Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **CARON & BLETZER, PLLC**

(2) EIN: **04-3499945**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		10000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Independent Auditor's Report

To the Plan Administrator of the Standex International Corporation Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Standex International Corporation Pension Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of June 30, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of June 30, 2025 and 2024 and for the years then ended, stating that the certified investment information, as described in Note F to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of June 30, 2025 and the Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended June 30, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

STANDEX INTERNATIONAL CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

A. PLAN DESCRIPTION:

The following brief description of the Standex International Corporation Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is a defined benefit pension plan covering employees of Standex International Corporation and its subsidiaries (the "Company") who have completed one year of service and are not employees of recent acquisitions or covered by pension plans established under collective bargaining agreements and administered by the union. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Internal Revenue Code ("IRC").

On July 1, 1989, the Pension and Employee Stock Ownership Committee of the Company merged 11 separate hourly pension plans into the Standard Publishing Hourly Pension Plan, at which time it was renamed the Standex International Corporation Hourly Pension Plans.

Effective June 30, 2008, the Standex International Corporation Retirement Plan (the "Salaried Plan") was merged with and into the Standex International Corporation Hourly Pension Plan. As of that date the surviving plan was renamed the Standex International Corporation Pension Plan.

Plan Administration

The plan is administered by Benefits Consulting of Fidelity Workplace Investing LLC. Fidelity Management Trust Company acts as trustee for the Plan.

Funding Policy

Contributions to provide benefits under the Plan are made by the Company based upon amounts determined by the consulting actuary. It is the Company's policy to comply with the minimum funding requirements of ERISA, and such policy has been complied with for the years ended June 30, 2025 and 2024.

Benefits

Normal retirement benefits are based upon a formula taking into account a participant's compensation level or benefit rate, as defined, and the number of years of credited service of that participant. If a participant elects early retirement, benefits may be actuarially reduced by a formula based on the number of months between the normal retirement age and a participant's age at early retirement.

The normal form of a benefit payment is an annual benefit, payable in monthly amounts, for life. If the participant is married the form of payment will be an actuarially equivalent 50% qualified joint and survivor annuity. Actuarially equivalent optional forms of payment, such as annuities, lump-sum payments, and period certain options may be elected by participants in lieu of the normal form of payment.

STANDEX INTERNATIONAL CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

If an active participant dies after becoming vested, the surviving spouse will be paid the minimum death benefit in the form of an annuity.

All Plan benefits are subject to the limitations prescribed by the IRC which includes provisions that limit the amount of retirement income which may be paid to an individual participant.

Effective December 31, 2007, future benefit accruals were frozen for all current and future salaried employees.

Effective July 31, 2013, future benefit accruals were frozen for all current and future hourly employees in the Standex International Corporation Hourly Plan, Master-Bilt Hourly Pension Plan, and The Standex Commercial Hourly Pension Plan.

Effective September 30, 2015, future benefit accruals were frozen for all current and future employees in the Custom Hoists Hourly Pension Plan.

Retirement Dates

An employee's normal retirement age is 65. The Plan permits early retirement at age 55 provided the participant has been credited with 10 or more years of service. There is no mandatory retirement age.

Vesting

Participants are 100% vested in their benefits upon completion of 5 years of service.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Cash

Cash includes cash on hand and demand deposit accounts.

STANDEX INTERNATIONAL CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Substantially all expenses of the Plan are paid by the Plan. Any expenses that are paid by the Company are excluded from these financial statements.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered and include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Vested benefits are benefits to which members are entitled regardless of future service with the Company. Nonvested benefits are dependent upon future services.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant assumptions underlying the actuarial computations used in the valuation as of June 30, 2024, are as follows:

Discount rate	- 6.35%, previously 6.50%
Retirement age	- 65 (except Jarvis-East and National Metal at 64 and Roehlen Engraving at 62)
Mortality basis	- Pri-2012 mortality tables (separate rates for males and females; employees, retirees and contingent survivors) projected generationally from 2012, updated annually for MP scale

STANDEX INTERNATIONAL CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of July 1, 2024. Had the valuation been performed as of June 30, there would be no material difference.

At June 30, 2024, the actuarial present value of accumulated plan benefits under the Plan were:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving payments	\$ 131,413,912
Participants with deferred benefits	27,427,016
Other participants	<u>7,124,613</u>

-----------------------	-------------

Nonvested benefits	<u>-</u>
--------------------	----------

Total actuarial present value of accumulated plan benefits	<u>\$ 165,965,541</u>
--	-----------------------

For the year ended June 30, 2024, the estimated changes in actuarial present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits at

C. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at June 30, 2025 and 2024.

Common stocks – Valued at the closing price reported on the active market on which the individual securities are traded.

Common collective trusts – Valued at the net asset value of units of a collective trust. The net asset value, as provided by the fund manager, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Short-term investments – Valued at net asset value based on the fund's underlying assets, as reported by the trustee, less its liabilities. The net asset value, as provided by the fund manager, is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

(1) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The State Street and BlackRock collective trusts can be redeemed daily, have a two day redemption notice period, and have no unfunded commitments. The Loomis Sayles fund can be redeemed semi-monthly, has a 30 day notice period and has no unfunded commitments. The Mondrian collective fund can be redeemed daily, has no redemption notice period and no unfunded commitments. The CTF Global Quality Growth fund can be redeemed daily, has no redemption notice period and no unfunded commitments.

The short-term investment fund can be redeemed daily, has a daily redemption notice periods, and has no unfunded commitments. The fund seeks a high level of current income as is consistent with preservation of capital and liquidity.

NOTES TO FINANCIAL STATEMENTS

D. TAX STATUS:

The Plan obtained a favorable determination letter, dated March 22, 2016, in which the Internal Revenue Service ("IRS") stated that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter, however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

E. TERMINATION:

In the event the Plan terminates, the Plan's assets will be allocated, as prescribed by ERISA and its regulations, generally to provide the following benefits in the order indicated:

1. Costs for participants who have been receiving benefits or who have been eligible to receive benefits upon normal or late retirement for three or more years as of the date of termination.
2. Costs for participants who have been receiving benefits or who have been eligible to receive benefits upon normal or late retirement for less than three years as of the date of termination.
3. Costs for all other benefits insured by the Pension Benefit Guaranty Corporation ("PBGC").
4. Costs for all other non-forfeitable benefits under the Plan.
5. Costs for any other remaining benefits.

Certain benefits under the Plan are insured by the PBGC upon termination of the Plan. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, the PBGC does not guarantee all types of benefits under the plan and the amount of benefit protection is subject to certain limitations. Also, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether or not all participants will receive their benefits in whole or in part upon plan termination will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

STANDEX INTERNATIONAL CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

F. CERTIFIED INVESTMENTS:

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at June 30, 2025 and 2024, and net appreciation (depreciation) in fair value of investments and interest and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

G. RELATED-PARTY AND PARTY IN INTEREST TRANSACTIONS:

Certain investments are shares of registered investment companies managed by Fidelity Investments. Fidelity Management Trust Company, a related entity to Fidelity Investments, is the trustee of the Plan and therefore, transactions with these investments qualify as party in interest.

H. RISKS AND UNCERTAINTIES:

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan is invested in various securities. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Market risks include global events which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the fair values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

I. SUBSEQUENT EVENTS:

The Plan has evaluated all subsequent events through March 31, 2026, the date the financial statements were available to be issued.

Actuarial value of assets for determining minimum required contributions

The asset valuation method is an average of the adjusted market value for each month during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as required by IRC Section 430.

Benefits not valued

None.

Sources of Data and Other Information

Standex International Corporation and the third party administrator furnished participant data as of July 1, 2024. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate

The basis chosen, including the timing for implementation of ARPA interest rate stabilization, was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Administrative Expenses

Expected Administrative expenses for the plan are based on the expected PBGC Premium plus an estimated amount for non-PBGC expenses (\$500,000) based on historical actual administrative expenses for the plan.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430.

Termination, Retirement, and Disability Decrements

Termination, retirement, and disability rates are based on the results of plan experience studies conducted in past years and Standex's expectation for future behavior. Plan experience is monitored annually to ensure that the plan does not incur significant gains or losses as a result of this assumption. We

are not aware of any change in conditions that would warrant a change to these assumptions.

**Benefit commencement date
for deferred benefits**

Assumptions represent an estimate of future experience.

Form of payment

Assumptions were chosen based on past experience and represent a reasonable expectation of the future.

Marital assumptions:

The assumed percentage married and the assumed age difference for spouses are based on general population statistics on the marital status of individuals of retirement age.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

**Change in assumptions and
methods since prior valuation**

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of March 2023 to March 2024. 2024 Interest rates reflect corridors under ARPA interest rate stabilization.
- The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality tables, mortality improvement scale, and a change from using a static projection of mortality improvement to a generational projection as required by guidance issued by IRS under IRC §430.
- The assumed plan-related expenses added to the target normal cost were updated from \$2,498,656 for 2023 to \$2,509,895 for 2024.

Actuarial value of assets for determining minimum required contributions

The asset valuation method is an average of the adjusted market value for each month during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as required by IRC Section 430.

Benefits not valued

None.

Sources of Data and Other Information

Standex International Corporation and the third party administrator furnished participant data as of July 1, 2024. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate

The basis chosen, including the timing for implementation of ARPA interest rate stabilization, was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Administrative Expenses

Expected Administrative expenses for the plan are based on the expected PBGC Premium plus an estimated amount for non-PBGC expenses (\$500,000) based on historical actual administrative expenses for the plan.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430.

Termination, Retirement, and Disability Decrements

Termination, retirement, and disability rates are based on the results of plan experience studies conducted in past years and Standex's expectation for future behavior. Plan experience is monitored annually to ensure that the plan does not incur significant gains or losses as a result of this assumption. We

are not aware of any change in conditions that would warrant a change to these assumptions.

**Benefit commencement date
for deferred benefits**

Assumptions represent an estimate of future experience.

Form of payment

Assumptions were chosen based on past experience and represent a reasonable expectation of the future.

Marital assumptions:

The assumed percentage married and the assumed age difference for spouses are based on general population statistics on the marital status of individuals of retirement age.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

**Change in assumptions and
methods since prior valuation**

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of March 2023 to March 2024. 2024 Interest rates reflect corridors under ARPA interest rate stabilization.
- The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality tables, mortality improvement scale, and a change from using a static projection of mortality improvement to a generational projection as required by guidance issued by IRS under IRC §430.
- The assumed plan-related expenses added to the target normal cost were updated from \$2,498,656 for 2023 to \$2,509,895 for 2024.

Vested Benefits Upon Termination of Service

Upon termination of employment when an employee has at least five years of Vesting Service, a deferred vested pension is payable at Normal Retirement Date equal to the benefit accrued to date of termination, or a reduced benefit payable at or after age 55 if employee has completed 10 years of Vesting Service. (age 50 and 15 years for B.F. Perkins/Mullen Testers participants).

Death Benefits for Participants in Active Service

Upon death after the attainment of age 55 and the completion of 10 years of service but before Normal Retirement Date, a death benefit is payable equal to the pension that would have been payable if the employee had retired early and had elected a 100% joint and survivorship option as of the first day of the month of death.

Upon death after the completion of 10 years of service but before age 55, a death benefit is payable equal to the pension that would have been payable had the employee terminated service on the date of death, survived to age 55, and retired with a 100% joint and survivorship option.

In the case of an employee who dies after having completed at least five years but less than 10 years of service, a death benefit is payable as above, except age 65 is used in place of age 55.

In the case of a B.F. Perkins/Mullen Testers participant, age 50 and 15 years of service replaces age 55 and 10 years of service in the above description.

Employee Contributions

B.F. Perkins participants were allowed to make contributions prior to August 1, 1980.

SCHEDULE SB ATTACHMENTS

Vested Benefits Upon Termination of Service

Upon termination of employment when an employee has at least five years of Vesting Service, a deferred vested pension is payable at Normal Retirement Date equal to the benefit accrued to date of termination, or a reduced benefit payable at or after age 55 if employee has completed 10 years of Vesting Service. (age 50 and 15 years for B.F. Perkins/Mullen Testers participants).

Death Benefits for Participants in Active Service

Upon death after the attainment of age 55 and the completion of 10 years of service but before Normal Retirement Date, a death benefit is payable equal to the pension that would have been payable if the employee had retired early and had elected a 100% joint and survivorship option as of the first day of the month of death.

Upon death after the completion of 10 years of service but before age 55, a death benefit is payable equal to the pension that would have been payable had the employee terminated service on the date of death, survived to age 55, and retired with a 100% joint and survivorship option.

In the case of an employee who dies after having completed at least five years but less than 10 years of service, a death benefit is payable as above, except age 65 is used in place of age 55.

In the case of a B.F. Perkins/Mullen Testers participant, age 50 and 15 years of service replaces age 55 and 10 years of service in the above description.

Employee Contributions

B.F. Perkins participants were allowed to make contributions prior to August 1, 1980.
