## INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees and Retirement Plan Committee  
Carle Profit Sharing Plan  
Urbana, Illinois

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Carle Profit Sharing Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Carle Profit Sharing Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution, Charles Schwab Trust Bank, as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of Carle Profit Sharing Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Carle Profit Sharing Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audits of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Carle Profit Sharing Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Carle Profit Sharing Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

## Supplemental Schedule Required by ERISA

The supplemental schedule (Schedule 1) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

CARLE PROFIT SHARING PLAN  
Notes to Financial Statements  
December 31, 2024

**1. Plan Description**

The following description of the Carle Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

*General* – The Plan is a defined contribution plan covering all employees of Carle Holding Company, Inc. and its subsidiaries (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

*Subsequent Plan Amendments* – The Plan was amended effective January 1, 2025 to amend certain aspects of distributions upon death, applicable age definitions, hardship and certain other distribution rules, loan administration, minimum distribution requirements, and to amend Qualified Replacement Plan profit sharing eligibility to include all Plan participants not just those who had participated in the Carle Defined Benefit Pension Plan.

*Contributions* – Participants may elect to reduce their salary and have that amount contributed to the Plan. The elective deferred amount may not be more than the lesser of: (a) 95 percent of their covered compensation (compensation), (b) the maximum dollar limit allowed under the requirements of the Internal Revenue Code, or (c) such lesser amount as determined by the discrimination tests for the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may choose to begin or change elective deferral contributions at their discretion. New employees are automatically enrolled with a 3 percent compensation deferral after 30 days of employment unless they opt out. The Plan contains an automatic-escalation feature for those employees who are automatically enrolled for at least one year. Escalation will occur each July 1 and continue annually at 1 percent until the employee reaches 6 percent or when the employee opts out of automatic enrollment. Participants can also set up their own auto-escalation terms to be effective July 1 of each year. Participants are permitted to make rollover contributions from other qualified plans.

The Company may make discretionary matching contributions of the employees' salary deferral at a percentage determined by the Company, which was three percent for 2024. Contributions are subject to certain limitations. To be eligible to receive Company matching contributions, the employee must be age 21 or older and have completed one year of service. A year of service is defined as at least 500 hours of service in a 12-month period. The initial measurement period begins on the participant's hire date, with subsequent measurement periods beginning on every January 1 following the hire date. Contributions start on the next January 1 or July 1 following eligibility.

The Company may also make a discretionary annual profit-sharing contribution at a percentage of eligible compensation determined by the Company, which was four percent for 2024. To be eligible to receive Company profit sharing contributions, the employee must be age 21 or older and have completed two years of service. A year of service is defined as at least 500 hours of service in a 12-month period. The initial measurement period begins on the participant's hire date, with subsequent measurement periods beginning on every January 1 following the hire date. Additionally, when applicable, the Company makes a 2 percent contribution to eligible participants on eligible compensation in excess of the Social Security wage base up to the Internal Revenue Code compensation limit. The employee must be employed by the Company on the last day of the plan year to receive these contributions, with the exception of employees age 62 or over or those terminated due to a disability.

In 2021, following the Company's decision to terminate its U.S. defined benefit pension plan, the Carle Defined Benefit Pension Plan (U.S. Pension Plan), the Company had excess assets in its U.S. Pension Plan of approximately \$22,156,000, which was transferred into the Plan. Plan management identified the Plan as meeting the requirements of a qualified replacement plan under Section 4980(d)(2) of the Internal Revenue Code. The Company elected to utilize the remaining surplus for future discretionary annual profit-sharing contributions under the Plan. All eligible participants of the Plan, and eligible participants of the Carle Foundation Hospital and Affiliates Matching TSA Plan (403(b) Plan), an affiliated plan, who were participants in the U.S. Pension Plan as of the effective of that plan's termination will receive their discretionary profit-sharing contributions from this surplus until depleted. Accordingly, applicable 403(b) Plan participants became participants in the Plan solely for the purpose of receiving these contributions and are not eligible to otherwise participate in the Plan. 403(b) Plan participants receiving their annual contributions in the Plan in any plan year are not eligible to receive annual contributions in the 403(b) Plan. For the years ending December 31, 2024 and 2023, \$4,343,443 and \$2,108,768, respectively, of the surplus was used for discretionary annual contributions. After accounting for net investment income, the remaining surplus at December 31, 2024 and 2023 of \$5,070,673 and \$8,344,564, respectively, is included in unallocated investments, at fair value on Exhibit A and will be used for future discretionary annual profit sharing contributions as described above.

*Participant Accounts* – Each eligible participant's account is credited with the participant's elective contributions, if any, and allocations of (a) the Company's contributions, (b) plan earnings (losses), and (c) charged with an allocation of applicable administrative expenses. Allocations are based on participants' earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

*Vesting* – Participants are immediately vested in all contributions plus applicable earnings thereon.

*Payment of Benefits* – Upon retirement, termination of service, attaining age 59½, incurring a hardship, or becoming disabled, a participant may elect to receive a distribution in the form of a single lump sum payment. Participants may withdraw from their rollover account at any time. If the participant retires or terminates from service and has an account balance of \$5,000 or greater,

the participant may choose to defer payment until a later date not to exceed April 1 following the year the participant reaches age 72. For balances less than \$5,000, if the participant does not make an election otherwise, their account balance will be paid in a direct rollover to an individual retirement plan.

*Notes Receivable from Participants* – The plan administrator may authorize a loan from a participant's account. Loans are made with a minimum amount of \$1,000 and a maximum amount of 50 percent of the account balance, not to exceed \$50,000, subject to additional plan restrictions. Each loan is secured by the respective participant's remaining account balance and bears interest at the prime interest borrowing rate, plus 1 percent, established at the date of the loan as provided by provisions of the Plan. Interest rates at December 31, 2024 range from 4.25 percent to 9.50 percent. The maximum maturities for a general purpose loan and a residential loan is 5 and 10 years, respectively. Loans in default are deemed early distributions and are treated as benefits paid to participants in the accompanying statement of changes in net assets available for benefits. Notes receivable from participants are measured at unpaid principal plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

## **2. Summary of Significant Accounting Policies**

*Basis of Accounting* – The financial statements of the Plan are prepared on the accrual basis of accounting.

*Use of Estimates* – The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

*Investment Valuation and Income Recognition* – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction among market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

*Payment of Benefits* – Benefits are recorded when paid for financial statement purposes.

*Investment and Administrative Expenses* – Certain administrative functions applicable to the Plan are performed by employees of the Company. No such employees receive compensation from the Plan. Administrative expenses may be paid by the Company or the Plan, at the Company's discretion as allowed by the plan document. Expenses paid directly by the Company are excluded from these financial statements.

### 3. Information Certified by Charles Schwab Trust Bank, the Investment Custodian

Certain information, as noted below, related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Charles Schwab Trust Bank.

### 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10 establishes a framework for measuring fair value under generally accepted accounting principles. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

- Level 1    Inputs to the valuation methodology are based on unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2    Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets
  - Quoted prices for identical or similar assets or liabilities in inactive markets
  - Inputs other than quoted prices that are observable for the asset or liability

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2024.

The following is a description of the valuation methodologies used for assets measured at fair value:

- *Mutual Funds*: Valued at quoted market prices, which represent net asset value (NAV) of shares held by the Plan at year end.
- *Self-Directed Brokerage Accounts*: Accounts consist of mutual funds, unit investment trusts, a money market fund, cash, and common stocks that are valued at the closing price reported on the active market on which the individual securities are traded.
- *Money Market Fund*: Valued at the total of the invested deposit plus earnings thereon, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 289,863,786	\$ -	\$ -	\$ 289,863,786

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2023:

	Level 1	Level 2	Level 3	Total

## 5. Administrative Expenses and Party-in-Interest Transactions

A transaction with a plan service provider or a participant of the Plan qualifies as a party-in-interest transaction. Service provider fees are paid either directly or indirectly to service providers. Of these fees, \$283,272 is included in administrative expenses on Exhibit B. Other investment fees are netted with investment earnings. Expenses incurred in the administration of the Plan were also paid by the plan sponsor.

Additionally, certain plan investments are both held and managed by the investment custodian.

Notes receivable from participants are considered to be both party-in-interest and related-party transactions.

## 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

## 7. Tax Status

The pre-approved plan, on which the Plan is designed, obtained its latest opinion letter on October 6, 2022, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving this determination letter, the plan administrator and the pre-approved plan provider believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America (U.S. GAAP) requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**8. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

**9. Subsequent Events**

The Plan has evaluated subsequent events through January 28, 2026, the date on which the financial statements were available to be issued.

The Plan changed investment custodian from Charles Schwab Trust Bank to Fidelity Investments and all assets held by the Plan at that time were transferred to Fidelity on January 30, 2025, with the blackout period starting December 31, 2024.
