INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of the AU Medical Associates, Inc. 401(a) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of AU Medical Associates, Inc. 401(a) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year), as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1: DESCRIPTION OF THE PLAN

The following description of the AU Medical Associates, Inc. 401(a) Retirement Plan (the "Plan") provides only general information. Refer to Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution money purchase plan and covers all employees (except leased and union employees) of AU Medical Associates (the "Company", "Plan Sponsor", "Employer", or "Plan Administrator"). The Plan is subject to the provisions of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Sponsor is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Some administrative functions are performed by employees of the Company. No compensation is remitted to the Company for these services.

Plan assets are held and managed by TIAA-CREF ("Trustee"), the trustee and qualified institution for the Plan, which invests Employer contributions and Plan earnings, makes investment transactions as directed by the Plan Sponsor and provides certain recordkeeping services. The Trustee also performs certain plan administration and annual ERISA compliance testing.

Effective January 1, 2019, and corresponding to a reorganization of AU Health System, Inc., participation for non-physician employees of this Plan was frozen and these employees became participants in the newly created AU Health System, Inc. 403(b) Plan. Account balances of these non-physician participants remain in this Plan, subject to the direction of the individual participant.

On May 15, 2023, the Board of the Plan Sponsor adopted a resolution effectively freezing the Plan with regards to new participants and Company contributions, contingent upon a change in ownership of the Plan Sponsor. On August 29, 2023, the Plan Sponsor was effectively acquired, and, as a result, the Plan was frozen to new participants and Company contributions as of August 28, 2023. The Plan operated normally for the period May 15, 2023 – August 28, 2023.

Eligibility

Prior to August 28, 2023, all employees except union employees, leased employees, and employees of the Medical College of Georgia may become a participant of the Plan when they have reached one year of service and are age nineteen or older. An eligible employee may enter the Plan on the day in which they satisfy all eligibility requirements. As of August 28, 2023, the Plan was frozen to new participants.

Contributions

Prior to August 28, 2023, the Employer contributed, on behalf of each participating employee, an amount equal to 10% of a participant's eligible compensation as defined in the Plan. Participants directed the investment of these contributions into various investment options offered by the Plan. Participants are not allowed to make contributions to the Plan. As of August 28, 2023, the Plan was frozen to Company contributions.

During the year ended December 31, 2024, the Company made no Employer contributions due to the Plan being frozen in 2023.

Note 1: DESCRIPTION OF THE PLAN (Continued)

Participant Accounts

Each participant's account is credited with the Employer's contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting/Plan Amendment

Effective October 1, 2018, the Plan was amended in preparation for an upcoming reorganization of the Plan Sponsor. The vesting schedule shown below was not changed; however, a special vesting provision was added to ensure that participants who were terminated related to the reorganization or whose participation was moved to other plans of the reorganized Plan Sponsor in 2019 were fully vested.

Vesting in the Employer's contribution of each participant's account balance was based on years of service. Participants became fully invested in their portion of the Employer contributions after five years of vesting service or upon normal retirement age, with early retirement defined as death, disability, termination of the Plan, or complete discontinuance of Employer contributions. If a participant separated from employment before fully vesting, the vested interest is determined under the following guidelines:

Years of Service	Vesting Percentage
less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

Benefit Payments

On termination of service due to death, disability, retirement, or any other reason, a participant may elect to receive either a lump-sum payment or an annuity payment equal to the value of the participant's vested interest in his or her account, or installment payments through various options. If the participant's vested account balance is less than \$5,000, the participant will receive a lump sum distribution from the Plan. If the participant's vested balance is greater than \$5,000, the participant can elect to leave their balance in the Plan or receive a distribution through the means previously mentioned.

Forfeitures

At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$0 and \$4,712, respectively.

Note 1: DESCRIPTION OF THE PLAN (Continued)

Hardship Withdrawals

As permitted by the Internal Revenue Code (IRC) and in accordance with the plan agreement, a participant may request a financial hardship withdrawal if they experience a severe financial hardship. The financial hardship withdrawal may not exceed the amount of the financial hardship or the value of the vested portion of the participant's balance, whichever is less.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Financial Accounting Standards Board (FASB) provides authoritative guidance regarding U.S. GAAP through the Accounting Standards Codification (ASC) and related Accounting Standards Updates (ASUs).

Use of Estimates

The preparation of U.S. GAAP financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments generally are reported at fair value, but may also be reported at contract value or net asset value (NAV). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements and contract value.

The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the investment advisers and the Trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Distributions to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in value of investment securities will occur in the near term and that these changes could materially affect amounts reported in the Plan's financial statements.

Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued, January 16, 2026. See Note 9 for relevant disclosures. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

Note 3: INFORMATION CERTIFIED BY QUALIFIED INSTITUTION

The Plan Administrator has elected the method of compliance, as permitted by 29 CFR 2520.103-8, of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The following financial information included in the Plan's financial statements was obtained by management and agreed to or derived from information certified to be complete and accurate by TIAA-CREF, the qualified institution:

- a) Total investments, at fair value, included in the statements of net assets available for benefits at December 31, 2024 and 2023.
- b) Investment income information included in the statement of changes in net assets available for benefits for the year ended December 31, 2024.
- c) All amounts included in Note 4, *Fair Value Measurements*.
- d) All information included in the supplemental schedule of assets (held at end of year) as of December 31, 2024.

Note 4: FAIR VALUE MEASUREMENTS

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs, other than quoted prices, that are:
 - observable; or
 - can be corroborated by observable market data.

**AU Medical Associates, Inc. 401(a)
Retirement Plan
Notes to Financial Statements**

Note 4: FAIR VALUE MEASUREMENTS (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Registered investments: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate account: The pooled separate account invests in a single mutual fund that has a publicly quoted pricing input. This pricing unit is used in determining the NAV of the separate account, which is not publicly quoted but uses NAV as the basis for current transactions. Because it is valued similarly to mutual funds, the separate account is deemed to be actively traded.

Fixed annuity contracts: For the fixed annuity contracts, investment value is based upon estimated fair values. Such values have been identified for investment and portfolio management purposes only. The options under the TIAA Traditional Annuity Contract included a fixed account option and a variable option. The fixed option is backed by the general assets of TIAA and the variable option is held in a separate account by TIAA as custodian of the separate account. Determination of estimated fair value involves subjective judgment because the actual fair value is determined only by the Plan's ability to receive amounts due which is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Annuity accounts are credited with a guaranteed minimum rate of interest that is determined annually. Participants may also earn interest in addition to the guaranteed rate at the discretion of TIAA. Such discretionary interest, if any, is declared by TIAA on a year-by-year basis and remains in effect for the subsequent 12-month "declaration year."

Contributions to the TIAA Traditional Annuity Contract are grouped by TIAA into "vintages" comprised of premiums received over defined time periods of one or more contiguous calendar months. The interest crediting rate for each vintage is determined, in part, by the net investment earnings rate of the TIAA assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Crediting rates are also determined by the performance of investments contained in TIAA's general account.

Lump-sum withdrawals are available from the TIAA Traditional Annuity Contract only within 120 days after termination of employment and are subject to a 2.5% surrender charge. Otherwise, all other withdrawals and transfers from the account must be spread over 10 annual installments (five installments for withdrawals after termination of employment). The restrictions disclosed above apply to the Plan as well as individual participants in the Plan.

Retirement Plan
Notes to Financial Statements**

Note 4: FAIR VALUE MEASUREMENTS (Continued)

Annuity accounts are credited with a guaranteed minimum rate of interest that is determined annually, generally ranging from 1 – 3%.

Management believes these estimated fair values are reasonable approximations of market prices and the aggregate estimated value of investments is fairly presented.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2024 and 2023:

Description	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total
<i>December 31, 2024</i>

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

We evaluate the significance of transfers between levels based upon the nature of the financial instruments and size of the transfer relative to total net assets available for benefits.

Note 4: FAIR VALUE MEASUREMENTS (Continued)

Changes in Fair Value of Level 3 Assets (continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2024:

<i>December 31, 2024</i>	Fixed Annuity Contracts	
Investment Income	\$	225,416
Distributions	\$	(74,867)
Annuity Settlement Options	\$	(332,553)
Transfers In/Out	\$	23,825

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2024 and 2023, respectively, and the significant observable inputs and the ranges of values for those inputs:

Instrument	Fair Value 2024	Fair Value 2023	Principle Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values
Fixed Annuity Contracts	\$ 5,071,191	\$ 5,229,652	Discounted Cash Flow	Risk-adjusted discount rate applied	3.25% to 7.00%

In estimating fair value of the investments in level 3, the Trustees may use third-party pricing sources or appraisers.

Note 5: TAX STATUS

The IRS has determined and informed the Company by letter dated June 30, 2014 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan Sponsor believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6: RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in accounts managed by TIAA-CREF. TIAA-CREF is the Trustee and record-keeper for the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 7: PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions. See Note 8.

Note 8: COMPLIANCE MATTERS

Commencing in 2017, and until early 2022, AU Health System, Inc. (“AUHS”) and its subsidiaries (the “AUHS Entities”) operated and administered the Plan as if such Plan was a governmental plan not subject to Title I of ERISA, or the corresponding provisions of the IRC, that are inapplicable to governmental plans. In 2022, upon advice of counsel, AUHS concluded that it was not a governmental entity. During the time period in which Plan was treated as governmental, the Plan Sponsor did not file annual Forms 5500 or obtain audits of the Plan. To correct this issue, applicable Forms 5500 and audits have been completed for Plan years 2017 - 2022. The Plan Sponsor submitted the Form 5500 filings under the DOL’s Delinquent Filer Voluntary Compliance Program (“DFVCP”) in 2023 and paid the applicable DFVCP penalty, at no cost to the Plan. In addition, the 2017 Form 5500 filing for the Plan was amended to reflect that such filing was not the final filing for the Plan.

In 2023, in conjunction with the matter disclosed above, AUHS determined that a compliance failure existed for the Plan in the years 2017 – 2022, specifically related to nondiscrimination testing when measured under IRS controlled-group guidance. In response, AUHS added employees to the Plan in 2023 and made contributions to these new participants (only) in August of 2023, totaling approximately \$1,089,000. As a result of these measures, the Plan is now considered to be compliant, in the opinion of management.

The Plan failed certain compliance testing attributes for 2023, similar to the matter described in the above paragraph. Accordingly, a corrective contribution was posted to the Plan by the Plan Sponsor totaling approximately \$196,000 in May of 2025. As a result of these measures, the Plan is now considered to be compliant, in the opinion of management. No adjustments have been made to the accompanying Plan financial statements related to this matter.

Note 9: SUBSEQUENT EVENTS

Management of the Plan evaluated all events or transactions that occurred after December 31, 2024, through January 16, 2026, the date the Plan’s financial statements were available to be issued. In October 2025, the Adoption Agreement was revised effective August 28, 2023. All changes were administrative in nature.
