INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants of the Internetwork Services Incorporated 401(k) Profit Sharing Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of the Internetwork Services Incorporated 401(k) Profit Sharing Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of November 8, 2024 (in liquidation) and December 31, 2023 (ongoing), the related statements of changes in net assets available for benefits for the period from January 1, 2024 to November 8, 2024 (in liquidation) and for the year ended December 31, 2023 (ongoing), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of November 8, 2024 and December 31, 2023, and for the period from January 1, 2024 to November 8, 2024 and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audits of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with generally accepted accounting principles in the United States of America ("GAAP").
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with generally accepted auditing standards in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - Terminating Plan and Liquidation Basis of Accounting

As further discussed in Note 1 to the financial statements, management of the Employer voted on September 12, 2024 to terminate the Plan and management determined liquidation is imminent. As a result, the Plan changed its basis of accounting from the going-concern basis of accounting used in presenting the 2023 financial statements to the liquidation basis of accounting used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

1. PLAN DESCRIPTION

The following description of the Internetwork Services Incorporated 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan was a defined contribution plan covering employees of Internetwork Services Incorporated (the "Employer"), who were at least twenty-one years old and were not classified as union employees, nonresident aliens, or leased employees. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Management was responsible for oversight of the Plan, determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

By action of its board of directors, the Employer adopted a resolution to terminate the Plan effective September 12, 2024 and all participant accounts became 100% vested. The net assets were distributed to participants as of November 8, 2024. Participants were permitted to choose amongst several options regarding the type of distribution, including an annuity, lump sum payment or individual retirement account rollover.

Contributions - Each year, participants were permitted to contribute up to 100% of their annual eligible compensation, as defined in the plan document. Participants who have attained age 50 before the end of the plan year were eligible to make catch-up contributions. Participants were also permitted to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants directed the investment of their contributions into various investment options offered by the Plan. At its sole discretion, the Employer made matching contributions to the Plan. For the period from January 1, 2024 to September 12, 2024 and for the year ended December 31, 2023, the Employer made a matching contribution equal to 50% of the first 6% of eligible compensation that a participant contributed to the Plan. At its sole discretion, the Employer may have also made discretionary nonelective contributions to the Plan. For the period from January 1, 2024 to September 12, 2024 and for the year ended December 31, 2023, no discretionary nonelective contributions were made to the Plan. Contributions were subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts - Each participant's account was credited with the participant's contributions and the Employer's matching contributions, as well as allocations of the Employer's discretionary nonelective contributions and the Plan's earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined in the plan document. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Vesting - Participants were vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's contributions, plus actual earnings thereon, was based on years of continuous service. Prior to the Plan's termination, a participant was fully vested when they attained normal retirement age. If a participant terminated employment prior to normal retirement age for any reason, other than death or permanent disability, the participant's interest in the Employer's contributions vested 20% after one year of service, increasing 20% each succeeding year until fully vested after five years of service.

Notes Receivable from Participants - Participants were permitted to borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans were secured by the balance in the participant's account. The loan interest rate was set at 1% above the bank prime rate, as defined in the plan document. Principal and interest were paid ratably through payroll deductions.

Payment of Benefits - On termination of service, a participant may have elected to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over an elected period of time. The Plan permitted in-service and hardship withdrawals under certain conditions.

Forfeited Accounts - Benefit payments to terminated employees partially vested in the Plan included their vested portion of the Employer's contributions. The nonvested portion of terminated participants' account balances was used to either reduce the Employer's future contributions or pay the Plan's administrative expenses. As of November 8, 2024, there were no forfeited nonvested accounts available for future use. As of December 31, 2023, forfeited nonvested accounts of approximately \$1,000 were available for future use. During the period from January 1, 2024 to November 8, 2024 and for the year ended December 31, 2023, forfeited nonvested accounts of approximately \$16,000 and \$60,000, respectively, were used to reduce the Employer's contributions or pay the Plan's administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - As of and for the year ended December 31, 2023, the financial statements have been prepared on the accrual basis of accounting. Effective September 12, 2024, the board of directors of the Employer adopted a resolution to terminate the Plan. As a result, the Plan's financial statements for the period from January 1, 2024 to November 8, 2024 have been prepared on the liquidation basis of accounting in accordance with generally accepted accounting principles in the United States of America ("GAAP"). This basis of accounting is considered appropriate when, among other things, liquidation of the Plan is probable and the net realization of assets are reasonably determinable. Under the liquidation basis of accounting, assets are stated at their estimated net realized cash value and liabilities are stated at their anticipated settlement amounts.

Use of Accounting Estimates - The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition - Investments were reported at fair value, with the exception of the Plan's guaranteed investment contract. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 4 for disclosure of fair value measurements. The guaranteed investment contract was valued at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 5 for disclosure of the guaranteed investment contract. Management determined the Plan's valuation policies utilizing information provided by the investment advisors and Voya Retirement Insurance and Annuity Company, the Custodian of the Plan.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation in fair value of investments included the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions - Contributions from participants were recorded as they were withheld from the participants' wages. Contributions from the Employer were recorded in the period in which the related participant contributions were due.

Notes Receivable from Participants - Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses has been recorded as of November 8, 2024 or December 31, 2023. If a participant ceased to make loan repayments and management deemed the participant loan to be in default, the participant loan balance was reduced, and a benefit payment was recorded.

Payment of Benefits - Benefits were recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan were paid by the Plan, unless otherwise paid by the Employer. Expenses that were paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events - Management has evaluated subsequent events through July 23, 2025, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY CUSTODIAN

The following is a summary of the Plan's asset information as of November 8, 2024 and December 31, 2023, and for the period from January 1, 2024 to November 8, 2024 and for the year ended December 31, 2023, included in the financial statements, that was prepared by, or derived from, information prepared by the Custodian and furnished to management. Management has obtained certifications from the Custodian that such information is complete and accurate as of November 8, 2024 and December 31, 2023 and for the period from January 1, 2024 to November 8, 2024 and for the year ended December 31, 2023.

Interest income on notes receivable from participants	\$ 14,183	\$ 12,949

4. FAIR VALUE MEASUREMENTS

GAAP provides the framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under GAAP are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of November 8, 2024 and December 31, 2023.

Pooled separate accounts: Investments in the pooled separate accounts are valued using the net asset value of units, which are based on observable market prices for the underlying assets, held by the Plan at year-end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes the Plan's valuation method was appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

As of December 31, 2023, all investments held by the plan and valued at fair value are pooled separate accounts, which are valued at the net asset value ("NAV") of units held by the Plan at year-end. The NAV, as provided by the Custodian, was used as a practical expedient to estimate fair value. In accordance with GAAP, the requirement to categorize investments within the fair value hierarchy for which fair value is measured using the NAV per share practical expedient has been removed. Accordingly, as of December 31, 2023, no investments held by the Plan are required to be categorized within the fair value hierarchy.

Fair Value of Investments in Entities that Use NAV as a Practical Expedient

The following table sets forth a summary of the Plan's investments reported at NAV as a practical expedient to estimate fair value as of December 31, 2023:

<u>Investment</u>	<u>Fair value</u>	<u>Unfunded commitment</u>	<u>Redemption frequency</u>	<u>Redemption notice period</u>
Pooled separate accounts:				
Asset Allocation (a)	\$ 13,024,843	\$ -	Daily	None
Large Cap Value (e)	2,829,639	-	Daily	None
Large Cap Growth (d)	1,296,780	-	Daily	None
Small/Mid/Specialty (b)	1,275,691	-	Daily	None
Global/International (c)	604,436	-	Daily	None
Bonds (f)	<u>266,703</u>	<u>-</u>	Daily	None
	<u>\$ 19,298,092</u>	<u>\$ -</u>		

- (a) This category includes investments which seek a total return consistent with an asset allocation targeted retirement date. Typically, the majority of the net assets are invested in a combination of passively managed index funds which invest in U.S. stocks, international stocks, U.S. bonds, and other debt instruments.
- (b) This category includes investments which seek to provide long-term capital appreciation investment results.

- (c) This category includes investments which seek to provide investment results that correspond to the total return of developed and emerging stock markets worldwide.
- (d) The category includes investments which seek long-term capital growth; income is a secondary objective.
- (e) This category includes investments which seek results that correspond to the total return performance of common stocks publicly traded in the United States.
- (f) This category includes investments which seek to maximize long-term total return. Typically, the majority of the net assets are invested in various long-term fixed income instruments, such as bonds.

5. GUARANTEED INTEREST CONTRACT

The Plan had a fixed annuity contract with the Custodian. The Custodian maintained the Plan's investment in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan. The crediting rate was based on a formula established by the contract issuer but may not be less than 1%. The crediting rate was reviewed on a quarterly basis for resetting. The guaranteed interest contract did not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract met the fully benefit-responsive interest contract criteria and therefore was reported at contract value. Contract value is the relevant measure for fully benefit-responsive interest contracts because this is the amount received by participants if they were initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due was dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Prior to the Plan's termination, certain events limited the ability of the Plan to transact at contract value with the issuer. Such events included: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Prior to the Plan's termination, management believed that any events that would limit the Plan's ability to transact at contract value with participants were probable of not occurring. The guaranteed interest contract did not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

6. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain investments of the Plan were managed by Voya Retirement Insurance and Annuity Company, the custodian and recordkeeper for the Plan and, therefore, these transactions qualified as exempt party in interest transactions.

As described in Note 1, the Plan permitted participants to borrow from their account balances. These transactions qualified as exempt party in interest transactions.

7. TAX STATUS

On June 30, 2020, the IRS stated that the prototype plan adopted by the Plan, as then designed, qualifies under Internal Revenue Code ("IRC") Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, management and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC and, therefore, that the Plan is qualified, and the related trust is tax exempt.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. Management has analyzed the tax positions taken by the Plan, and has concluded that as of November 8, 2024, and December 31, 2023, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax periods in progress.
