Independent Auditors' Report

To the Participants and Plan Administrator of the
Goucher College Defined Contribution Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Goucher College Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of June 30, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of June 30, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), as of June 30, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Goucher College Defined Contribution Retirement Plan

Notes to Financial Statements

June 30, 2025 and 2024

1. Description of the Plan

The following brief description of the Goucher College Defined Contribution Retirement Plan (the Plan) is provided for general information purposes only. Participants who desire more complete information should refer to the plan document, which is available from Goucher College's (the Plan Sponsor or the College) Human Resources Department.

General

The Plan is a defined contribution plan sponsored and administered by the College and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and the requirements of Section 403(b) of the Internal Revenue Code (IRC). Participants fund the Plan by purchasing investments from the Teachers Insurance and Annuity Association (TIAA) and the College Retirement Equities (CREF), registered insurance companies. TIAA provides record-keeping services for the Plan.

Eligibility

Full-time faculty, instructional staff, exempt, nonexempt, and union staff are eligible to contribute a portion of their compensation to the Plan as a voluntary pretax deferral. Full-time faculty, instructional staff, exempt, nonexempt, and union staff who complete one year of full-time service with the College, or who completed one year of full-time service with any accredited college or university (service requirement) during the 12 months preceding employment at the College, are eligible for participation in the Plan's matching contribution feature.

Contributions and Vesting

Eligible union employees who meet the service requirement can elect to have 2% or 3% of their compensation contributed on a pretax basis to the Plan. Contributions made by union employees are matched by the College according to the formula established in the collective bargaining agreement. For the years ended June 30, 2025 and 2024, the matching contribution was 200% of the union employee contribution.

A portion of contributions of non-union, eligible employees meeting the service requirement are matched by the College according to a formula that is determined and announced at least 30 days before the first day of the Plan year. For the year ended June 30, 2025, the discretionary matching contribution was 50% of the match-eligible contribution, effective September 1, 2024. Prior to September 1, 2024 and for the year ended June 30, 2024, the discretionary matching contribution was 100% of the match-eligible contribution. The match eligible contribution of eligible faculty, instructional staff and exempt staff who have met the service requirement is the first 2, 3, 4 or 5% of the employee contribution. The match eligible contribution of nonexempt staff who have met the service requirement is the first 2, 3, or 4% of the employee contribution.

Employee and College match contributions are fully vested immediately and cannot be forfeited.

Eligible employees electing to participate in the voluntary pretax deferral feature may make additional contributions up to the maximum dollar amount determined by the Internal Revenue Service (IRS), but these amounts are not eligible for a match by the College.

Rollovers and transfers to the Plan are permitted to the extent permitted under the applicable custodial accounts and under the IRC.

Participant Accounts

Each participant's account is credited with the participant and College contributions and its account earnings (losses) and an allocation of plan expenses, if any. Allocations are based on earnings or

Goucher College Defined Contribution Retirement Plan

Notes to Financial Statements

account balances, as defined. The benefit to which a participant is entitled is the participant's account. Participants are immediately vested in their contributions, College matching contributions, and actual earnings thereon. Participants may direct their contributions into a variety of investment options.

Benefit Payments

Participants or their beneficiaries are eligible for distributions upon retirement, termination, disability, or death. Participants also may make withdrawals from their accounts because of or due to financial hardship under guidelines set forth in the plan document. In addition, participants may withdraw 100% of their deferral account at age 59½.

Plan Loans and Related-Party Transactions

Effective July 1, 2021, TIAA and CREF no longer offers plan loans to participants; no changes will be made to the structure of the existing plan loans outstanding at June 30, 2021. Prior to July 1, 2021, loans were made directly from funds owned by TIAA and CREF and not directly from a participant's account; therefore, the loans are not shown on the Statements of Net Assets Available for Benefits. A portion of the participant's account is reserved, or held as collateral, to cover the outstanding loan in case of default. For all such loans, interest and principal are paid by the participant directly to TIAA and CREF. The interest rate on the plan loan is determined by TIAA and CREF and may be fixed or variable; the initial rate is determined by the terms of the controlling contract, as is the rate adjustment details and frequency. The interest rates on outstanding loans were between 4.00% to 5.28% as of June 30, 2025 and 5.28% to 5.56% as of June 30, 2024, and the loans mature at various dates through March 1, 2028. Plan loans with TIAA and CREF amounted to \$11,242 and \$16,847 as of June 30, 2025 and 2024, respectively.

Administrative Expenses

Reasonable plan administration expenses, including those involved in retaining necessary professional assistance, can be paid from the assets of the Plan to the extent permitted by the participant's individual agreements. The College may, at its discretion, pay a portion or all of these expenses or seek reimbursement from the Plan. Expenses paid by the College are excluded from these financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments, other than fully benefit-responsive investment contracts, are stated at fair value. The registered investment companies are valued using published market prices. The separate accounts are variable accounts, whose returns are not guaranteed and its accumulations and returns fluctuate based on the performance of the underlying investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements

June 30, 2025 and 2024

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.50% as of June 30, 2025 and 2024, which are commensurate with the Federal Reserve Board Bank rate plus 1% at inception of the loan. Principal and interest are paid ratably by the participant directly to TIAA. Terms range from one to five years or greater for the purchase of a primary residence.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis.

Payments of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recent Regulatory Update

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended June 30, 2025, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

3. Information Certified by Custodians

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, TIAA and CREF, the custodians of the Plan, have certified to the completeness and accuracy of all investments and notes receivable reported in the Statements of Net Assets Available for Benefits as of June 30, 2025 and 2024, the investment activity and interest income on notes receivable from participants reported in the Statements of Changes in Net Assets Available for Benefits for the years ended June 30, 2025 and 2024, and the investment information included in the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of June 30, 2025. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Goucher College Defined Contribution Retirement Plan

Notes to Financial Statements

June 30, 2025 and 2024

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value. There were no changes in methodologies used as of June 30, 2025 and 2024.

Registered Investment Companies: The fair values of accumulation units by the Plan in TIAA Lifecycle Accounts and other mutual fund accounts (registered investment companies) are based on each account's daily net asset value (NAV). TIAA Accounts are not exchange traded, but are classified within Level 1 of the fair value hierarchy because they are redeemable daily at the NAV quoted by TIAA and CREF. Data for NAVs are available daily to plan administrators and client investors on TIAA and CREF's website and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of the individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. Other mutual funds are exchange traded and are classified within Level 1 of the fair value hierarchy. The mutual funds held by the Plan are open-ended and are registered with the U.S. Securities and Exchange Commission. In addition, there are no restrictions on redemptions and no notice period for redemptions.

Separate Accounts are valued at the NAV of shares held by the Plan at year-end as determined by the issuer. Participants can redeem on a quarterly basis with redemption notice. The unit value of the account is calculated daily and available to plan administrators and client investors on NASDAQ's website and is classified within Level 1 of the fair value hierarchy. Transfers out of the fund are limited to one per calendar quarter. There are no unfunded commitments from participants in the Plan who invest in this account.

TIAA Real Estate Account (REA) is a separate account of TIAA investing mainly in real estate and real-estate-related investments. The REA's value is principally derived from the market value of the underlying real estate holdings or other real-estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a valuation specialist's opinion. The REA sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. The REA is valued using NAV. The NAV as provided by the custodian is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Transfers out

Goucher College Defined Contribution Retirement Plan

Notes to Financial Statements

June 30, 2025 and 2024

of the REA are limited to one per calendar quarter. The fund objective is for long-term returns through rental income and appreciation of real estate investments owned in the fund.

TIAA Traditional Annuity Account, nonbenefit-responsive is reported at contract value, which approximates fair value. As this investment is contract-based, observable prices for identical or similar investments do not exist, and accordingly, this investment is valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals, and transfers, if any. The Retirement Annuity (RA) contract is nonbenefit-responsive. Redemption restrictions apply to the RA contract that could impact the value realized upon exiting the contract. Specifically, the RA contract does not allow lump-sum withdrawals and transfers must be spread out in ten annual installments.

The following tables present the Plan's fair value hierarchy for those investments measured at fair value as of June 30, 2025 and 2024:

Assets at Fair Value as of June 30, 2025				
	Level 1	Level 2	Level 3	Total

5. Fully Benefit-Responsive Investment Contracts

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

	2025	2024
TIAA Traditional Annuity Account, fully benefit-responsive	\$ 6,478,076	\$ 6,241,511

The traditional investment contracts held by the Plan are guaranteed investment contracts, Group Supplemental Retirement Annuity (GSRA) and Supplemental Retirement Annuity (SRA). The contract issuer is contractually obligated to repay the principal and interest at the specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3%. The crediting rate is reviewed on a quarterly basis for resetting. The contracts cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Goucher College Defined Contribution Retirement Plan

Notes to Financial Statements

June 30, 2025 and 2024

6. Annuity Contract With TIAA

The Plan has entered into a nonbenefit-responsive guaranteed investment contract with TIAA under which the plan deposits contributions into a guaranteed annuity fund. The contract is backed by the claims-paying ability of TIAA. It guarantees principal contributions and a contractually specified minimum range of interest rates of 3% to 4% and offers the opportunity for additional amounts in excess of the guaranteed rate. These additional amounts are declared on a year-by-year basis by the TIAA Board of Trustees.

7. Related-Party and Party In Interest Transactions

Certain of the Plan's investments are managed by the custodians, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in net appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. These transactions qualify as party in interest transactions. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. Certain administrative functions of the Plan are performed by officers or employees of the College. No such officer or employee receives compensation from the Plan.

8. Tax Status

The Plan adopted a volume submitter plan offered by TIAA and CREF stating that the written form of the underlying specimen plan is qualified under Section 403(b) of the IRC. The volume submitter plan received an Opinion (Advisory) Letter dated August 7, 2017, that the Plan is designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the Opinion (Advisory) Letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of June 30, 2025 and 2024, the Plan had investments of \$56,053,377 and \$55,734,336, respectively, that were concentrated in two funds.

10. Plan Termination

Although it has not expressed any intent to do so, the College has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Goucher College Defined Contribution Retirement Plan

Notes to Financial Statements

June 30, 2025 and 2024

11. Subsequent Events

The plan administrator evaluated subsequent events for recognition or disclosure through April 7, 2026, the date at which the financial statements were available to be issued and determined that there were no adjustments or disclosures required to the financial statements.
