(1) Name: **BAKER TILLY US, LLP**

(2) EIN: **30-1413443**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		1000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X

Report of Independent Auditors

The Trustees
Geil Enterprises, Inc. Employee Stock Ownership Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Geil Enterprises, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of June 30, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended June 30, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Geil Enterprises, Inc. Employee Stock Ownership Plan as of June 30, 2025 and 2024, and the changes in its net assets available for benefits for the year ended June 30, 2025, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Geil Enterprises, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Geil Enterprises, Inc. Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Geil Enterprises, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Geil Enterprises, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Geil Enterprises, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following description of the Geil Enterprises, Inc. Employee Stock Ownership Plan (the Plan), provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of the Plan's provisions.

General – Geil Enterprises, Inc. (the Company) established the Plan effective as of July 1, 2006. The Plan operates as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC). The Plan is also subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by a committee comprising of individuals appointed by the Company's Board of Directors. The trustees of the Plan consist of owners and employees of the Company.

The Plan purchased 1,000,000 shares of common stock of the Company using proceeds from a loan with the Company and holds the stock in a trust established under the Plan. The borrowing, which was fully repaid during the year ended June 30, 2016, was repaid over a period of eight years by fully deductible Company contributions to the trust fund and was guaranteed by the Company.

Eligibility – Employees of the Company are eligible to participate in the Plan upon reaching age 21 and after completing one year of service in which at least 1,000 hours are worked. An eligible employee may become a participant in the Plan on the June 30th or December 31st following completion of eligibility requirements. Participants must be employed as of the last day of the plan year, to be eligible to receive any employer paid contributions.

Contributions – The Company may make discretionary contributions in such amounts as may be determined by the Company's Board of Directors. For the year ended June 30, 2025, the Company made a discretionary contribution to the Plan amounting to \$1,181,130, which was paid into the Plan in cash subsequent to June 30, 2025. Employee contributions are not permitted.

Contributions are subject to regulatory limitations.

Participant accounts – The Plan is a defined contribution plan under which a separate individual account is established for each participant. Within each individual account, a "company stock account" and "other investments account" shall be maintained for each participant. The company stock account maintained for each participant will be credited annually with the participant's allocable share of Company stock (including fractional shares) purchased and paid for by the Plan or contributed in-kind to the Plan as an employer contribution, with the participant's allocable shares of any forfeitures from Company stock accounts, and with any allocable stock dividends on Company stock. The other investments account will be credited annually with the participant's allocable share of employer contributions that are not in the form of Company stock, with the participant's allocable share of any forfeitures from other investments accounts, and with any allocable cash dividends on Company stock.

Following a participant's termination of service for any reason, their accounts may not remain invested in Company common stock, but instead may be invested in trust assets other than stock; provided the trustees determine the Trust has cash sufficient to convert the stock to other investments, and provided that such conversion is performed on a nondiscriminatory basis. Stock value for the conversion to cash will be determined to be the Company common stock value at the nearest valuation date to the participant's date of termination.

Geil Enterprises, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Vesting – If a participant’s employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. After two years of service, participants vest 20% per year, and are 100% vested after completing six years of service.

Voting rights – Other than mentioned below, all shares of Company common stock shall be voted by the trustees in such a manner as the trustees determine. Each participant, or beneficiary, is entitled to exercise voting rights attributable to the shares allocated to his or her account as it relates to corporate matters that involve the voting of such shares at a shareholders’ meeting which constitutes a merger, consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or a similar transaction specified in regulations under Section 409(e)(3) of the IRC. Any allocated shares of Company common stock with respect to which voting instructions are not received from participants, or beneficiaries, and any shares which have not been allocated to participants, shall be voted in the manner determined by the trustees.

Put option – Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buys any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Payment of benefits – Distributions on account of death, disability, or retirement will begin in the plan year subsequent to the plan year the participant terminated. Distributions for other separations from service commence in the sixth plan year following the plan year when the separation occurred. The amount to be distributed is based upon the fair value of the Company common stock (and the fair value of any assets within the “other investments account”), immediately preceding the distribution date. Distribution requests received within 60 days of notification of eligibility for distribution will be based on the fair value of the Company common stock determined as of the last day of the preceding plan year. Requests received after this deadline will be postponed until the value of the Company common stock has been updated.

Distributions will be made in cash, per the Plan’s benefit distribution policy. Both lump-sum and installment distributions are permitted under the terms of the Plan.

Diversification – Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. A participant who has attained age 55 and completed at least 10 years of service may elect to diversify a portion of the balance in his/her “company stock account.” Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his/her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Geil Enterprises, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Forfeitures – Forfeitures shall first be charged against a participant's "other investments account," with any balance charged against the participant's "company stock account" (at fair value). Financed shares shall be forfeited only after other shares of Company common stock have been forfeited. All forfeitures will be reallocated to the accounts of remaining participants during the plan year in which the forfeiture occurs. Allocations are based on compensation. During the year ended June 30, 2025, forfeitures of cash and shares amounting to approximately \$49,727 and 8,259, respectively, were allocated to participants.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that may affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and appreciation of those investments.

Employer contributions receivable – Employer contributions are reported net of an allowance for credit loss. There was no allowance for credit loss at June 30, 2025, as all contributions were received in full after the end of the plan year.

Payment of benefits – Benefits are recorded when paid.

Expenses – As provided in the Plan Agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date, but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits, but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through February 10, 2026, which is the date the financial statements were available to be issued.

Geil Enterprises, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Note 3 – Investments

The Plan's investments in Company common stock at June 30 are as follows:

	2025	2024
Number of shares	1,000,000	1,000,000
Cost	\$ 5,000,000	\$ 5,000,000
Fair value	\$ 14,920,000	\$ 13,230,000

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation method used for assets measured at fair value. There have been no changes in the method used at June 30, 2025 and 2024.

Mutual funds – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

Geil Enterprises, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Geil Enterprises, Inc. common stock – The Company common stock held by the Plan is reported at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
Geil Enterprises, Inc. common stock	\$ 14,920,000	Income	<ul style="list-style-type: none"> · EBITDA · Net income · Weighted average cost of capital · Long-term revenue growth rate · Long-term pretax operating margin · Discount rate · Discount for lack of marketability
		Market	<ul style="list-style-type: none"> · Revenue multiple · EBITDA multiple · Discount for lack of marketability

The valuation method used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2025 and 2024:

	Fair Value Measurement at June 30, 2025			
	Level 1	Level 2	Level 3	Total

Geil Enterprises, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended June 30, 2025:

	Level 3
Investment in common stock of Geil Enterprises, Inc.	
Balance, beginning of year	\$ 13,230,000
Unrealized appreciation in estimated fair value	1,690,000
Balance, end of year	14,920,000
The amount of total gains (losses) for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	
	\$ 1,690,000

Unrealized gains included in changes in net assets for the year above are reported in net unrealized appreciation in the fair value of investments in the statement of changes in net assets available for benefits.

Note 5 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated October 31, 2013, that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended and restated since receiving the determination letter, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash and cash equivalents and contributions receivable. Cash and cash equivalents are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. At times, the balance of cash and cash equivalents may be in excess of federally insured limits.

Notes to Financial Statements

Note 7 – Related-Party and Party-in-Interest Transactions

The Plan invests in Company common stock, which is a related-party and party-in-interest transaction. As described in Note 1, the Company has historically paid the operating expenses for the Plan. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time, subject to the provisions of ERISA. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

Note 9 – Reclassification

The form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.
