Administrative Committee

Alexander & Alexander Services Inc. Post-Retirement Death Benefit Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Alexander & Alexander Services Inc. Post-Retirement Death Benefit Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Post-Retirement Death Benefit Plan

Notes to Financial Statements

December 31, 2022

1. Significant Accounting Policies

Basis of Presentation

The accounting records of the Alexander & Alexander Services Inc. Post-Retirement Death Benefit Plan (the “Plan”) are prepared on the accrual basis in accordance with United States generally accepted accounting principles (“U.S. GAAP”).

Investment Valuation

Investments in the Alexander & Alexander Services Inc. 501(c)(9) Master Trust (the “Master Trust”) are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 “Fair Value Measurements” for further discussion and disclosures related to fair value measurements. Investment transactions are recorded on the trade date, and interest income is recorded on the accrual basis. Dividends are recorded on the accrual basis as of the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold, as well as held, during the year.

Other Receivables

Other receivables include refunds of estimated taxes paid in excess of taxes due for the 2018, 2020, and 2021 tax filings.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Payment of Claims and Premiums

Claim payments are recorded when paid by the third-party claims administrator. Amounts due to the claims administrator for claims that have been paid but not yet reimbursed by the Plan are recorded as payable to claims administrator in the accompanying statements of net assets available for benefits.

Certain premiums and claims are paid from the general assets of the Company; however, all premiums and claims are recorded in the accompanying statement of changes in net assets available for benefits, regardless of whether they were paid from plan assets or from the general assets of the Company.

2. Description of Plan

General and Contributions

The Administrative Committee of Aon (the “Committee”) was delegated the authority to amend the Post Retirement Death Benefit Plan for Employees of Alexander & Alexander Services Inc. and Subsidiaries (the “Post-Retirement Benefit Plan”) and the Alexander & Alexander Survivor Income Benefit Continuation Plan (the “SIBC Plan”). Effective December 1, 2019, the Committee approved and ratified that the SIBC Plan shall be merged into and become a sub-plan of the Post-Retirement Benefit Plan with the resulting surviving plan, as merged, being named the Alexander & Alexander Services Inc. Post-Retirement Death Benefit Plan (the “Plan”). Effective January 15, 1997, Alexander & Alexander Services, Inc. was acquired by Aon plc (the “Company”).

The Post-Retirement Benefit Plan refers to a fully insured noncontributory health and welfare plan established to provide life insurance benefits for eligible employees who retired between the ages of 55 and 65 with ten years of service and maintained continuous enrollment in Alexander & Alexander Services Inc. and its participating subsidiaries’ Basic, Supplemental or Optional Group Life Insurance Plans. Effective January 1, 1998, the Post-Retirement Benefit Plan was amended and frozen. The Post-Retirement Benefit Plan is closed to new participation. The SIBC Plan refers to a non-contributory non-insured

supplemental benefit plan, which was established as an adjunct plan to an insured survivor income benefit plan for eligible spouses of Alexander & Alexander employees who had coverage under certain Aetna basic group life insurance policies. The SIBC provides a supplemental survivor income benefit in the form of monthly benefit payments to the employee's spouse. The SIBC Plan is closed to new participation. All participants are surviving spouses of former employees, with no additional benefits to be earned going forward.

The Plan is funded by the Master Trust, which is subject to the provisions of the Employee Retirement Income Security Act ("ERISA") of 1974, as amended, and is intended to constitute a Voluntary Employees' Beneficiary Association ("VEBA"). The Trust was funded by contributions from Alexander & Alexander Services Inc. in amounts sufficient to pay for benefits and premiums for benefits and administrative expenses of the Plan. The assets of the Plan are invested and used to pay future payments for the remaining participants and pay administrative expenses of the Plan. Participants should refer to the plan agreement for a more comprehensive description of the Plan's provisions.

Benefit Payments

The amount of life insurance coverage under the Post-Retirement Benefit Plan is dependent upon an employee's retirement date, age at death, and basic annual earnings, as defined. The maximum benefit payable is \$150,000 for employees retiring after June 1, 1977, but prior to January 1, 1979. Beneficiaries of employees retiring on or after January 1, 1979, and before August 1, 1995, may receive up to \$100,000 reduced by any postretirement death benefit provided by any other employer for whom the employee worked subsequent to retirement from the Company. Postretirement death benefits under the Post-Retirement Benefit Plan were discontinued for retirements on or after August 1, 1995. The discontinuance of future postretirement death benefits will not affect the rights of any participant qualified to receive benefits as of July 31, 1995.

The monthly benefit payable under the SIBC Plan commenced to the employee's spouse on the first of the month following the lapse of 120 months from the date of the employee's death, in an amount determined under the terms of the applicable group life insurance policy. For each month after the spouse's attainment of age 62, the benefit amount is reduced by the spouse's Social Security benefit. Payments continue until the spouse remarries or, if unmarried, the month in which the spouse dies.

Contributions

The Company may make contributions to the Plan for premium and benefit payments.

Administrative Expenses

Substantially all expenses incurred in connection with the administration of the Plan are paid by the Plan, except to the extent that the Company, at its discretion, may decide to pay such expenses.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to modify the benefits provided to retired employees, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan, the net assets remaining in the Trust would be used to pay outstanding claims incurred prior to termination.

3. Master Trust

The Plan invests through the Master Trust. The Master Trust invests the assets of two participating benefit plans (including the Plan) of the Company. The custodian of the investments, Northern Trust Company (the "Trustee"), buys or sells such investments. The Company makes contributions under the terms of the two participating benefit plans, which have an undivided interest in the Master Trust. Benefit payments are specifically identified for each plan. Contributions, administrative expenses, and net gains and losses from the Master Trust are allocated monthly to individual plans based on the Plan's ownership percentage. Ownership percentage is calculated based upon the month-to-date, daily weighted-average market value of each plan.

Certain information related to investments for the Plan and the Master Trust disclosed in the accompanying financial statements, including investments held at December 31, 2022 and 2021, and net appreciation (depreciation) in fair value of investments and interest and dividends for the year ended December 31, 2022, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

The following table presents the net assets of the Master Trust and the Plan's interest in the Master Trust as of December 31, 2022:

	December 31, 2022	
	Master Trust Balances	Plan's Interest in Master Trust Balances
Mutual fund	\$ 5,541,814	\$ 5,376,150
Exchange-traded fund	2,214,030	2,147,845
Total investments at fair value	7,755,844	7,523,994
Accrued interest receivable	16,770	16,269
Total net assets	\$ 7,772,614	\$ 7,540,263

The following table presents the net assets of the Master Trust and the Plan's interest in the Master Trust as of December 31, 2021:

	December 31, 2021	
	Master Trust Balances	Plan's Interest in Master Trust Balances
Mutual fund	\$ 5,681,957	\$ 5,516,150
Exchange-traded fund	2,782,920	2,701,711
Total investments at fair value	8,464,877	8,217,861
Accrued interest receivable	52	51
Total net assets	\$ 8,464,929	\$ 8,217,912

The Plan held a 97.01% and 97.08% interest in the Master Trust at December 31, 2022 and 2021, respectively.

Interest and dividend income and net appreciation (depreciation) of the Master Trust are as follows:

	Year Ended December 31, 2022
Interest and dividend income	\$ 129,933
Net appreciation (depreciation) in fair value of investments	(568,890)
Total investment loss	\$ (438,957)

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management’s own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest-level input that is significant to the fair value measurement in its entirety.

The following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value:

Mutual Fund: Valued at quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year-end.

Exchange-Traded Fund: Valued at the closing price published on the stock exchange on which the security is traded.

Investments of the Master Trust at fair value as of December 31, 2022, are as follows:

	Total	Level 1	Level 2	Level 3
Exchange-traded fund	\$ 2,214,030	\$ 2,214,030	\$ —	\$ —
Mutual fund	5,541,814	5,541,814	—	—
Total assets at fair value	\$ 7,755,844	\$ 7,755,844	\$ —	\$ —

Investments of the Master Trust at fair value as of December 31, 2021, are as follows:

	Total	Level 1	Level 2	Level 3
Exchange-traded fund	\$ 2,782,920	\$ 2,782,920	\$ —	\$ —
Mutual fund	5,681,957	5,681,957	—	—
Total assets at fair value	\$ 8,464,877	\$ 8,464,877	\$ —	\$ —

5. Postretirement Benefit Obligations

The postretirement death benefit obligations are those future payments expected to be paid to the participants’ beneficiaries. These postretirement benefit obligations represent the actuarial present value of the cost of those estimated future benefits. The obligations represent the amounts that are expected to be funded from existing assets of the Plan and contributions from the Company.

An actuary from Aon Consulting, Inc., a wholly-owned subsidiary of the Company, estimated the actuarial present value of postretirement benefit obligations, which is the amount that results from applying actuarial assumptions to adjust the postretirement benefit obligations to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the calculation of the actuarial present value of postretirement benefit obligations as of December 31, 2022 were: (a) life expectancy of participants (Pri-2012 Mortality Tables with White Collar Adjustment, projected generationally with Projection Scale MP-2021, adjusted to reflect anticipated slow recovery from COVID-19) and (b) a discount rate of 4.85% as of December 31, 2022.

The significant actuarial assumptions used in the calculation of the actuarial present value of postretirement benefit obligations as of December 31, 2021 were: (a) life expectancy of participants (Pri-2012 Mortality Tables with White Collar Adjustment, projected generationally with Projection Scale MP-2021, adjusted to reflect anticipated slow recovery from COVID-19) and (b) a discount rate of 2.26% as of December 31, 2021.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of postretirement benefit obligations.

The self-insured portion of the Plan's postretirement benefit obligations and changes in postretirement benefit obligations as of December 31, is as follows:

	2022	2021
Postretirement benefit obligations - current retirees	\$ 784,711	\$ 942,580
Total postretirement benefit obligations	\$ 784,711	\$ 942,580

	Year Ended December 31, 2022
Postretirement benefit obligations, beginning of year	\$ 942,580
Interest cost	15,327
Actuarial (gain) due to change in mortality rates	16,461
Actuarial (gain) due to change in discount rate	(130,810)
Actual benefits paid	(116,033)
Other actuarial (gains)/losses	57,186
Postretirement benefit obligations, end of year	\$ 784,711

6. Tax Status

The Trust funding the Plan has received an exemption letter from the Internal Revenue Service ("IRS") dated July 17, 1979, stating that the Trust is qualified under Section 501(c)(9) of the Internal Revenue Code ("IRC") as a VEBA and therefore is exempt from taxation. Once qualified, the Plan and Trust are required to operate in conformity with the IRC to maintain their tax-exempt status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore believes the related Trust is tax-exempt.

Investment earnings of the VEBA are subject to unrelated business income tax (UBIT) under the provisions of Section 511 of the IRC as the VEBA trust assets exceed the amount reasonably necessary to cover claims currently payable. At December 31, 2022, a deferred tax asset of \$54,947 has been recorded on the cumulative unrealized loss on investments in the VEBA trust. At December 31, 2021, a deferred tax liability of \$88,274 was recorded. Deferred state and federal taxes were provided at an effective rate of 6.45% for state income, 20% for federal long-term income in 2022 and 2021.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2022, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions.

7. Related-Party and Party-in-Interest Transactions

The Plan holds shares of a mutual fund managed by the Trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

The Plan's investment manager is a party-in-interest; however, its transactions are exempt from the prohibited transaction rules under the qualified professional asset manager ("QPAM") class exemption.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The actuarial present value of postretirement benefit obligations is reported based on certain assumptions pertaining to interest rates and employee demographics, of which are subject to change. Due to uncertainties inherent in the estimation and

assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Subsequent Events

Management evaluated subsequent events for the Plan through September 7, 2023, the date the financial statements were available to be issued.
