INDEPENDENT AUDITOR'S REPORT

To the Retirement Committee
National Cement Company Supplemental Unemployment Benefit Plan
Birmingham, Alabama

Opinion

We have audited the accompanying financial statements of National Cement Company Supplemental Unemployment Benefit Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of April 30, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended April 30, 2025 and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of National Cement Company Supplemental Unemployment Benefit Plan as of April 30, 2025 and 2024, and the changes in its net assets available for benefits for the year ended April 30, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of National Cement Company Supplemental Unemployment Benefit Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about National Cement Company Supplemental Unemployment Benefit Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of National Cement Company Supplemental Unemployment Benefit Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about National Cement Company Supplemental Unemployment Benefit Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

April 30, 2025 and 2024

NOTE 1 - PLAN DESCRIPTION

The following description of National Cement Company Supplemental Unemployment Benefit Plan (Plan) is provided for general information only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was established December 15, 1959, as a result of a collective bargaining agreement between National Cement Company of Alabama, Inc. (the Sponsor) and Local 9-00044, United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union AFL-CIO, CLC (the Union). The purpose of the Plan is to provide supplemental unemployment benefits for eligible employees in the event of their layoff, absence from work due to occupational sickness or injury or termination of employment. The Plan is a defined contribution welfare plan covering substantially all union employees of the Sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Sponsor may make contributions to the trust up to the maximum funding amount defined by the Plan as \$175 per covered employee. Contributions are not recoverable by the Sponsor from the trust. As a result, the Sponsor elected not to make contributions to the Plan to reach the maximum funding amount per covered employee and the Plan was underfunded for the Plan year ended 2025. The Sponsor made a contribution of \$1,000 for the Plan year ended April 30, 2025.

Benefits

The Plan provides supplemental unemployment benefits in the event an eligible employee is laid off employment, terminated, or temporarily disabled by reason of occupational illness or injury. Benefits are contingent upon the eligible employee filing written application with the Sponsor. During the Plan year ended April 30, 2025, no applications were filed for benefits.

Administrative Expenses

Administrative expenses recorded in the Plan represent trustee and other advisory fees paid directly from the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America. In preparing the financial statements, management evaluated subsequent events through February 13, 2026, the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Other Income

Other income and expenses are reported on the accrual basis, except for nominal amounts of recurring monthly expenses. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when approved. There were no participant benefits approved for payment at April 30, 2025 or 2024.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Fair Value

The established framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is the price the Plan would expect to receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs which are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 3 - CONCENTRATIONS OF CREDIT RISK

As of April 30, 2025 and 2024, the Plan had no cash deposits in excess of federally insured limits.

NOTE 4 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Sponsor has the right under the Plan to modify the benefits provided to participants, or to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, remaining assets will be applied in a uniform and nondiscriminatory manner toward the provision of benefits for or on account of the participants. No assets of the Plan may revert to the Sponsor or be used for purposes other than for the exclusive benefit of the Plan's participants.

NOTE 5 - RELATED PARTY TRANSACTIONS

Plan cash accounts are managed by Regions, the trustee of the Plan. Fees paid by the Plan to the trustee represent party in interest transactions under ERISA. Such transactions, while considered party in interest transactions, are exempt from the prohibited transaction rules under ERISA.

NOTE 6 - INCOME TAX STATUS

The trust established under the Plan to hold the Plan's assets is intended to qualify pursuant to Section 501(c)(9) of the Internal Revenue Code, and accordingly, the trust's net investment income is exempt from income taxes. The Sponsor believes that the trust, as amended, continues to qualify, and operate as designed in accordance with applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if it has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of April 30, 2025 and 2024, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 8 - FAIR VALUES

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used during the years ended April 30, 2025 and 2024.

- *Money market funds*: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
