## Independent Auditor's Report

To the Participants and Plan Administrator of  
Ridley USA Inc. Hourly Pension Plan  
Nicholasville, Kentucky

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Ridley USA Inc. Hourly Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of April 30, 2025 and 2024, the related statements of changes in net assets available for benefits for the years then ended, the related statement of accumulated plan benefits as of April 30, 2024, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of April 30, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

### **Auditor's Responsibilities for the Audit of the Financial Statements, continued**

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Other Matter - Supplemental Schedules Required by ERISA**

The supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of April 30, 2025 and Schedule H Line 4j – Schedule of Reportable Transactions (During the Year) for the year ended April 30, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

**Other Matter - Supplemental Schedules Required by ERISA, continued**

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## RIDLEY USA INC. HOURLY PENSION PLAN

### Notes to the Financial Statements

#### 1. Description of the Plan

The following description of the Ridley USA Inc. Hourly Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

##### General

The Plan is a noncontributory defined benefit plan covering production employees subject to certain provisions identified in the Plan document of Ridley USA Inc. (the Plan Sponsor). Alltech, Inc. (the Plan Administrator) is the ultimate parent of the Sponsor. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Retirement Plan Committee approved a motion to close the Plan to non-union employees hired after April 30, 2008 and to union employees at various times pursuant to the collective bargaining agreements. Based on this motion, the Plan no longer allows new employees to participate in the Plan, and benefits no longer accrue for employees that elected to receive future employer contributions from the Ridley USA Inc. 401(k) Plan in lieu of future accruals from this Plan. The Retirement Plan Committee has not made a resolution to terminate the Plan.

##### Eligibility

Production employees, which elected to remain in the Plan at closing, were eligible to participate in the Plan if they had completed one year of service, were 21 years of age, and either a participant on April 30, 2008 or a production employee subject to certain provisions identified in the Plan document after April 30, 2008. A year of service for purposes of eligibility is a consecutive 12-month period during which the employee has 1,000 or more hours of service.

##### Funding Policy

The Plan Sponsor's funding policy is to make annual contributions to the Plan in amounts that are estimated amounts necessary to fund the benefits provided, as determined by the Plan actuary, so that all employee benefits will be fully provided by the time they retire. No Plan Sponsor contributions were required for the years ended April 30, 2025 and 2024.

##### Pension Benefits

The Plan provides pension benefits for normal and early retirement as identified in the appendix to the Plan document specific to the participant's pension unit. Retirement benefits paid to participants retiring at normal retirement age are defined in the Plan document and are based on years of credited service multiplied by the prescribed rate required, as identified in the appendix to the Plan document. A participant may receive the vested value of their accumulated plan benefits in the form of life annuity, joint and survivor annuity options, or lump sum, as defined in the Plan document.

### 1. Description of the Plan, continued

#### Death and Disability Benefits

In the event of a death of a married participant prior to retirement, the spouse will receive a pre-retirement spouse benefit equal to the pre-retirement benefit guidelines, as defined in the Plan document. Active employees who become totally disabled and meet other eligibility criteria will receive monthly disability benefits, as identified in the appendix to the Plan document for the participant's pension unit.

#### Vesting

Participants become 100% vested in the Plan upon completion of 5 years of service or attainment of the normal retirement age (65).

#### Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are calculated and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

### 2. Summary of Significant Accounting Policies

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) which require management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of the significant accounting policies consistently followed by the Plan in the preparation of its financial statements:

#### Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

## RIDLEY USA INC. HOURLY PENSION PLAN

Notes to the Financial Statements, continued

### 2. Summary of Significant Accounting Policies, continued

#### Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on an employee's years of credited service multiplied by the rate designated in their respective appendix to the Plan document. The accumulated plan benefits for active employees are also based on their years of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the date which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent consulting actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following is a summary of the more significant actuarial assumptions underlying the actuarial computations as of April 30, 2024:

Mortality rates	Based on Pri-2012 blue collar base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2024).		
Retirement age	<u>Age</u>	<u>Active probability of retirement</u>	<u>Terminated vested probability of retirement</u>
	55-61	2%	5%
	62	20%	10%
	63	10%	25%
	64	25%	50%
	65 and over	100%	100%
Discount Rate	5.25%		
Asset return	5.50%		
Administrative expenses	Expenses paid by the Plan based on historical amounts with updated estimates of Pension Benefit Guaranty Corporation (PBGC) premiums.		

## RIDLEY USA INC. HOURLY PENSION PLAN

Notes to the Financial Statements, continued

### 2. Summary of Significant Accounting Policies, continued

#### Actuarial Present Value of Accumulated Plan Benefits, continued

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate or be amended, different actuarial assumptions might be applicable in determining the actuarial present value of accumulated benefits.

The computations of the actuarial present value of accumulated Plan benefits were made as of May 1, 2024. If the valuations had been performed as of April 30, 2024 there would be no material differences.

#### Payment of Benefits

Benefit payments to participants are recorded upon distribution.

#### Administrative Expenses

The Plan's expenses are paid by either the Plan or the Plan Sponsor, as provided by the Plan document. Expenses that are paid directly by the Plan Sponsor are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

#### Subsequent Events

The Plan's management has evaluated subsequent events for accounting and disclosure requirements through February 13, 2026, the date that the financial statements were available to be issued.

### 3. Information Certified and Provided by the Plan Trustee

The Plan's investment information included in this note and throughout the Plan's financial statements and supplemental schedules was prepared by or derived from information provided by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal), the trustee of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that investment information provided to the Plan Administrator by the trustee is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to investment information in this note and which appears throughout the financial statements and the supplemental schedules.

## RIDLEY USA INC. HOURLY PENSION PLAN

### 3. Information Certified and Provided by Trustees, continued

The following table presents the fair value of investments in the Plan as of April 30 that were certified by Principal.

	<u>2025</u>	<u>2024</u>
Mutual funds	\$ 17,440,766	\$ 17,143,284
Pooled separate accounts	<u>317,221</u>	<u>326,266</u>
Total investments	<u>\$ 17,757,987</u>	<u>\$ 17,469,550</u>

Principal also certified to the completeness and accuracy of the net realized and unrealized appreciation (depreciation) in the fair value of mutual funds, in the amount of \$450,111 and \$(716,319) for the years ended April 30, 2025 and 2024, respectively, and \$886,967 and \$773,426 of interest and dividends related to the investments for the years ended April 30, 2025 and 2024, respectively.

### 4. Fair Value Measurements

The Plan classifies its investments based on a hierarchy consisting of: Level 1 (valued using quoted prices from active markets for identical assets), Level 2 (not traded on an active market but for which observable market inputs are readily available), and Level 3 (valued based on significant unobservable inputs). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis:

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Pooled separate accounts:* Valued at fair value based on the NAV of the observable market prices of the underlying assets within that account less liabilities.

There have been no changes in the valuation methodologies used at April 30, 2025 and 2024.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

## RIDLEY USA INC. HOURLY PENSION PLAN

Notes to the Financial Statements, continued

### 4. Fair Value Measurements, continued

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of April 30:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<b><u>2025</u></b>				
Mutual funds	\$ 17,440,766	\$ -	\$ -	\$ 17,440,766
Pooled separate accounts	<u>-</u>	<u>317,221</u>	<u>-</u>	<u>317,221</u>
Total investments at fair value	<u>\$ 17,440,766</u>	<u>\$ 317,221</u>	<u>\$ -</u>	<u>\$ 17,757,987</u>
<b><u>2024</u></b>				
Mutual funds	\$ 17,143,284	\$ -	\$ -	\$ 17,143,284
Pooled separate accounts	<u>-</u>	<u>326,266</u>	<u>-</u>	<u>326,266</u>
Total investments at fair value	<u>\$ 17,143,284</u>	<u>\$ 326,266</u>	<u>\$ -</u>	<u>\$ 17,469,550</u>

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The following table summarizes investments measured at fair value based on NAV per share as of April 30:

	<u>Fair Value</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
<b><u>2025</u></b>

Notes to the Financial Statements, continued

### 5. Related Parties and Party-in-Interest Transactions

Certain Plan investments are shares of pooled separate accounts managed by Principal Life Insurance Company, an affiliated entity of Principal, the trustee as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA. Administrative expenses of \$72,840 and \$68,977 for the years ended April 30, 2025 and 2024, respectively, are comprised of fees paid by the Plan to Principal or its related companies for investment management services and withdrawal charges.

Additionally, indirect fees are paid to Principal based on investment account values. These fees range from 0.04% to 1.24% of the investment account value. The fees are included in the net depreciation in fair value of investments on the statements of changes in net assets available for benefits.

### 6. Tax Status

The Plan obtained its latest determination letter dated February 28, 2017, in which the Internal Revenue Service stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code.

### 7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have received for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding the Plan termination.
- Other vested benefits insured by the PBGC (a United States Governmental agency) up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect at the date of the Plan's termination.

Whether all participants receive their benefits, should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Assumptions prescribed by law

Mortality

Before benefit payment period

IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

During benefit payment period

IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary

Inflation

2.40% increase per year.

Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

Asset return

5.50% for the current plan year.

The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense

The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Retirement

Active participants

Age	Active Probability of retirement	Terminated vested Probability of retirement
55-61	2%	5%
62	20%	10%
63	10%	25%
64	25%	50%
65	100%	100%

This assumption is based on the results of recent experience analysis and anticipated future experience.

Disability	None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.
Marriage	80% married; husbands are 2 years older than wives.  This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.
Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 0.90.  We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.90 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.  This assumption is based on the results of recent experience analysis and anticipated future experience.

#### Methods prescribed by law

Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 7.00%.  Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Benefit accrual	All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.  The portion based on the plan's definition of accrued benefit.  The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement.  The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.

Methods selected by plan sponsor

**Asset method** The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

**Segment rates** 24-month average with no weighting to prior law basis. Use rates where December is the last month included in the average.

**PBGC premium basis** Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 05/01/2022 plan year and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
5.24%	5.48%	5.61%

Methods elected by actuary

**Retirees** Assets and liabilities for current and future retirees are included.

**Vested benefits** A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant’s vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

**Mortality** Based on Pri-2012 Blue collar base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2024).

**Mortality base rates** **Before benefit payment period**  
Employee amount-weighted, male and female

**During benefit payment period**  
Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Due to the size of the plan and limited experience, we are assuming no mortality before benefit payment period.

**Mortality improvement**

Principal 2024 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2024
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2030/2030
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2024
COVID-19 or Excess load	None <sup>1</sup>

<sup>1</sup>Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See [Mortality documentation](#) for rationale and additional information.

**Interest rate used to value liabilities**

5.25%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age  
 Ridley USA Inc Hourly Pension Plan  
 EIN 41-1875165 Plan No. 003

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

Early retirement benefit

Age	Attainment of age 55.
Service	10 years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit at date of actual retirement payable at normal retirement.
Reduction for early commencement	For all locations (except Watertown, Mankato, and Rapid City) the accrued benefit reduced by 1/12 of 4% for each month by which the date of the first payment precedes the first day of the month following normal retirement. For Watertown, Mankato, and Rapid City there is no reduction if benefits commence after age 62 with 20 years of vesting service (reduced 4% per year from age 62 to 55).

Termination benefit

Vesting percentage	100% after completion of five years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability retirement benefit

Eligibility	To be eligible the participant must: <ul style="list-style-type: none"><li>a) Have completed 10 years of vesting service</li><li>b) be eligible for Social Security disability benefits</li><li>c) have a termination of employment occur on account of disability with inability to perform the normal duties of his employment.</li></ul>
-------------	---

**Form** An immediate retirement benefit (optional forms can be elected).

**Amount** The amount of the disability benefit will be the greater of the participant's unreduced monthly accrued benefit, or \$150.

**Death benefit**

**Eligibility** Qualified married participant fully vested in an accrued benefit.

**Form** Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.

**Amount** If a vested participant dies before retirement, the spouse will receive a benefit commencing no earlier than the earliest date the employee would have been eligible to retire and payable for life. The amount of the benefit will be equal to the benefit the spouse would have received if the employee had retired just before he or she died (or on the earliest date the employee would have been eligible to retire, if later) and had elected a 50% joint survivor benefit.

**Definitions**

**Credited service** Base on the following:

Hours of Service in a plan year	1/12 of year credited

No credited service after 04/30/2008 for participants who opted out of future accruals.

**Vesting service** An employee earns one year of service for each plan year after attaining age 18 in which at least 1,000 hours of service is earned. Years of service prior to attaining age 18 will not be excluded for participants of Mankato, Rapid City and Watertown locations.

**Optional form of benefit payment**

Actuarial equivalent of normal form of payment available as:

- Monthly annuity payable for life or 10 years certain and life.
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100.
- Lump sum if the present value is under \$7,000.

The optional form conversion basis is 7.0% interest and the UP-1984 mortality for payments other than lump sums.

The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in code section 417 for lump sum payments. The applicable interest rate uses the second calendar month (March) preceding the first day of the stability period which is the plan year.

**Changes in Principal Eligibility or Benefit Provisions**

There have been no changes in principal eligibility or benefit provisions since the last valuation.

**Significant Event**

The enrolled actuary has not been made aware that any significant events have occurred during the year.
