Independent Auditors' Report

To the Participants and Plan Administrator of
ROI DNA, Inc. 401(k) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of ROI DNA, Inc. 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of June 30, 2025 and December 31, 2024, and the related statement of changes in net assets available for benefits for the period January 1, 2025 through June 30, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of ROI DNA, Inc. 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of June 30, 2025 and December 31, 2024, and for the period January 1, 2025 through June 30, 2025, stating that the certified investment information, as described in Note 1 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section –

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above, related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Independent Auditors' Report (continued)

To the Participants and Plan Administrator of
ROI DNA, Inc. 401(k) Plan:

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ROI DNA, Inc. 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ROI DNA, Inc. 401(k) Plan's ability to continue as a going concern for the period January 1, 2025 through June 30, 2025.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Independent Auditors' Report (continued)

To the Participants and Plan Administrator of
ROI DNA, Inc. 401(k) Plan:

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the ROI DNA, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ROI DNA, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Independent Auditors' Report (continued)

To the Participants and Plan Administrator of
ROI DNA, Inc. 401(k) Plan:

Other Matter - Supplemental Schedule Required by ERISA

The Supplemental Schedule of Schedule of Assets (Held at End of Year) as of June 30, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the Supplemental Schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the Supplemental Schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the Supplemental Schedule, we evaluated whether the Supplemental Schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion –

- the form and content of the Supplemental Schedule, other than the information in the Supplemental Schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the Supplemental Schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to the Financial Statements

June 30, 2025 and December 31, 2024

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the ROI DNA, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General and Plan Merger

The Plan, adopted as of January 1, 2014, is a defined contribution plan covering substantially all employees of ROI DNA, Inc. (the “Employer”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Employer is responsible for oversight of the Plan. The Employer determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Effective July 1, 2025, the Plan was merged into the Enero Group US 401(k) Plan (the “Enero Plan”), a separate retirement plan operated by the Employers’ parent company, Enero Group. Pursuant to the merger, all assets, liabilities, participant account balances and related records of the Plan were transferred to the Enero Plan. Participants of the Plan became participants in the Enero Plan and their account balances were mapped to comparable investment options within the Enero Plan. Administrative fees associated with the merger were paid by the Employer and did not reduce Plan assets. After the merger the Plan ceased to operate as a standalone employee benefit plan. Management believes that the merger did not deprive any participant or beneficiary under the Plan of any vested right. Certain disclosures included herein are intended to provide a brief description of the Plan provisions as they existed prior to merger.

The following assets were transferred as a result of the merger:

Pooled separate accounts transferred June 30, 2025	\$ 4,370,358
General investment contracts transferred June 30, 2025	15,313
Employee and Employer contributions from payroll dated June 30, 2025 transferred on July 3, 2025	22,696
Corrections of participant contributions transferred out on December 23, 2025	(2,591)
Corrections of Employer contributions transferred out on January 29, 2026	<u>(330)</u>
Net assets transferred	<u>\$4,405,446</u>

Eligibility

Employees who have attained 21 years of age are eligible to participate in the Plan upon hire. Employees can enter the Plan on the first day of the calendar month following their hire. To receive an allocation of Employer’s matching and non-elective contributions, employees are required to complete 1 year and 1,000 hours of service.

ROI DNA, Inc. 401(k) Plan

Notes to the Financial Statements (continued)

June 30, 2025 and December 31, 2024

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Contributions

Each year, participants may contribute a certain percentage of their pretax annual compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their default deferral rate set at 5% percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Employer may match, at its discretion, a fixed amount or a set percentage of each eligible employee's contribution as determined by its board of directors. Additional amounts, including a profit-sharing contribution, may also be contributed at the option of the Employer. Contributions are subject to certain IRS limitations.

For the period January 1, 2025 through June 30, 2025 and year ended December 31, 2024, the Employer matched amounts equal to 50% of each eligible participant's salary deferrals up to a maximum salary deferral of 4% of compensation, not to exceed \$3,500 per participant. Employer matching contributions aggregated \$67,939 and \$110,053 for the period ended June 30, 2025 and year ended December 31, 2024, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Employer's contribution and (b) Plan earnings and charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and Employer's match, plus actual earnings thereon.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a 10-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

The portion of an employee's interest that is not vested upon the employee's break in service is forfeited. The non-vested forfeited balance can be reallocated as of the end of the Plan year to participants in the same manner as Employer contributions or can be used to pay for Plan related expenses. There were no balances in the forfeited account as of June 30, 2025 and December 31, 2024.

ROI DNA, Inc. 401(k) Plan

Notes to the Financial Statements (continued)

June 30, 2025 and December 31, 2024

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts up to 50 percent of their total vested balance, subject to a minimum of \$1,000 and a maximum of \$50,000. The loans are secured by the vested balance in the participant's account. The Plan provisions require a reasonable interest rate to be charged on the notes, and principal and interest to be paid ratably through regular payroll deductions. There were no outstanding notes receivable from participants as of June 30, 2025 and December 31, 2024.

Tax Status

The IRS has determined and informed the Employer by a letter dated June 30, 2020 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Administration

The Plan has engaged Transamerica Life Insurance Company, Inc. ("TLIC") as the Plan custodian and Transamerica Retirement Solutions, LLC as the record keeper of the Plan. The assets of each fund within the Plan are invested under an arrangement with TLIC, the Plan custodian. Upon enrollment in the Plan, a participant may direct their contributions in the various investment options offered by TLIC. Participants should carefully read the prospectus before investing in the various investment options offered under the Plan.

Related-Party Transactions and Party-in-Interest Transactions

Certain Plan investments are managed by TLIC, the custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation/depreciation in fair value of investments, as they are paid under revenue sharing arrangement. The Plan or Plan sponsor may pay the trustee for administrative expenses not covered by revenue sharing.

ROI DNA, Inc. 401(k) Plan

Notes to the Financial Statements (continued)

June 30, 2025 and December 31, 2024

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Certified Investments

Certified information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at June 30, 2025 and December 31, 2024, and net appreciation/depreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the period January 1, 2025 through June 30, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by TLIC.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the general investment contract and do not reflect the adjustment of the fully benefit-responsive investment contract from fair value to contract value as such adjustment was considered insignificant. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Contributions

Contributions from participants are recorded based on payroll withholdings during the year.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

ROI DNA, Inc. 401(k) Plan

Notes to the Financial Statements (continued)

June 30, 2025 and December 31, 2024

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Employer determines the Plan's valuation policies utilizing information provided by the investment advisers, trustees, and insurance company. See note on fair value below for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2025 and December 31, 2024. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

General Investment Contract

The Plan entered into a traditional fully benefit-responsive general investment contract with TLIC. These contributions are maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The general investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

ROI DNA, Inc. 401(k) Plan

Notes to the Financial Statements (continued)

June 30, 2025 and December 31, 2024

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

General Investment Contract (continued)

Because the general investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to such investment contracts. The general investment contract is presented on the face of the statements of net assets available for benefits at fair value without an adjustment to contract value as such adjustment was considered insignificant. Contract value, as reported to the Plan by TLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the general investment contract at June 30, 2025 and December 31, 2024 was \$0 and \$203,035, respectively. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a quarterly basis for resetting.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. Even though the Plan merged, there were no events that limited the ability of the Plan to transact at contract value either with the contract issuers or with participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include: (a) an uncured violation of the Plan's investment guidelines, (b) a breach of material obligation under the contract, (c) a material misrepresentation, or (d) a material amendment to the agreement without the consent of the issuer.

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

ROI DNA, Inc. 401(k) Plan

Notes to the Financial Statements (continued)

June 30, 2025 and December 31, 2024

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Value Measurements (continued)

Level 2: Inputs to the valuation methodology include –

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2025 and December 31, 2024.

General investment contract: Valued at fair value by the insurance company by discounting the related cash flow based on current yields of similar investments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statements reporting purposes only. In determining the reasonableness of the methodology, the Plan trustee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example: duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Pooled separate accounts: Valued at the net asset value (NAV) of units of pooled separate accounts. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the pooled separate accounts, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2025 and December 31, 2024:

Investments at fair value	<u>\$ -</u>	<u>\$ 4,211,115</u>	<u>\$ -</u>	<u>\$ 4,211,115</u>

NOTE 3 - PLAN TERMINATION

The Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100 percent vested in Employer contributions.

In May 2024, the Employer terminated a portion of its workforce triggering Deemed Partial Termination of the Plan. Matching contributions were not adjusted since the participants are always fully vested in Employer contributions

Effective July 1, 2025, the Plan was merged with the retirement plan of the parent company. This action did not deprive any participant or beneficiary under the Plan of any vested right.

June 30, 2025 and December 31, 2024

NOTE 4 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 5 - NON-EXEMPT TRANSACTIONS

During 2024, the Employer failed to remit participant salary deferrals aggregating \$145,650, to the Plan trustee in a timely manner, as defined by ERISA. These contributions are considered non-exempt party-in-interest transactions which may result in the imposition of tax on the amount of the transactions. The Employer used guidelines issued by the Department of Labor to compensate participants for lost income resulting from delay in remitting the contributions and loan repayments. The Employer also intends to pay all fines imposed including excise tax resulting from these late remittances. The Employer believes that these non-exempt transactions do not affect the tax status determination of the Plan. There were no late remittances during the period January 1, 2025 through June 30, 2025.

NOTE 6 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through February 11, 2026, the date the financial statements were available to be issued. The Plan is not aware of any other significant events that would have a material impact on its financial statements.
