INDEPENDENT AUDITOR'S REPORT

March 3, 2026

To the ESOP Committee of the
National Fuel Gas Company Employee Stock Ownership Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the National Fuel Gas Company Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of September 30, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the National Fuel Gas Company Employee Stock Ownership Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended September 30, 2025 and 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

INDEPENDENT AUDITOR'S REPORT

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the National Fuel Gas Company Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the National Fuel Gas Company Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

(Continued)

INDEPENDENT AUDITOR'S REPORT

(Continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the National Fuel Gas Company Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the National Fuel Gas Company Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of September 30, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

(Continued)

INDEPENDENT AUDITOR'S REPORT

(Continued)

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NATIONAL FUEL GAS COMPANY
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

General:

The following is a brief description of the National Fuel Gas Company Employee Stock Ownership Plan (the Plan). It is provided for general information purposes only, and is qualified in its entirety by reference to the Plan. The Plan became effective on October 1, 1975. It is subject to certain provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent legislation where applicable.

The Administrator of the Plan is the Committee appointed by the Chief Executive Officer of National Fuel Gas Company (the Company). The Plan trustee and asset custodian is the Vanguard Fiduciary Trust Company (the Trustee). As authorized under the Plan, the Committee has delegated its responsibilities regarding the investment of trust assets to a separate Investment Committee.

All personnel employed by the Company, who were hired before January 1, 1987, participate in the Plan. The Company stopped making contributions to the Plan effective for periods beginning January 1, 1987. This change was made because the Tax Reform Act of 1986 eliminated the tax credit from employers' contributions to employee stock ownership plans effective for periods beginning January 1, 1987. Participants also stopped making contributions to the Plan effective for periods beginning January 1, 1987. Participants are 100% vested in their account balances at all times.

Dividends paid to the Trustee on common shares purchased with contributions made subsequent to December 31, 1982, are reinvested in additional common shares allocated to the participant's account in proportion to the shares from which such dividends were derived, or at the participant's election, distributed in cash as soon as administratively practicable after each dividend payment date.

Through December 31, 2019, dividends paid to the Trustee on common shares purchased with contributions made prior to January 1, 1983 were allocated to the account of each participant whose account included such shares and distributed to the participant in cash as soon as administratively practicable after each dividend payment date.

Effective January 1, 2020, the Plan was amended to provide that dividends on all common shares credited to a participant's account, regardless of date of purchase, will be reinvested in additional shares of common stock unless the participant elects to receive dividends in cash.

Shares allocated to a participant's account generally will be distributed upon retirement, death, disability or termination of employment. Upon the death of a married participant, that participant's entire account will be paid to his or her spouse unless, with the written consent of such spouse, another beneficiary has been named. In certain limited cases of hardship, partial distributions may be made to participants.

A participant's account will normally be distributed no later than sixty days after the close of the Plan year in which the participant ceased to be employed by the Company. However, if the value of a participant's account exceeds \$1,000, distribution will not be made without the participant's written consent, until the later of April 1 following the year that participant attains age 70½ or the year the participant retires.

Participants who are 55 or older and who have 10 or more years of participation in the Plan, may elect to diversify a portion of their Company Contribution Account if the Company Stock in the account which was acquired after December 31, 1982 exceeds \$500. A participant may diversify his or her account over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares purchased after December 31, 1982 allocated to their account. In the sixth year, the percent changes to 50.

Each participant has the right to give voting instructions to the Trustee with respect to the number of shares of National Fuel common stock that are held in the Trust on their behalf. Written notice of any meeting of National Fuel stockholders and a form instructing the Trustee how to vote will be given to each participant entitled to give instruction by such means and in such manner as the Committee may determine. The Trustee will vote such number of shares in accordance with those instructions. For those shares in which the Trustee has not received valid voting instructions from the participants, the Trustee will vote such shares in the same proportion as it votes the shares in which it has received valid instructions from participants. Each participant will be informed that if he or she fails to return the voting instruction form, the shares for which the participant is entitled to direct the voting will be proportionately voted based on voting instructions actually received from other participants.

Pursuant to Federal income tax requirements, the Plan contains a put option that is exercisable by Plan participants in situations where Company stock is no longer traded on an established securities market. Specifically, the put option is a right of the participants to require that the Company or the Plan buy any shares of its stock distributed to participants when there is no market for the trading of such shares. The price paid in the event the put option is exercised shall be representative of the fair value of such stock. If the distribution is a total distribution of the participant's account, payment shall be made in five substantially equal annual payments, including interest. If the distribution is not a total distribution, payment shall be made no later than 30 days after the participant exercises the put option.

The Company has the right to terminate, amend, or modify the Plan at any time. Upon Plan termination, participants will receive all of the assets allocated to their accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net increase in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Risks and Uncertainties:

The Plan invests in shares of the Company's common stock. Investment securities are exposed to various risks such as market and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Administrative Expenses:

Expenses related to the administration of the Plan may be borne by the Plan or the Company, or if related to a participant's utilization of a service, charged to that participant's account. The Company paid all administrative expenses for the years ended September 30, 2025 and September 30, 2024.

Payment of Benefits:

Benefit payments to participants are recorded upon distribution.

Participant Accounts:

The value of each participant's account is determined as of the last day of the Plan year based on the fair value of the Plan's assets. The participants' accounts reflect the effect of realized and unrealized appreciation or depreciation on investments, distributions, withdrawals, expenses, and all other transactions affecting the Plan assets during the year.

Prior to January 1, 1987, shares of National Fuel common stock were allocated to participants' accounts based on each participant's compensation for the Plan year using year-end stock values.

Plan income is allocated to participants' accounts as of the last day of the Plan year based on the income attributable to the assets held in each participant's account.

Reclassifications and Description Changes:

Certain prior-year amounts and descriptions have been reclassified to conform to the current-year presentation. These reclassifications did not impact total net assets available for benefits.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) authoritative guidance regarding fair value measurements establishes a fair value hierarchy and prioritizes the inputs used in valuation techniques that measure fair value. Those inputs are prioritized into three levels. Level 1 inputs are unadjusted quoted prices in active markets for assets or liabilities that the Plan has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly at the measurement date. Level 3 inputs are unobservable inputs for the asset or liability at the measurement date. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments that were accounted for at fair value on a recurring basis as of September 30, 2025 and September 30, 2024. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

<u>Recurring Fair Value Measures</u>	<u>At fair value as of September 30, 2025</u>			<u>Total</u>
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	
National Fuel Gas Company Common Stock	\$ 7,805,727	\$ -	\$ -	\$ 7,805,727
Vanguard Federal Money Market Mutual Fund	276	-	-	276
Northern Trust Common Collective Trust Fund	-	18,685	-	18,685
Total	<u>\$ 7,806,003</u>	<u>\$ 18,685</u>	<u>\$ -</u>	<u>\$ 7,824,688</u>

Recurring Fair Value Measures

	<u>At fair value as of September 30, 2024</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
National Fuel Gas Company Common Stock	\$ 7,284,352	\$ -	\$ -	\$ 7,284,352
Vanguard Federal Money Market Mutual Fund	262	-	-	262
Northern Trust Common Collective Trust Fund	-	18,456	-	18,456
Total	<u>\$ 7,284,614</u>	<u>\$ 18,456</u>	<u>\$ -</u>	<u>\$ 7,303,070</u>

The fair value of the investment in National Fuel common stock reported in Level 1 is based on the quoted market value of this investment, which is a publicly traded equity security. The investments reported in Level 1 consist of a Securities and Exchange Commission (SEC) registered money market mutual fund. The fair value of the Plan's money market mutual fund is based on a quoted market price as this instrument has an active market. The investment reported in Level 2 consists of Collective Short-Term funds that are valued at the net asset value provided by the trustee, which is based on the fair value of the underlying short-term investments. The net asset value is considered an observable input; therefore, the investment is classified as level 2.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 – FINANCIAL INFORMATION CERTIFIED BY THE TRUSTEE

The following unaudited financial information as contained in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits, as of September 30, 2025 and 2024 and for the years then ended, has been furnished by the Plan Administrator, and was derived from information certified by the Trustee of the Plan: historical cost and fair value of the Plan investments, net increase in fair value of investments, dividend income on National Fuel Gas Company Common Stock, and interest income. In addition, the unaudited financial data contained in Schedule I as of September 30, 2025, was also derived from information certified by the Plan Trustee.

NOTE 5 – INCOME TAXES

The IRS determined in a letter dated January 6, 2017 that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (IRC). While the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan Sponsor believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC (including the IRS EPCRS rules).

NOTE 6 - PARTIES-IN-INTEREST

The Plan invests in common stock of National Fuel Gas Company. The Plan also maintains a balance in the Vanguard Federal Money Market Fund. The Trustee of the Plan is a wholly owned subsidiary of The Vanguard Group, Inc. Transactions in such investments qualify as party-in-interest transactions that are exempt from the prohibited transactions rules. The Plan also had exempt party-in-interest transactions with the Trustee for administrative expenses of the Plan (see Note 2).

NOTE 7 - SUBSEQUENT EVENTS

In accordance with the authoritative guidance for subsequent events, the Plan has evaluated subsequent events through March 3, 2026, which represents the date the financial statements were available to be issued, in order to ensure that these financial statements include appropriate disclosure of events both recognized in the financial statements as of September 30, 2025, and events which occurred subsequent to September 30, 2025 but were not recognized in the financial statements. As of March 3, 2026, there were no subsequent events which required recognition or disclosure.
