INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Turbine Controls, Inc. 401(k) Plan
Bloomfield, Connecticut

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Turbine Controls, Inc. 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of May 7, 2025 (in liquidation) and December 31, 2024 (ongoing), and the related statement of changes in net assets available for benefits for the period ended May 7, 2025 (date of termination), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of May 7, 2025 (date of termination) and December 31, 2024 and for the period ended May 7, 2025 (date of termination), stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance, and therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of a Matter – Basis of Accounting

As further discussed in Note 5 to the financial statements, the Plan administrator of Turbine Controls, Inc. 401(k) Plan terminated and liquidated the Plan. As a result, the Plan has changed its basis of accounting to the liquidation basis used in presenting the May 7, 2025 (date of termination) financial statements. Our opinion is not modified with respect to that matter.

TURBINE CONTROLS, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN:

The following description of the Turbine Controls, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan document and any amendments thereto, for a more complete description of the Plan's provisions.

1. *General.* The Plan was established on January 1, 2006. The Plan was a defined contribution plan covering all eligible employees of the Company. Effective February 1, 2013, the Plan was amended to include Turbine Controls, LLC as a participating employer of the Plan. All employees of the Company, excluding leased employees, who have completed 90 days of service and are at least 21 years of age were eligible to participate in the Plan as of the first day of the month coinciding with or next following the completion of eligibility. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Due to a merger of the Company, as of January 1, 2025, no new entrants were allowed into the Plan and all participants and Company contributions were discontinued. On May 7, 2025, the Plan was terminated as part of the Company merger. All remaining assets of the Plan, in the amount of \$14,197,334, were liquidated and transferred to the VSE Corporation 401(k) Plan. As a result of the Plan termination, all participants became 100% vested in their employer contributions, as further discussed in Note 5.

The Plan was administered by Turbine Controls, Inc. and third-party advised by The Angell Pension Group, Inc. The assets of the Plan were held and invested by Capital Bank and Trust Company ("CBT").

2. *Contributions.* Through December 31, 2024, participants could contribute up to 100% of pretax annual compensation, up to the maximum amount permitted by law for each Plan year. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified (and certain nonqualified) defined benefit or defined contribution plans. Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan offered a variety of mutual funds as investment options for participants. The Company provided a matching contribution of 50% of elective deferrals up to a maximum contribution equal to 3% of compensation. The Company could, at its discretion, make profit sharing contributions to the Plan. Participants must have been employed on the last day of the Plan year or have performed at least 1,000 hours of service during the Plan year to be eligible to receive a discretionary profit sharing contribution. As the Plan was in liquidation, no discretionary profit sharing contributions were made for the period ended May 7, 2025 (date of termination). Contributions were subject to certain limitations.
3. *Participant Accounts/Benefits.* Each participant's account was credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. Allocations were based on participant earnings or account balances, as defined. Investment expenses charged by the mutual funds in which the Plan invested were paid directly from the underlying assets of the respective investment and were included in the net change in fair value of each type of investment in the statement of changes in net assets available for benefits. All other charges related to the administration of the Plan were paid by the Company.

The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

TURBINE CONTROLS, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (CONTINUED):

4. *Vesting.* Participants were immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's match and discretionary profit sharing contribution portions of their accounts plus actual earnings thereon was based on years of continuous service. Through December 31, 2024, participants vested in the Company's match contributions and discretionary profit sharing contributions according to the following schedule:

Less than 1 year	0%
At least 1 year, but less than 2 years	20%
At least 2 years, but less than 3 years	40%
At least 3 years, but less than 4 years	60%
At least 4 years, but less than 5 years	80%
5 years or more	100%

As noted above, due to the merger of the Plan sponsor and termination and liquidation of the Plan, all active participants became 100% vested in their accounts effective January 1, 2025.

5. *Notes Receivable from Participants.* Participants were able to borrow from their fund accounts up to the lesser of \$50,000 or 50% of their vested account balance. The loans were secured by the vested balance in the participant's account and bore interest at rates ranging from 3.25% to 8.50%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest were paid ratably through payroll deductions. As part of the Plan termination, as of May 7, 2025 (date of termination), all outstanding notes receivable from participants were either rolled into the new plan or deemed distributed.
6. *Investment Options.* Upon enrollment in the Plan, a participant could direct employee and employer contributions in a variety of CBT's mutual funds. Participants were able to change their investment options daily.
7. *Payment of Benefits.* Upon termination of service due to death, disability or retirement, a participant with a vested account balance less than \$1,000 would receive a lump sum amount equal to the value of the participant's vested interest in his or her account. Participants with a vested account balance greater than \$7,000 were able to defer lump sum payment of benefits until a later date.

Withdrawals from a participant's salary deferral and rollover accounts were also allowed to be made in the event of termination of employment, upon reaching age 62 and for a financial hardship, in accordance with the provisions specified in the Plan.

8. *Forfeited Accounts.* At May 7, 2025 (date of termination) and December 31, 2024, forfeited non-vested accounts totaled \$-0- and \$3,780, respectively. These accounts were used to reduce future employer contributions or pay Plan expenses. In 2025 and 2024, employer match contributions were reduced by forfeited non-vested accounts in the amount of \$-0- and \$114,734, respectively.

2. SUMMARY OF ACCOUNTING POLICIES:

Basis of Accounting - The financial statements of the Plan were prepared on the accrual basis of accounting. In accordance with accounting principles generally accepted in the United States of America (GAAP), the Plan has changed its basis of accounting used to value the Plan assets and liabilities from the ongoing basis to the liquidation basis for the period ended May 7, 2025 (date of termination). See further explanation in Note 5.

TURBINE CONTROLS, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF ACCOUNTING POLICIES (CONTINUED):

Notes Receivable from Participants - Notes receivable from participants were measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans have been reclassified as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition - The Plan's investments were reported at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Interest income was recorded on the accrual basis.

The Plan presented in the statement of changes in net assets available for benefits the net change in fair value for each type of investment held by the Plan, which included gains and losses on investments bought and sold, as well as held during the period.

Plan Expenses - Certain expenses of maintaining the Plan were paid directly by the Company. Quarterly CBT administration fees and fees related to the administration of notes receivable from participants and distributions were charged directly to the participant's account and were included in administrative expenses. Investment related expenses were included in net appreciation (depreciation) in fair value of investments.

Use of Estimates - The preparation of financial statements in conformity with the accrual basis of accounting required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits - Benefits were recorded when paid.

Subsequent Events - The Company has evaluated events and transactions for potential recognition of disclosure through February 20, 2026, which is the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology were unadjusted quoted prices for identical assets or liabilities in active markets that the Plan had the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability had a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology were unobservable and significant to the fair value measurements.

3. FAIR VALUE MEASUREMENTS (CONTINUED):

The asset or liability fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurements. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Assets valued using the net asset practical expedient were not required to be reported within the hierarchy.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at May 7, 2025 (date of termination) and December 31, 2024.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that were registered with the Securities and Exchange Commission. These funds were required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Financial assets carried at fair value at May 7, 2025 (date of termination) and December 31, 2024 are classified in the table below in one of the three categories described above:

	May 7, 2025			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 0	\$ 0	\$ 0	\$ 0
	December 31, 2024			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 15,391,855	\$ 0	\$ 0	\$ 15,391,855

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For the period ended May 7, 2025 (date of termination) and December 31, 2024, there were no significant transfers between, in or out of levels.

4. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN:

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, CBT, the custodian of the Plan, has certified to the completeness and accuracy of all investments and notes receivable reflected on the accompanying statements of net assets available for benefits as of May 7, 2025 (date of termination) and December 31, 2024 and the related investment activity reflected in the statement of changes in net assets available for benefits for the period ended May 7, 2025 (date of termination). Included in the statement of changes in net assets available for benefits for the period ended May 7, 2025 (date of termination) was net depreciation in fair value of mutual funds, dividend income and interest income on notes receivable which were certified by CBT.

5. PLAN TERMINATION:

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Plan was terminated on May 7, 2025 as a result of the Plan sponsor's merger with another company. All participants became 100% vested in their employer contributions and all current employees' account balances were transferred to the acquiring company's plan. As a result of the Plan termination, the Plan had changed its basis of accounting to the liquidation basis used in presenting the May 7, 2025 (date of termination) financial statements.

6. TAX STATUS OF THE PLAN:

The Internal Revenue Service had determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan had been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believed that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC, and therefore, believed that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

7. PARTY-IN-INTEREST TRANSACTIONS:

Certain Plan investments were managed by affiliates of CBT. CBT is a custodian, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Other parties-in-interest included record-keepers and professional service firms who provided services to the Plan. Certain employees of the Company who participated in the Plan performed administrative services to the Plan at no cost to the Plan. Notes receivable from participants were also party-in-interest transactions.

8. RISKS AND UNCERTAINTIES:

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities would occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
