Yoke's Foods, Inc. Employee Stock Ownership Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Yoke's Foods, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of August 2, 2025 and August 3, 2024, and the related statement of changes in net assets available for benefits for the year ended August 2, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Yoke's Foods, Inc. Employee Stock Ownership Plan as of August 2, 2025 and August 3, 2024, and the changes in its net assets available for benefits for the year ended August 2, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Yoke's Foods, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Yoke's Foods, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Yoke's Foods, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Yoke's Foods, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of August 2, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

YOKE'S FOODS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
AUGUST 2, 2025 AND AUGUST 3, 2024

NOTE 1 DESCRIPTION OF PLAN

The following description of Yoke's Foods, Inc. (the Company) Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory, defined contribution, employee stock ownership plan covering substantially all Yoke's Foods, Inc. (the Company) employees are covered on the later date of employment or upon turning 21 years of age. Employees of the Company who were employees on December 21, 1990, were eligible to participate at age 19. The Plan is designed to comply with Section 4975(e)(7) and is a stock bonus plan under Section 401(a) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Throughout the years, the Plan purchased Company common stock, in a series of transactions, in exchange for notes payable to the Company and holds the common stock in a trust established under the Plan. As the Plan made debt payments, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The loans have been paid in full and all stock has been allocated.

Contributions

Participants are not permitted to make contributions to the Plan. A participant is entitled to share in the allocation of the Employer contributions and forfeitures for each Plan year in which the employee is credited with at least 1,000 hours of service. Eligible employees also share in the allocation of Employer contributions and forfeitures in the year of their normal retirement, disability, or death. Contributions to the Plan may be determined by the Company's Board of Directors, but at a minimum must be 3% of all participants' compensation. Contributions may be in the form of voting stock or cash. Contributions are subject to limitations.

For the year ended August 2, 2025, the Company made cash contributions of \$1,351,807 and contributed 1,045,025 shares of common stock valued at \$2,497,610 for a total Company contribution of \$3,849,417.

Participant Accounts and Forfeitures

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total eligible compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at August 2, 2025 and August 3, 2024 totaled \$628,504 and \$1,259,682, respectively. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

YOKE'S FOODS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
AUGUST 2, 2025 AND AUGUST 3, 2024

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts and Forfeitures (continued)

The Plan was amended during the Plan year ended July 30, 2022, to allow for segregation of terminated participant accounts for those participants who still have a balance at the end of the fifth plan year post separation from employment. The segregated account balances are held in money market and mutual fund investment accounts within the Plan. As of August 2, 2025, and August 3, 2024, segregated participant balances were \$614,945 and \$852,618, respectively.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Employees who were employees on December 21, 1990, and over age 19, are subject to a two-year vesting schedule. Employees 21 years of age or older hired after that date are generally eligible to participate in the Plan upon hire. A participant is fully vested upon death, permanent disability, or normal retirement. Participant balances for employees hired after December 21, 1990, are subject to a six-year vesting schedule as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
0-1	- %
2	20
3	40
4	60
5	80
6	100

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. Distributions are made in cash and paid in accordance with the Plan's distribution policy.

Under the provisions of the Plan, the Plan is obligated to repurchase participant shares which have been distributed under the terms of the Plan. During the years ended August 2, 2025 and August 3, 2024, the Plan repurchased 905,492 and 3,768,450 shares, respectively, at estimated fair value determined by an independent appraisal.

Put Option

Under federal income tax regulations, the Employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Employer buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Employer can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

AUGUST 2, 2025 AND AUGUST 3, 2024

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Participants who elect to diversify may receive a cash distribution or may roll over their distribution into an IRA or the Yoke's Foods, Inc. 401(k) Employee Savings Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights may be exercised. The trustee votes any allocated shares for which instructions have not been given by a participant and unallocated shares on behalf of the collective best interest of the Plan participant and beneficiaries.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. The Plan has a 52-53 week fiscal year ending on the Saturday closest to July 31. The Plan year coincides with the Company's fiscal year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The shares of Company common stock are valued at estimated fair value. Investments in mutual funds and cash are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**YOKE'S FOODS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
AUGUST 2, 2025 AND AUGUST 3, 2024**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (continued)

The Plan's fiscal year-end does not coincide with a calendar month-end. Therefore, the Plan measures its noninterest bearing cash and investments in mutual funds and the money market fund as of the nearest month-end. This approach ensures that the valuation of investments reflects the most recent market conditions available at the time of measurement. The Plan's investment in common stock are measured as of the Plan's fiscal year-end.

There were no contributions, distributions or other significant events between the Plan's fiscal year end and the month-end measurement date.

Administrative Expenses

The Company pays all administrative expenses on behalf of the Plan.

Benefit Payments

Benefits are recorded when paid.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through March 19, 2026, the date the financial statements were available to be issued.

NOTE 3 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quote prices included within Level 1 that are observable for asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 3 FAIR VALUE OF INVESTMENTS (CONTINUED)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at August 2, 2025 and August 3, 2024.

Money Market and Mutual Funds: Valued at the daily closing price as reported by the Fund. Mutual Funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Stock: The fair value of the Sponsor Company common stock held by the Plan is valued at fair value based on an independent third-party appraisal. This appraisal is based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 INVESTMENTS

In a series of transactions from 1990 to 2012, the Plan acquired 39,427,000 shares of the Company's outstanding common stock. Each group of shares acquired by the Plan was acquired at estimated fair value on the transaction date, as determined by independent appraisal. The estimated fair value, as determined by independent appraisal as of August 2, 2025 and August 3, 2024 was \$2.23 and \$2.39 per share, respectively. As of August 2, 2025, all of the Company common stock is allocated to Plan participants. There were 1,613,003 shares distributed to participants during the year ended August 2, 2025. See Note 5 for further details.

NOTE 5 AUTO-PUT REDEMPTION OF SHARES

During the year ended August 2, 2025, the Company redeemed shares previously allocated to participants of the Employee Stock Ownership Plan ("ESOP") under an auto-put provision. Under this provision, participants automatically sold distributed shares back to the Company immediately upon distribution. There were 1,613,003 shares distributed to participants and purchased back by the Company for \$3,855,077.

NOTE 6 RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in the value of common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their accounts.

NOTE 8 PLAN TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October 17, 2014, that the Plan and related trust are designed in accordance with the applicable requirements of the IRC and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets consist of Company common stock, money market mutual funds, cash, and contributions receivable. The common stock is held by the trustees.

Company contributions are managed by the trustees, who administer payment of contributions and make distributions to participants. A third-party Plan administrator maintains participant account records.

The Plan invests in Company common stock and had indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As the Company is the Plan Sponsor, transactions involving Company common stock qualify as party-in-interest transactions. All these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Certain Plan investments are managed by Washington Trust Bank, a qualified institution of the Plan; therefore, the investment transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
