## INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator  
Peck School Retirement Plan

### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audits**

We have performed audits of the accompanying financial statements of Peck School Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of June 30, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended June 30, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Peck School Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of June 30, 2025 and 2024, and for the year ended June 30, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### **Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of Peck School Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Peck School Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audits of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Peck School Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Peck School Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

#### **Other Matter - Supplemental Schedules Required by ERISA**

The supplemental schedules of delinquent participant contributions for the year ended June 30, 2025, and of assets (held at end of year) as of June 30, 2025, (collectively, "supplemental schedules") are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF THE PLAN

The following description of Peck School Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan documents for a more complete description of the Plan's provisions.

General

The Plan, a defined contribution savings plan sponsored by The Peck School (the "School" or "Employer"), is designed to qualify under the applicable provisions of the Internal Revenue Code (IRC). The Plan was established effective January 1, 1966, and restated July 1, 2015. The Plan is designed to provide eligible participants with a means to defer a portion of their compensation for retirement and to provide benefits in the event of death, termination, disability, or financial hardship. The Plan is subject to the provisions of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent laws and the IRC.

Effective March 27, 2020, the Plan administratively adopted the provisions of the Coronavirus Aid, Relief, and Economic Security (CARES) Act related to notes receivable from participants and distributions. These provisions were operationally applied during the applicable relief period but have not been formally incorporated into the Plan as of June 30, 2025. The Employer intends to adopt a formal amendment by the December 31, 2026, deadline in accordance with Internal Revenue Service (IRS) guidance.

An expansion of Setting Every Community Up for Retirement Enhancement Act of 2019 ("SECURE 2.0") was signed into law on December 29, 2022, as part of the Consolidated Appropriations Act of 2023. The effective dates of provisions within SECURE 2.0 vary through 2026. The Employer has until December 31, 2026, to amend the Plan for the changes related to SECURE 2.0. The Plan has not been formally amended to adopt these provisions as of the date the financial statements were available to be issued.

Plan administration

The School is the administrator of the Plan and, as such, carries out the duties imposed by ERISA. The School has delegated certain responsibilities for the operation and administration of the Plan. Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF), and as agent for TIAA Trust, N.A. (collectively, the "Custodians") are responsible for the custody and management of the Plan's assets as well as for maintaining participant accounts and transactions related to participant initiated activity.

Eligibility

All employees of the School are immediately eligible to participate in the Plan, except non-resident aliens, employees covered by a collective bargaining agreement, and employees who are students enrolled in the School. Employees are eligible to receive Employer matching contributions after reaching age 21. Employees who normally work less than 20 hours per week are not eligible for Employer matching contributions or employee mandatory contributions.

Peck School Retirement Plan  
Notes to Financial Statements  
June 30, 2025 and 2024

1. DESCRIPTION OF THE PLAN (continued)

Contributions

Participants are allowed to contribute up to 100% of their eligible pre-tax compensation, as defined by the Plan, up to the annual contribution limit as defined in the IRC. Participants that have attained age 50 before the end of the calendar year are allowed to make catch-up contributions to the Plan, up to the annual contribution limit as defined in the IRC. Participants are also allowed to make rollover contributions to the Plan from other qualified retirement plans.

Eligible employees of the School, upon reaching age 26, are required to participate in mandatory contributions to the Plan of 5% of compensation, as defined by the Plan. These mandatory contributions are a term of the employee's continued employment with the School.

The School makes contributions for those participants making mandatory contributions to the Plan. The School's contribution rate is based on years of service. The School contributes for eligible participants 6% for those participants who have completed five (5) years or less of service, 8.5% for those participants who have completed six (6) but less than twelve (12) years of service, 11% for those participants who have completed twelve (12) but less than twenty (20) years of service, and 11.5% for those participants who have completed twenty (20) years or more of service.

For participants not meeting the mandatory contribution requirements, provided the participant has contributed 5% of compensation, as defined by the Plan, the School will provide a matching contribution of 6%.

Participant accounts

Each participant's account is credited with the participant's contributions, rollovers, and allocations of School contributions, if any, and investment earnings, and charged with an allocation of investment losses, if any, and administrative expenses not paid directly by the School. Participants may direct their account balances into any of the investment options offered by the Plan. Allocations of investment earnings are based strictly on the participant's selection of investments and timing of purchase. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of benefits

Distributions and withdrawals are payable to participants upon retirement, termination, attainment of age 59 ½, financial hardship, active military call-up, disability, or to a beneficiary upon a participant's death. Upon termination, if the specific contract type permits, the participant can consent to either a distribution paid in the form of a lump-sum cash payment, installment payment, annuity payment, partial payment, or a direct rollover into another qualified plan, or they may postpone payment to a later date and remain in the Plan as described in the plan documents.

Peck School Retirement Plan  
Notes to Financial Statements  
June 30, 2025 and 2024

1. DESCRIPTION OF THE PLAN (continued)

Payment of benefits (continued)

Upon attaining the age of 59 ½ the participant may, while still employed by the School, request a withdrawal from their account balance. Hardship and qualified reservist distributions are permitted under limited circumstances as defined in the plan documents.

Notes receivable from participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Notes receivable from participants (or "participant loans" or "loans") terms are generally five years or less but may exceed five years if the purpose of the loan is to purchase a principal residence. Participants may have up to three participant loans outstanding at a time. Participant loans are secured by the balance in the participant's account and accrue interest at a rate commensurate with local prevailing lending rates at loan origination. Outstanding participant loans as of June 30, 2025, have an interest rate range from 4.25% to 9.50% and mature at various dates through June 2031.

Plan loans

Plan loans, which are no longer offered by the Plan, were available to participants through TIAA, subject to certain limitations. Plan loans to participants were issued directly from assets owned by TIAA and CREF and not from participant accounts. As adequate security is required for Plan loans issued to participants, a portion of the participant's vested account is reserved, or held in collateral, to cover 110% of the outstanding loan principal in case of default. The interest rate for Plan loans to participants may be either fixed or variable and the initial rate, frequency of change and other details are determined by the terms of the respective controlling contract. For Plan loans to participants where collateral is held in a Group Supplemental Retirement Annuity contract, principal payments increase the amount of funds available for the participant's use within that contract. For other Plan loan contracts, principal repayments are transferred to either the TIAA-CREF Money Market fund or Group Retirement Annuity contract, depending on the terms of the Plan loan agreement.

For all Plan loans to participants, principal and interest are paid directly to TIAA and CREF. Plan loans to participants are not considered part of the Plan's assets, and are not included on the statements of net assets available for benefit. At June 30, 2025 and 2024, participants had outstanding Plan loan balances due to TIAA and CREF of \$342 and \$1,666, respectively.

Vesting

Participants are fully vested in all contributions and earnings thereon.

Peck School Retirement Plan  
Notes to Financial Statements  
June 30, 2025 and 2024

1. DESCRIPTION OF THE PLAN (continued)

Administrative expenses

Administrative expenses are generally paid by the School, but may, at the discretion of the plan administrator, be paid by the Plan. Transaction fees for certain participant initiated activity are charged to the specific account of the participant initiating any such transaction. The Plan is not required to reimburse the School for expenses paid on its behalf.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting and financial statement presentation

The accompanying financial statements have been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and the changes therein, and disclosures of contingent liabilities. Actual results may differ from those estimates.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risk in the near term could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

Investment valuation and income recognition

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See Note 4). Contract value represents contributions made under a contract, plus interest, less participant withdrawals and administrative expenses (See Note 5).

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Peck School Retirement Plan  
Notes to Financial Statements  
June 30, 2025 and 2024

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Contribution and contribution receivable

Contributions from participants are recorded based on the date the contributions or repayments have been separated from a participant's pay by the Employer, which is the pay date. Employer contributions, if any, are recorded in the year earned to coincide with the year in which the School records the contributions in its general ledger. The Plan records receivables for contributions based upon contributions recorded in the Plan year but received by the Plan subsequent to year end. Rollover contributions from participants are recorded based on the date the contributions are received by the Custodians.

Notes receivable from participants

Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded on an accrual basis. Delinquent notes receivable from participants are recorded as deemed distributions based upon the terms of the plan documents.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Expenses are recorded when incurred.

Subsequent events

Management of the Plan has evaluated subsequent events through February 18, 2026, the date the financial statements were available to be issued. There are no subsequent events that would have a material impact on the presentation of the Plan's financial statements.

3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS (UNAUDITED)

The plan administrator, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the Plan's investment information, and related activity, certified by the Custodians, determined to be qualified institutions by the plan administrator, as complete and accurate, except for comparing such information to corresponding information included in the Plan's financial statements and supplemental schedule of assets (held at end of year) ("supplemental schedule"). The Custodians have certified that the following investment information included in the financial statements and supplemental schedule is complete and accurate:

Peck School Retirement Plan  
Notes to Financial Statements  
June 30, 2025 and 2024

3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS (UNAUDITED)  
(continued)

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of June 30, 2025 and 2024.
- Net appreciation in fair value of investments, interest and dividends, and other income reflected on the accompanying statement of changes in net assets available for benefits for the year ended June 30, 2025; and,
- Investments and notes receivable from participants reflected on the supplemental schedule as of June 30, 2025.

Accordingly, as requested by the plan administrator, the Plan's independent auditor performed no audit procedures on the certified information other than to agree the certified information to the related information included in the financial statements and supplemental schedule.

4. FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are inactive, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis. There have been no changes in the methodologies used at June 30, 2025 and 2024.

4. FAIR VALUE MEASUREMENTS (continued)

Mutual funds and pooled separate account: The Plan's investment in mutual funds consists of investments principally in funds containing equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. The investment in a pooled separate account consists of real estate properties and real estate-related investments underlying the fund. Investments are valued using market quotations or prices obtained from independent pricing services. The mutual funds and pooled separate account held by the Plan are deemed to have a readily-determinable fair value and are classified within Level 1 of the fair value hierarchy.

CREF variable annuities: The fair values of accumulation units held by the Plan in CREF Accounts are primarily valued using market quotations or prices obtained from independent pricing sources. CREF accounts are deemed actively traded and therefore are classified within Level 1 of the fair value hierarchy. Data for values are available daily to Plan administrators and client investors on TIAA's website, and provide sufficient corroborative evidence to ascertain the relationship between each fund's value and the values of individual underlying holdings. Underlying holdings include mutual funds, and are primarily valued using market quotations or prices obtained from independent pricing sources. There are no unfunded commitments, and these investments may be redeemed at any time.

TIAA Access Accounts - The fair values of subaccount units held by the Plan in TIAA Access Accounts are calculated daily by the issuer and the underlying investments are generally valued using market quotations obtained from independent pricing sources. Data for values are available daily to Plan administrators and client investors on TIAA's website, and provide sufficient corroborative evidence to ascertain the relationship between each fund's value and the values of individual underlying holdings and thus are classified within Level 1 of the fair value hierarchy.

TIAA traditional annuity: The Plan's investment in the TIAA Traditional Annuity sub-contracts are reported by TIAA at contract value, which approximates fair value, and are segregated into non-fully benefit-responsive and fully benefit-responsive investment contracts. The non-fully benefit-responsive contracts are presented at fair value on the face of the Plan's financial statements while the fully benefit-responsive contracts are presented at contract value on the face of the Plan's financial statements. The fully benefit-responsive guaranteed investment contracts are not categorized within the fair value hierarchy. See Note 5.

The Plan's Level 3 investments comprise units of ownership in non-fully benefit-responsive fixed annuity contracts. As these investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract.

For the year ended June 30, 2025, purchases of Level 3 investments totaled \$409,080, sales of Level 3 investments totaled \$381,264, and transfers into and out of Level 3 investments totaled \$281,447 and \$93,650, respectively.

The following table presents information about significant unobservable inputs related to the Plan's investment in assets categorized as Level 3 in the fair value hierarchy at June 30, 2024:

5. GUARANTEED ANNUITY CONTRACTS WITH CUSTODIANS

The following table sets forth a summary of the investment contracts held by the Plan at June 30:

	2025	2024
TIAA Traditional Non Benefit-Responsive Annuity (RA)	\$ 7,012,979	\$ 7,073,679
TIAA Traditional Non Benefit-Responsive 2 Annuity (RC)	1,548,913	1,272,600
TIAA Traditional Benefit-Responsive Annuity (SRA and GSRA)	1,921,975	2,056,444
TIAA Traditional Benefit-Responsive 2 Annuity (RCP)	<u>59,577</u>	<u>21,881</u>
	<u>\$ 10,543,444</u>	<u>\$ 10,424,604</u>

Each contract is fully and unconditionally guaranteed by TIAA. The TIAA fully benefit-responsive (BR) and TIAA non-fully benefit-responsive (NBR) contracts are offered through a variety of contracts including the Supplemental Retirement Annuity (SRA), Group Supplemental Retirement Annuity (GSRA), Retirement Annuity (RA), Retirement Choice Plus (RCP) and Retirement Choice Annuity (RC) contracts. The SRA, GSRA, and RCP contracts are fully benefit-responsive investment contracts and the RA and RC contracts are non-fully benefit-responsive investment contracts.

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed investment contract. Investment contracts that are non-fully benefit-responsive are presented at fair value (Note 4). Contract value represents accumulated cash contributions made under the contract, plus interest credited to the contracts, less participant withdrawals, expenses, and transfers. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value, although there are restrictions to how the money is withdrawn, and there are surrender charges that are applicable. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Notes to Financial Statements  
June 30, 2025 and 2024

5. GUARANTEED ANNUITY CONTRACTS WITH CUSTODIANS (continued)

The SRA and GSRA contracts provide a guarantee of principal and a guaranteed minimum interest rate of 3%. The SRA and GSRA contracts allow lump-sum withdrawals and transfers without any restrictions or additional charges. The RCP contract provides a guarantee of principal and a guaranteed rate of interest between 1% and 3%. All investment contracts held by the Plan also offer the opportunity for additional interest to be earned in excess of the guaranteed rate. When declared, additional amounts of interest remain in effect for a 12-month period beginning March 1 and are not guaranteed for future years. There are no reserves against contract value resulting from credit risk associated with the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at the fully benefit-responsive contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan's trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants or with TIAA are probable of occurring.

The contracts above do not permit TIAA to terminate the agreement prior to the scheduled maturity date.

6. TAX STATUS

The Plan adopted the TIAA Volume Submitter 403(b) Plan ("volume submitter plan"). The IRS has issued an opinion letter dated August 7, 2017, stating that the volume submitter plan is designed in accordance with the applicable sections of the IRC and is appropriate for use by employers for the benefit of their employees. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Peck School Retirement Plan  
Notes to Financial Statements  
June 30, 2025 and 2024

8. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

ERISA defines a party-in-interest similarly to the definition of a related party in accounting standards, except that ERISA's definition is broader and includes all entities and individuals that provide services to the Plan; however, these entities may not necessarily be related parties. Management did not identify any related parties to the Plan that were not also considered to be parties-in-interest.

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, and an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association or relatives of such persons.

Certain Plan investments are managed by the Custodians of the Plan, or their affiliates. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

The Plan has a revenue sharing agreement with TIAA and CREF which allows TIAA and CREF to be compensated by sharing, on a periodic basis, in the revenue derived from certain nonproprietary mutual funds offered as investment options to participants in the Plan. Excess revenue credits, if any, are deposited into the Plan's Revenue Credit suspense account (RCA) and are classified as Plan servicing credit within other income on the statement of changes in net assets available for benefits which may be used to pay direct, reasonable, and necessary expenses of the Plan as defined by ERISA.
