Independent Auditor's Report

To the Plan Administrator
Alaska Pacific University Retirement Plan
Anchorage, Alaska

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of Alaska Pacific University Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

Prior to January 1, 2009, records were maintained at a contract, not a plan level; therefore, management has not maintained, and Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equity Fund (CREF) did not provide, sufficient accounting records and supporting documentation relating to certain annuity contracts and custodial accounts issued

to current and former employees, and supporting documentation is not adequate to assure the completeness and accuracy of the amounts included in the financial statements. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

As described in Note 2, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, pursuant to the DOL's Field Assistance Bulletin ("FAB") No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. Related to such accounts, as reported by TIAA and CREF, net assets available for benefits of approximately \$327,000 and \$282,000 were excluded from the statements of net assets available for benefits as of December 31, 2024 and 2023. Further, investment gains/losses of approximately \$48,000 and distributions and expenses of \$3,000 related to such accounts, as identified by TIAA and CREF, have also been excluded in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024. In addition, pursuant to FAB No. 2009-02, such excluded pre-2009 contracts, accounts, and amounts were not covered by our auditing procedures. Accounting principles generally accepted in the United States of America (GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America (GAAS) and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter – Supplemental Schedules Required by ERISA

The ERISA-required Supplemental Schedule H, line 4i- Schedule of Assets (Held at Year End) as of December 31, 2024 and the ERISA-required Supplemental Schedule H, line 4a- Schedule of Delinquent Participant Contributions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Notes to Financial Statements

1. Description of the Plan

The following description of the Alaska Pacific University Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a 403(b)-plan covering all employees of Alaska Pacific University (the Employer or Company) except for nonresident aliens, students who are attending classes offered by the employer and employees who generally work less than 20 hours per week. Eligible employees are able to participate in the deferral component of the Plan immediately. Employees who complete one year of service in which at least 1,000 hours of service were provided during the plan year are eligible to receive employer contributions. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended, (ERISA) and Internal Revenue Code (IRC).

Custodian and Administration of the Plan

The custodian and recordkeeper of the Plan is Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equity Fund (CREF). The administrator of the Plan is the Company. The custodian holds all assets of the Plan in accordance with the service provider contract with the Company. Plan management determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan. The Plan also allows for Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible for catch-up contributions. If a participant completed at least 15 years of service with the employer, they may elect to defer additional amounts called qualified organization catch-up deferrals, as defined by the Plan, which exceed the elective deferral limit. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company makes a matching contribution of 100% of the employee's deferral contribution up to 6% of eligible plan compensation. Participants direct the investment of their contributions into various investment options offered by the Plan. All contributions are subject to IRC limitations.

Participant Accounts

Each participant's account is credited with the participants' contributions and the employer's matching contributions, plan expenses, as well as allocations of the Plan earnings and losses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

Vesting

All participants are immediately vested in all contributions, plus earnings thereon.

Alaska Pacific University Retirement Plan

Notes to Financial Statements

Payment of Benefits

At the time a participant becomes entitled to a distribution, due to termination of service, death, disability, or retirement the Plan allows partial payment, installment payment, or annuity contract distributions. For terminated participants with account balances less than \$1,000, and the participant does not choose a distribution method, the employer may elect to disburse the benefit directly to the participant in a lump sum. Hardship distributions are not allowed under the plan, as defined in the Plan document.

Notes Receivable from Participants

Participants are permitted to borrow a minimum of \$1,000 of their vested benefits under the Plan. Participants may borrow up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000, reduced by the highest outstanding loan balance in their account during the prior 12-month period. Loans are secured by the participant's account and bear an interest rate at the prime rate plus 1%, which would be made under similar circumstances and is fixed for the term of the loan. The notes are repaid ratably through payroll deductions over a period of five years or less, unless used to purchase a principal residence up to 10 years. These loans are subject to certain restrictions as defined by the Plan Document and applicable restrictions under the IRC.

Also, each participant may not have more than 3 loans outstanding at any time.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Annual Reporting Requirements

Prior to January 1, 2009, TIAA and CREF maintained records at a contract, not Plan level, and administratively decided not to provide accounting records and supporting documentation at the participant or Plan level relating to certain annuity and custodial accounts issued to current and former employees. As such, neither the Company nor TIAA and CREF have been able to produce sufficient records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. As a result, the completeness and the accuracy of the annuity and custodial accounts, related investment income, and distributions related to these accounts, if any, could not be determined.

Excluded Contracts

Prior to 2008, the Plan sponsor utilized different custodians for the Plan and has elected to exclude from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to certain employees, as permitted by the FAB No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The related investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. Related to such accounts, as reported by TIAA and CREF, net assets available for benefits of approximately \$327,000 and \$282,000 were excluded from the statements of net assets available for benefits as of December 31, 2024 and 2023, respectively. Further,

Alaska Pacific University Retirement Plan

Notes to Financial Statements

investment gains of approximately \$48,000 and distributions and expenses of \$3,000 related to such accounts, as identified by TIAA and CREF, have also been excluded in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024. Pursuant to FAB No. 2009-02, such excluded pre-2009 contracts, accounts, and amounts were not subject to auditing procedures. Accounting principles generally accepted in the United States of America (GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on the investments bought and sold as well as held during the year.

Contributions

Participant contributions and any related employer matching contributions are recognized in the period during which the Company makes the respective payroll deduction from the participant's compensation.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued unpaid interest. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Revenue Credits

The Plan's trust agreement with TIAA provides for a participant revenue credit arrangement, whereby the trustee allocates deposits into the accounts of eligible participants who are invested in certain funds or can be used to pay administrative expenses. Unallocated revenue credits at December 31, 2024 and 2023 are \$14,455 and \$826 respectively. During 2024, the Plan received

Alaska Pacific University Retirement Plan

Notes to Financial Statements

credits of \$19,027 of which \$6,809 was used to pay administrative expenses. Revenue credits are presented in other income in the statement of changes in net assets available for benefits.

3. Information Certified by TIAA and CREF

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, including investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividends, other income, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF, qualified institutions.

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2024 and 2023.

Alaska Pacific University Retirement Plan

Notes to Financial Statements

Fixed Annuity Contracts - Non-fully benefit responsive (NFBR) investment contracts represent investments in fixed annuity contracts with TIAA. Fair value is determined using the discounted cash flow method, which is approximated by contract value. The contract value equals the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals and expenses. The fixed annuity contracts are not available for sale or transfer on any securities exchange. The fixed annuity accounts are subject to various restrictions. See Note 5.

Pooled Separate Account - Units held in the pooled separate account (PSA) are valued at the net asset value (NAV) based on the fair market value of the underlying investments of the account less its liabilities. The NAV, as provided by TIAA and CREF, is used as a practical expedient to estimate fair value. The PSA holds between 15% and 25% of its net assets in investments other than real estate and real estate related investments, comprised of publicly traded, liquid investments. Determination of fair value of the real estate assets involves significant judgment. Valuation of the PSA's real estate properties are based on real estate appraisals, which are estimates of property values based on a professional's opinion and may not be accurate predictors of the amount the PSA would actually receive if it sold a property. Appraisals can be subjective in certain respects as they rely on a variety of assumptions (including comparable property sales and historic pricing) and conditions at that property or in the market in which the property is located, which may change materially after the appraisal is conducted. Among other things, market price for comparable real estate may be volatile, particularly if there has been a lack of recent transaction activity in such market. This investment is a direct filing entity.

Further, as the PSA generally obtains appraisals on a quarterly basis, there may be circumstances in the period between appraisals or interim valuation adjustments in which the true realizable value of a property is not reflected in the PSA's daily net asset value calculation or in the PSA's periodic financial statements. This disparity may be more apparent when the commercial and/or residential real estate markets experience an overall and possibly dramatic decline (or increase) in property values in a relatively short period of time between appraisals.

The PSA provides participants with a liquidity guarantee enabling the account to have funds available to meet participant redemptions, transfers, or cash withdrawals. TIAA guarantees that the participants can redeem their accumulated unit value determined after their transfer or cash withdrawal request is received in good order.

TIAA and CREF limited the ability of participants to transfer funds into the TIAA Real Estate Account. Specifically, individual participants are limited from making internal transfers into their account if, after giving effect to such transfer, the total value of such participant's account (under all contracts issued to such participant) would exceed \$150,000. A participant is not required to reduce his or her contract balance to a level at or below \$150,000 if the participant's account totals more than \$150,000.

Registered Investment Companies - These investments are separate accounts that are registered with the SEC. These investments are valued at the NAV which is based on the fair value of the underlying investments held by the fund less its liabilities. The NAV is published daily on NASDAQ; however, these investments are not publicly traded. Units in the registered investments are revalued daily to reflect performance of the underlying investments minus any fees and charges, and transactions occur at this published price. In efforts to reduce market timing and excessive trading, participants will not be permitted to make electronic transfers back into the same account through purchase or exchange for 90 days if a purchase, sale and repurchase within that account is

Alaska Pacific University Retirement Plan

Notes to Financial Statements

made within a 60-day period. These investments are classified as Level 2 as the prices are published daily, but the funds are not publicly traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements:

The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

Purchases of the Plan's Level 3 assets were approximately \$150,100 and sales were approximately \$329,200 for the year ended December 31, 2024.

5. Fixed Annuity Contracts

As discussed in Note 4, fixed annuity contracts consist of investment options available to participants known as the TIAA Traditional Annuity Contracts (Annuity). Annuity contracts are established between the participants and Teachers Insurance and Annuity Association (TIAA), an insurance company registered in the state of New York. This investment option is only offered as the Retirement Annuities (RA), Guaranteed Retirement Annuities (GRA), or Supplemental Retirement Annuity (SRA). The return of annuity contributions plus interest to participants is subject to TIAA's claims-paying ability.

Annuity accounts are credited with a guaranteed minimum rate of interest that is determined annually. Participants may also earn interest in addition to the guaranteed rate at the discretion of TIAA. Such discretionary interest, if any, is declared by TIAA on a year-by-year basis and remains in effect for the subsequent twelve-month declaration year.

Contributions to the annuity accounts are grouped by TIAA into vintages comprised of premiums received over defined time periods of one or more contiguous calendar months. The interest crediting rate for each vintage is determined, in part, by the net investment earnings rate of the TIAA assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Crediting rates are also determined by the performance of investments contained in TIAA's general account.

RA and GRA account balances may only be withdrawn over 10 annual installments. Because this provision is considered to restrict participants' reasonable access to their contract balances, RAs are not considered to be fully benefit-responsive investment contracts as defined by ASC 962, *Plan Accounting- Defined Contribution Pension Plans*.

6. Tax Status

The Plan has adopted a volume submitter prototype Plan sponsored by its third-party administrator. The prototype received a favorable opinion letter from the Internal Revenue Service (IRS) dated August 7, 2017, which stated that the prototype Plan is designed in accordance with the provisions

Alaska Pacific University Retirement Plan

Notes to Financial Statements

of the IRC. Although the Plan has been restated since the date of the opinion letter, Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

7. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the assets of the Plan would be distributed to the participants and beneficiaries of the Plan based on their account balances in the order provided by ERISA.

8. Related-Party Transactions and Party-in-Interest Transactions

The Plan's investments are managed by TIAA and CREF; therefore, investment transactions with TIAA and CREF qualify as party-in-interest transactions as defined by ERISA. Notes receivable from participants also qualify as party-in-interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. See Note 10 for a description of nonexempt party-in-interest transactions.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Delinquent Participant Contributions

During the plan years ended December 31, 2024, 2022, and 2021, participant contributions totaling \$794, \$15,981, and \$12,080, respectively, were not remitted to the Plan within the period prescribed by DOL regulations. These transactions constitute non-exempt party-in-interest transactions or prohibited transactions as defined by ERISA. As of the date of this report, the delinquent contributions for 2021, 2022, and 2024 have not yet been corrected. The Employer is in the process of correcting these transactions, and the related lost earnings are expected to be remitted to the Plan during the year 2026.

11. Subsequent Events

The Plan has evaluated subsequent events through January 22, 2026, the date the financial statements were available to be issued.
