## Independent Auditor's Report

The Plan Administrator  
The 401(k) Plan of Strike Construction LLC  
Spring, Texas

### *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit*

We have performed audits of the financial statements of The 401(k) Plan of Strike Construction LLC (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### *Opinion*

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter – Supplemental Schedule Required by ERISA***

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2024 are presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial

statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

### 1. Description of Plan

The following description of The 401(k) Plan of Strike Construction LLC (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

#### *General*

The Plan is a defined-contribution plan established by Strike, LLC that was adopted effective January 1, 2007 and is for the benefit of employees of Strike, LLC and its wholly owned subsidiaries, Delta Directional Drilling LLC and Crossfire Services LLC, as defined in the plan document.

The Plan was most recently amended and restated on May 31, 2022 whereby Strike Operating Company LLC became a participating employer and Strike Construction LLC became the Plan sponsor. Strike Construction LLC, Delta Directional Drilling LLC, Crossfire Services LLC, and Strike Operating Company LLC are collectively referred to as the Company.

The Plan was established under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified deferred-income arrangement as described in Section 401(k) of the IRC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

#### *Trustee, Issuer, and Administration of the Plan*

The trustee and recordkeeper of the Plan is Fidelity Management Trust Company (Fidelity or Trustee). Standard Insurance Company (Standard) is the issuer for the guaranteed investment contract. The administrator of the Plan is the Plan sponsor. The Trustee and Standard hold all assets of the Plan in accordance with the provisions of the trust agreement and service provider contracts with the Company.

#### *Eligibility*

Eligible employees are eligible to enroll in and begin contributing to the Plan on the first day of the month after attaining two months of service, as defined in the plan document. All employees are eligible employees except for members of a collective bargaining unit and non-resident aliens with no income from a United States source are not eligible for the Plan.

Employees are eligible to receive safe harbor matching, additional discretionary matching, and non-elective employer contributions on the first day of the month after attaining 12 months of service, as defined in the plan document.

#### *Contributions*

Eligible participants can contribute to the Plan on a pre-tax basis up to 90% of their qualifying annual compensation. The Plan also allows for Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants can terminate or change their salary deferral agreements according to procedures and limitations as determined by the plan document.

# The 401(k) Plan of Strike Construction LLC

## Notes to Financial Statements

---

The Company makes a safe harbor matching contribution on a pay-period basis equal to 100% of the first 3% of eligible compensation that is contributed to the Plan and 50% of the next 2% of eligible compensation that is contributed to the Plan. The Company may contribute an additional matching contribution for deemed satisfaction of ACP testing. The Company did not elect to make an additional matching contribution for the year ended December 31, 2024. The Company may contribute a discretionary non-elective employer contribution for eligible participants who are employed on the last day of the year and have 1,000 hours of service in the year. The Company did not elect to make a discretionary non-elective employer contribution for the year ended December 31, 2024. Rollover contributions to the Plan can also be made from other qualified plans if certain criteria is met. All contributions are subject to certain IRC limitations.

### *Participant Accounts*

Participants' accounts are credited with participant salary deferral contributions, rollover contributions, safe-harbor matching contributions, additional matching contributions and discretionary non-elective employer contributions, and an allocation of plan earnings or losses. Participants' accounts are charged with certain administrative fees that are paid by the Plan. Earnings or losses from investment funds are allocated to each participant's account in the proportion that the balance of each participant's account bears to the total balance of all participants in each investment option. Participants may direct the investment of their account balances into various mutual funds and common collective trust funds. The benefit to which participants are entitled is the vested portion of their accounts.

### *Vesting*

Participants are immediately 100% vested in their employee salary deferral contributions, rollover contributions and safe harbor matching contributions, and the allocated earnings thereon.

A participant's vested interest in the discretionary non-elective employer contribution is based upon the participant's completed years of service, as defined in the plan document, as follows:

Years of Service	Vesting (%)
Less than 3	-
3 or more	100

A participant's vested interest in the additional matching contribution is based upon the participant's completed years of service, as defined in the plan document, as follows:

Years of Service	Vesting (%)
Less than 2	-
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participants become fully vested upon death, disability (as defined), or reaching normal retirement age while employed or termination of the Plan.

# The 401(k) Plan of Strike Construction LLC

## Notes to Financial Statements

---

### ***Forfeitures***

When a termination of participation in the Plan occurs and the participant requests a distribution, the nonvested portion of the participant's account represents a forfeiture as defined by the Plan. If a participant does not elect to take a distribution of their account within five years after date of termination, the participant's nonvested portion of their account is forfeited. Forfeitures may be used to reduce future Company contributions to the Plan or pay plan administrative expenses. However, if the participant is re-employed and fulfills certain requirements, as defined in the plan document, the participant's account will be restored. For the plan year ended December 31, 2024, no forfeitures were used to fund the employer contributions and \$2 were used to pay administrative expenses. Amounts available to reduce Company contributions or pay administrative expenses were \$605 and \$2 as of December 31, 2024 and 2023, respectively.

### ***Payment of Benefits***

Participants are eligible for distributions in the event of death, disability, termination of service, or attainment of retirement age of 65. Participants who become disabled or upon death while employed as an employee or reach the retirement age of 65 shall become 100% vested in their account balance. Upon termination of service, a participant is entitled to receive the vested portion of their account balance. If a participant's vested account balance upon distribution is less than \$1,000, a lump-sum amount will be distributed to the participant. If a participant's vested account balance upon distribution is greater than \$1,000 but less than \$5,000 and the participant does not elect to have distribution made to an eligible retirement plan or to receive the distribution in lump sum, the Plan administrator will pay the distribution in a direct rollover to an individual retirement plan designated by the Plan administrator.

A participant is eligible to make certain withdrawals while employed. If a participant is age 59½ or older, the participant may withdraw all or a portion of their vested account balance in the Plan. If a participant has a financial hardship (as defined by the Internal Revenue Service (IRS) guidelines), it is possible to withdraw all or a portion of their vested account balance in the Plan up to the amount needed to satisfy the hardship, regardless of age.

### ***Notes Receivable from Participants***

Participants may borrow from \$1,000 up to the lesser of \$50,000 or 50% of the vested portion of their account balance subject to certain limits imposed by the IRC. Participants may only have one outstanding loan at any given time. Notes receivable from participants are secured by the participant's vested balance and are generally repaid through payroll withholdings. Such loans bear interest at rates commensurate with the prevailing rates of commercial lenders for similar loans and are determined based on the prime rate plus 1% and are fixed for the term of the loan. Loans must be repaid to the Plan within five years unless the loan is used for the purchase of a principal residence, in which case, the maximum repayment period is ten years. The specific terms and conditions of such loans are established by the Plan administrator.

### ***Administrative Expenses***

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to recordkeeping, participant distributions, and the administration of notes receivable from participants are charged directly to the participant's

# The 401(k) Plan of Strike Construction LLC

## Notes to Financial Statements

---

account and are included in administrative expenses. Certain additional investment fees (in the form of an expense ratio) may also be netted with investment earnings or losses.

### **2. Summary of Significant Accounting Policies**

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

#### ***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

#### ***Investment Valuation and Income Recognition***

The Plan's investments are reported at fair value, as further described in Note 4, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator and Retirement Plan Committee determine the Plan's valuation policies utilizing information provided by Fidelity and the investment advisor.

Interest income is recorded as earned on the accrual basis. Dividend income and capital gains are recorded on the ex-dividend date. Purchases and sales are recorded on a trade-date basis. The net appreciation (depreciation) in fair value of investments represents the realized and unrealized gains and losses on the investments and capital gains reinvested.

#### ***Contributions***

Participant contributions and related safe harbor matching contributions are recognized in the period during which the Company makes the respective payroll deduction from the participant's compensation. Additional matching contributions and discretionary non-elective contributions are recognized in the plan year to which the participant's compensation relates.

#### ***Payment of Benefits***

Benefit payments are recorded when paid to participants. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid as of year-end.

#### ***Notes Receivable from Participants***

Notes receivable from participants are recorded at their unpaid principal balance plus accrued and unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

### 3. Certified Investment Information

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, including investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity and Standard Insurance Company, qualified institutions.

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedule, and reading the disclosures relating to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP and whether the supplemental schedule is in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

### 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets for identical assets and liabilities. Level 2 inputs are inputs for quoted prices for similar assets or liabilities in active markets; inputs for quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Mutual Funds* - These are valued at the daily closing price, as reported by the fund or security. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Common Collective Trust Funds (CCT)* - the common collective trust funds held by the Plan consist of funds that are composed of fully benefit-responsive contracts and debt securities. The funds are valued at NAV, which is based on the fair value of the underlying investments less its liabilities. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different

from the reported NAV. Participant transactions may occur daily with no advance notice. There are no unfunded commitments related to these investments. If the Plan initiates a full redemption of the stable value fund, the issuer reserves the right to require 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no restrictions as to the redemption of the non-stable value fund investments. CCTs held by the Plan are direct filing entities.

The preceding methodologies described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis:

### ***December 31, 2024***

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 30,332,603	\$ -	\$ -	\$ 30,332,603

## **5. Fully Benefit-Responsive Investment Contract with Insurance Company**

The Plan entered into an investment contract with Standard through the Standard Stable Value Fund. The guaranteed investment contract issuer maintains the contributions in a general account. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by Plan participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions plus earnings on the underlying investments less participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to pay the principal and specified interest rate. There are no reserves against the contract value for credit risk of the contract issuer as of December 31, 2024 or 2023. Under the contract, the crediting interest rate is based on a formula agreed upon with Standard but may not be less than 1%. Interest rates are reset quarterly.

## Notes to Financial Statements

---

The Plan's ability to receive amounts due in accordance with fully benefit-responsive contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory requirements.

Certain events may limit the ability of the Plan to transact at contract value with Standard. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs, and the liberalization of plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment may apply; however, Plan management has determined none of these events are probable. Standard may also impose a delay in liquidation for 30 days or if the amount liquidated exceeds 25% of the investment.

### **6. Income Tax Status**

The Plan adopted a pre-approved plan document offered by Fidelity Management & Research Company for which an opinion letter was obtained from the IRS dated June 30, 2020 indicating the pre-approved plan document and trust are designed in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan, as amended, is designed and currently being operated in compliance with the applicable provisions of the IRC and the Plan and related trust continue to be tax-exempt; therefore, no provision for income taxes has been included in the accompanying financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### **7. Risks and Uncertainties**

The Plan provides for various investments in mutual funds, common collective trust funds, and a fully benefit-responsive investment contract. Investments, in general, are exposed to various risks, such as interest rate, market, and credit risks. Additionally, the value, liquidity, and related income of the investments are sensitive to changes in economic conditions and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investments and the level of uncertainty related to the changes in the value of investments, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.

### **8. Related Party and Party-in-Interest Transactions**

Certain of the Plan's investments are managed by Fidelity. Fidelity is the trustee as defined by the Plan. Further, administrative fees of \$64,922 were paid from the Plan to Fidelity during the year ended December 31, 2024. Fidelity may receive certain other indirect fees from investments related to other mutual funds held in the Plan. The Plan also issues loans to participants that are secured by the vested balance of the participants' accounts. The above transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. See Note 10 for a description of non-exempt party-in-interest transactions.

### **9. Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the terms of the Plan document to terminate the Plan, subject to the provisions of ERISA. If the Plan is terminated for any reason, the participant accounts will be fully vested and the Plan administrator is to distribute each participant's interest to the participant or their beneficiary.

### **10. Delinquent Participant Contributions**

During the Plan year ended December 31, 2023, participant contributions totaling \$1,579 were not remitted to the Plan within the period prescribed by DOL regulations. These transactions constitute non-exempt party-in-interest transactions or prohibited transactions as defined by ERISA. The contributions were remitted during 2024 and the related lost earnings or are expected to be remitted to the Plan in 2026.

### **11. Subsequent Events**

The Company has evaluated subsequent events through January 26, 2026, which is the date the financial statements were available to be issued. There were no events or transactions discovered during the evaluation that require recognition or disclosure in the financial statements.
