## Independent Auditor's Report

Trustees, Plan Administrator and Participants of  
Rice Fruit Company Retirement Plan  
Gardners, Pennsylvania

### **Opinion**

We have audited the accompanying financial statements of Rice Fruit Company Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of June 30, 2025 and 2024 and the related statement of changes in net assets available for benefits for the year ended June 30, 2025 and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of June 30, 2025 and 2024, and the changes in net assets available for benefits for the year ended June 30, 2025 in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Rice Fruit Company Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Rice Fruit Company Retirement Plan's ability to continue as a going concern for one year from issuance.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Rice Fruit Company Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Rice Fruit Company Retirement Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

#### **Other Matter – Supplemental Schedules Required by ERISA**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year and schedule of reportable transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

## **NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2025 AND 2024**

### **1. General description of Plan and summary of significant accounting policies:**

The following description of the Rice Fruit Company Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

#### *General:*

The Plan is a noncontributory defined contribution plan of the Rice Fruit Company (Company) and was established on July 1, 1985. The Plan is subject to the provisions of ERISA.

#### *Eligibility:*

Employees are eligible to participate once they have attained one year of service (in which a minimum of 1,000 hours were completed), and may enter the Plan on the first day of the Plan year closest to the date the employee has met the eligibility requirements. Union and leased employees are excluded from participating in the Plan.

#### *Contributions:*

The Company may contribute a discretionary profit sharing contribution determined by the Board of Directors. The contribution will be allocated based upon the ratio that each participant's compensation (as defined) bears to the compensation of all eligible participants. In order to share in the allocation of the discretionary contribution, a participant must complete 1,000 hours of service. Participants not actively employed at the end of the Plan year will not share in the discretionary contribution, regardless of service. These requirements will be waived in the event of death, disability or the attainment of normal retirement age. For the years ended June 30, 2025 and 2024, the Company contributed a discretionary profit sharing contribution equal to 5% of each eligible participant's compensation. This amount is recorded as a receivable on the statement of net assets available for benefits as of June 30, 2025 and 2024, respectively, and will be paid in full during the following year.

Eligible employees may also contribute amounts representing distributions from other qualified defined benefit or contribution plans, subject to limitations. Effective September 11, 2019, the Plan was amended and no longer permits rollover contributions.

#### *Participant accounts:*

Each participant's account is credited with the Company's discretionary profit sharing contribution, as well as allocations of Plan earnings or losses and forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings/losses or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### *Investment options:*

The Company directs the investment of the Company's contribution into a registered investment company (mutual fund) offered by the Plan.

# **RICE FRUIT COMPANY RETIREMENT PLAN**

## **NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2025 AND 2024**

### **1. General description of Plan and summary of significant accounting policies (continued):**

#### *Vesting:*

Vesting in the Company's contribution is based on years of continuous service. The Employer's contribution portion of their account, plus earnings thereon, vests over a six-year period, becoming 20% vested after two years of credited service and increasing 20% per year of service thereafter. Regardless of the vesting schedule, participants will become fully vested upon reaching the normal retirement age, death or total and permanent disability.

#### *Payment of benefits:*

Benefit payments may be in the form of lump sums only and are payable upon termination of employment, death or retirement at age 62. Benefit payments for reasons other than death and retirement are to be distributed as soon as administratively feasible after all contributions have been allocated relating to the Plan year in which the participant's account balance becomes distributable. Benefit payments due to death are to be paid as defined in the Plan. Retirement benefit payments may be paid immediately upon meeting eligibility requirements and upon request.

The benefit payments are to be paid in an amount equal to the value of the participant's vested interest in his or her account as of the end of the prior Plan year. The Plan shall make automatic distributions of vested account balances that are less than \$5,000 in accordance with Plan provisions. Distributions from a participant's rollover account may be made at any time. In-service withdrawals at age 62 are also permitted, subject to provisions defined in the Plan document. Hardship withdrawals are not permitted.

Benefit payments to participants are recorded when paid.

#### *Forfeitures:*

Forfeitures of the Company contribution (due to participants' termination prior to full vesting) are to be allocated to participants as an additional discretionary contribution in the year in which the forfeiture occurred. At June 30, 2025 and 2024, forfeited non-vested accounts totaled zero. During the year ended June 30, 2025, \$8,807 in forfeitures were reallocated to participants in the same manner as the Company's contribution.

#### *Use of estimates:*

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

#### *Basis of accounting:*

The Plan's financial statements are prepared on the accrual basis of accounting.

#### *Investment valuation and income recognition:*

The investment is reported at fair value as of the last day of the Plan year. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 2 for discussion of fair value measurements.

# **RICE FRUIT COMPANY RETIREMENT PLAN**

## **NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2025 AND 2024**

### **1. General description of Plan and summary of significant accounting policies (continued):**

#### *Investment valuation and income recognition:*

Purchases and sales of the security are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on the investment bought and sold, as well as held, during the year.

#### *Expenses:*

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment management fees of the individual fund investment are charged to the investment and included in the net appreciation (depreciation) of the investment.

### **2. Fair value measurement:**

The Plan ranks investments required to be reported at fair value in a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset. Observable inputs reflect the assumptions market participants would use in pricing the asset based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset developed based on the best information available in the circumstances. The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical investment.

Level 2 – Other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.). The Plan does not hold any Level 2 investments.

Level 3 – Significant unobservable inputs (including the Plan's own assumptions in determining the fair value of investments). The Plan does not hold any Level 3 investments.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2025 and 2024.

Registered investment companies: Valued at the daily closing price as reported by the fund. The mutual fund held by the Plan is an open-end mutual fund that is registered with the SEC. This fund is required to publish its daily net asset value (NAV) and to transact at that price. The registered investment company held by the Plan is deemed to be actively traded.

Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement. As of June 30, 2025 and 2024, the Plan's assets at fair value are invested in a registered investment company and are classified as Level 1 within the fair value hierarchy.

### **3. Nonparticipant directed investments:**

All contributions and investment income, including gains/losses and dividends, are nonparticipant-directed and invested entirely in the Vanguard Balanced Index Fund.

## **RICE FRUIT COMPANY RETIREMENT PLAN**

### **NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2025 AND 2024**

#### **4. Tax status:**

The IRS has determined and informed PA Retirement Solutions, Inc., by a letter dated June 30, 2020, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

#### **5. Related party and party-in-interest transactions:**

The Plan invests in a registered investment company managed by Vanguard. Vanguard is the custodian of the Plan, as defined, and therefore, this qualifies as a party-in-interest transaction. Fees incurred by the Plan for the investment management services are included in the net appreciation in fair value of the investment. The Plan sponsor pays directly any other fees related to the Plan's operations.

#### **6. Plan termination:**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

#### **7. Risks and uncertainties:**

The Plan invests in one investment security, the Vanguard Balanced Index Fund. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

#### **8. Subsequent events:**

The Plan has evaluated subsequent events through December 4, 2025, the date the financial statements were available to be issued.
