Opinion

We have audited the financial statements of Construction Technology Laboratories, Inc. Retirement Plan, an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 (in liquidation) and 2023 (in liquidation), and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Construction Technology Laboratories, Inc. Retirement Plan as of December 31, 2024 (in liquidation) and 2023 (in liquidation), and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Construction Technology Laboratories, Inc. Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter – Plan Termination and Liquidation Basis of Accounting

As discussed in Note 2 to the financial statements, the Construction Technology Laboratories, Inc. Board of Directors approved termination of the Plan on May 18, 2023 and management determined liquidation was imminent. As a result, the Construction Technology Laboratories, Inc. Retirement Plan changed its basis of accounting to the liquidation basis of accounting used in presenting the 2024 and 2023 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Construction Technology Laboratories, Inc. Retirement Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Construction Technology Laboratories, Inc. Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Construction Technology Laboratories, Inc. Retirement Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Retirement Plan
Notes to Financial Statements
December 31, 2024 (in Liquidation) and 2023 (in Liquidation)

Note 1. Description of Plan

The following brief description of the Construction Technology Laboratories, Inc. Retirement Plan (Plan) is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established October 11, 2019 and is a noncontributory, defined-benefit plan covering all eligible employees of Construction Technology Laboratories, Inc. and certain affiliated organizations (Company or CTL). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

All accrued benefits are frozen and no new CTL participants are permitted to enter the Plan.

On May 18, 2023 the Board of Directors of the Company approved the termination of the Plan to be effective July 31, 2023. On May 29, 2023 the Plan sponsor sent a notice of termination to all participants. As a result of these actions, liquidation of the Plan became imminent and the Plan changed its basis of accounting from the going concern basis to the liquidation basis of accounting. Effective July of 2024 all participant liabilities of the Plan have been transferred to American National Life Insurance Company through the purchase of annuities. The Plan remained open for the payment of plan termination expenses through December 31, 2024. See Note 9.

Contributions

The Plan's policy is to fund amounts sufficient to provide retirement benefits specified under the Plan, as determined by the Plan's independent actuary. The Plan has met the ERISA minimum funding requirements for 2024 and 2023.

Benefits

Benefit amounts are determined based on final monthly earnings and years of service at time of termination of employment. Employees may elect early retirement upon the later of reaching age 55 or completing five years of service and may elect to receive benefits that would otherwise be deferred until the employee's normal retirement date. If payment of benefit commences prior to the normal retirement date, the benefit payment is reduced by a formula set forth in the Plan. Retirement benefits are paid to pensioners or beneficiaries in the form of a monthly annuity.

Vesting

Upon completion of three years of vesting service but prior to becoming eligible for a normal retirement benefit, a participant is entitled to a deferred vested termination benefit equal to a percentage of their accrued retirement benefit. Eligible employees are fully vested upon completion of five years of vesting service.

Note 2. Significant Accounting Policies

Basis of Accounting

On May 18, 2023 the Plan sponsor's Board of Directors elected to terminate the Plan, and such termination became effective July 31, 2023. With the election to terminate the Plan, the 2024 and 2023 financial statements are prepared on the liquidation basis of accounting. See Note 9.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, changes in net assets and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. See Note 4.

Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan to the extent they are not paid by the Company. Investment-related expenses paid by the Plan are included in net appreciation (depreciation) in fair value of investments.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries, and (c) beneficiaries of employees who have died.

Note 3. Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits, determined by an actuary from Aon, is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The actuarial present value of accumulated plan benefits and changes in accumulated plan benefits as of and for the year ended December 31, 2024 are based upon actuarial valuations performed on January 1, 2024. Had the valuation been performed as of December 31 of the previous year, there would be no material differences.

Note 4. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets or liabilities
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

The common stocks are traded in active markets on national and international securities exchanges and are valued at closing prices on the last business day of each year presented.

The fair values of the registered investment companies are determined by reference to the funds' underlying assets, which are principally marketable equity and fixed income securities. Shares held in registered investment companies are traded on national securities exchanges and are valued at the net asset value on the last business day of each year presented.

Fixed income securities (corporate bonds and U.S. treasury notes) are generally valued by benchmarking model-derived prices to quoted market prices and trade data for identical or comparable securities. To the extent that quoted prices are not available, fair value is determined based on a valuation model that include inputs such as interest rate yield curves and credit spreads. Securities traded in markets that are not considered active are valued based on quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. Securities that trade infrequently and therefore have little or no price transparency are valued using the investment manager's best estimates.

Invested cash (money market funds) classified as Level 1 is valued at cost, which approximates fair value.

Total	<u>\$ 10,328,197</u>	<u>\$ 3,605,732</u>	<u>\$ 6,722,465</u>	<u>\$ -</u>

Note 5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated June 8, 2020, stating that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect amounts reported in the statements of net assets available for benefits.

The Plan's contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Note 7. Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Certain plan investments are shares of registered investment companies managed by Fidelity Investments and Fifth Third Bank. Fidelity Investments is the custodian and Fifth Third Bank is the recordkeeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Company provides certain administrative services at no cost to the Plan.

Note 9. Plan Termination and Liquidation Basis of Accounting

On May 18, 2023, the Board of Directors of the Company approved the termination of the Plan to be effective July 31, 2023. On May 29, 2023 the Plan sponsor sent a notice of termination to all participants. As a result of these actions, liquidation of the Plan became imminent and the Plan changed its basis of accounting from the

going concern basis to the liquidation basis of accounting. It was determined that final distributions to plan participants would be made as soon as possible after the termination date.

Upon plan termination, the net assets of the Plan will be allocated, in accordance with Section 4044 of ERISA and the regulations promulgated thereunder.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Due to the Plan termination, the Plan has filed a form 500 with the PBGC to notify them of the termination.

The plan sponsor made a funding contribution of \$152,399 to the Plan during 2024.

As a result of the expected Plan liquidation, the statement of changes in net assets available for benefits for the year ended December 31, 2023 includes \$725,689 of adjustments related to the change in the basis of accounting to the liquidation basis which represented \$755,174 of accrued employer contributions expected to be received in liquidation net of \$29,485 of accrued expenses expected to be incurred in liquidation. These amounts were settled in 2024 in relation to the liquidation of the Plan. In 2024, all Plan benefits were settled with the payment of benefits and purchase of annuities.
