## INDEPENDENT AUDITORS' REPORT

### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed audits of the accompanying financial statements of IKG Hourly Employees Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of IKG Hourly Employees Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note D to the financial statements, is complete and accurate.

### **Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

To the Pension Investment Committee

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of IKG Hourly Employees Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about IKG Hourly Employees Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

To the Pension Investment Committee  
IKG Hourly Employees Pension Plan  
Page Three

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of IKG Hourly Employees Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about IKG Hourly Employees Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Supplemental Schedule Required by ERISA**

The supplemental schedules of assets (held at end of year) and reportable transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures,

To the Pension Investment Committee  
IKG Hourly Employees Pension Plan  
Page Four

including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

IKG HOURLY EMPLOYEES PENSION PLAN  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

NOTE A – DESCRIPTION OF PLAN

The following brief description of IKG Hourly Employees Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a noncontributory defined benefit plan providing retirement, death and disability benefits to all eligible union employees of the IKG Industries division (Nashville, Leeds, Carlisle, Long Island, and Channel View locations) of Harsco Corporation. Pursuant to a sale and purchase agreement dated January 9, 2020 (“the purchase agreement”), Sidero, Inc. purchased from Harsco Corporation all of the outstanding interests of Harsco IKG, LLC (now re-named IKG USA, LLC). The purchase agreement provided for the transfer of the Plan to the purchaser or an affiliate of the purchaser. The purchaser designated its affiliate, IKG USA, LLC (the “Company”) to be the transferee of the Plan effective July 22, 2020. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

As of December 31, 2006, all accrued benefits and credit for continuous service are frozen for all participants except those in the Channel View location.

In September 2010, the Plan was amended to freeze participation and the accrued pension benefit of collectively bargained employees who are members of the Cement, Lime, Gypsum and Allied Workers, Division of the International Brotherhood of Boilermakers, Iron Ship Builders, Blacksmith Forgers and Helpers, AFL-CIO-CFL, Local Lodge D546 at the Company’s Channel View, Texas facility. The freeze was effective as of the close of business December 31, 2010, and no employee who is hired or rehired by the Company after then shall become a participant in the Plan.

Effective January 1, 2011, credit for past continuous service was frozen as of the close of business on December 31, 2010, and no continuous service earned after that date is taken into account in determining a participant’s pension benefit. A basic monthly pension benefit per year of service with a maximum of thirty-five years will be provided and early retirement age fifty-five with actuarial reduction of benefits is allowed. The accrued pension of any participant who was an employee as of the close of business December 31, 2010, shall be 100% vested and nonforfeitable, regardless of number of years of continuous service.

Although the Company received Board approval as of December 31, 2003, to merge all defined benefit plans maintained by the Company or its subsidiaries in its ERISA controlled group, the Plan has not yet been merged. The merger is planned in order to reduce administrative and funding costs that otherwise will be incurred if these plans continue as separate plans. The merger will be subject to union approval where required.

Effective January 1, 2017, the Plan document was restated to incorporate all amendments through December 31, 2016.

### NOTES TO THE FINANCIAL STATEMENTS

#### NOTE A – DESCRIPTION OF PLAN (CONTINUED)

##### General (Continued)

The Plan is administered by the Company's Pension Investment Committee ("Committee"), which is a committee of the board of directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Company's board of directors.

##### Service Rules

Employees are credited with a year of service for each Plan year during which they have at least 1,000 hours of service.

##### Pension Benefits

Employees with five or more years of continuous service are entitled to annual pension benefits beginning at normal retirement age (65) amounting to monthly benefits equal to the benefit unit in effect at the time of termination of employment multiplied by benefit accrual service up to a maximum of 35 to 40 years, depending on the plant. The Plan permits early retirement at ages 55-64 and the completion of 5-10 years of service, depending on the location. Employees may receive their pension benefits in the form of a life annuity for unmarried participants, or, for married participants, the actuarial equivalent of the life annuity is paid in the form of a 50% joint and survivor annuity. Participants may also elect to receive their vested benefits in the form of a lump sum or other alternate form of annuity. If the present value of the pension does not exceed \$5,000, a lump-sum payment is automatic.

The amount of the monthly benefit, as defined in the Plan document, depends upon, among other things, the years of service of the employee and in which division of the Company the employee worked.

##### Death and Disability Benefits

The Plan provides for death and disability benefits. In the event of death, the amount of benefit the beneficiary will receive will depend upon, among other things, the employee's status as of the date of death and whether the participant was already receiving normal retirement benefits. In the event a participant becomes totally and permanently disabled, the benefit to be received will depend upon, among other things, the employee's status at the time of disability. Depending on the location, disability retirement is available upon permanent incapacitation with no service requirement or after 15 years of continuous service.

##### Vesting

The accrued pension of any participant who was an employee as of the close of business December 31, 2010, shall be 100% vested and nonforfeitable, regardless of number of years of continuous service.

### NOTES TO THE FINANCIAL STATEMENTS

#### NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

##### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

##### Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

##### Funding Policy

The Plan is funded by the Company with actuarially determined contributions. The contributions are determined using an actuarial cost method which takes into consideration the present value of benefits expected to accrue during the plan year. There was no required contribution to the Plan for the year ended December 31, 2024. During 2023, the actuarially determined contribution was \$357,526. During 2023, the Company made contributions of \$211,490 to the Plan, with the remaining \$146,036 recognized as employer contribution receivable at December 31, 2023. The employer contribution receivable was collected in 2024. The Plan has complied with the minimum funding requirements established by ERISA for 2024 and 2023.

##### Payments of Benefits

Benefit payments to participants are recorded upon distribution.

##### Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan

##### Administrative Expenses (Continued)

that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

##### Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through February 11, 2026, the date the financial statements were available to be issued.

#### NOTE C – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2024 and 2023:

Pooled separate accounts (PSA): The value of units held in PSAs are based on the net asset value ("NAV") of the units, determined by the prices of the underlying investments. The redemption frequency of each of these PSAs is daily, and there are no redemption restrictions. There are no unfunded commitments related to the Plan's investment in PSAs.

IKG HOURLY EMPLOYEES PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE C – FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level within the fair value hierarchy, the Plan’s financial assets that were accounted for at fair value on a recurring basis at December 31, 2024 and 2023, according to the valuation techniques used to determine their fair values:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>
<u>December 31, 2024</u>				
<u>Investments measured at net asset value*</u>				
Pooled separate accounts	\$ _____	\$ _____	\$ _____	\$ 9,025,753
<u>December 31, 2023</u>				
<u>Investments measured at net asset value*</u>				
Pooled separate accounts	\$ _____	\$ _____	\$ _____	\$ 9,208,967

\*In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE D – INFORMATION CERTIFIED BY THE TRUSTEE

Certain information in the accompanying financial statements and supplemental schedule of assets (held at end of year) was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate.

Accordingly, Principal Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, the supplemental schedules Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) and Schedule H, Line 4(j) -Schedule of Reportable Transactions as of and for the year ended December 31, 2024, and the related net appreciation in the fair value of investments reported in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023.

NOTE E – TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated July 18, 2018, that the Plan and related trust are in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024 and 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## IKG HOURLY EMPLOYEES PENSION PLAN

### NOTES TO THE FINANCIAL STATEMENTS

#### NOTE F – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, (c) and present employees or their beneficiaries. Benefits under the Plan are based on employees' credited service and the benefit rate in effect at the time of retirement. The accumulated plan benefits for active employees are based on their credited service and the benefit rates in effect at the time the Plan was frozen.

Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary as of January 01, 2024 and 2023, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation and the determination of the present value of accumulated Plan benefits as of January 01, 2024 and 2023 are as follows:

Asset return	5.75% for 2024 and 2023
Inflation	2.40% per year for 2024 and 2023
Discount rate	5.25% compounded annually for 2024 and 2023, respectively
Mortality basis	For 2024 and 2023: Separate rates for non-annuitants based on Pri-2012 "Employee" table (male and female) with blue collar adjustment, projected generationally from the base year of 2012 using Scale MP2021;
Retirement	For 2024 and 2023: 10% at age 60 increasing to 100% at age 68.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

NOTE G – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the net assets of the Plan will be allocated in accordance with the Plan document and as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- Other vested benefits insured by the PBGC (a U.S. government agency) up to the applicable limits (discussed below).

## IKG HOURLY EMPLOYEES PENSION PLAN

### NOTES TO THE FINANCIAL STATEMENTS

#### NOTE G – PLAN TERMINATION (CONTINUED)

- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pension benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

#### NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

#### NOTE I – RELATED PARTY TRANSACTIONS

The Plan's investments are managed by Principal Trust Company. Principal Trust Company serves as the Plan's trustee, actuary, and investment manager. Transactions in such investments qualify as party-in-interest transactions and are exempt from the prohibited transaction rules. For the years ended December 31, 2024 and 2023, the trustee was paid \$78,550 and \$68,550, respectively, for administrative expenses.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

#### NOTE I – OTHER INCOME

During the year ended December 31, 2024, the Plan received a refund of Pension Benefit Guaranty Corporation (PBGC) premiums that had been paid in a prior year. The refund was recorded as other income in the statement of changes in net assets available for benefits. The

## IKG HOURLY EMPLOYEES PENSION PLAN

### NOTES TO THE FINANCIAL STATEMENTS

#### NOTE I – OTHER INCOME (CONTINUED)

refund resulted from an adjustment by the PBGC related to participant counts or premium calculations for the prior plan year. The Plan's accounting policy is to recognize such refunds as other income in the period received. Management believes this presentation appropriately reflects the nature of the transaction and is consistent with applicable accounting guidance for defined benefit pension plans.

Assumptions prescribed by law

**Mortality**

**Before benefit payment period**  
 IRS Prescribed Mortality - Generational Non-annuitant, male and female.

**During benefit payment period**  
 IRS Prescribed Mortality - Generational Annuitant, male and female.

Assumptions selected by actuary

**Inflation** 2.40% increase per year.  
 Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

**Asset return** 5.75% for the current plan year.  
 The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

**Expected expense** The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

**Retirement** Active participants

Age	Probability of retirement	Age	Probability of retirement
60	10%	66	40%
61	10%	67	50%
62	20%	68+	100%
63	20%		
64	20%		
65	30%		

Inactive participants are assumed to retire at age 65.

**Disability** Rates vary by age and gender based on disablement per 1,000 participants

Age	Males	Females
30	0.71	0.85
35	0.99	1.75
40	1.62	3.15
45	2.70	4.65
50	4.93	6.26
55	9.14	8.05
60	14.70	11.25

**Marriage** 75% married; husbands are 2 years older than wives.  
 This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

**Withdrawal** Rates vary by age based on termination per 1,000 participants:

Age	Rate of withdrawal
20	140
25	140
30	140
35	140
40	120
45	90
50	70
55	50
60+	30

**Form of benefit** Active participants – Life annuity for single participants and 40% of married participants. 50% Joint and Survivor option for 60% of married participants.  
 Inactive participants under age 65 – Normal form of payment for unmarried participants (single life annuity for deferred beneficiaries).

**Methods prescribed by law**

**Liability measure** Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 6.00%.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

#### Methods selected by plan sponsor

Asset method	<p>The asset valuation method is prescribed by law for plans that elect to use a value other than market value.</p> <p>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.</p> <p>The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.</p> <p>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.</p>
Yield curve rates	<p>Full yield curve. Use the rates through the month of December.</p>
PBGC premium basis	<p>Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the full yield curve rates used for annual cost. You elected this Alternative interest method for the 01/01/2020 plan year.</p>

#### Methods elected by actuary

Retirees	<p>Assets and liabilities for current and future retirees are included.</p>
Vested benefits	<p>A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.</p> <p>The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.</p>

### Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

**Mortality** Based on Pri-2012 base rate mortality table projected generationally using MP-2021.

**Mortality base rates**

**Before benefit payment period**  
Employee amount-weighted, male and female

**During benefit payment period**  
Retiree amount-weighted, male and female

Contingent survivors - Blue collar contingent survivor amount-weighted, male and female after the original participant's death. Participants in pay status who cannot be identified as survivors use the same table as retirees.

Disabled retiree – Total dataset disabled retiree amount-weighted, male and female. Participants in pay status who cannot be identified as disabled use the same table as retirees.

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 2" is reasonable for this plan.

**Mortality improvement** MP-2021 is the most recent improvement scale published by the SOA in October 2021.

In selecting this assumption, we considered the other parameters available in the MIM-2021-v4 application tool issued by the SOA in October 2023 and consider the selections in MP-2021 reasonable. Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

Interest rate used to value liabilities	5.25% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.  Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.  Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Schedule SB, Line 2a - Explanation of Assets  
IKG Hourly Employees Pension Plan  
EIN 84-2520329 Plan No. 019

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of \$146,036 contributions received after the plan year end with a discounted value of \$143,095.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age  
 IKG Hourly Employees Pension Plan  
 EIN 84-2520329 Plan No. 019

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)
60	15.1886	0.1000	1.5189	91.1317
61	14.3962	0.1000	1.4396	87.8168

Total			15.8251	1,009.5211
Average				63.79

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan, including Amendment 1, signed 10/15/2018.

#### Plan eligibility

Class	Employees in a bargaining unit cover by any Pension Labor Agreements referenced in the plan document under Exhibits A-E.
Frozen eligibility	Frozen to all plan participants as of 12/31/2010.

#### Normal retirement benefit

Age and service	Exhibit B – Channelview – The older of age 65 or the 5 <sup>th</sup> anniversary of plan participation. All other Exhibits – Carlisle, Long Island, Nashville, and Leeds – The older of age 65 or for an employee who is over age 60 at date of hire, the 5 <sup>th</sup> anniversary of plan participation.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	Benefit levels listed are the latest dollar levels in effect. Earlier benefit levels can be found in the Exhibits in the plan document. Exhibit A – Nashville – Effective 02/15/2004, \$26.50 multiplied by accrual service (maximum 40 years). Plant closed 12/31/2005. Exhibit B – Channelview – Effective 07/01/2009, \$28.00 multiplied by accrual service (maximum 35 years). Benefits frozen 12/31/2010. Exhibit C – Leeds – Effective 07/01/2005, \$24.00 multiplied by accrual service (maximum 35 years). Benefits frozen 12/31/2006. Exhibit D – Carlisle – Effective 01/01/1995, \$15.50 multiplied by accrual service (maximum 35 years). Plant closed. Exhibit E – Long Island – Effective 01/01/1995, \$17.00 multiplied by accrual service (maximum 40 years). Plant closed.

#### Early retirement benefit

<b>Age and service</b>	Exhibit A – Nashville – Age 55 and 10 years of vesting service. Exhibit B – Channelview – Age 55 and 5 years of vesting service. Exhibit C – Leeds – Age 55 and 5 years of vesting service. Exhibit D – Carlisle – Age 62 and 5 years of vesting service. Exhibit E – Long Island – Age 60 and 10 years of vesting service.
<b>Form</b>	Same as normal retirement benefit.
<b>Amount</b>	Exhibit A – Nashville and Exhibit E – Long Island, accrued benefit on early retirement date reduced by 7.2% for each year that early retirement date precedes normal retirement date. In addition, for Long Island, they provide an unreduced early retirement benefit if a participant is age 62 with 30 years of vesting service. Exhibit B – Channelview, Exhibit C – Leeds, and Exhibit D – Carlisle – accrued benefit is actuarially reduced for commencement prior to normal retirement age.

#### Late retirement benefit

<b>Age</b>	No maximum age.
<b>Form</b>	Same as normal retirement benefit.
<b>Amount</b>	Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date. The suspension of benefit notices are not being given to those who continue to work past normal retirement date.

#### Termination benefit

<b>Vesting percentage</b>	100% after five years of vesting service. Exhibit B – Channelview – Active participants on the date of freeze are 100% vested.
<b>Form</b>	Same as normal retirement benefit with income deferred until normal retirement date.
<b>Amount</b>	Accrued benefit on date of termination multiplied by the vesting percentage.

#### Disability benefit

<b>Eligibility</b>	Continuously disabled for 6 months and totally disabled from engaging in any employment and disability is permanent and continuous during the remainder of their life.
<b>Service requirements</b>	Exhibit A – Nashville – 10 years of accrual service. Exhibit B – Channelview – no service requirement. Exhibit C – Leeds – no service requirement. Exhibit D – Carlisle – 15 years of accrual service. Exhibit E – Long Island – 15 years of accrual service.
<b>Amount</b>	Exhibit A – Nashville – Prior to normal retirement date, \$250 per month. At normal retirement date, the benefit payable is equal to the accrued benefit at disability per the plan document. Exhibit B – Channelview – Temporary benefit payable to normal retirement date equal to the greater of \$15 multiplied by accrual service or \$270 per month. At normal retirement date, the benefit payable is equal to the accrued benefit earned per the plan document. Exhibit C – Leeds – Temporary benefit payable to normal retirement date equal to the greater of \$25 multiplied by accrual service or \$300 per month. At normal retirement date, the benefit payable is equal to the accrued benefit earned per the plan document. Exhibit D – Carlisle – \$180 per month payable immediately after 6 months of disability. Exhibit E – Long Island – Immediate accrued benefit per the plan document at date of disability.

#### Survivor annuity death benefit (a vested benefit)

<b>Eligibility</b>	Qualified married participant fully or partially vested in an accrued benefit.
<b>Form</b>	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
<b>Amount</b>	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

## Definitions

**Accrual service** One year of service equal to 1,000 hours. Exhibit A – Nashville and Exhibit E – Long Island – excludes accrual service prior to the age of 21.

**Vesting service** One year of service equal to 1,000 hours. Vesting service prior to age 18 is excluded.

**Optional forms of benefit payments**

The optional forms of benefit payments are:

- Monthly annuity payable for life.
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50 or 75.

The optional form conversion basis is 6.00% interest and the 1983 Group Annuity Mortality table for males with an age setback of 1 year for the participant and 5 years of the co-pensioner or spouse for payments other than lump sums.

The optional form conversion basis for lump sum payments is determined using either of the following, whichever produces the greatest benefit:

- a) The applicable interest rate and the applicable mortality table.
- b) The rate of interest on 30-year Treasury securities as of the October 1<sup>st</sup> immediately preceding the plan year which includes the date of distribution and the 1994 GAR Mortality table (50% male and 50% female) (GAR 94 mortality table as set forth in Revenue Ruling 2001-62).
- c) 1983 GAM Mortality table for males with an age setback of one year for the participant and 5 years for the co-pensioner or spouse and the interest rate structure specified by the PBGC to value immediate and deferred annuities in connection with the single employer pension plan terminations during the calendar month of distribution.

The applicable interest rate uses the fifth calendar month preceding the first day of the stability period which is the plan year.

## Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

## Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.
