Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Orchard Software Corporation 401(k) Profit Sharing Plan and Trust, an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits (modified cash basis) as of November 5, 2025 and December 31, 2024, and the related statements of changes in net assets available for benefits (modified cash basis) for the period and year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Orchard Software Corporation 401(k) Profit Sharing Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of November 5, 2025 and December 31, 2024, and for the periods then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Orchard Software Corporation 401(k) Profit Sharing Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Plan Termination and Liquidation Basis of Accounting

As discussed in Note 1 to the financial statements, the Board of Directors of Orchard Software Corporation, the Plan's sponsor, voted on July 27, 2025, to terminate the Plan, and management determined liquidation is imminent. As a result, the Plan has changed its basis of accounting from the modified cash basis used in presenting the 2024 financial statements to the liquidation basis used in presenting the 2025 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Orchard Software Corporation 401(k) Profit Sharing Plan and Trust's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Orchard Software Corporation 401(k) Profit Sharing Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Orchard Software Corporation 401(k) Profit Sharing Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Orchard Software Corporation 401(k) Profit Sharing Plan and Trust
Notes to the Financial Statements
November 5, 2025 (In Liquidation) and December 31, 2024 (Modified Cash)

Note 1. Description of the Plan

The following description of Orchard Software Corporation 401(k) Profit Sharing Plan and Trust (Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan was a defined-contribution plan sponsored by Orchard Software Corporation (Company) for the benefit of its employees. The Plan did not contain an age or service requirement for employees to be eligible to participate. The Plan was subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Fidelity Management Trust Company (Fidelity) served as trustee and Plan Administrator of the Plan.

On July 27, 2025, the Board of Directors of the Company elected to terminate the Plan effective on that date, due to the acquisition of the Company. No further contributions were made to the Plan, and all assets were distributed by November 5, 2025.

Contributions

The Plan permitted eligible employees through a salary deferral election to have the Company make annual contributions of up to 90% of eligible compensation. Employee rollover contributions were also permitted. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. The Plan allowed participants to make voluntary, non-deductible, after-tax employee contributions. Company profit-sharing contributions were discretionary as determined by the Company and were generally allocated pro-rata based on participants' elective deferrals. Contributions were subject to certain limitations as required by law.

The Plan funded the employer match contribution each payroll period and allowed for an annual true-up contribution at the end of the Plan year. During 2025 and 2024, the employer match contribution was 50% of the first 6% of employees' compensation.

Participant Investment Account Options

Each participant had the option of directing their contributions into any of the various investment options offered by the Plan and could change the allocation daily. The Plan Document also includes an automatic deferral feature whereby all newly eligible participants were treated as electing to defer 6% of eligible compensation unless the participants made an affirmative election otherwise. Participants who were automatically enrolled would have an increase of 1% annually, up to a maximum automatic deferral contribution of 10%.

Participant Accounts

Each participant's account was credited with the participant's contribution, the Company's contributions and Plan earnings and was charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Prior to the Plan termination, effective July 27, 2025, vesting in the Company's contribution plus earnings thereon was based on years of continuous service. A participant was fully vested after four years of continuous service with 25% vesting after one year of service, 50% after two years, and 75% after three years. Participants became 100% vested in all accounts upon Plan termination on July 27, 2025.

Notes Receivable From Participants

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance and only one loan per participant could be outstanding at any time. The loans were secured by the balance in the participant's account. The loan interest rate was set based on the prevailing local interest rates as determined by the Plan Administrator. Principal and interest was paid ratably through bi-weekly payroll deductions. All loans were to be repaid over a period not to exceed five years, although an extension of the repayment period could be granted if the loan proceeds were used to purchase a participant's principal residence.

Payment of Benefits

On termination of service due to death, disability, retirement financial hardship, or attaining age 59½, a participant could elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts

At November 5, 2025 and December 31, 2024, forfeited nonvested accounts totaled \$0 and \$33,226, respectively. Forfeitures attributable to employer contributions could be used to reduce future employer contributions. In 2025 and 2024, a total of \$73,353 and \$39,336 were used to reduce employer contributions, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

Effective July 27, 2025, the accompanying financial statements are prepared on the liquidation basis of accounting. Prior to July 27, 2025, the accompanying financial statements was prepared on the modified cash basis of accounting. Therefore, with the exception of appreciation or depreciation in the fair value of investments, income and expense items was recognized only as cash was received or paid and receivables, payables and accrued expenses were not reflected.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Quoted market prices, if available, are used to value investments. The investment objective was to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term. Redemption frequency was daily.

The Plan's interest in the common collective trust was valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year end. The account was managed as a conservative short-term bond fund. These short-term bonds and other fixed income securities are wrapped in third-party wrap contracts designed to maintain a constant net asset value (NAV). There were no unfunded commitments or redemption restrictions, and redemption frequency was daily.

The Plan held investments in T. Rowe Price Retirement Funds, common collective trusts. The investment objective of these funds was to seek the highest total return consistent with each fund's asset mix. These funds

were designed for retirement plan participants who will reach the retirement age of 65 at or near the target year or who have a risk of tolerance consistent with each fund's asset allocation. As the target year approaches, each fund's asset mix would become more conservative by decreasing the allocation of stocks and increasing the allocation of bonds and cash. By the time the fund reaches its target year, the asset allocation would become fixed and match that of the T. Rowe Price in Retirement Trust.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded when cash was received. Dividends were recorded on the ex-dividend date. Net appreciation in the fair value of investments included the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants were measured at their unpaid principal balance plus any unpaid interest. Delinquent participant loans were reclassified as distributions based upon the terms of the Plan Document.

Payment of Benefits

Benefit payments to participants were recorded upon distribution.

Administrative Expenses

Administrative expenses could be paid by the Company or the Plan, at the Company's discretion.

Note 3. Certification of Plan Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, a qualified institution, has certified the following information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of November 5, 2025 and December 31, 2024
- Net investment income in fair value of investments and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the period ended November 5, 2025 and the year ended December 31, 2024

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements.

Note 4. Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities

Notes to the Financial Statements
November 5, 2025 (In Liquidation) and December 31, 2024 (Modified Cash)

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2024:

	Fair Value	Fair Value Measurements Using		
		Quoted in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2024				
Mutual funds	\$ 6,475,976	\$ 6,475,976	\$ -	\$ -
Investments measured at net asset value (A)	25,722,061			
Investments at Fair Value	\$ 32,198,037			

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the period ended November 5, 2025. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Plan does not hold any Level 2 or Level 3 securities.

Note 5. Tax Status

The Plan operated under a nonstandardized adoption agreement in connection with a prototype retirement plan and trust/custodial document sponsored by FMR, LLC. This prototype plan document had been filed with the appropriate agency, and it received an opinion letter dated June 30, 2020 stating the prototype plan, as then designed, was acceptable under Section 401 of the Internal Revenue Code. The Plan had not obtained or requested an individual determination letter, and it had been amended since the opinion letter was received. However, the Plan Administrator believes that the Plan was currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 6. Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

The Plan invested in certain funds of the Plan's trustee. The Plan paid \$35,452 and \$54,790 of recordkeeping fees to Fidelity during 2025 and 2024, respectively. Additional fees paid to parties-in-interest totaled \$51,015 and \$63,733 for 2025 and 2024, respectively. The Company provided certain administrative services at no cost to the Plan.

Note 7. Subsequent Events

Subsequent events have been evaluated through January 28, 2026, which is the date the financial statements were available to be issued.
