INDEPENDENT AUDITOR'S REPORT

To the Trustee
Ventura Manufacturing, Inc. Employee Stock Ownership Plan

Opinion on the Financial Statements

We have audited the financial statements of the Ventura Manufacturing, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year then ended and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Ventura Manufacturing, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023 and the changes in net assets available for benefits for the year ended December 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Ventura Manufacturing, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Ventura Manufacturing, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Ventura Manufacturing, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Ventura Manufacturing, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

VENTURA MANUFACTURING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Note 1 - Description of the Plan

Ventura Manufacturing, Inc. (Company) established the Plan effective July 1, 2004. The Plan is established as a defined contribution plan. The Plan is a noncontributory employee stock ownership plan (ESOP), designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the Company. The following description of Ventura Manufacturing, Inc. Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Administration

The Plan Sponsor and named Plan Administrator is Ventura Manufacturing, Inc. The Plan Administrator is responsible for oversight of the Plan. The Trustee is the named fiduciary under the Plan and is an officer of the Company. The Company has also retained OneAmerica Financial Company to provide participant recordkeeping and administration services for 2024.

Eligibility

The Plan covers all employees of the Company, except those who are covered by a collective bargaining agreement that does not provide for participation in the Plan, leased employees, employees who are employed by an affiliated employer that has not adopted the Plan, non-resident aliens with no U.S. income, or independent contractors. All eligible employees must attain 21 years of age and have completed at least one year of service (including 1,000 hours), with the entry date being January 1 or July 1 following the meeting of these requirements.

Contributions

Contributions to the Plan are discretionary, as determined by the Board of Directors. Contributions are due by the last day of the plan year and are paid to the Trustee not later than the date for filing of the Company's Federal income tax return.

The Plan may not accept rollover contributions.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant for the purpose of allocating Company contributions, forfeitures, and Plan earnings or losses. Allocations of the Company's contribution and any plan forfeitures are based on the participants' eligible compensation to the total eligible compensation of all eligible participants. Allocations of investment income or loss and fees are based on the participants' account balance to the total balance of all participant accounts. Investment income or loss is allocated at the end of the plan year.

VENTURA MANUFACTURING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Vesting

Vesting of participant accounts is based on years of credited service. A participant is vested gradually beginning with 20% after two years and is 100% vested after six years of service. In instances of death, disability, or upon reaching age 65, a participant's account will automatically be 100% vested regardless of years of service.

Forfeitures

The non-vested portion of terminated participants' accounts plus earnings thereon are forfeited and allocated to remaining participants or used to pay reasonable administrative expenses. Forfeitures of terminated non-vested account balances allocated to remaining participants at December 31, 2024 totaled \$4,422. There were no unallocated forfeitures at December 31, 2024 and 2023.

Payment of Benefits

On termination of service due to death, disability, or retirement after age 65, a participant may request a distribution during the first Plan year following the end of the Plan year in which the termination occurred or in any subsequent Plan year.

On termination of employment for any other reason, a participant may request a distribution during the sixth Plan year following the end of the Plan year in which the termination occurred or in any subsequent Plan year.

Distributions of vested benefits of \$5,000 or under will be made in a single lump-sum payment. If the vested benefits are more than \$5,000, payment will be made in substantially equal annual installments over a period of five years. However, if the vested benefits are less than \$25,000, the participant may request a single lump-sum payment instead of installment payments.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a five-year period. In each of the first five years, a participant may diversify up to 25% of his or her account, less any shares previously diversified. In the last year, the participant may diversify up to 50% of the value of shares allocated to their account. Participants who elect to diversify receive a cash distribution.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Company can pay for the purchase over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

VENTURA MANUFACTURING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The participants have granted their rights to vote to the Trustee. The plan Trustee is permitted to vote on behalf of all shares.

Expenses

The Plan's administrative expenses, including an allocation of salaries related to Plan administration, and accounting and legal costs, are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Expenses that are paid directly by the Company are excluded from these financial statements. Administrative expenses related to investments are presented separately on the statement of changes in net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). Contributions and earnings are recorded when they are earned. Expenses are recorded in the accounting period in which they are incurred.

Cash

The Company has cash on deposit at one financial institution. The balance is insured by the Federal Deposit Insurance Corporation. From time to time during the year, the Company may have cash deposited in excess of the federally insured limit.

Investment Valuation and Income Recognition

The common shares of the Company are valued at fair value on December 31, 2024 and 2023. Fair value is determined by independent appraisal. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net depreciation in the fair value of common stock includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including January 5, 2026, which is the date the financial statements were available to be issued.

VENTURA MANUFACTURING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

The valuation of Ventura Manufacturing, Inc.'s common stock represents a significant estimate. The estimate is based on projected future cash flows and other relevant information, and management believes that actual results will not differ significantly from estimates.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Ventura Manufacturing, Inc. Common Stock: Valued by independent appraisal. The valuation was completed using two approaches (income approach and market approach) in determining the value. The income approach included the discounted cash flow method based on an estimate of future free cash flow using the weighted average cost of capital. The market approach included using valuation multiples from an analysis of guideline public companies and adjusting as necessary to the Company's projected results.

The methods described above may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

VENTURA MANUFACTURING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Investments consist solely of Company common stock. The Company common stock held by the Plan as of December 31, 2024 and 2023 is classified as a Level 3 investment. The independent appraised fair value per share of Ventura Manufacturing, Inc. common stock at December 31, 2024 and 2023 was \$958 and \$1,203, respectively.

There were no purchases or sales of Level 3 investments, or transfers of assets between levels during 2024. The change in value of the Plan's Level 3 assets reflects the net depreciation in the fair value of those assets based upon annual valuation.

Note 4 - Party in Interest Transactions

OneAmerica Financial Company is the Plan's record keeper and also provides administrative functions to the Plan. The Plan's assets, which consist principally of sponsor Company common shares, are held by the trustee. Transactions involving these investments are considered party-in-interest transactions; however, these transactions are not considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan at any time by action of the Board subject to the provisions of ERISA. In the event of plan termination, participants will be vested 100% in the balances in their accounts. Custodial fees and other operating expenses incurred after the termination date may, at the discretion of the Plan Sponsor, be paid by the Plan.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated July 7, 2014, stating that the Plan is qualified, under the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. There have been no amendments to the Plan since receipt of this determination letter.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. As of December 31, 2024, the Plan Administrator believes that the Plan has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently being examined.

Note 7 - Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
