one lump sum, five annual installments, or combination of these methods as determined by the Company. Distributions for other separations with a vested balance of up to \$5,000 are paid in a lump sum. Distributions for other separations with a vested balance of more than \$5,000 will be paid in substantially equal annual installments not to exceed five years with a minimum installment of \$5,000. The amount to be distributed is based upon the immediately preceding valuation date. Distributions will normally be made in cash.

Forfeitures – Forfeitures represent the non-vested portion of terminated participants’ account balances. Plan forfeitures are reallocated to the accounts of remaining participants as of the allocation date of the Plan year in which the forfeiture occurs based upon the relation of the participant’s eligible compensation to total eligible compensation for the Plan year. Forfeitures totaling \$23,721 were allocated to participants during the year ended March 31, 2025.

Hunter-Davisson, Inc. Employee Stock Ownership Plan Notes to Financial Statements

Diversification – Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to their account, reduced each year by any previous diversification allocations. In the sixth year, the percentage can be increased to 50 percent. Participants who elect to diversify receive a cash distribution or a transfer to their 401(k) account in the amount they wish to diversify based on the fair value of the shares as of the preceding year. The election to diversify is made within the period beginning on the day after the end of the Plan year in the election period and ending no later than the end of the Plan year in which the diversification form is provided.

Voting rights – For certain corporate matters as determined by the Plan Administrator, each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the trustee prior to the time that such rights are to be exercised. If for any reason participants do not direct the trustee as to the voting of any shares of Company common stock, the trustee has discretion in its vote for any unallocated shares and any allocated shares for which no voting instructions have been received. The trustee is required to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Allocations – The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to the accounts of employees with rights in allocated stock (allocated) and stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment valuation – The shares of the Company common stock are reported at fair value based on an annual independent appraisal. Fair value is the price that would be received to sell an asset or paid to transfer a liability (the “exit price”) in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. The net appreciation in fair value of Company common stock consists of both the realized gains and losses and unrealized appreciation and depreciation of allocated and unallocated Company common stock.

Payment of benefits – Benefits are recorded when paid.

Hunter-Davisson, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. As provided in the Plan Agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid these expenses and covered approximately \$98,000 for the year ended March 31, 2025.

Subsequent events –Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through January 7, 2026, which is the date the financial statements were available to be issued.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for ESOP shares measured at fair value. There have been no changes in the techniques used at March 31, 2025 and 2024.

Hunter-Davisson, Inc. common stock – The fair value is based upon an independent appraisal. This appraisal was based on a combination of the market and income valuation approaches. The appraiser considered historical and projected cash flow and net earnings, weighted average cost of capital, market comparables, and applicable discounts and premiums.

Name	Fair Value	Valuation Technique	Unobservable Inputs
Hunter-Davisson, Inc. common stock	\$ 6,730,000	Income	EBITDA Net income Weighted average cost of capital Discount rate Discount for lack of marketability
		Market	Public comparables Revenue multiple EBITDA multiple Discount for lack of marketability

Hunter-Davisson, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

The valuation process involves the selection of an appraiser under contract for a term of three years with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of the estimated per share value that a participant will receive upon distribution.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose the fair value hierarchy of the Plan's assets by level as of March 31, 2025 and 2024:

Investment Assets at Fair Value as of March 31, 2025			
Level 1	Level 2	Level 3	Total
Hunter-Davisson, Inc. common stock	\$ -	\$ -	\$ 6,730,000
			\$ 6,730,000
Investment Assets at Fair Value as of March 31, 2024			
Level 1	Level 2	Level 3	Total
Hunter-Davisson, Inc. common stock	\$ -	\$ -	\$ 5,910,000
			\$ 5,910,000

There were no purchases or issuances of Hunter-Davisson, Inc. common stock during the Plan year ended March 31, 2025.

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

Note 5 – Loan Payable

In 2020, the Plan entered into a \$7,521,749 term loan agreement with the Company. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year's payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 40,179 shares being released and allocated for the Plan year ended March 31, 2025.

Hunter-Davisson, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

The agreement provides for the loan to be repaid over twenty-five years at 1.17% interest, with maturity in 2045. The following table is a summary of future maturities of the loan payable:

<u>March 31,</u>	
2026	\$ 275,349
2027	279,968
2028	283,244
2029	286,557
2030	289,910
Thereafter	<u>4,739,904</u>
	<u>\$ 6,154,932</u>

Note 6 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 17, 2021, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan Administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 8 – Related-Party and Party-in-Interest Transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related-party and party-in-interest transactions. As described in Note 2, the Company pays substantially all plan administrative expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Notes to Financial Statements

Note 9 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA. Upon termination of the Plan, the Plan Administrator directs the trustee to pay all liabilities and expenses of the Plan and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary to repay the loan.

Subsequently, the interest of each participant in the trust fund will be distributed to such participant or their beneficiary at the time prescribed by the Plan Agreement and the IRC.

Note 10 – Reconciliation to Form 5500

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.
