Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of DCI, Inc. 2013 Amended and Restated ESOP, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of April 30, 2023, 2022, and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of DCI, Inc. 2013 Amended and Restated ESOP as of April 30, 2023 and 2022, and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of DCI, Inc. 2013 Amended and Restated ESOP and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about DCI, Inc. 2013 Amended and Restated ESOP's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of DCI, Inc. 2013 Amended and Restated ESOP's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about DCI, Inc. 2013 Amended and Restated ESOP's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) for the years ended April 30, 2023 and 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA

NOTE 1 DESCRIPTION OF PLAN

The following description of the DCI, Inc. 2013 Amended and Restated Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The DCI, Inc. Profit Sharing Plan and Trust was established on April 30, 1970 and converted into the DCI, Inc. Employee Stock Ownership Plan effective May 1, 1987 and has been amended and restated throughout the years. The Plan was last restated effective May 1, 2013, and most recently amended effective July 1, 2021 to add Control & Power Systems, Inc. as a participating employer. The Plan is a defined contribution plan intended to constitute an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC). The Plan covers substantially all employees of DCI, Inc., Sanitary Stainless, Inc. and Control & Power Systems, Inc., (collectively referred to as the Company) who have completed the eligibility requirements including the completion of one year of service and attainment of age 18. The Plan excludes the following employees from participation:

- employees who are classified as independent contractors,
- leased employees,
- employees whose employment is governed by a collective bargaining agreement,
- nonresident aliens,
- employees who are compensated on a commission-only basis,
- employees who are employed on a temporary basis unless the employee was a Plan participant on April 30, 2009,
- Sanitary Stainless, Inc. workers who are not W-2 employees, and
- employees of affiliated Employers who have not adopted the Plan.

An eligible employee will begin participation on May 1 or November 1 following the completion of the eligibility requirements. The Plan is designed to invest primarily in securities issued by the Company and is authorized to borrow money for such investments. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan purchased Company common stock using the proceeds of a note payable to the Company and holds the stock in a trust established under the Plan. As the Plan made debt payments, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. As of April 30, 2017, the note payable was paid in full and all of the Company common stock is allocated to Plan participants.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Contributions

Each year, the Company may contribute to the Plan up to 25% of covered compensation as determined annually by the Company's Board of Directors. Contributions may be in the form of shares of common stock or cash. Contributions for each year are never less than the amount required to enable the Plan to discharge its current obligations, without regard to whether some or all of such contribution may fail to qualify for an income tax deduction by the Company. In order to receive an allocation of Company contributions, a participant must complete 1,000 hours of service and be employed on the last day of the Plan year unless termination is due to death, disability or retirement. Contributions by Plan participants are not permitted by the Plan. Contributions are subject to Internal Revenue Service (IRS) limitations.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of (a) the Company's contribution, (b) Plan earnings or losses, and (c) forfeitures of terminated participants' nonvested accounts. Allocations of contributions are based on a participant's eligible compensation, relative to total eligible compensation, as defined. Earnings or losses are allocated based on each participant's share of the investment at the beginning of the year, less distributions and withdrawals during the year. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

Vesting of participant's accounts is based on years of credited service with the Company. A participant's account becomes fully vested after the completion of six years of credited service with the Company, under a graded vesting schedule. Notwithstanding the above, a participant is fully vested upon reaching normal retirement age, death, or disability.

For active participants who complete one hour of service on or after May 1, 2007, vesting is credited as follows:

<u>Years of Vesting Service</u>	<u>Vesting</u>
Less than 2 Years	0%
2 Years but Less than 3 Years	20%
3 Years but Less than 4 Years	40%
4 Years but Less than 5 Years	60%
5 Years but Less than 6 Years	80%
6 Years or More	100%

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Voting Rights

In very specific situations, each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation service in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Distributions

Distributions from the Plan will be made after a participant retires, dies, becomes disabled, or otherwise terminates employment. If a participant terminates employment and the participant's account balance does not exceed \$1,000, the Plan administrator will authorize the benefit payment without the participant's consent. If the balance of the terminated participant's account is between \$1,000 and \$5,000, the Plan Sponsor may authorize that the benefit payment be rolled into an individual retirement account in the participant's name. If the vested balance of the terminated participant's account exceeds \$5,000, the value will be paid in one lump sum payment or annual cash installment payments for a 5-year period or longer pursuant to Plan provisions. Payments will be made no later than the close of the Plan year, which is the fifth Plan year following the Plan year in which the participant terminates employment. The Plan allows for in-service distributions for participants that have attained age 62 and ten years of service subject to Plan provisions. The amount to be distributed is based upon the account valuation date immediately preceding the distribution.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at April 30, 2023, 2022 and 2021 were \$135,038, \$88,561, and \$113,048 respectively. There were no balances in forfeited nonvested accounts at April 30, 2023, 2022, and 2021.

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through November 10, 2025, the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2023, 2022, AND 2021**

NOTE 4 INVESTMENTS

The Plan's investment in Company securities consisted of shares of the outstanding common stock of DCI, Inc. The estimated fair market value, as determined by independent appraisal as of April 30, 2023 and 2022, and 2021 was \$79.24, \$65.42 and \$60.54 per share, respectively.

The Plan's investment in Company securities at April 30 is presented in the following table:

	2023	#NAME?	2021
Number of Shares	253,582	253,582	253,582
Cost	\$ 2,716,698	\$ 2,716,698	\$ 2,716,698
Market (at Estimated Fair Value)	\$ 20,093,813	\$ 16,589,314	\$ 15,351,835

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at April 30, 2023 and 2022.

Company Common Stock: The fair value of the Company common stock held by the Plan is valued at estimated fair value based on an independent third party appraisal. This appraisal is based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities.

Money Market Fund: Valued at the daily closing price as reported by the fund. The money market mutual fund held by the Plan is an open-end mutual fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily net asset value (NAV) and to transact at that price. The money market mutual fund held by the Plan is deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of April 30:

2023

NOTE 6 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 PLAN TAX STATUS

The IRS has determined and informed the Company, by a letter dated September 12, 2014, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the IRC. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan provides for investment primarily in Company common stock. In general, these investments are exposed to various risks, such as interest rate, credit, and overall market volatility risk. The stock of the Company is valued annually by an independent third-party valuation specialist. Because of the inherent subjectivity in any valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which consist primarily of Company common shares, are held by the trustee. Company contributions are held and managed by the trustee, who invests cash received as a result of cash contributions and interest income and makes distributions to participants.

The Plan is administered by the Company and certain administrative functions are outsourced to a third-party administrator. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.
