INDEPENDENT AUDITORS' REPORT

Plan Sponsor
The Mast General Store, Inc. Employee Stock Ownership Plan
Valle Crucis, North Carolina

Opinion

We have audited the accompanying financial statements of The Mast General Store, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of April 6, 2025 and April 7, 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of The Mast General Store, Inc. Employee Stock Ownership Plan as of April 6, 2025 and April 7, 2024, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Mast General Store, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Mast General Store, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Mast General Store, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Mast General Store, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified in the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i - schedule of assets held for investment purposes as of April 6, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the information in the supplemental schedule, other than the information agreed to or derived from the certified investment information, is presented, including the form and content, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

Years Ended April 6, 2025 and April 7, 2024

NOTE 1: PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following description of The Mast General Store, Inc. Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

The Mast General Store, Inc. (the “Company”) established the Mast General Store, Inc. Employee Stock Ownership Plan (the Plan) effective as of October 1, 1995 and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Plan utilizes third party administrators appointed by the Plan’s Trustee.

Eligibility – Employees of the Company are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours and attained 21 years of age during such plan year. Participants who do not have at least 1,000 hours of service during such plan year are generally not eligible for an allocation of company contributions for such year.

Employer contributions – The Company may make contributions in cash or company securities at the sole discretion of the Company’s board of directors. The Company may choose not to make a contribution for any given Plan year. The Company’s contribution for the Plan years ended April 6, 2025 and April 7, 2024, were \$456,654 and \$457,474, respectively.

Payment of benefits – No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the company. Distributions are made in cash or, if a participant elects, in the form of company common shares plus cash for any fractional share. The amount distributed is based upon the account valuation immediately preceding the distribution.

Under the provisions of the Plan, the Company is obligated to repurchase shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if shares are subject to trading limitations. During the years ended April 6, 2025, and April 7, 2024, the company did not repurchase any shares from participants.

Voting rights – Generally, the Trustee of the Plan will vote all Company stock held by the Plan in accordance with instructions by the board of directors. However, participants and/or beneficiaries may vote shares of voting stock allocated to their accounts in the event of a proposed corporate merger, consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of a trade or business, or similar

Years Ended April 6, 2025 and April 7, 2024

NOTE 1: PLAN DESCRIPTION AND BASIS OF PRESENTATION - CONTINUED

Voting rights – continued – transactions prescribed by regulation. In accordance with instructions from the board of directors, the Trustee will vote any unallocated shares held by the Plan as well as any allocated shares for which a participant has failed to give timely voting direction.

Plan termination – The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the code. Upon termination of the Plan, participants would become 100% vested in their accounts and the committee shall direct the Trustee to pay all liabilities and expenses of the trust fund.

Participant accounts – The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant’s account is credited as of the last day of each plan year with an allocation of the Company contribution and forfeitures of the terminated participant’s nonvested accounts. Contributions are used to purchase shares of Company common stock from shareholders outside the Plan as well as from participants who terminated in a prior year and were paid out during the year. Only those participants who are eligible employees of the Company will receive an allocation. Allocations are based on participant’s eligible compensation, relative to total compensation.

Gains or losses in Company stock value are allocated to shares held by participants at the end of the year. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting – If a participant’s employment with the Company ends for any reason other than attainment of normal retirement age, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service, and are 100% vested after six years of service.

Put option – Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company may pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification – Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with

NOTE 1: PLAN DESCRIPTION AND BASIS OF PRESENTATION – CONTINUED

Diversification – continued – at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25% of the value of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution or a direct transfer of the applicable cash amount to the Mast General Store 401(k) Plan.

Forfeitures – Forfeitures of non-vested accounts are reallocated to remaining participants as an additional Company contribution. During the Plan years ended April 6, 2025 and April 7, 2024, the Plan reallocated non-vested forfeitures totaling \$19 and \$19, respectively, to the remaining participants.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition – The common shares of the company are valued at estimated fair value. See Note 6 for discussion of fair value measurements.

Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Payment of benefits – Benefit payments to participants are recorded upon distribution.

Operating expenses – All expenses of maintaining the Plan are paid by the company.

Fiscal year – The Plan operates on a 52/53 week fiscal year, which ends on the Sunday following March 31st. The Plan year ended April 6, 2025 was a 52 week year.

Subsequent events – The Plan has evaluated subsequent events through February 14, 2026, the date the financial statements were available to be issued.

NOTE 3: TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated October 31, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan was qualified and the related trust was tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of April 6, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

NOTE 4: ADMINISTRATION OF PLAN ASSETS

The plan's assets, which consist principally of The Mast General Store, Inc. common shares, are held by the Trustee of the plan, who is an officer of the company. Company contributions are held and managed by the Trustee, which invests cash received and makes distributions to participants. A third-party administrator is used to allocate shares and maintain participant accounts. No officer or employee performing administrative functions receives compensation from the plan. Administrative expenses to the plan's third-party administrator are paid directly by the company.

NOTE 5: INVESTMENTS

The Plan's investments, at April 6, 2025 and April 7, 2024, respectively, are presented in the following table:

NOTE 6: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets of liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value of The Mast General Store, Inc. common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the income and market approaches, weighting the methods as follows: 65% of the final valuation was based on a discounted cash flow approach, 25% on a capitalized cash flow approach and 10% on the guideline public company approach. The appraisal techniques are consistent with prior years. The appraiser took into account historical and projected earnings before income taxes, depreciation and amortization, earnings before taxes, capitalization rate, and discount rate.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of

NOTE 6: FAIR VALUE MEASUREMENTS - CONTINUED

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

NOTE 7: RISKS AND UNCERTAINTIES

The common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. The Plan is exposed to various risks, such as interest rate, economy risks, and credit risks. Economy risks include global events which could impact the fair value of the Plan's common stock, such as a pandemic or international conflict. Due to the level of risk associated with the fair value of common stock held by the Plan, it is at least reasonably possible that changes in the fair value will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.
