Independent Auditors' Report

The Plan Administrator
Dean College Defined Contribution Retirement Plan for Faculty and Administration
Franklin, Massachusetts

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of the Dean College Defined Contribution Retirement Plan for Faculty and Administration (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of March 1, 2025 and December 31, 2024, the related statement of changes in net assets available for benefits for the period January 1, 2025 through March 1, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of March 1, 2025 and December 31, 2024 and for the period January 1, 2025 through March 1, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agree to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

DEAN COLLEGE DEFINED CONTRIBUTION RETIREMENT PLAN FOR FACULTY AND ADMINISTRATION

Notes to Financial Statements

Note 1 - Description of Plan

The following description of the Dean College Defined Contribution Retirement Plan for Faculty and Administration (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan’s provisions.

General and Plan Termination

The Plan was a cash deferred defined contribution 403(b) Plan covering all employees except students and non-resident aliens (“Participants”) of Dean College (the “Employer”). Participants were eligible to participate in the Plan upon hire. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Substantially all investments were participant-directed.

In December 2024, the College’s Board of Trustees approved the merger of all plan assets into the New England Independent Colleges & Universities Multiple Employer Plan (NEICU MEP). Accordingly, all assets were legally transferred to that plan on March 1, 2025.

Participant Contributions

Participants could elect to defer up to 100% of their annual compensation to the Plan, subject to certain limitations, as defined by the Plan. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Subject to approval by the Plan administrator, participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans (“Participant Rollovers”).

Employer Contributions

Discretionary Matching Contributions

The Employer, at its discretion, could make a matching contribution to the Plan. For the period January 1, 2025 through March 1, 2025, the Employer made a discretionary matching contribution in the amount of 50% of a participant’s elective contributions up to 6% of a participant’s compensation contributed to the Plan. A participant was entitled to Employer matching contributions after the completion of one year of service (defined as 1,000 hours of service during the Plan year) and the attainment of age 21.

Employer Discretionary Non-Elective Contributions

The Employer could elect to contribute a non-elective contribution to eligible participants. For the period January 1, 2025 through March 1, 2025, the Employer did not make a contribution to the Plan. A participant was entitled to Employer non-discretionary contributions after the completion of one year of service (defined as 1,000 hours of service during the Plan year), the attainment of age 21, and employed on the last day of the Plan year.

DEAN COLLEGE DEFINED CONTRIBUTION RETIREMENT PLAN FOR FACULTY AND ADMINISTRATION

Notes to Financial Statements

Note 1 - Description of Plan (Continued)

Employer Contributions (Continued)

Employer Supplemental Contributions

The Employer could also elect to make supplemental contributions to the Plan as determined by its Board of Trustees. Allocation of any Employer supplemental contribution was based on the ratio that each qualifying participant's compensation for the Plan year bears to the total compensation of all qualifying participants for the Plan year. For the period January 1, 2025 through March 1, 2025, there was no supplemental contribution made.

Participant Accounts

Each Participant's account was credited with the Participant's contributions and a pro rata allocation of (a) the Plan's investment earnings/losses, (b) the Employer contributions and (c) charged with an allocation of certain expenses. Allocations were based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the Participant's vested account balance.

Vesting

Participants were immediately vested in all deferral contributions, rollovers and Employer contributions plus actual earnings thereon.

Forfeitures

The forfeited non-vested accounts totaled \$0 at March 1, 2025 and December 31, 2024. Periodically, these amounts have consisted of excess contributions and have been used to reduce future Employer contributions and administrative expenses. No forfeitures were used to offset Employer contributions or administrative expenses during the period January 1, 2025 through March 1, 2025.

Payment of Benefits

A participant could receive the vested balance from his or her account upon the earliest of the following events: termination of service, death, retirement, disability, or termination of the Plan. A participant could withdraw from their rollover accounts at any time. In-service withdrawals from the Participant's account were available upon reaching age 59½. Participants could also be eligible for a qualified reservist distribution. Participants could elect to receive their benefit payments as a lump sum, partial payment, installment payments or as an annuity based on the relevant funding vehicle. Joint and survivor annuity requirements apply. Hardship withdrawals were available from the Participant's voluntary elective deferral accounts, exclusive of earnings on such contributions, in order to meet a Participant's immediate and heavy financial need.

DEAN COLLEGE DEFINED CONTRIBUTION RETIREMENT PLAN FOR FACULTY AND ADMINISTRATION

Notes to Financial Statements

Note 1 - Description of Plan (Continued)

Notes Receivable from Participants

Participants could borrow a minimum of \$1,000 to a maximum amount equal to the lesser of \$50,000 or 50% of the vested balance of their accounts. Loans are subject to the terms of the funding vehicles. The loans were secured by the vested balance in the Participant's account and bore a reasonable rate of interest. Principal and interest were paid directly to the custodian by the Participant.

Plan Administration

The Employer was the Plan administrator and had the authority to appoint person(s) or entities to carry out the operation of the Plan. The recordkeeper and custodian was Voya Retirement Insurance and Annuity Company ("Voya"). All participant accounts with TIAA and CREF were to be maintained until distributions were requested and paid in accordance with the Plan's provisions; however, all contributions into the Plan were only remitted to Voya in 2025.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments, Investment Valuation and Income Recognition

Investments other than fully benefit-responsive investment contracts were reported at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value was the relevant measurement attribute for fully benefit-responsive investment contracts because contract value was the amount participants would receive if they were to initiate permitted transactions under terms of the Plan.

Purchases and sales of securities were recorded on a trade-date basis. Interest was recorded when earned. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the period ended.

The Plan had benefit-responsive and non benefit-responsive investment contracts with TIAA and CREF and Voya. TIAA and CREF and Voya maintained the contributions in a general account. These accounts were credited with earnings on the underlying investments and charged for Participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

DEAN COLLEGE DEFINED CONTRIBUTION RETIREMENT PLAN FOR FACULTY AND ADMINISTRATION

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Unit Values

Individual participant accounts for the pooled separate investment and variable annuity accounts were maintained on a unit value basis. Participants did not have beneficial ownership in the specific underlying securities or other assets in the funds, but did have an interest therein represented by units which were valued daily. The funds earned dividends and interest which were automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund were converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts were charged or credited with the number of units properly attributable to each participant.

Administrative Expenses

The Plan's expenses were paid by the Plan and/or the Employer, as provided by the Plan document. Expenses that were paid directly by the Employer were excluded from these financial statements. In addition, certain investment related expenses were included in net appreciation of fair value of investments presented in the accompanying Statement of Changes in Net Assets Available for Benefits.

Benefits Paid

Benefits were recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America required Plan management to make estimates and assumptions that affected the reported amounts and disclosures. Accordingly, actual results could vary from the estimates that were used.

Contributions

Contributions from Plan participants and the Employer matching contributions were recorded in the period in which the employee contributions were withheld from compensation.

Subsequent Events

The Employer has evaluated subsequent events through January 15, 2026, the date the financial statements were available to be issued. No matters of significance were identified for disclosure during this evaluation.

Notes to Financial Statements

Note 3 - Information Certified by Insurance Companies

Plan investments were held by TIAA and CREF and Voya as of December 31, 2024. The insurance companies have certified the fair and contract values of investments as of December 31, 2024 and investment transactions during period January 1, 2025 through March 1, 2025. Investment transactions included interest and dividends and net appreciation in fair value of investments. Information related to notes receivable from participants has also been derived from information certified by the insurance companies.

Note 4 - Fair Value Measurements

The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level II – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III – Inputs that are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

DEAN COLLEGE DEFINED CONTRIBUTION RETIREMENT PLAN FOR FACULTY AND ADMINISTRATION

Notes to Financial Statements

Note 4 - Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024.

TIAA Traditional Annuity

The TIAA Traditional Annuity was a fixed rate guaranteed annuity contract available as an investment option to Plan participants. Each contract was fully and unconditionally guaranteed by TIAA. Non benefit-responsive contracts in the TIAA Traditional Annuity were offered through a variety of contract types, including Retirement Annuities (RA) and Group Retirement Annuities (GRA). The type of contract through which a participant invests in the TIAA Traditional Annuity determined the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants chose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchased a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium was paid. The participant's principal, plus a specified minimum rate of interest, was guaranteed by TIAA's claim-paying ability. The TIAA Traditional Annuity also provided the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remained in effect for the declaration year, which began each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest was not guaranteed for future years. Together, the guaranteed minimum and additional amounts made up the crediting interest rate. For RA and GRA contracts, the crediting interest rate was 5.25% as of December 31, 2024.

RA and GRA contracts were non benefit-responsive contracts reported at fair value. The RA contract did not allow lump-sum cash withdrawals, and transfers must be spread over 10 annual installments. With the GRA contracts, lump-sum withdrawals were available within 120 days of termination of employment and were subject to a 2.50% surrender charge. All other withdrawals and transfers from RA and GRA contracts must be spread over 10 annual installments (five annual installments for withdrawals after termination of employment). All other withdrawals and transfers from RC contracts must be spread over 84 monthly installments.

Liquidity restrictions apply to the RA and GRA contracts that could impact the value realized upon exiting the contract. The redemption provisions of the fixed rate annuities vary depending on the nature of the contract option chosen by the participant.

Notes to Financial Statements

Note 4 - Fair Value Measurements (Continued)

TIAA Real Estate

The account was a pooled separate investment account that generally invests in real estate properties and real estate-related investments. The account's value was principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings were valued principally utilizing external appraisals, which were estimates of property values based on a professional's opinion. The account sometimes holds securities as well, and these securities were generally priced using values obtained from independent pricing sources.

The fair value of the Plan's interest in the TIAA Real Estate Account (a pooled separate account) was based on the fund's daily Net Asset Value ("NAV"), which was considered by Plan management to be the best approximation of fair value. This investment was valued at NAV. The unit value of the fund is calculated daily and available to Plan administrators and client investors on TIAA and CREF's website. There were no unfunded commitments from participants in the Plan who invest in this account. The pooled separate account could be redeemed quarterly with a day's notice.

CREF and TIAA Access Variable Annuities

The accounts invest principally in mutual funds, equity securities, fixed income instruments and short-term investments in accordance with each portfolio's investment objectives. Account investments were primarily valued using market quotations or prices obtained from independent pricing sources that could employ various pricing methods to value the investments including matrix pricing.

The fair values of accumulation units held by the Plan in CREF accounts were based on each account's daily NAV, which was considered by Plan management to be the best approximation of the fair value hierarchy. Data for NAVs were available daily to Plan administrators and client investors on TIAA and CREF's website and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings were primarily valued using market quotations or prices obtained from independent pricing sources. There were no unfunded commitments from participants in the Plan who invest in these accounts. These investments could be redeemed daily, with a day's notice.

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that were registered with the Securities and Exchange Commission. These funds were required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Note 4 - Fair Value Measurements (Continued)

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

Description	Assets at Fair Value as of December 31, 2024			
	Level I	Level II	Level III	Total
Mutual funds	\$ 19,002,541	\$ -	\$ -	\$ 19,002,541
Fixed rate annuities	-	-	600,108	600,108
Total investments in the fair value hierarchy	\$ 19,002,541	\$ -	\$ 600,108	\$ 19,602,649
Investments measured at NAV practical expedient (a)				5,155,686
Total investments at fair value				\$ 24,758,335

(a) In accordance with ASC Subtopic 820-10, Fair Value Measurements, certain investments that were measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified within the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy amounts to amounts presented in the Statements of Net Assets Available for Benefits.

For the period January 1, 2025 through March 1, 2025 and for the Plan year ended December 31, 2024, there were purchases of \$4,222 and \$29,434, respectively, attributable to Level III investments in the fair value hierarchy.

There were no transfers in or out of Level III investments during the period January 1, 2025 through March 1, 2025 and for the Plan year ended December 31, 2024.

Quantitative Information about Significant Unobservable Inputs Used in Level III Fair Value Measurements

The following table represents the Plan's Level III financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs:

Description	Fair Value 12/31/2024	Principal Valuation Techniques	Significant Unobservable Inputs
TIAA Traditional Annuity - fixed rate annuities	\$ 600,108	Discounted cash flow and theoretical transfer (exit value)	Risk-adjusted discount rate applied

Investments Measured Using the Net Asset Value Practical Expedient

The following table summarizes investments for which fair value was based on NAV per share as of December 31, 2024:

Description	Fair Value 12/31/2024	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Variable rate annuities	\$ 4,971,379	\$ -	Daily	1 day

	<u><u>\$ 5,155,686</u></u>	<u><u>\$ -</u></u>		

Note 5 - Fully Benefit-Responsive Investment Contracts

The following is a description of the investments and valuation methodologies for fully benefit-responsive investment contracts:

TIAA Traditional Annuity

SRA and GSRA contracts were also traditional annuity contracts as discussed in Note 4. The SRA and GSRA contracts had no liquidity restrictions and were therefore fully benefit-responsive contracts reported at contract value. When a participant's accumulation in the TIAA Traditional Annuity was converted to a lifetime payout annuity, the present value of the stream of payments was equal to the accumulated balance, and the entire amount was recorded as a distribution in the Statement of Changes in Net Assets Available for Benefits. For the GSRA and SRA contracts, the crediting interest rate was 4.50% as of December 31, 2024.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer. Such interest rates were periodically reviewed for resetting.

The Plan's ability to receive amounts due was dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations could be affected by future economic and regulatory developments.

Note 5 - Fully Benefit-Responsive Investment Contracts (Continued)

TIAA Traditional Annuity (Continued)

Certain events could limit the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan document (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

Voya Fixed Plus Account III

The Plan had a fully benefit-responsive group annuity contract with Voya. Voya maintained the contributions in general accounts. The accounts were credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. A crediting interest rate was established for amounts invested in the fixed account. The crediting interest rate for the period January 1, 2025 through March 1, 2025 was 1.72%. Participants could direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at contract value. Contract value represented contributions plus credited interest less participant withdrawal and fees. There were no reserves against contract value for credit risk of the contract issuer or otherwise.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA.

The following table represents the contract values of the fully benefit-responsive investment contracts as of December 31, 2024:

<i>Description</i>	<i>Fair Value 12/31/2024</i>
TIAA Traditional SRA and GSRA Fixed Rate Annuities	\$ 483,592
Voya Fixed Plus Account III	<u>958,227</u>

Note 6 - Risks and Uncertainties

The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market and credit risks. Market risks include global events such as an international conflict, which could impact the value of investment securities. Due to the level of risk associated with certain investment securities at December 31, 2024 and through the date of the merger, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 7 - Related-Party Transactions and Party-In-Interest Transactions

Certain Plan investments were held by TIAA and CREF, VALIC and Voya, the insurance companies and recordkeepers of the Plan, and were considered exempt party-in-interest transactions. Administration and other fees paid by the Plan during the period January 1, 2025 through March 1, 2025 to the insurance companies and other service providers amounted to \$10,955.

Note 8 - Tax Status

The Plan had adopted the Angell Pensions Group Inc., Volume Submitter 403(b) Plan Document that received an IRS opinion letter dated March 31, 2017, which stated that the Plan was acceptable under Section 403(b) of the Internal Revenue Code (the "Code") for use by eligible Employers for the benefit of their employees. The Plan administrator believed that the Plan was designed and being operated in compliance with the applicable requirements of Section 403(b) of the Code, and therefore, believed that the Plan was qualified, and the related accounts were tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
