Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Rectory School, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of June 30, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended June 30, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of The Rectory School's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of June 30, 2025 and 2024, and for the year ended June 30, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Rectory School and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Rectory School's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Rectory School's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Rectory School's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of June 30, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

Plan Administrator
The Rectory School

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 DESCRIPTION OF PLAN

The following description of The Rectory School Defined Contribution Retirement Plan(the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide retirement benefits in compliance with the Internal Revenue Code (the Code) under Section 403(b) for all full-time nonstudent employees of The Rectory School, Incorporated (the School).

All eligible employees age 21 or older may make salary deferral contributions to the Plan immediately following their date of hire. Students, nonresident aliens and employees who normally work less than 20 hours per week are excluded from participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Trustees.

Contributions

Each year, participants may make salary deferral contributions to the Plan equal to a percentage of their pre-tax annual compensation, as defined by the Plan. Participation in the Plan is mandatory for all eligible employees of the School. All eligible employees are required to make mandatory salary deferral contributions equal to 5% of their eligible compensation, as defined by the Plan. Additional voluntary elective contributions may also be made by participants up to the maximum allowed by the Code. Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions. Participants may designate all or a portion of their contributions as Roth deferral contributions. The Plan has also elected to allow participants to make additional "qualified organization" catch-up contributions provided they have completed at least 15 years of service, as defined. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers).

Each year, the School makes a matching contribution to the Plan on behalf of each eligible participant based upon a formula equal to 5% of a participant's eligible compensation, as defined by the Plan. To be eligible to receive the matching contribution, a participant must make the mandatory 5% salary deferral contribution to the Plan. A participant becomes eligible for the School's matching contribution following the completion of 60 days of credited service. Seasonal employees, temporary employees, summer school student workers and leased employees are excluded from the mandatory 5% salary deferral contribution requirement as well as any School matching contributions. In addition, the School may make additional nonelective contributions at the discretion of the Board of Trustees.

**THE RECTORY SCHOOL
DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025 AND 2024**

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Contributions (Continued)

The School did not make an additional nonelective contributions to eligible employees for the year ended June 30, 2025. All contributions are subject to certain limitations by the Plan and the Code.

Participant Accounts

Each participant's account is credited with the participant's contributions, School matching contributions and School nonelective contributions as well as an allocation of administrative expenses and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investment Options

Participants may direct their contributions into any funds offered by the Plan, which are held at Principal Trust Company (Principal). In 2016, the School elected to freeze Teachers Insurance and Annuity Association and College Retirement Equities Fund (TIAA and CREF) accounts. Participants may continue to hold investments at TIAA and CREF, but current contributions are not permitted to these accounts. These accounts include a variety of investment options with various objectives and degrees of financial risk.

Vesting

Participants are immediately vested in all contributions to their accounts plus the earnings thereon.

Notes Receivable from Participants

Participants may borrow from their Principal accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the vested balance in the participant's account. The loan interest rate is based on the rates available for similar loans from commercial lending institutions. The notes currently bear interest at rates ranging from 5.25% to 10.50%. Principal and interest are paid ratably through payroll deductions over a period not to exceed five years, except for the purchase of a primary residence, for which the repayment period cannot exceed 10 years.

Plan Loans

Prior to 2020, participants were able to borrow from TIAA and CREF based on their pre-tax deferral accounts from a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one-half of their vested account balance. Loans could be further limited based on a participant's account balances and restrictions included in annuity contracts and Plan provisions. Loan terms range from one to five years, except for loans to purchase a primary residence, which may be offered over a term of up to 10 years. The loans are secured by the balances in the participant's accounts. Loans bear interest at rates that may be fixed or variable depending on the TIAA and CREF contract.

**THE RECTORY SCHOOL
DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025 AND 2024**

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Plan Loans (Continued)

The loans currently bear interest at rates ranging from 4.00% to 4.44%. Loans were issued directly from funds owned by TIAA and are administered by TIAA directly with the participant outside of the Plan. Therefore, these loans are not included as assets of the Plan.

These outstanding loans were \$68,784 and \$65,502 at June 30, 2025 and 2024, respectively. Included in these amounts are loans in default at June 30, 2025 and 2024 totaling \$68,784 and \$65,330, respectively. These balances represent situations where the participant has defaulted on the terms of the loan agreement but has not yet incurred a distributable event. Therefore, the investments securing these loans remain Plan assets until a distributable event occurs and TIAA may act on the collateral.

Payment of Benefits

The benefit to which a participant is entitled is the benefit that can be provided by the participant's account. Upon termination of service, death, disability, or reaching normal retirement age, the participant may receive the value of the vested interest in his or her account in various forms of payment, as described in the Plan document. In addition, the Plan also allows for in-service distributions if a participant reaches age 59½ or under certain hardship circumstances. The Plan also provides for automatic cash-out and/or rollover distributions into an individual retirement account for terminated participants whose balance does not exceed certain limits as prescribed by the Plan document and IRC.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution retirement plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Certain individual contracts included in the Plan's investment in the TIAA Traditional Annuity are considered to be fully benefit-responsive.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

**THE RECTORY SCHOOL
DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025 AND 2024**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is reported on the accrual basis. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant's loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits to participants are recorded when paid.

Plan Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the School. Expenses that are paid by the School are excluded from these financial statements. Fees related to the processing of distributions and the maintenance of notes receivable from participants are charged directly to the respective participant's account balance. Certain asset-based investment management fees are charged against the Principal portion of the participant's account. Other investment related expenses are included in the net appreciation in fair value of investments.

Risks and Uncertainties

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and those changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Subsequent events were evaluated through January 30, 2026, the date the financial statements were available to be issued.

**THE RECTORY SCHOOL
DEFINED CONTRIBUTION RETIREMENT PLAN

NOTE 3 CERTIFICATION BY THE CUSTODIANS

Information presented in the accompanying statements and schedule as of June 30, 2025 and 2024, and for the year ended June 30, 2025 for investments, notes receivable from participants, investment income and interest income on notes receivable from participants was derived, from information certified to be complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company and Teachers Insurance and Annuity Association and College Retirement Equities Fund, together referred to as the custodians, as permitted by the election made by the Plan administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 4 FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**THE RECTORY SCHOOL
DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025 AND 2024**

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Assets valued using the net asset value practical expedient are not required to be reported within the hierarchy.

The following is a description of the valuation methodologies used for assets measured at fair value:

Fixed Annuity Contracts

Following guidance provided by TIAA and CREF, management has determined that contract value approximates fair value for its fixed annuity contracts that are not fully benefit-responsive. Contract value represents the accumulation of contributions made under the contract, plus guaranteed and additional interest, less funds used to pay benefits and administrative expenses of the contract.

The conclusion that contract value approximates fair value for the TIAA Traditional Annuity is supported by two approaches, 1) the theoretical transfer of assets owned by a pension plan, and 2) a quantitative model based on assumptions of future interest rates and related discounted cash flows.

Differences in the credit spreads from corporate bonds are assumed to represent the overall illiquidity of the TIAA Traditional Annuity and those associated U.S. Treasury yields represent a credit spread for a highly rated insurance company. Thus, the interest rate used to discount future cash flows under a TIAA Traditional Annuity contract would approximate the contract's crediting rate and the present value would, therefore, approximate current contract value.

Because participants transact at contract value, the fair value approaches and assumptions related to the TIAA Traditional Annuity are only reviewed annually for financial reporting purposes.

Mutual Funds

Mutual funds are valued at the quoted price of shares held by the Plan at year end.

Pooled Separate Account

The pooled separate account is valued at the unit value as reported by the account.

Variable Annuities

Variable annuities are valued at the unit value as reported by the accounts.

There have been no changes in the methodologies used at June 30, 2025 and 2024.

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2025 and 2024:

	2025			Total
	Level 1	Level 2	Level 3

NOTE 5 FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

TIAA

The TIAA Traditional Annuity consists of guaranteed fixed annuity contracts that, during the accumulation phase, provide a guarantee of principal, a guaranteed minimum interest rate and the potential for additional discretionary interest if declared by TIAA. Additionally, the discretionary rate applied to contributions received during a reporting period may differ from the discretionary rate applied to account balances at the end of the prior reporting period. Such contracts may be converted to an annuity based on the accumulation in the account. Participants who elect to direct their contributions to this account enter into individual contracts with TIAA that provide various options.

As a result, the TIAA Traditional Annuity consists of certain individual participant contracts that are considered to be fully benefit-responsive and others that are not considered to be fully benefit-responsive because provisions in the contract contain liquidity restrictions that can limit the participant's ability to make withdrawals from the contract. The portion of the TIAA Traditional Annuity that is fully benefit-responsive is presented on the face of the statements of net assets available for benefits at contract value. The portion of the TIAA Traditional Annuity that is not considered to be fully benefit-responsive is presented on the face of the statements of net assets available for benefits at fair value, which management has determined to approximate contract value.

The contract value of the investment contract with TIAA was \$385,185 and \$398,109 as of June 30, 2025 and 2024, respectively.

Principal

In January 2019, the Plan entered into a benefit-responsive guaranteed investment contract with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at contract value. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract is a traditional investment contract. The contract value of the investment contract with Principal was \$121,865 and \$132,379 as of June 30, 2025 and 2024, respectively.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025 AND 2024**

NOTE 5 FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS (CONTINUED)

Certain events limit the ability of the Plan to transact at contract value with Principal and TIAA. Such events include the following: 1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), 2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, 3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

As of June 30, 2025 and 2024, the portions of the Principal Fixed Income Guaranteed Option and TIAA Traditional Annuity that were fully benefit-responsive and nonbenefit-responsive were as follows:

	<u>2025</u>	<u>2024</u>
Fully Benefit-Responsive	\$ 507,050	\$ 530,488
Nonbenefit-Responsive	<u>3,329,967</u>	<u>3,330,581</u>
Total	<u>\$ 3,837,017</u>	<u>\$ 3,861,069</u>

The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1% - 3%. Such interest rates are reviewed on an annual basis for resetting.

NOTE 6 PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds, variable annuities, a pooled separate account and fixed annuity contracts managed by affiliates of Principal and TIAA and CREF. Principal and TIAA and CREF are custodians as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Investment and administrative expenses paid by the Plan to Principal and TIAA and CREF or its affiliates totaled \$59,336 for the year ended June 30, 2025. Certain employees of the School who participate in the Plan perform administrative services to the Plan at no cost to the Plan. Notes receivable from participants are also party-in-interest transactions.

NOTE 7 INCOME TAX STATUS

The Plan has adopted a preapproved plan document that received a favorable opinion letter from the IRS that it was in compliance with the applicable requirements of the Code. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Plan administrator believes the Plan was compliant and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intent to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.
