Independent Auditor's Report

The Plan Administrator
Lancaster Colony Legacy Pension Plan
Westerville, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Lancaster Colony Legacy Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of June 30, 2025 (in liquidation) and June 30, 2024 (ongoing), and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended June 30, 2025 (in liquidation), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of June 30, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 2 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - Plan Termination and Liquidation Basis of Accounting

As further discussed in Note 5 to the financial statements, the plan administrator of the Plan approved a plan of liquidation on August 14, 2024, and management determined liquidation is imminent. As a result, the Plan changed its basis of accounting from the going-concern basis of accounting used in presenting the 2024 financial statements to the liquidation basis of accounting used in presenting the 2025 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Lancaster Colony Legacy Pension Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Lancaster Colony Legacy Pension Plan (formerly known as Indiana Glass Company Union Employees' Retirement Benefit Plan) (the Plan) is provided for general information purposes only. Participants should refer to the comprehensive Plan document for a more complete description of the Plan's provisions. The Plan is a noncontributory defined benefit plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

General

The Indiana Glass Company Union Employees' Retirement Benefit Plan was contained in the agreement dated February 2, 2005 between Dkirk, Inc., formerly known as Indiana Glass Company (Company), and the United Steelworkers of America, AFL-CIO. Effective July 1, 2015, the Company's obligations under the Plan were assumed by Lancaster Glass Corporation as a result of the merger of the Company into Lancaster Glass Corporation, a subsidiary of Lancaster Colony Corporation.

On November 1, 2002, the Company announced a partial plant shutdown. As a result of this event, Plan participants terminated during the 12-month period ended on November 26, 2002 became 100% vested in the Plan. This plant was closed, and all remaining employees became fully vested and were terminated on February 28, 2009.

At June 30, 2025 and 2024, the Plan had no active participants.

The Plan invests a significant portion of its assets in the Lancaster Colony Corporation Master Pension Trust (Master Trust) with other subsidiaries of Lancaster Colony Corporation whereby they pool their investment assets. Allocation of net assets, net investment income, and gains and losses to participating plans are allocated to the plans on a pro-rata basis based on the Plan's undivided interest. Participants should refer to the Master Pension Trust Agreement for more complete information. See Note 6 for summary information on the Master Trust. The Plan's interest in the Master Trust was approximately 0% and 60% at June 30, 2025 and 2024, respectively.

Plan Merger and Termination

On August 14, 2024, the Company's Board of Directors announced its intent to (1) merge the Lancaster Glass Corporation Union Employees' Retirement Benefit Plan, Pfeiffer Foods Hourly Employees' Pension Plan, Pretty Products, Inc. Bargaining Unit Pension Plan, and Koneta Rubber Company and Local Union 982 URW Retirement Plan (collectively, the Legacy Plans) into the Indiana Glass Company Union Employees' Retirement Benefit Plan; (2) rename the Indiana Glass Company Union Employees' Retirement Benefit Plan to be the Lancaster Colony Legacy Pension Plan; and (3) terminate the Plan effective November 30, 2024. The Plan document was amended and restated effective November 30, 2024.

Effective November 30, 2024, the Legacy Plans merged into the Plan. The net assets of the Legacy Plans totaling \$11,482,495 were transferred.

During December 2024, the Company offered a lump-sum benefit payout option to Plan participants resulting in approximately \$2,500,000 of payments to participants who elected this option.

Lancaster Colony Legacy Pension Plan

Notes to Financial Statements

During 2024, the Company completed the purchase of a group annuity contract with an insurance company, in which the liability, Plan administration, and payout of benefits were irrevocably transferred. In March 2025, the insurance company began paying Plan benefits to eligible Plan participants through the group annuity contract. See further discussion in Note 4.

Tax Status

The Plan obtained a favorable determination letter, dated June 27, 2014, from the Internal Revenue Service (IRS). The Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, including any that have become effective since the effective date of the amendments in the latest determination letter, and continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America (GAAP) require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Benefit Payments

The Plan generally provides for normal retirement benefits at age 65, early retirement benefits at age 60 and ten years of service, disability benefits, and survivor benefits. A vested participant who terminates for any reason other than retirement, disability, or death is entitled to the monthly vested termination benefit beginning on his or her normal retirement date in the amount of his or her accrued benefit. The benefit payment is based on participants' years of service and the corresponding amount per credited service year on their last day worked with the Company.

Participants may elect to receive their distributions, subject to certain Plan provisions, in the form of various annuity payment options. If the participant's actuarial equivalent of the accrued benefit payable at their normal retirement date is less than \$1,000, the participant is paid a lump-sum payment as soon as practicable after his or her termination date. If the participant's actuarial equivalent of the accrued benefit payable at their normal retirement date is less than \$5,000 but greater than \$1,000, the participant may elect to receive a single lump-sum payment in full discharge and satisfaction of any benefit otherwise payable under the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

As discussed in Note 1, the Plan was terminated effective November 30, 2024. As a result, the Plan is presented under the liquidation basis of accounting.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process and liabilities are measured using the accrual basis of accounting and include any expected costs of

Lancaster Colony Legacy Pension Plan

Notes to Financial Statements

the disposal of assets and other costs expected to be incurred during the liquidation process. The Plan was fully liquidated as of June 30, 2025.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Fair values of investments, in the Master Trust, are based on the latest securities quotations available as provided by the trustee of the Plan. See Note 6 for discussion of the investment in the Master Trust and Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold, as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) beneficiaries of employees who have died. Benefits under the Plan are based on employees' years of credited service. The accumulated plan benefits for active employees are based on their years of credited service ending on the date the benefit information is presented (the valuation date). Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary, CBIZ Benefits & Insurance Services, Inc., and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations were (a) life expectancy of participants (the SOA PRI-2012 Blue-Collar Dataset Amount-Weighted Mortality for Employees, Retirees, and Contingent Survivor, projected with Scale MP-2021 fully generation, was used); (b) retirement age assumptions (the assumed average retirement age was 65); and (c) investments return (5.0%). The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2025 and 2024. Had the valuation been performed as of June 30, there would be no material differences.

Lancaster Colony Legacy Pension Plan

Notes to Financial Statements

As discussed in Note 1, the Plan was terminated effective November 30, 2024. As a result, the actuarial present value of accumulated plan benefits as of June 30, 2025 reflect certain assumptions related to Plan termination, including annuity purchase rates, insurer premium, and lump-sum window-optional form-of-payment assumptions.

Plan amendments are included in the actuarial calculation of accumulated plan benefits as of their effective date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Certification of Investment Information

Certain information disclosed in the accompanying financial statements, related to the Plan's interest in Master Trust held at June 30, 2025 and 2024, and the Plan's interest in Master Trust investment income for the year ended June 30, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Charles Schwab Trust Bank, a qualified institution.

Administrative Expenses

Substantially all administrative expenses are paid by the Plan.

Subsequent Events

The Plan has evaluated events and transactions that occurred between July 1, 2025 and March 24, 2026, the date that the financial statements were available to be issued.

3. Funding Policy

The Company's funding policy is to make annual contributions to the Plan at least equal to an amount based on an actuarial calculation of the Plan's minimum funding requirements under ERISA. There was no contribution required for 2025 and 2024.

4. Purchase of Annuity Contract

In December 2024, the Plan entered into a purchase agreement with Principal Life Insurance Company (Principal) to provide a standard single premium guaranteed annuity contract (GAC) in connection with the settlement of liabilities associated with certain benefits under the Plan. Under the terms of the GAC, the obligation to make future pension payments transferred to Principal, and participants ceased to be participants in the Plan. Principal will make all future benefit payments to the Plan's participants and beneficiaries. The GAC provides for the continued payment of the participants' pension benefit in the same form that was in effect under the Plan immediately before the annuity purchase, including any beneficiary designation and survivor benefit. The purchase price of the annuity contract was approximately \$22,140,000, net of a refund received from Principal in the amount of approximately \$440,000 and is reported in the accompanying statement of changes in net assets available for benefits for the year ended June 30, 2025. Under the terms of the GAC, the obligation to make future pension payments began in March 2025.

Notes to Financial Statements

5. Plan Termination

The Company has the right under the Plan, in certain circumstances, to discontinue its contributions and to terminate the Plan subject to the provisions set forth in ERISA.

As discussed in Note 1, the Company approved a standard termination of the Plan commencing on November 30, 2024. Upon termination, the net assets of the Plan were allocated to Plan participants and beneficiaries in accordance with the terms and provisions of the Plan in accordance with applicable provisions set forth in ERISA. Upon distribution of Plan assets either by the purchase of an irrevocable commitment from an insurer to provide an annuity or by a lump-sum payment, the Pension Benefit Guaranty Corporation's (PBGC) guarantee with respect to participant benefits ends.

Following the termination of the Plan and satisfaction of all pension plan liabilities, the Plan held \$1,119,069 in surplus Plan assets, which was transferred to the Lancaster Colony Corporation 401(k) Plan (401(k) Plan) and allocated to the individual accounts of certain 401(k) Plan participants. The 401(k) Plan was amended to provide a new allocation source for which 401(k) Plan participants would be 100% vested. The allocation will be based on either (1) the same percentage of 401(k) Plan compensation or (2) the same dollar amount.

In order to be eligible for an allocation, the 401(k) Plan participant must have met the following requirements:

- The participant must be at least age 21.
- The participant must not be subject to a collective-bargaining agreement.
- The participant must complete 1,000 hours of service for the 2025 calendar year (i.e., the Plan year for the 401(k) Plan).
- The participant must be employed by the Company or one of its controlled group entities as of December 31, 2025 provided that this requirement is waived if the participant terminates employment on or after Normal Retirement Age (as defined in the 401(k) Plan), or because of death or Disability (as defined in the 401(k) Plan).

6. Investment in Master Trust

At June 30, 2025 and 2024, the Plan's assets were held in a Master Trust. At June 30, 2025 and 2024, the Plan had an undivided interest in the Master Trust having a fair market value of \$0 and \$15,838,969, respectively.

7. Fair Value Measurements

Accounting Standards Codification (ASC) 820-10, *Fair Value Measurements and Disclosures*, defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with GAAP.

ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.

Lancaster Colony Legacy Pension Plan

Notes to Financial Statements

- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodology used at June 30, 2025 and 2024. Following is a description of the valuation methodology used for assets measured at fair value.

Level 1 - The securities classified as Level 1 are mutual funds. Quoted market prices in active markets are available for investments in this category.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by the level, within the fair value hierarchy, the Master Trust's assets and other Plan investments at fair value:

June 30, 2025 (In Liquidation)

	Level 1	Level 2	Level 3	Total

Lancaster Colony Legacy Pension Plan

Notes to Financial Statements

8. Related Party and Parties-in-Interest Transactions

Parties-in-interest are defined under the Department of Labor's Rules and Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. The Plan holds investment interest in the Master Trust. Charles Schwab Trust Bank served as the trustee of the Master Trust (see Note 6). Accordingly, the Plan's investments in the Master Trust qualify as party-in-interest transactions, which are exempt from prohibited transaction rules under ERISA.

In addition, certain employees of Lancaster Colony Corporation, the Plan Administrator, provide administrative and investment services, some of which may be fiduciary in nature, to the Plan; however, the Plan does not provide any compensation for these services.

9. Risks and Uncertainties

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment securities, in the Master Trust, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in these risks, estimates, and assumptions in the near term could materially affect the amounts reported in the financial statements.

SUMMARY OF ASSUMPTIONS

Funding Discount Rates IRS-Prescribed Three-Segment Rates, for the month prior to the valuation (June).

	Non-Stabilized	Limited to 25- Year Corridor
Segment 1:	4.93%	4.93%
Segment 2:	5.27%	5.27%
Segment 3:	5.26%	5.59%

The "Limited to 25 Year Corridor" rates are adjusted by the applicable maximum and applicable minimum percentages of the 25-year average segment rates, as set forth in the American Rescue Plan Act of 2021 ('ARPA-21') for use in Minimum Required Contribution calculations. The IRS Maximum Deductible Limit Calculations use the rates from the "Non-Stabilized" column above.

The interest rates used to value the Target Liability for determining the minimum and maximum contributions are prescribed by law and based on elections made by the Plan Sponsor.

Effective Interest Rate The Effective Interest Rate (EIR) for the current Plan Year is 5.30%. For the prior Plan Year, the EIR was 5.14%.

The EIR is the single rate of interest which, if used to determine the Funding Target, would equal the Funding Target determined using the Plan Sponsor's above elected discount rates. The EIR is used to discount contributions for minimum funding requirements and to accumulate excess contributions to the end of the year.

Funding Expected Return on Assets The Expected Return on Assets (EROA) used in the calculation of the Actuarial Value of Assets is the lesser of a) or b), below:

a) The Plan Sponsor's expected long-term rate of return on assets based on policy trust allocations; or

b) The third segment rate in the IRS-prescribed three-segment rate assumption, based on the elections made by the Plan Sponsor for minimum funding purposes.

The results are as follows:

Plan Year	Assumption a)	Seg. III b)	EROA (smaller of a or b)
2023	5.00%	5.74%	5.00%
2022	5.00%	5.92%	5.00%

The assumed rate of return used for determination of the actuarial value of assets was selected taking into consideration input from the Plan's asset advisor and publicly available survey information on expected returns by asset class as of July 1, 2024.

Administrative expenses are assumed to equal the prior year's actual administrative expenses.

Salary Scale Not applicable.

Rationale: The Plan has no active participants.

Inflation Not applicable.

Rationale: This assumption affects long-term assumed increases in the Social Security Taxable Wage base and the IRS Compensation Limits. Because the Plan has no actives and there are no benefits over the IRS Compensation Limits, this assumption is not applicable.

Mortality	Healthy and Disabled Participants - IRS §430(h) Separate Annuitant / Non-Annuitant Generational Mortality Tables for the Current Plan Year. These tables are the Society of Actuaries' (SOA) RP-2014 separate employee and healthy annuitant generational mortality tables, adjusted to 2006, then projected forward using generational projection scale MP-2020, for males and females. The mortality assumptions used to value the Target Liability for determining the minimum and maximum contributions are prescribed by law and based on elections made by the Plan Sponsor.
Withdrawal Rates	Not applicable. Rationale: There are no active participants for which this assumption would apply.
Disability Incidence	Not applicable. Rationale: There are no active participants for which this assumption would apply.
Retirement Rates	All participants are assumed to retire at Normal Retirement Age. Rationale: There are no active participants for which this assumption would apply.
Spousal Assumptions	100% of males and 100% of females are assumed to be married. Females are assumed to be 3 years younger than males. Rationale: Because the employer does not have enough data to do a fully credible experience analysis with respect to spousal information, the current assumption has been selected based on the actuary's experience with plans of a similar size, plan design, participant composition, as well as discussions with the Plan Sponsor.
Benefit Commencement Age	Normal Retirement Age, or valuation age, if later. Rationale: Because the employer does not have enough data to do a fully credible experience analysis with respect to Benefit Commencement Age, the current assumption has been selected based on the actuary's experience with plans of a similar size, plan design, participant composition, as well as discussions with the Plan Sponsor.

Form of Payment

All benefits are assumed to be paid in the Normal Form defined under the terms of the Plan.

Rationale: Because the employer does not have enough data to do a fully credible experience analysis with respect to Form of Payment, the current assumption has been selected based on the actuary's experience with plans of a similar size, plan design, participant composition, as well as discussions with the Plan Sponsor.

**Changes in non-required
Funding assumptions
since the prior valuation**

None.

**Changes in the prescribed
assumptions since the
prior valuation**

The funding mortality tables were changed from the IRS 2023 Static Mortality Tables to the IRS 2024 Generational Mortality Tables.

The discount rates for funding and PBGC premiums were updated from the rates shown in the 2023 valuation report to the rates shown above.

SUMMARY OF METHODS

Minimum Funding Cost Method

The actuarial cost method used to determine the liabilities for minimum funding calculations is the Traditional Unit Credit method. The objective under this method is to fund each participant's benefits under the plan as they accrue. Under this cost method, the actuarial accrued liability is the sum of the individual accrued liabilities for all participants and the normal cost is the sum of the individual normal costs for each participant. The individual accrued liability for a participant is the present value of the accrued benefit as of the valuation date taking into account service and/or pay as of the valuation date. The individual normal cost for a participant is the present value of the benefit expected to accrue in the plan year being valued.

If a plan is frozen, there is no normal cost attributable to benefit accruals.

Maximum Deductible Contribution Method

The actuarial cost method used to determine the liabilities for maximum deductible calculations is the Projected Unit Credit method. The objective under this method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Under this cost method, the actuarial accrued liability is the sum of the individual accrued liabilities for all participants and the normal cost is the sum of the individual normal costs for all participant. The individual accrued liability for a participant is the sum of 1) the present value of the accrued benefit earned as of the valuation date taking into account service and/or pay as of the valuation date; plus 2) the present value of the accrued benefit expected to be earned because of any expected future compensation increases.

The individual normal cost for a participant is the sum of the present value of the benefit expected to accrue in the plan year being valued taking into account any expected future compensation increases.

Asset Method

We used financial data submitted by the trustee as of the valuation date without further audit. We have reviewed the information for internal consistency, and we have no reason to doubt its substantial accuracy.

Actuarial Value of Assets For funding purposes, Actuarial Value of Assets is a smoothed market value assets adjusted by the applicable percentage of gain or loss calculated in each year during the smoothing period. The gain or loss is the difference between the current year's market value, and prior year's market value brought forward with contributions, benefit payments, and administrative expenses, all adjusted at the expected interest rate to the valuation date. The expected interest rate for each year is the lesser of the expected rate of return and the third segment rate. The applicable percentage is 66-2/3% for the year preceding the valuation date, and 33-1/3% for the second year preceding the valuation date. The actuarial value of assets will be adjusted to be no greater than 110% and no less than 90% of the current (market) value of assets.

Receivable contributions are discounted back to the valuation date at the prior year's effective interest rate.

Changes in methods since the prior valuation None.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
