## **Report of Independent Auditors**

The ESOP Administrative Committee of  
StoneAge, Inc. Employee Stock Ownership Plan

### **Report on the Audit of the Financial Statements**

#### ***Opinion***

We have audited the financial statements of StoneAge, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of StoneAge, Inc. Employee Stock Ownership Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America (GAAP).

#### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of StoneAge, Inc. Employee Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about StoneAge, Inc. Employee Ownership Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of StoneAge, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about StoneAge, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplemental Schedule Required by ERISA***

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Schedule H, line 4(i) – Schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

***Other Matter***

*Auditor's Report on the 2023 Financial Statements*

The 2023 financial statements of StoneAge, Inc. Employee Ownership Plan were audited by predecessor auditors whose report dated February 6, 2025, expressed an unmodified opinion on those financial statements.

**Note 1 – Description of Plan**

The following description of the StoneAge, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement, as amended, for a more complete description of the Plan's provisions.

**General** – StoneAge, Inc. established the Plan effective January 1, 2015 for substantially all employees of StoneAge, Inc. During 2022, a new entity, StoneAge Holdings, Inc. (the Company), was formed as the parent company of StoneAge, Inc. The Company is the Plan's sponsor and serves as plan administrator.

The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the ESOP Administrative Committee of the Plan comprised of members of the Company's management as appointed by the Board of Directors of the Company. Neil M. Brozen, an independent fiduciary, serves as the trustee of the Plan.

During 2015, the Plan purchased 56,448 shares of common stock from StoneAge Inc. shareholders for \$10,042,099 and holds the shares in a trust established under the Plan. The purchase price was based on an appraisal of the shares by a third-party appraiser. The shares were exchanged for shares of StoneAge Holdings, Inc. as part of the ownership change during 2022. In connection with the purchase, the Plan issued a note payable to the Company for \$10,042,099. The note was assigned to StoneAge Holdings, Inc. as part of the ownership change during 2022.

During 2022, the Plan purchased 64,500 shares of StoneAge Holdings, Inc. common stock from the Company's stockholders for an adjusted price of \$18,940,390 and holds the stock in a trust established under the Plan. The purchase price was based on an appraisal of the shares by a third-party appraiser. At the same time, the Company assumed the obligation for the seller note in exchange for an internal loan with the Plan.

Borrowings are collateralized by the unallocated shares of stock. The Company has no rights against the shares once they are allocated to eligible participants. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated stock (allocated) and stock not yet allocated to employees (unallocated).

**Eligibility** – Employees of StoneAge, Inc. are eligible to participate in the Plan after attaining 18 years of age and completing one year of eligible service of 1,000 hours. Employees become participants as of the earlier of the first day of the Plan year or the first day of the seventh month of such Plan year next following the date the employee meets the eligibility requirements.

---

**Contributions** – The Company makes contributions to the Plan as determined by the Company’s Board of Directors. The Company makes contributions at least in the amount which, when combined with dividends that may lawfully be used to make payments on the acquisition loan, are sufficient to meet the Plan’s obligations on all outstanding acquisition loans. The contributions are payable in cash, in shares of the Company’s stock, or a combination thereof. Participants receive allocated contributions if they have met the 1,000 hours of service requirement during the year and if they are employed by the Company on the last day of the plan year. However, employment with the Company is not required on the last day of the plan year if termination is due to retirement, disability or death. The Company has committed to a good faith effort to fund the Benefit Level Commitment annually to at least 12% per year, for the plan years ending December 31, 2022 through 2027. Employee contributions are not permitted. For the year ended December 31, 2024, cash contributions totaled \$1,613,188 and stock contributions totaled 3,844 shares of Company stock with a value totaling \$1,161,042.

**Participant accounts** – The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant’s account is credited with an allocation of shares of Company common stock released from the unallocated account and forfeitures of terminated participants’ non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year receive an allocation. Allocations are based on a participant’s eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant’s account based on the ratio of the participant’s account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

**Vesting** – If a participant’s employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participant accounts vest according to the following schedule:

<u>Credited Years of Service</u>	<u>Percentage Vested</u>
Less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

**Payment of benefits** – Upon a participant’s retirement, death, permanent disability or termination of employment with the Company, the ESOP Administrative Committee will direct the trustee to distribute the value of the vested interest in the participant’s account, subject to the participant consent requirements as stated in the Plan. Normal retirement is deemed to occur on the later of the participant’s 65th birthday or the date on which he or she has been a participant for five years.

**Forfeitures** – The unvested part of a terminated participant’s account balance is forfeited. Plan forfeitures are allocated to each participant’s account pro-rata to eligible compensation. A participant must have 1,000 hours of service in the plan year and must have been employed on the last day of the plan year to receive an allocation of forfeitures.

**Diversification** – Diversification is offered to participants close to retirement for the opportunity to move part of the value of their investment in Company stock into cash equivalents. Participants who were at least age 55 with at least ten years of participation in the Plan may elect during each of the participant's qualified election periods to diversify up to 25% (50% in the case of the Participant's last qualified election period) of the participant's ESOP Stock Account balance eligible for diversification. In addition, during the year ended December 31, 2024, the Plan included a mandatory diversification for participants who reached age 60 with at least five years of service as a participant, which requires participants to diversify the applicable percentage, as defined within the Plan document, ranging from 20% in the first year to 100% in the fifth year.

Any distributions of Company stock to participants for diversification distributions are required to be immediately repurchased (redeemed) by the Plan at fair market value (FMV) as of the last valuation date prior to distributions, if the Company maintains its S corporation tax status. However, the Plan can choose to make diversification distributions in cash, in lieu of Company stock.

**Voting rights** – Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee shall vote, as directed by the Plan Administrator, subject to the trustee's fiduciary duties under ERISA: (i) any unallocated shares; (ii) any allocated shares as to which no voting instructions have been received; and (iii) all shares held in the trust on any issue not subject to participant voting rights.

**Put option** – Under federal income tax regulations, Company stock that is held by the Plan and its participants, and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market, at its fair value as of the last day of the preceding Plan year, as determined by an independent appraiser. The Company can elect to pay for the purchase with a promissory note not to exceed five years, with interest payable at a reasonable rate.

**Price protection policy** – The Company has implemented a price protection policy to mitigate the impact of the 2022 shares sold and associated debt (2022 Transaction) on the value of shares of Company common stock allocated to ESOP participants' accounts as of December 30, 2022 (Protected Shares). This policy aims to reduce the effect of leverage from the 2022 Transaction on the value of these shares.

The policy applies to distributions from the ESOP during the price protection period (2022-2024) for participants who separate from service due to death, total and permanent disability, or normal retirement age, or who are eligible for diversification rights under the ESOP Plan (Protected Distributions). The Company will provide a price protection payment to participants receiving distributions of Protected Shares, calculated as the difference between the FMV of the Protected Shares, adjusted to exclude transaction-related indebtedness, and the FMV of the shares at the end of the plan year preceding the distribution. The floor price at December 31, 2024 and 2023 was calculated at \$302.28 and \$305.56, respectively.

## **Note 2 – Summary of Significant Accounting Policies**

**Basis of accounting** – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

**StoneAge, Inc.**  
**Employee Stock Ownership Plan**

---

**Use of estimates** – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Investment valuation** – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (the “exit price”) in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

**Allocations** – The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

**Income recognition** – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net depreciation or appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

**Payment of benefits** – Benefits are recorded when paid.

**Administrative expenses** – Administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan. Expenses that are paid by the Company are excluded from these financial statements.

**Subsequent events** – The Plan has evaluated subsequent events through March 3, 2026, which is the date the financial statements were available to be issued.

**Note 3 – Tax Status**

The Internal Revenue Service determined and informed the Company by a letter dated May 19, 2017, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator evaluated the Plan’s tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Fair market value	\$ 11,664,764	\$ 27,606,180	\$ 39,270,944

**Note 5 – Fair Value Measurements**

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

**Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access.

**Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table discloses by level the fair value hierarchy as of December 31:

	Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
StoneAge Holdings, Inc. common stock	\$ -	\$ -	\$ 38,573,095	\$ 38,573,095
	Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
StoneAge Holdings, Inc. common stock	\$ -	\$ -	\$ 39,270,944	\$ 39,270,944

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2023 and 2024.

*Company common stock* - The fair market value of the Company common stock held by the Plan is valued based upon an independent appraisal. This appraisal used the Income-Based Approach Discounted Cash Flow Method and Market Approach Guideline Public Companies. The appraiser took into account historical and projected cash flow and net income, market-comparable valuations, and the estimated fair value of certain nonoperating Company assets and excess working capital.

The preceding method described may produce a fair market value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair market value of certain financial instruments could result in a different fair market value measurement at the reporting date.

The following table sets forth the basic valuation techniques and inputs used in arriving at fair value as of December 31, 2024 and 2023:

Instrument	Valuation Techniques	Unobservable Input
StoneAge Holdings, Inc. common stock	Income and market	Weighted-average cost of capital Projected EBITDA margin Discount rate

**Note 6 – Note Payable**

In January 2015, the Plan entered into a \$10,042,099 loan agreement with the Company. The proceeds of the loan were used to purchase the Company's stock. The agreement provided for the loan to be repaid through annual required principal payments, plus interest at 4.5%, with the balance payable in full on December 31, 2029. On January 1, 2023, the agreement was amended to reduce the interest rate to 3.84%, and to extend the annual repayments through December 31, 2097. As of December 31, 2024 and 2023, the loan balance totaled \$5,278,867 and \$5,292,189, respectively.

On December 31, 2022, the ESOP purchased 64,500 shares of the Company's common stock for \$18,688,552. The acquisition of common stock by the ESOP was financed by a nonrecourse promissory note bearing interest at 4.34% per annum (the 2022 ESOP Note). The 2022 ESOP Note is being amortized over a 75-year period, requiring annual principal and interest payments of \$857,965 with the balance payable in full on December 31, 2097. The note also contains a working capital adjustment provision, and the principal amount of the note was increased by \$251,838 as a result, resulting in a net purchase price of \$18,940,390. As of December 31, 2024 and 2023, the loan balance totaled \$18,869,174 and \$18,904,438, respectively.

Unallocated shares are collateral for the loans.

The future annual principal payments, are as follows for the years ending December 31:

2025	\$ 52,877
2026	55,102
2027	57,421
2028	57,610
2029	62,262
Thereafter	<u>23,862,769</u>
	<u>\$ 24,148,041</u>

**Note 7 – Related Party and Party-in-Interest Transactions**

The Plan invests in Company common stock and has a note payable agreement with the Company. These are related- party and party-in-interest transactions. The Plan also has a trust and a number of service providers, which are parties-in-interest under ERISA.

**Note 8 – Risks and Uncertainties**

The Plan invests in Company stock, which is subject to fluctuations in value depending upon financial performance of the Company and market conditions and is therefore exposed to various risks such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the statements of net assets available for benefits.
