Independent Auditor's Report

To the Plan Administrator
Atlantic Track & Turnout Co.
Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Atlantic Track & Turnout Co. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of March 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended March 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of March 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended March 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) as of March 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Atlantic Track & Turnout Co. Employee Stock Ownership Plan

Notes to Financial Statements

March 31, 2025

Note 1 - Description of Plan

The following description of the Atlantic Track & Turnout Co. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

On April 1, 1989, Atlantic Track & Turnout Co. (the "Company" or "Plan Sponsor") formally adopted the Plan. Members of the Company's management act as trustees of the Plan (the "Trustees"). Under the terms of the Plan, the Company may make an annual contribution of cash or common stock of the Company to eligible employees for an amount approved by the Board of Directors. The contributions of stock are valued at the estimated fair value on the last day of the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Trustees are responsible for oversight of the Plan.

Eligibility

Employees of the Company and its participating subsidiaries are generally automatically eligible to participate in the Plan if they (i) have one year of service with the Company, provided they worked at least 1,000 hours during such Plan year, (ii) have attained the age of 21, and (iii) are not covered by a collective bargaining agreement. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such Plan year.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of the shares of the Company's common stock released by the Trustees from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

A participant vests 20% after two years of service and 20% for each subsequent year of continuous service. A participant becomes fully vested after six years of service. In addition, a participant becomes fully vested once they have attained the age of 65 or the fifth anniversary of the year in which they commenced participation in the Plan, whichever occurs later. The participant may also become fully vested automatically if employment is terminated because of death or disability.

Payment of benefits

Participants who separate service with the Company because of death, disability or retirement may start receiving distribution during the Plan year in which the participant separated from service as follows: a) participants with account values of \$15,000 or less may receive a lump sum distribution or b) participants with account values exceeding \$15,000 will receive substantially equal annual installments over a period of five years; provided, however, that if the value of such accounts exceeds \$1,105,000, the term of the distribution shall be five years, plus one year (but not more than five additional years) for each \$220,000 by which the value of such accounts exceeds \$1,105,000. Effective April 1, 2024, a) participants with account values of \$25,000 or less may receive a lump sum distribution or b) participants with account values exceeding \$25,000 will receive substantially equal annual installments over a period of five years; provided, however, that if

Atlantic Track & Turnout Co. Employee Stock Ownership Plan

Notes to Financial Statements

the value of such accounts exceeds \$1,380,000, the term of the distribution shall be five years, plus one year (but not more than five additional years) for each \$275,000 by which the value of such accounts exceeds \$1,380,000. In the event that the participant separates from the Company in any way other than death, disability or retirement, then the Plan benefits will commence as follows: a) participants with account values of \$25,000 or less, distribution shall be made in a lump sum as soon as administratively feasible after the close of the Plan year in which the participant was terminated or b) participants with account values exceeding \$25,000 will follow the same payout as retired participants that exceed \$25,000; however, distributions of the participant's account will commence after the end of the second Plan year following the Plan year in which the employment was separated. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2025, the Company repurchased from participants 179,641 shares at prices determined from the independent appraisal. Effective April 1, 2018, the Plan was amended as follows: If a participant's nonforfeitable account balance is less than \$1,000, the participant will have an involuntary distribution after the separation in service with the Company. If a participant's nonforfeitable account balance exceeds \$1,000 but does not exceed \$5,000 after separation of services with the Company, this will be deemed a mandatory distribution. If a participant does not make an election for distributions then this mandatory distribution of the participant's nonforfeitable account balance will be automatically rolled into an individual retirement account, specifically for that participant. Effective April 1, 2024, the Plan was amended as follows: If a participant's nonforfeitable account balance is less than \$1,000, the participant will have an involuntary distribution after the separation in service with the Company. If a participant's nonforfeitable account balance exceeds \$1,000 but does not exceed \$7,000 after separation of services with the Company, this will be deemed a mandatory distribution. If a participant does not make an election for distributions then this mandatory distribution of the participant's nonforfeitable account balance will be automatically rolled into an individual retirement account, specifically for that participant.

Voting rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustees prior to the time that such rights are to be exercised. The Trustees are not permitted to vote for any allocated shares for which instructions have not been given by a participant.

Termination

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon termination of the Plan, the Plan administrator directs the Trustees to pay all liabilities and expenses of the ESOP. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Internal Revenue Code (the "IRC").

Put option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Notes to Financial Statements

March 31, 2025

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over an 11-year period. In each of the first five years, a participant may diversify up to 25% of the value of his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Participant accounts and forfeitures

Employer contributions and forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. At March 31, 2025 and 2024, forfeitures of terminated nonvested account balances allocated to remaining participants amounted to \$122,865 and \$60,923, respectively. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition

The common shares of the Company are valued at estimated fair value as of March 31, 2025 and 2024. See Note 4 for discussion of fair value measurements. Fair value of the Company's common stock as of each Plan year is determined by an independent appraisal subsequent to the end of the Plan year. The fair market value of the Company's stock on March 31, 2025 and 2024 was determined to be \$10.85.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through January 15, 2026, the date the financial statements were available to be issued.

Atlantic Track & Turnout Co. Employee Stock Ownership Plan

Notes to Financial Statements March 31, 2025

Note 3 - Investments

The Plan's investments consist of the following:

	<u>2025</u>	<u>2024</u>
Sponsor Company common stock		
Number of shares	<u>2,463,655</u>	<u>2,463,655</u>
Cost	<u>\$ 5,111,193</u>	<u>\$ 5,111,193</u>
Fair value	<u>\$ 26,730,662</u>	<u>\$ 26,730,662</u>

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under Financial Accounting Standards Board issued Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2025 and 2024.

The fair value of the Company's common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market

Atlantic Track & Turnout Co. Employee Stock Ownership Plan

Notes to Financial Statements March 31, 2025

and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of the Company's assets and liabilities.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Interest-bearing accounts: Valued at fair value by discounting the related cash flows based on current yield of similar instruments with comparable duration considering the creditworthiness of the issuer.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2025 and 2024:

	Assets at fair value as of March 31, 2025			
	Level 1	Level 2	Level 3	Total
Sponsor Company common stock	\$ -	\$ -	\$ 26,730,662	\$ 26,730,662
Interest-bearing accounts	-	95,358	-	95,358
Total assets, at fair value	\$ -	\$ 95,358	\$ 26,730,662	\$ 26,826,020

	Assets at fair value as of March 31, 2024			
	Level 1	Level 2	Level 3	Total
Sponsor Company common stock	\$ -	\$ -	\$ 26,730,662	\$ 26,730,662
Interest-bearing accounts	-	51,574	-	51,574
Total assets, at fair value	\$ -	\$ 51,574	\$ 26,730,662	\$ 26,782,236

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2025 and 2024.

The Sponsor Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table:

Instrument	2025	2024	Principal valuation technique	Unobservable inputs
Sponsor Company common stock	\$ 26,730,662	\$ 26,730,662	Discounted cash flows	Weighted average cost of capital, discount rate, discount for lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the

Atlantic Track & Turnout Co. Employee Stock Ownership Plan

Notes to Financial Statements

March 31, 2025

Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustees, review in detail, discuss and approve.

Note 5 - Tax status

The Internal Revenue Service (the "IRS") has determined and informed the Company by letter dated December 28, 2011 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Related party and party-in-interest transactions

Certain plan investments are shares of Atlantic Track & Turnout Co. The Plan held 2,463,655 shares of Atlantic Track & Turnout Co. common stock at both March 31, 2025 and 2024, valued at \$26,730,662.

Note 7 - Administration of Plan assets

The Plan's assets, which consist primarily of common stock of the Company, are held by the Plan's Trustees. Company contributions are held and managed by the Trustees, which invest cash received and make distributions to participants.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses of the Plan are paid by the Company but certain expenses are paid by the Plan. During 2025, there was \$165 of administrative expenses paid by the Plan.

Note 8 - Risks and uncertainties

Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with the Plan's investments, it is at least reasonably possible that changes in the value of the Plan's investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
