Financial Statements and Supplemental Schedule

December 31, 2024 and 2023

Together with Independent Auditor's Report

---

A Hawaii Limited Liability Partnership

## **Independent Auditor's Report**

ESOP Administrative Committee  
Robert's Hawaii, Inc. Employee Stock Ownership Plan

### **Opinion on the 2024 Financial Statements**

We have audited the financial statements of Robert's Hawaii, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2024 financial statements).

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion on the 2024 Financial Statements**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Emphasis of Matter - Investments**

As discussed in Note 4, the financial statements include an investment representing 99% of total assets as of December 31, 2024, whose fair value has been estimated by an independent appraisal, in the absence of readily ascertainable fair values, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated value may differ significantly from the value that would have been used had a market for the investment existed, and the difference could be material. Our opinion is not modified with respect to this matter.

## **Responsibilities of Management for the 2024 Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the 2024 Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **2024 Supplemental Schedule Required by ERISA**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H – Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is into a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

**Other Matter – Auditor’s Report on the 2023 Financial Statements**

The 2023 financial statements of the Plan were audited by predecessor auditors whose report dated December 19, 2024 expressed an unmodified opinion on those financial statements and included an other-matter paragraph that provided an opinion that the information in the 2023 supplemental schedule were fairly stated in all material respects in relation to the financial statements as a whole.

The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the Employee Stock Ownership Plan (ESOP) Administrative Committee of the Plan, comprising of members of the Company's management as appointed by the board of directors of the Company. GreatBanc Trust Company is the Plan's trustee.

The Plan holds 4,350,000 shares of the Company's common stock, which are held in a trust established under the Plan. The shares were originally acquired through a prior stock purchase transaction that included a note payable, which was fully repaid in 2021.

## 1. Description of Plan (continued)

### a. General (continued)

During 2022, the Plan purchased 401,833 shares of stock from the Company in a releverage transaction for \$10,017,697 on a note payable (see Note 5). The purchase price was based on the appraisal of the shares by a third-party appraiser.

Borrowing is collateralized by the unallocated shares of common stock. The Company has no rights against the shares once they are allocated to eligible participants. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated common stock (allocated) and common stock not yet allocated to employees (unallocated).

### b. Eligibility

Employees of the Company become eligible to participate in the Plan upon reaching 18 years of age and completion of 500 hours of service in the 12-consecutive-month period beginning with the employment commencement date. Once eligible, employees become participants on the next January 1 enrollment date.

### c. Vesting of Benefits

A participant's balance vests 20 percent each year after two years of service with full vesting after six years of service. If a participant's employment with the Company ends due to retirement, permanent disability or death, the participant's account balance will become fully vested and nonforfeitable.

### d. Voting Rights

For certain events, each participant is entitled to exercise voting rights attributable to the shares allocated to the participant's account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee shall vote, as directed by the Plan Administrator, subject to the trustee's fiduciary duties under ERISA: (i) any unallocated shares; (ii) any allocated shares as to which no voting instructions have been received; and (iii) all shares held in the trust on any issue not subject to participant voting rights.

## 1. Description of Plan (continued)

### e. Put Option

Under federal income tax regulations, employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market, at its fair value as of the most recent valuation, as determined by an independent appraiser. The Company can pay for the purchase with a promissory note not to exceed five years, with interest payable at a reasonable rate.

### f. Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into cash. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect during each of the participant's qualified election periods to diversify up to 25 percent (50 percent in the case of the participant's last qualified election period) of the participant's ESOP stock account balance eligible for diversification. During 2024, the Plan made diversification distributions in cash totaling \$1,186,045.

### g. Contributions

The Company makes contributions to the Plan as determined by the Company's board of directors. The Company shall make contributions at least in the amount which, when combined with dividends that may lawfully be used to make payments on the acquisition loan, are sufficient to meet the Plan's obligations on all outstanding acquisition loans. The contributions are payable in cash, in shares of the Company's stock, or a combination thereof. Participants receive allocated contributions if they have met the 500 hours of service requirement during the year and if they are employed by the Company on the last day of the Plan year. However, employment with the Company is not required on the last day of the Plan year if termination is due to retirement, disability or death. Employee contributions are not permitted. For the year ended December 31, 2024, contributions of \$10,130,668 were made to fund distributions and payment of debt obligations.

## 1. Description of Plan (continued)

### h. Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

### i. Benefit Payments

Upon a participant's retirement, death, permanent disability or termination of employment with the Company, the administrative committee will direct the trustee to distribute the value of the vested interest in the participant's account, subject to the participant consent requirements as stated in the Plan. Normal retirement is deemed to occur on the later of the participant's 65<sup>th</sup> birthday or the date on which the participant has been a participant for five years. Participants are also eligible for in-service distributions upon reaching normal retirement. Termination of a participant for any reason other than death, disability or retirement will result in the benefit payout commencing not later than one year after the end of the fifth Plan year following the Plan year in which the employee is terminated.

The Company may distribute balances under \$5,000 in a lump-sum payment after the close of the Plan year in which the participant terminates employment. The Company distributes balances of terminated participants over \$1,000 but less than \$5,000 in a direct rollover to an individual retirement account chosen by the Company unless the participant requests a distribution or transfer to an individual retirement account. If the vested account balance exceeds \$5,000, the participant must consent to a distribution.

During the year ended December 31, 2024, the Plan paid cash distributions, including diversification distributions, totaling \$9,561,177.

## 1. Description of Plan (continued)

### j. Forfeitures

Forfeitures may be used to pay plan expenses or reallocated to participants in the same manner as Company contributions are allocated. Forfeitures of terminated participants' nonvested account balances reallocated to remaining participants at December 31, 2024 totaled \$1,030,088 (34,777 shares). There were no forfeitures used to pay plan expenses during 2024. There were no unallocated forfeitures at December 31, 2024 or 2023.

## 2. Summary of Significant Accounting Policies

### a. Basis of Accounting

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

### b. Use of Estimates

The preparation of the financial statements in accordance with U.S. GAAP requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

### c. Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts to employees with rights in allocated stock (allocated), and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which the debt service is actually paid.

### d. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (see Note 4). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Net appreciation in fair value of employer stock represents the change in the fair value of the employer stock held by the Plan.

Notes to Financial Statements

### 2. Summary of Significant Accounting Policies (continued)

#### e. Payment of Benefits

Benefit payments are recorded when paid.

#### f. Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

#### g. Subsequent Events

Management has evaluated subsequent events through February 6, 2026, which is the date the financial statements were available to be issued, and determined that the Plan did not have any subsequent events requiring adjustment to the financial statements or disclosure in the notes to the financial statements.

### 3. Investment in Employer Securities

The Plan's investments in employer securities is as follows at December 31:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Employer common stock:				
Number of shares	3,980,314	369,686	3,964,240	385,760
Cost	\$ 77,949,485	\$ 9,216,272	\$ 77,548,760	\$ 9,616,997

### 4. Fair Value Measurements

U.S. GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under U.S. GAAP are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets in active markets; quoted prices for identical or similar assets in inactive markets; inputs other than quoted prices that are observable for the asset; and inputs that are derived principally from or can be corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Registered investment companies (mutual funds)* –Valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Employer common stock* –Valued at fair value based on an annual independent appraisal. This appraisal was based on a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, market-comparable valuations, and the estimated fair value of certain nonoperating Company assets and excess working capital.

## Robert's Hawaii, Inc. Employee Stock Ownership Plan

Notes to Financial Statements  
December 31, 2024 and 2023

### 4. Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value:

	Total	Fair Value Measurements at Reporting Date Using		
		Level 1	Level 2	Level 3
As of December 31, 2024:				
Registered investment companies	\$ 152,578	\$ 152,578	\$ -	\$ -
Employer common stock	128,846,976	-	-	128,846,976
	<u>\$ 128,999,554</u>	<u>\$ 152,578</u>	<u>\$ -</u>	<u>\$ 128,846,976</u>

	Total	Fair Value Measurements at Reporting Date Using		
		Level 1	Level 2	Level 3
As of December 31, 2023:				
Registered investment companies	\$ 129,257	\$ 129,257	\$ -	\$ -
Employer common stock	128,194,477	-	-	128,194,477
	<u>\$ 128,323,734</u>	<u>\$ 129,257</u>	<u>\$ -</u>	<u>\$ 128,194,477</u>

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and the size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2024, there were no transfers in or out of Level 3 or issuances of Level 3 investments.

### 4. Fair Value Measurements (continued)

The following is a description of the valuation methodologies used for instruments measured at fair value. During the years ended December 31, 2024 and 2023, there were no changes to the Company's valuation techniques that had, or are expected to have, a material impact on its financial position or results of operations.

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs
	2024	2023		
Robert's Hawaii, Inc. ### 5. Note Payable

In December 2022, the Plan entered into a \$10,017,697 loan agreement with the Company to purchase 401,833 shares of the Company’s common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid through annual required payments of \$664,502 including interest at 4.34 percent, with the balance payable in full in December 2047.

The future annual principal payments to be made are as follows:

Years ending December 31	
2025	\$ 250,108
2026	260,963
2027	272,288
2028	284,106
2029	296,436
Thereafter	<u>8,184,357</u>
	<u>\$ 9,548,258</u>

### 6. Related-Party and Party-in-Interest Transactions

The Plan invests in Company common stock and has indebtedness to the Company. These are related-party and party-in-interest transactions. The Company pays all Plan expenses. As described in Note 1, the Plan has a number of service providers. Such providers are parties in interest under ERISA.

### 7. Risks and Uncertainties

The Plan’s investments consists primarily of the Company’s common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investments in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

## **Robert's Hawaii, Inc. Employee Stock Ownership Plan**

Notes to Financial Statements  
December 31, 2024 and 2023

### **8. Plan Termination**

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the ESOP administration committee would direct the trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the IRC.

### **9. Administration of Plan Assets**

The Plan's assets, which consist principally of employer stock, are held by the trustee of the Plan.

The Company's contributions are held and managed by the trustee, which invests cash received and interest and dividend income. The trustee also administers the payment of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company.

### **10. Tax Status**

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated October 23, 2015, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, it believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
