INDEPENDENT AUDITOR'S REPORT

February 11, 2026

To the Plan Administrator of the
G & T Industries, Inc. Savings and Employee Stock Ownership Plan
Byron Center, Michigan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of G & T Industries, Inc. Savings and Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of June 30, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended June 30, 2025 and 2024, stating that the certified investment information, as described in Note D to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section—

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of G & T Industries, Inc. Savings and Employee Stock Ownership Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about G & T Industries, Inc. Savings and Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of G & T Industries, Inc. Savings and Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about G & T Industries, Inc. Savings and Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

G & T INDUSTRIES, INC. SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

For the years ended June 30, 2025 and 2024

Note A – Description of Plan

The following description of the G & T Industries, Inc. Savings and Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

G & T Industries, Inc. (the Company) established the Plan as a leveraged employee stock ownership plan (ESOP) with 401(k) provisions. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers all full-time employees of the Company.

The Plan purchased all outstanding Company common shares using the proceeds of bank borrowings which were repaid in full. The Plan holds the stock in a trust established under the Plan.

The Plan's fiduciary committee is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment strategy, and monitors investment performance.

Eligibility and Contributions

Employees become eligible to make elective deferrals into the Plan upon completion of 60 consecutive days of service. For the company match and discretionary contributions, employees become eligible on the Plan entry date coinciding with the date on which he or she has completed one year of employment with the Company consisting of at least 1,000 hours worked. Employees of the Company may defer a portion of their wages into the Plan beginning on the first Plan entry date after meeting eligibility requirements. Participants will be automatically enrolled at a 3% deferral rate, unless they elect otherwise. The entry date for employee elected contributions is the first administratively feasible payroll period after meeting eligibility requirements. The entry date for employer contributions is the first date of each calendar quarter.

Employees may elect to contribute a specified percentage of their annual compensation, limited to the lesser of 75% of annual compensation or the maximum amount permitted by the Internal Revenue Code.

The Company may make discretionary matching contributions for all, or any part of the plan year based on a percentage of the participant's elective contribution. The Company may also make a discretionary profit sharing contribution, which is allocated to participants based on their compensation for the year. There were no such matching or profit sharing contributions made for the years ended June 30, 2025 and 2024.

The Company makes an ESOP contribution sufficient to enable the Plan to pay benefits. The Company made ESOP contributions of \$1,635,036 and \$1,469,939 for the years ended June 30, 2025 and 2024, respectively. ESOP contributions are allocated to participants who are employed on the last day of the plan year and have completed at least 1,000 hours of service during the year, generally based on eligible compensation of each participant.

NOTES TO FINANCIAL STATEMENTS

G & T INDUSTRIES, INC. SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

For the years ended June 30, 2025 and 2024

Note A – Description of Plan (Continued)

Plan Operations

The Company acts as plan administrator and appoints an employee of the Company to act as Trustee. The Trustee is responsible for holding the investment assets of the Plan, voting shares of Company stock, executing investment transactions, and making distributions to participants. The plan administrator interprets and communicates the provisions of the Plan, ensures that all government and participant reporting requirements are fulfilled, and approves all distributions from the Plan to participants.

Participant Accounts

Individual accounts are maintained for each participant, with benefits limited to the amount contributed by the participant and an allocation of (a) the Company's matching contribution, (b) the Company's discretionary contribution, (c) the Company's ESOP contribution, and (d) investment earnings. Allocations to participant accounts are based on compensation or account balances, as specified by the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock on its last valuation date. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Vesting and Forfeitures

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service, as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years or more	100%

For the years ended June 30, 2025 and 2024

Note A – Description of Plan (Continued)

Vesting and Forfeitures (Continued)

A participant also becomes fully vested at the time of the participant's death, if the participant becomes disabled while employed, or upon attainment of normal retirement age. Forfeitures of nonvested ESOP account balances will be used first to restore any forfeited amounts that are required to be restored, then will be allocated as an additional Company contribution. ESOP account forfeitures of \$73,741 and \$68,703 were reallocated for the years ended June 30, 2025 and 2024, respectively. The balance in the 401(k) forfeiture account at June 30, 2025 and 2024 was \$112 and \$274, respectively. Forfeitures from 401(k) accounts of \$169 were used to pay plan expenses during the year ended June 30, 2025. There were no forfeitures from 401(k) accounts used during the year ended June 30, 2024.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify will have the proceeds reinvested.

Payment of Benefits

On termination of service, a participant may elect to receive a distribution in the form of a lump-sum or direct transfer to another eligible retirement plan. Lump-sum payments of ESOP accounts may be paid out over a longer period based on the distribution policy of the Company. Participants may elect to have their ESOP account distributed to them in shares of Company common stock. If the participant elects to receive Company common stock, the Company is required to repurchase the stock from the participant. The ESOP account balances for employees who leave the Company but do not return distribution paperwork are liquidated and transferred to the 401(k) portion of the Plan. This activity is reflected as transfers of ESOP accounts in the Statements of Changes in Net Assets Available for Benefits. Effective March 31, 2024, participants who are at least 65 years of age and are 100% vested in their ESOP contributions account may request a withdrawal from their vested ESOP account balance.

Loans to Participants

Under certain conditions, a participant may obtain a loan from the Plan. A participant's loan cannot exceed the lesser of \$50,000, reduced by the excess of the highest outstanding balance of all prior loans during the one-year period ending on the day before the new loan is made over the outstanding balance of all prior loans on that date, or one-half of the participant's nonforfeitable interest in the Plan. The loan will bear a reasonable interest rate, be adequately secured, and not exceed a period of five years unless the loan is used to acquire or construct the participant's principal residence. Principal and interest is paid ratably through payroll deductions.

Voting Rights

All shares of employer stock held by the Trustee shall be voted by the Trustee. However, each participant shall be entitled to direct the Trustee as to the manner in which all employer stock allocated to the participant's account shall be voted with respect to any corporate matter which involves the voting of shares for the approval or disapproval of a merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of the Company, or similar transactions. Unallocated shares shall be voted by the Trustee, as directed by the administrative committee.

Note B – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are recorded in the Plan's financial statements at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Income from interest is recorded as it is earned. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade date basis. Net appreciation or depreciation of investments is determined using the value at the beginning of the year or purchase price if acquired since that date. Management fees and operating expenses charged to the Plan for investments in mutual funds and insurance company contracts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Note B – Summary of Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expense when incurred. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document. Therefore, an allowance for credit losses is not considered necessary at June 30, 2025 and 2024.

The Plan's investment in the common stock of G&T Industries, Inc. is as follows:

	2025

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS

G & T INDUSTRIES, INC. SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

For the years ended June 30, 2025 and 2024

Note B – Summary of Accounting Policies (Continued)

Excess Contributions Payable

Amounts payable to participants for contributions from participants in excess of amounts allowed by the Plan or statutory limits are recorded as excess contributions payable, with a corresponding reduction to contributions in the year incurred.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through February 11, 2026, which is the date the financial statements were available to be issued.

Note C – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 – inputs to the valuation methodology include:

- quoted prices for similar assets and liabilities in active markets.
- quoted prices for identical or similar assets and liabilities in markets that are not active.
- other inputs that are observable or can be corroborated by observable market data.
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note C – Fair Value Measurements (Continued)

Level 3 – inputs are generally unobservable and significant to the fair value measurement. Such inputs typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability, including certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at June 30, 2025 and 2024.

Mutual funds: Valued using quoted net asset values (NAV) of the shares held by the Plan on the last business day of the plan year.

Collective investment fund: Valued based on net asset value (NAV) or unit value of underlying investment funds as reported by the underlying fund managers, which is determined by quoted market prices, sales of similar assets on active markets, and other inputs such as expected discounted cash flows, credit risk, volatility statistics, liquidity statistics, and redemption restrictions. The funds provide for redemptions with notice, as set forth in individual subscription agreements. Management evaluates the valuation of each of the funds and accepts the issuers' valuations without adjustment.

G & T Industries, Inc. common stock: Investments in common stock of G & T Industries, Inc. (Company common stock) is estimated annually, as of the financial statement date, based upon the results of an independent third-party appraisal performed by a business appraiser selected and engaged by the plan trustee who is accredited by the American Society of Appraisers. The appraisals are performed using discounted cash flows (Level 3 inputs on a nonrecurring basis) but also consider other relevant methods. Under the discounted cash flow method, projections are based on an estimate of expected cash flow generated by the Company. The estimate was determined based upon past performance, future expectations, projections prepared by management, and discussions with management. The value of the enterprise was calculated by discounting the estimated cash flow with an appropriate discount rate. The historical and projected financial information of the Company used by the appraiser is provided to the appraiser by the Company's Chief Financial Officer (CFO) with input from the senior management team. The CFO and Chief Executive Officer of the Plan sponsor review and evaluate the appraiser's methodology and assumptions, which involves discussions with the appraiser, and the CFO verifies the financial information of the Company used in the appraisal. Upon the plan trustee's approval of the appraisal, the CFO presented the appraisal to the Board of Directors of the plan sponsor and subsequently provided the appraisal to plan management.

Note D – Certified Information

All participant-directed investment information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at June 30, 2025 and 2024, and net appreciation and depreciation in fair value of investment, interest income on notes receivable from participants and interest and dividends for the years then ended, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Empower Trust Company, LLC.

NOTES TO FINANCIAL STATEMENTS

G & T INDUSTRIES, INC. SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

For the years ended June 30, 2025 and 2024

Note F – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts.

Note G – Tax Status

The Plan obtained its latest determination letter dated August 23, 2023, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since the determination letter was requested. However, the plan administrator and the Plan's tax counsel believe that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan is no longer subject to income tax examinations for years prior to 2022.

Note H – Risks and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participants' individual account balances.
